First M. E. Church

Memorial service for Theodore Rooaevelt will be held at the Methodist Episcopal church next Sunday evening at seven o'clock . A cordial invitation is extended to the public to attend this meeting.

The sermon subject for the morning service will be "The Influence of the Dead." The speaker will present evidence to show that the dead are still interested in the living and are looking down from the battlements of heaven eagerly watching the death struggle between the forces of light and the forces of darkness.

The Epworth League will conduct an interesting service at six o'clock to which both old and young are invited.

A special effort is being made to have the men of the church and community attend the Men's class which meets with the Sunday school at 12 o'clock. The church orchestra will render several selections during the Sunday school hour.

Thursday evening prayer and praise service every week at 7:30.

Congregational Church

The theme of the morning sermon will be "Is Anger Ever Right?"

Bible school at twelve o'clock with classes for all. The newly organized Men'a class meets at the same hour in the lecture room. This room has ita own entrance from the vestibule, so that it may be entered without passing into the auditorium at all. The admirably organized primary department is under the superintendance of Mrs. Cross, who, with her assistants, deaires to urge upon mothers that they lend their aid to the work of the school by seeing to it that their little ones are prompt and regular in attendance. The recently organized orchestra is an interesting and enjoyable feature of the Bible school.

At the evening service under the direction of the young people, the theme will be "I Will—and What Will I?" All persons who are young in years or in heart are invited to this service.

Groundhog Saw Shadow

Sunday was Groundhog day and Mr. Groundhog hoged the limelight most of the day. People were much concerned in the gentleman and his shadow, almost as much so as they were with the world peace conferenee. The sun shone brightly most of the day and according to old-time predictions we are in for six more weeks of cold weather.

LOCAL RADISH SEED GROWERS

TO ORGANIZE AND IMPROVE MARKETING CONDITIONS

Association Organized for the Mutual Benefit of Seed Companies and Growers

A meeting for the seed growers of Charlevoix will be held at the court house in Charlevoix on Friday afternoon, February 14, at 1:30 o'clock.

Five large associations of the radish seed growers have been organized in Antrim and Grand Traverse counties and all growers should be interested in these meetings and come out to hear what the association hopes to do for the growers.

These associations are organized for the mutual benefit of the seed companies and the growera. Through these associations it is hoped to be able to grow better seed and more of it as well as to better care for the seed after it is grown.

The seed companies will be asked to test the seed at shipping point so the farmer may see what comes out of his seed and by this method the grower will be relieved from the risk he now takes when he ships his seed away and does not know what it tests and does not know whether it will spoil before it is paid for or not. We do not believe the grower should take this risk and if the seed companies will test the seed before it is shipped they can tell whether or not it will stand shipping and the seed company will take better care of the seed if it belongs to them.

We have heard from some of the sced companies and they see much to be gained by these organizations in the way of better seed and satisfied eustomers.

County Agent Cribbs from Antrim county will ba present to tell what the association hopes to accomplish. Each association is alecting a delegate who will meet the representatives for the seed companies some time the last of February in Bellaire to make plans for settlement for the seed grown in 1919 and also to diseuss other matters pertaining to the production of seed.

LIEUT. LALONDE VISITS FRIENDS

Former Member of Co. I, Now a Second Lieutenant

Second Lieut. Albert L. LaLonde and wife of East Jordan, were in the city on Friday of last week, calling on former friends and renewing acquaintances. Lieut. LaLonde was a former member of Co. I of East Jordan, and spent the winter of 1916 with them at El Paso, Texas. On his return was discharged from duty, and shortly afterward re-enlisted and was sent to an eastern training camp. Shortly after his arrival he was chosen as first sergeant, and within the year entered the officers training camp, receiving his shoulder straps at the finish of his term of training.

Mr. LaLonde is spending a short time with relatives in East Jordan, after which he will go to Detroit.

GET YOUR CAR READY FOR SPRING USE

Don't wait until the approaching beautiful spring weather is here, with the roads in fine shape for driving, and then find that "flivver" badly in need of overhauling and repairing. The first drive of the year is the most enjoyable—especially if the auto gives no trouble. If your car causes you trouble, the enjoyment of the day is lost.

AUTO REPAIRING IS OUR BUSINESS

That's exactly what we have spent hundreds of dollars in equipment for. That's why we have a crew of expert repairmen on our pay roll. Their work is to put your auto in running condition. After an auto passes through their hands the many vexatious delays and troubles cease. When you "step on her" the car responds, and you can start out on a hundred mile run without thought of trouble.

Bring that car to us for a thorough overhauling right now. If it needs painting, we can do that too. Do it now before spring arrives.

SALOON POWER TO BE RESTORED

ALL PROGRESS OF THE LAST TWENTY-FIVE YEARS LOST

Would Annul Constitutian by Enacting a Constitutional Amendment Directly Opposite

The more the saloon proposition to be voted on April 7 is examined the worse it looks. Attorney Walter S. Foster of Lansing has recently made a careful study and analysis of the proposed amendment. He gives the following forty points which should be read and studied by every voted:

On April 7th next, each voter will be handed a ballot whereon he or she is to vote yes or no on the so-called beer and wine amendment to Article XVI of the State Constitution.

The proposed amendment is intended to stand as section 12 of Article XVI and reads:

Section 12. "It shall be forever lawful in this state to import, transport, manufacture, use, buy, sell, keep for sale, give away, barter or furnish every kind of Cider, Wines Beer, Ale and Porter and to possess the same in a private residence. So much of Section 11, Article XVI of this constitution as prohibits the manufaeture, sale, keeping for sale giving away, bartering or furnishing of vinous, malt, brewed or fermanted liquors is hereby repealed. The legislature by general laws shall reasonably license and regulate the sale and keeping for sale of vinous, malt, brewed or fermented liquors: Provided however, that the electors of esch city, village or township forever shall hsve the right to prohibit the manufaeture, sale or keeping for sale of vinous, malt, brewed or fermanted liquors within such city, village or township."

Before you go to the polls you should thoroughly understand its full significanee. For your convenienee this analysis is presented at this time:

1. If adopted the amendment will take effeet May 7th, 1919.
2. Saloons will be permitted for the sale and keeping for sale of beer, wine, ale, porter and fermented cider.
3. Breweries will be legal.
4. The local option lsw will be repealed.
5. The legislature cannot pass a new local option law giving a county a right to prohibit such liquors.
6. The people could not initiate sueh a law by petitions.
7. The legislature cannot pass a home rule net giving cities or villages the right, even upon popular vote, to prohibit the giving away, furnishing, importing or transporting of such liquors.
8. The people cnnnot initiate such a home rule act by petition.
9. The present state wide prohibition amendment (Sec. 11, Art. XVI) will be repealed in so far as it prohibits the manufaeture, ssle, keeping for sale, giving away, bartering or furnisbing of vinous, malt, brewed or fermented liquors.
10. Beer, wine, ale, porter and bard eider fall within one or more of the classifieation, vinous, malt, brewed or fermented liquors.
11. Such liquors could be imported and transported by the bottle or the earload.
12. The legislature shall reasonably license the manufacture of vinous, malt, brewed and fermented liquors.
13. And shall reasonably license and regulate the sale and keeping for sale of such liquors.
14. It is questionable under the proposed amendment the legislature can "regulate" the manufacture of such liquors by prohibiting the location of breweries near schools, churches, in residence districts or otherwise.
15. After the legislature has provided the necessary election machinery and the people have so voted, cities, villages or townships may prohibit the manufacture, sale or keeping for sale of such liquors.
16. The legislature cannot prohibit or regulate the giving away or use, importing or transporting of such liquors exeept in places having a lleense (breweries and saloons.)
17. Nor can eities, villages or townships prohibit or regulate such gift, use, importing or transporting.
18. The people could not initiate laws or ordinances for the purposes mentioned in the last two paragraphs.
19. Any person may therefore give by the drink ur by the barrel any or all of such liquors at any

KNOWN AS "MAN FROM VERMONT"

CHARLES TAGGART, MUSICAL HUMORIST

Next Number on Lecture Course—Seat Sale at Seven O'clock, February 21

Charles R. Taggart, musical humorist, known everywhere as the "Man from Vermont" who will be heard here Tuesday evening, February 25, on the Lyceum course in his program of Yankee impersonations and music, has been associated with the platform for over fifteen years. He has been universally well received. Here are just a few typical comments on the man and his work:

Lens, Ill. Grace Harris—"Everyone was well pleased with Chas. Taggart impersonations, and applauded his readings and ventriloquist dialogues heartily. I am sure Mr. Taggart would receive a very enthusiastic welcome from the people of Lens nt any time should he return. The senior class is more than pleased."

Galesburg, Ill. Evening Mail—"Chas. R. Taggart sent here by the Redpath Lyceum bureau was greeted by a splendid audience. Mr. Taggart gsve a performance of great versatility being equally proficient as a story teller, a pianist, a violinist and ventriloquist. The audience thoroughly enjoyed the mimicry, the humor and the music furnished by this artist. Especially enjoyable were his violin imitations in which he showed himself a master of this most difficult of sll instruments to play."

Douglas, Ill. W. C. McVee.—"C. R. Taggart seems to be a real live wire, eapnble of holding his audience. Have heard lots of good eomments, and hope sometime to be able to have him with us again."

Grass Lake, Mich. A. W. Dorr.—"Chns. R. Taggart was exceptionally good. I hear the following remarks on the street 'Hope they will all be as good as that one.' 'The best yet.' 'I have my money's worth.' 'The cleanest program I have ever listened to.' 'Ile is master of his art.' Besides a seore of superlatives I dld not note."

Reserve seat sale at the Central Drug Store beginning on Friday, Februsry 21, at seven o'clock. Single admission fifty eents.

PAY TRIBUTE TO COL. ROOSEVELT

MEMORIAL SERVICES HELD IN CHURCHES SUNDAY

Commanded Respect of World and His Daath Caused Profnund Sorrnw Everywbere

A large congregation gathered at the Methodist Episcopal church last Sunday night to honor the memory of Theodore Roosevelt. A big American flag draped the pulpit to whieh was suspended a portrait of Mr. Roosevelt. Colonel Roosevelt's fnvorite hymn, "How Firm a Foundation," was rendered by the congregation. In announcing this hymn, Rev. Csndler stated that the genius of that hymn's optimism, the victory of hope over fear. This hymn, said the speaker, is indieative of the optimistie charaeter of Roosevelt who believed that right is stronger than wrong and that eventually sin will be overpowered and the earth become the Kingdom of God and His Christ.

In giving the Memorial address Rev. Candler covered the characterstics of Mr. Roosevelt which made him for a period of more than twenty-five years the most outstanding figure in the world's history.

As a leader he was the superior of anw man sinee the days of the great Lincoln. His marvellous magnetic personality gave him a wonderful mastery over men. Ile was tbe most versatile man of his day eontributing more worthwhile opinions on more subjects than any man of his generation. He was a hunter, soldier, orator, statesman and author.

The nations of the world regarded him as a statesman of the very highest order. By his transparent honesty, fairness and sineerity he won the confidence of the leaders of the world. He saved this country from threatened complieations with foreign powers and for eight years preserved the peaee of the world.

Ho is universally acknowledgad to be the greatest, most representative Ameriean of his time. He loved his country with a passionate devotion. A devotion so deep that he gladly gave his best to its serviee and it seemed unmanly to him to mourn when his son was stricken on the fields of France.

Mr. Roosevelt loved little ehildren and was loved by them in return. He was ever deeply solicitious for the welfare of others, exceedingly tender and gentle toward the weak and suffering. In his death the country has suffered nn exceedingly great loss. Ilistory will appraise him as one of Americe's most wonderful men.

At the Congregational Church

The Congregational church was filled last Sunday for the Roosevelt Memorial service. Dr. Armstrong, W. E. Hampton and Judge Mayne were the speakers of the evening. They set forth in discriminating, eloquent fashion the virtues and achievements of that remarkable man. Roosevelt's last public message, delivered to the Amerieun Defense Society, was read by Mr. Hampton, a member of the local branch of thst society. A Minute, prepnred by the officials of that society, was read and adopted by vote of the audience. Mrs. H. L. Oldham's superb handling of the organ gave unbounded delight to all present. The three prineipal organ numbers were Handel's "Dead March in Saul," Chopin's "Funeral Mareh," and an arrangement of "Nearer My God to Thee," by Minor Baldwin. Mr. Frank Poole sang an appropriate song, "Peaee, Perfect Peace," in a pleasing manner.

F. J. MEECH HAS SAID FAREWELL

DEATH CAUSED BY HARD COLD AND ADVANCED AGE

Had Bean Among the Most Popular and Efficient Public Servants —Funeral Services Friday

Frederick James Meech died Tuesday evening at 7:30 o'clock. Such is the sad announcement we bring to Courier readers. He had been slowly failing in health for the past year, but continued to be around until about a week ago, when taken with a hard cold, which, with his advanced age, he was unable to throw off. For the past three days he has lingered, fighting with all energy to recover, but death finslly called him as the evening set in.

F. J. Meech was born January 15, 1840, at Shelburne, Chittenden county, Vermont, and is a son of Ezra and Cynthia Meech, natives of that state. He was educated in the New Haven Military school of New Haven, Connecticut. From early childhood he had been a lover and student of flowers, and when 16 years of age began to devote himself to the growing of plants, fruits nnd flowers at his old home, and throughout his life continued to make this his hobby. In 1870 he eame to Charlevoix county and settled in the village of Norwood and engaged in lumbering and merchandising, purchased a saw mill and continued to operate his enterprises prosperously until 1876, which year marked his advent in the City of Charlevoix, where he hss resided until his death.

He continued to be identified with the lumber industry, and was appointed by Governor Jerome to the position of state swamp land eommissioner and held that position during that governor's term of office. Later he was elected register of deeds for Charlevoix county and served two terms, and was next appointed postmaster of Charlevoix by President McKinley and was re-appointed by President Roosevelt, serving in all eight years. His son, Darwin Meech sueceeded him in office and served four years as postmaster. Few men of Charlevoix have been more aetive in educational matters than has Mr. Meech. For more thsn eighteen years a member of the board of education, he contributed materially to its development and the present excellent school system, an object of so much pride to the ejtizens of Charlevoix, is largely a result of his helpful and disinterested endeavors. During the past several years he has lived retired from business eares, devoting himself to the raising of his beloved fruits and flowers. Like most men who understand and appreeiate the beauties of nature, Mr. Meech has a cheerful optimistic disposition, and a personality which has attracted to him a wide acquaintance and hosts of friends from all over the state. Mrs. Meech is also widely known in social and church eircles, and like her husband has been active in the movements of the Methodist Episcopsl ehurch.

Fraternally Mr. Meech is a Mason. He was one of the organizers of the first railroad corporation in the history of the city, which was known as the Detroit, Charlevoix & Escanaba Railroad Company, organized with R. F. Cherry as president, J. Milo Eaton, seeretary and Mr. Meech treasurer. They began operations, and after grading three miles of roadway sold out to what was then known as the Western Michigan Railrosd, but whieh is now the Pere Marquette Railroad.

On Februsry 12, 1861, Mr. Meech was married at Shelburne, Vermont, to Miss Polly F. White, daughter of Lavador and Polly White, and to them were born four ehildren: Belle, deceased wife of the Hon. Ernest Harris, judge of probate of Antrim county; Arthur, who now resides at Asheville, N. C.; Darwin of Charlevoix, and Helen, who died at the age of 20 years.

Probably no man now in Charlevoix, possibly none ever here, has had a larger part in shaping the affairs of the city and the county or contributed more earnestly, more willingly, more effectively of his time, his effort, of himself, thnn has F. J. Meech. "Fred" as he was always called, was the friend, the helper of everybody. Ile made for himself a large plaee in the affectionate regard of everyona and has built a splendid monument for himself in the hearts of his fellow citizens.

Funeral serviees will be held from the home on Friday, under auspices of the Masonie lodge. The hour is not known as we go to press, owing to the arrival of relatives from distant points.

First Church of Christ, Scientist

LAZY HUNTERS INSPIRE NEW LAW

Tenderfoot Daer Hunters Responsible for Change in Law

High-priced game preserves and wealtby members of hunting clubs in the northern part of the lower peninsula, are responsible for one of the most revolutionary changes proposed in the game laws. Representative Lynn J. Lewis, of Rangor, has a bill to ehange the opening of the deer season from November 10 to November 15 and the date nf elosing from November 30 to December 15.

For the last couple of yeors, dus to some climate changes, there has been little snow during deer season. This makes it much harder to track a wounded deer. In some of the larger preserves where millionsires from other states are wont to hunt, it is said that once the hunter decides that it will be hard work to follow the deer beeause of lack of snow, be quits and shoots another, and keeps on shooting until he finally hits one so vitally that it drops close by. The average deer hunter, out loose on the jack pine lands, will use every effort to get a deer he has hit, snow or no snow. He plays absolutely safe on the first one he hits not having the advantage of having the deer penned up for him in a preserve.

The proposed measure is likely to meet opposition in both house and senate.

POLITICAL POT BEGINS TO BOIL

ANNUAL SPRING POW WOW NOW AT ITS HEIGHT

Aspirants for City Offices File Petitions on Tuesday—Races Gives Promise of Merry One

Local politics, slumbering for some time and only awaiting for the closing day for filing nominating petitions on Tuesday, awoke with all indications pointing to a spirited spring political mix-up between those seeking to win out for the offices to be filled at the April election.

For the offiee of mayor, three candidates have filed, for elerk two, treasurer but one. In the First ward two for alderman and two for supervisor. In the second ward, two for alderman and two for supervisor. In the third ward two for alderman and one for supervisor. Henry C. Cooper was the only candidate to file a petition for the office of justice of the peace. The names of those who have filed petitions are as follows:

City Republican Ticket

For Mayor—Simon M. Rose, Richard C. Hammet, Geik C. Gelken.

For Clerk—Archie L. Livingston, Jennie Durrance.

For Treasurer—Elina H. Cook.

First Ward

Alderman—Clarence F. Wood, Frank M. Glassford.

Supervisor—Archie A. Swinton, Darwin F. Meech.

Second Ward

Alderman—Norman R. Washburn, William Finuean.

Supervisor—Nassau Burns, Harold L. Bedford.

Third Ward

Alderman—David J. Eekinger, Meyer Levinson.

Supervisor—Amos Webster.

Charlevoix women, registered at present beyond the three hundred mark, will without a doubt be a deciding faetor in the spring election, and the political dopesters are rather hesitant in making a guess as to the winners. A heavy vote will undoubtedly be polled as the names of two women appear on the ballots. From now until primary dny eleetion gossip will be rampant, and woe to the candidate whose record as a politician or citizen does not meet the approval of the fsir sex.

Ta the Voters af Charlevoix County:

I am a candidate on the Republiean tieket for the offiee of Commissioner of Schools. If elected, I pledge myself to devote all of my time to honest and efficient serviee in the interests of the schools of the county. Your support at the primaries, Mareh 5, will be greatly appreeiated. Sincerely yours,

7tf AMELIA KADEN.

FIGURE UP YOUR INCOME TAX

MUST FILE RETURNS BY THE 15TH OF MARCH

Financial Emergency Make it Necessary to Pay the Full Amount at First Payment

That there will be no general extension of time beyond March 15th for the filing of returns and for the payment of Income and Excess Profits taxes due on that date, is the decision of Daniel C. Roper, Commissioner of Intsrnal Revenue. The announeement was made Monday by Collector Emanuel J. Doyle immediately following the approval by the Senate and House of the report of the confrees on tho new revenue bill.

"A financial emergency makes it necessary to get the initial tax payments in by March 15th," says Commissioner Roper. "No other course is possible. Some months ago, in the emergency of financing the war the Treasury issued certificates of indebtedness to an amount approximating $800,000,000 maturing March 15th. Tho first payment of the Income and Excess Profits Taxes for 1918 was planned for that date, to meet this huge obligation.

"The American people have proven that there is no emergeney too great to be met and solved by co-operation. This present situation is another emergency which can ba overcome by co-operative effort. The Bureau extends its every force toward this end, and I am relying upon the people to meet the situation whole-heartedly.

"The Internal Revenue Bureau must carry out the programme prescribed in the new law, which requires all returns for 1918 to be filed on or before March 15th, 1919, and requires the first quarterly payment to be made on of before that date.

"Every taxpayer who can possibly do so is urged to make full payment of his income tax on or before March 15th. The quarterly payment method is intended for taxpayers whose financing of the tax at one time would tend to upset local financial conditions.

"The approval of the report of the confrees by the Senate and House of Representatives hrings the new Revenue Bill to the point where it may be said to he law. The Internal Revenue Bureau has been making preparations to collect the taxes which it provides, and is now putting all of its efforts into aiding the taxpayers to fulfill the obligstions imposed.

"The Bureau has arranged to send an advisory force of several thousands of deputies and agents to assist taxpayers. These officers will be stationed at convenient points where they may be consulted without charge. Taxpayers should tske the initiative and get in touch with these revenue men for any needed advice and assistance in preparing returns.

"The forms for the tax returns are being printed and all forms will be in the hands of collectors between February 15th and March 1."

EVERY MAN CAN BE OWN BREWER

Here's a thought that will he an oasis in the thirsty desert scheduled for July 1 by the drys.

The vest pocket schooner is the great and glorious idea which the Milwaukee breweries are said to have invented. It eomes in a tin box, in cubes like powdered houillon.

All you have to do is to drop a cube into your mouth, let cold water trickle over the cube and you have a drink of beer.

How many eubes it will take to pickle a saint is not specified, but the cube is said to be here, the malt cube that dissolved in water will heat the drys.

That is the report following a meeting of Pabst Brewery directors. They admitted they had plans for utilization of malt, and a malt eube is what is said to be on the way.

ELEVEN UNLUCKY FOR WILD BILL

Here is a new diseovery of prophecy bearing on the exkaiser whieh now is passing from mouth to mouth in Paris:

Remembering thot tha armistiee became effective at 11 a. m. on November 11, turn to the eleventh book in the Bible, whieh is the Second book of Kings, and find in the eleventh ehapter thereof the eleventh versc; this reads:

"Wherefore the Lord said unto Solomon, Forasmueh as this is done of thee and thou hast not kept my covenant and my statutes whieh I hava commanded thee, I will surely rend they kingdom from thee, and will give it to thy servant."

All of which would appear to indicate that eleven was the unlucky number surely pointing the fate of William Hohenzollern.

One wag remarked, "Eleven spelling 'twenty-three' for kaiser Bill."

To the Voters of Charlevoix County.

I am a candidate on the Republican ticket for renomination for the office of the County Commissioner of Schools and would like to meet the voters of the county peraonnlly as I did many of them four years ago for I thoroughly enjoyed the campaign. However the duties of my office are heavy and I am now organizing the spring work of the rural schools which I love. It will therefore be impossible for me to meet many of you at this time hut I shall none the less appreciate your support at the primaries March 5th. If re-elected I shall endeavor to show my appreciation to you by continued effort in your behalf. Very truly yours,

7tf. MAY L. STEWART.

A New Spirit of Good Will

Thanks to the opportunity given it by the War Department at home and abroad, a new spirit of good will has grown up around Dodge Brothers Motor Car.

Wherever soldiers meet, this car is spoken of in terms of admiration and even affection.

Soldiers grow to love the tools and weapons and implements that serve them.

They admire especially the inanimate thing that shows grit and endurance in a tight place.

That is American—and that is the American soldier in particular—and that is the sort of glory being woven around Dodge Brothers Motor Car.

There will always be associated with it the remembrance of the work it did in the world war in army service on both sides of the ocean.

Thousands of American soldiers are coming back now from the camps in America and the battle-front in France, telling how well that work was done.

They are telling it to their fathers and mothers, their worshipping small brothers, their sisters, their sweethearts and their friends.

It is the central figure in many a stirring story told about the family fire-place.

To many a white-haired American mother it means something more, as it goes by, than just a motor car.

She links it, somehow, with what her own boy did, with what America did, and with what America stands for.

Dodge Brothers are proud that theirs was the one car of its type and class chosen by the War Department.

They are prouder still that it has been taken into the hearts and homes of the American people.

The old folks, and the little folks who don't forget, are spreading a leaven of good will which will endure for years to come.

Dodge Brothers cherish this new spirit of good will which has come out of the world war as their most valued possession.

A CHALLENGE TO THE WOMEN

Probably the leaders in the "votes for woman" campaign having won, do not need to be reminded that the privilege of voting brings with it responsibility. A great moral issue is before the people of Michigan this spring. The women have it in their power to defeat or to pass the saloon amendment. One of the strongest arguments in favor of women suffrage was that they would by overwhelmingly large majority be right on any great moral issue. Now is the opportunity for the women of Michigan to demonstrate that the confidence of the voters in them is not misplaced.

It is not a question of what the big majority of woman believe or how they will vote. This is the question: "Will they vote at all?"

Prohibition carried in Michigan before by about 70,000, if it does not carry by 200,000 this time it will be because the women do not do their duty. We mean the high class women, the Christian women, the mothers and sisters and wives and sweethearts who have it in their power either to restore the saloon with all its malignant, blighting influences or to make the majority against it so overwhelming that the question will be settled forever.

The bad woman, the riff raff will be there. They will be the active partisans of booze. If the good women do not register and vote, and the liquor forces succeed, the good women will be responsible, they will be the passive partners of this very vicious amendment.

Women of Michigan, women of Charlevoix county, it's up to you. This is your first challenge to service for your state and your home community. We all know what you will do if you register and vote, but will you register and vote? That's the question. The men carried prohibition by 70,000. The men voted to give you the ballot. With your help they can crush the viper under a 200,000 majority. Will you give this hlep?

NOT BOLSHEVISM, BUT DISCONTENT

Reports are being circulated that bolshevism is finding a lodging place among some of the soldiers returning from Europe, and that conservative Americans are growing uneasy at the prospect of the cult of Lenine and Trotsky finding a following among the defenders of this Republic. Such reports can scarcely be credited. That there is a great deal of discontent among the troops returned is no doubt true, but this is but the natural result of the gross mistreatment to which they are being subjected by an Administration which seems to give little thought to the comfort and welfare of those who fought against the Hun, and which exhibits a brand of ingratitude far sharper than the serpent's tooth. It has been estimated that the average period for which our soldiers have gone unpaid is six months; the allotments to their families are far in arrears; insurance adjustments in some cases seem nowhere in sight; sailors have been reported working at hard manual labor alongside carpenters and other plyers of trade, but receiving only the base pay provided by the government, although some of these men were ordered home from France for discharge; many have been refused discharge papers although they have had good jobs in sight; and the treatment of the wounded in our hospitals—of which the Walter Reed Hospital at Washington, right under the nose of Pansy Baker, has furnished a typical example—has been such as to arouse the ire of the whole country.

If the men subjected to such indignities get red in the eye and cuss out the universe occasionally, they are only giving vent to feelings which disturb the breast of every decent American, however calmly the Secretary of War may consider the matter. But this does not mean that bolshevism is getting a foothold among the boys. In fact, their experience and training is such as to make them our best security against the spread of that evil in America.

Finally, there are at least two attributes possessed by this Administration and by the Bolsheviki, in common; inability properly to administrate the affairs of government, whereby chaos is upon us, and the destruction of private enterprise, of which the seizure of the telegraph, the scrambling of the railroads, and other forms of paternalism are examples. If you want to find the bolshevik monster, scrutinize the Democratic administration.

ARE WE QUITTERS?

A great many people seem to think that all need for persistent effort, economy and relief work ended on November 11, 1918, at 11 o'clock, says the Lansing State Journal. In other words, Americans seem not to have made habits of thoughtfulness and carefulness and war thrift. They are wasting food in much the same old way. They are spending money lavishly for foolish things. Some of this is indicated by the rush to post-offices all over the country to cash thrift and war savings stamps.

There is also a relaxation of effort in relief work. Red Cross workshops have been compelled to issue special appeals again and again to get women to continue the work of the organization. Surgical dressings and sweaters for soldiers are no longer in great demand. But vast quantities of warm clothing for infants, children and even adults are needed for the destitute refugees who are being returned to the war-ravaged regions in Europe.

Some women frankly admit having "lost interest" in the work. There are, of course a faithful few who stay on the job. But there are far too many who have forgotten the call to service.

Is is selfishness? Do American women refuse to work simply because the fighting is ended and their own boys are beginning to come home? There was a natural relaxation, a period of joyous relief, when the armistice was signed. But that should have been merely a pause in which to take breath and refresh oneself for the new tasks ahead. There is still work to be done in conservation of food and resources, and in volunteer relief work. Surely American men and women will not "fall down" now on their responsibilities.

At Turin, Italy, thousands of persons greeted President Wilson with the cry: "Viva Wilson, God of Peace." Must have reminded him of the 1915 campaign and "thank God for Wilson; He Kept Us Out of War."

Some exalted utterances are like a chapter in Revelations—to be interpreted according to the reader's views, and therefore calculated to satisfy everybody, with a baffling mystery at the finish as to what it is all about.

Raising the rates and lowering the service seems to be Mr. Burleson's idea of government control of telephones.

SID HENRY DIES AT EASTPORT

Was Well Known in Charlevoix and Leaves Host of Friends

Death claimed another Charlevoix young man last Friday night when Sid Henry passed away at the home of his wife's parents in Eastport.

Deceased was born in Grand Rapids thirty seven years ago, coming to Charlevoix about fifteen years ago and since that time has been engaged as a cement worker. He was united in marriage to Miss Baker of Enstport last summer.

During the month of October he with his wife moved to Enstport and shortly after was taken ill, a complication of diseases setting in causing his death February 7th.

Funeral services were held at ten o'clock Monday ,February 10, from the Baker residence in Eastport under the auspices of the Masonic lodge. The congregational pastor from Central Lake officiating.

THE WEATHER MAN IS MAKING ICE

Conditions During Past Ten Days Makes Ice Man Smile

Ice harvest on Pine lake commenced Tuesday, when O. D. Hammond with a large force of men and teams began work on the lake north of the Pere Marquette station. The work will be rushed to completion, provided the weather man is kind and sends continued cold waves over the lake during the next week or so. Measurement taken when work started showed the ice to be nine inches thick and of the best quality put up in years.

The present is the first winter in many years that the ice was as late in coming, due to a long siege of mild weather experienced all through January and December.

The last few nights have been great for ice making and the lake is well frozen over with the exception of the space near the swing bridge, which usually remains open unless the weather is extremely cold.

At present Mr. Hammond is loading on cars for shipment to Petoskey consumers. When this work is finished, local concerns will be taken care of. There is a large demand for outside shipments and little doubt that many cars could be disposed of.

OFFICIAL TABULATION OF CASUALTIES

32nd Division Lost 1,694 Men Killed in Action

An official tabulation of casualties by divisions for the American expeditionary forces is 95 per cent complete to date, and was made public today, by the war department. The total for all divisions, exclusive of the two regiments of marines in the second division is:

Killed in action	27,762
Died of wounds	11,396
Missing in action	14,649
Prisoners	2,786

The grand total of major casualties was 57,590. The figures on major casualties for the 30 combat divisions including the 32nd Michigan and Wisconsin national guard shows 3,213.

Divisions with more than 1,000 men killed in action show the 32nd 1,694.

In the national army divisions the major losses of the 316 infantry, the 79th division was the heaviest, total 800.

Two tables of prisoners taken by the enemy, one prepared by the American Red Cross and the other by the adjutant general's office were given out. Both show much larger totals than announced in the list of known military prisoners, but the latest will be increased and the number of missing in action correspondingly decreased by checking.

The Red Cross total is 5,243 including 4,857 military prisoners. The adjutant general reported 5,401 of which 4,916 were military prisoners.

The adjutant general's records show 4,800 prisoners have been released and 118 died in captivity. Practically all prisoners are now out of Germany.

BIRTHDAYS OCCASION OF MUCH GAIETY

Little Folks Help Their Friends Observe Big Event

Saturday evening, February 8, was a happy time for Winfield Emrey and his little friends, who were invited to his home on Bridge street to help celebrate his eighth birthday. After the boys had partaken of the birthday feast which Mrs. Emrey had prepared and played games for a while, Mr. and Mrs. Emrey acted as chaperons and escorted the youngsters to the Majestic theatre, where the remainder of the evening was spent. The boys all acknowledge that Winfield is a royal entertainer.

Miss Jessie Allen was hostess at a delightful birthday party last Thursday afternoon at her home on Clinton street. Games and music were engaged in by the little girls until the welcome summons for refreshments was announced. The birthday cake, with its eight candles, and a goodly amount of dainty eatables, was thoroughly enjoyed by all present. Miss Jessie received many little tokens in remembrance of the occasion.

Church of God

Preaching Sunday at 10:30. S. S. 12:00. Preaching Sunday evening at 7:00. Prayer services Wednesday evening at the parsonage. All are welcome to these services.

In the absence of any review of the troops which fought in the present war it might be well to have a grand review of the deserving Democrats who held civilian jobs. It would take a couple of weeks for them to march through Washington a dozen abreast.

LOCAL PEOPLE VISIT ROCK SALT MINE

Go Down Shaft 1,140 Feed Dressed In Strange Garb

While Mr. and Mrs. Henry Hammond from Ironton, Michigan, visited Mr. and Mrs. Lewis Hammond at Detroit, Mich., they entertained them by taking them down into the Detroit Rock Salt Mine which is 1,140 feet deep. They were amused at the way they had to dress and climb down into the bucket that carried them down into the mine so far below the surface. While down into the mine they picked out lumps of salt as clear as crystal. They will be glad to distribute pieces of salt for souvenirs among their many friends when they return home, as they expect to take enough salt home to show their friends where they have been. Friends here considered it a brave journey for so old a couple to take as Mr. Hammond is 77 years old and Mrs. Hammond 75 years old. They both say this is one of their greatest experiences they have ever had in their whole lives.—Contributed.

WHISKEY MISSING— ONLY HARD CIDER

Someone Slips One Over Sheriff and Confiscates Booze

"Who substituted cider for real good whiskey," is the question right now that is bothering Sheriff Weaver and other local authorities.

Last week 24 quarts of whiskey (?) were confiscated by the sheriff. The red eye was nt the local express office, consigned to local parties. It had been there for three weeks at least—all the time under the eye of the sheriff, who, in turn, was awaiting orders from federal authorities to pick it up.

A week ago Monday the sheriff wns given orders to take care of it, which he did. After reaching the court house, it was thought advisable to examine the contents of the bottles, which proved quite a surprise. The bottles contained nothing but cider—all 24 of them. The cider had even killed the smell of real whiskey. Some disappointment, but it is quite likely the incident will have another hearing at a later date.

What About Your Auction Bills?

Ground Feed vs. Whole Grain

The Michigan experiment station carried out an experiment a short time ago to determine the relative feeding value of whole grain and ground feed.

Whole corn not mastieated:

Cows	22.75 per cent
Heifers	10.77 per cent
Calves	6.28 per cent

Whole Oats not mastieated:

Cows	12.06 per cent
Heifers	5.48 per cent
Calves	2.98 per cent

Whole corn and oats not mastieated:

Cows	26.46 per cent
Heifers	17.50 per cent
Calves	5.78 per cent

Chemical analysis showed practically the same composition of grain as before feeding; Therefore, it is safe to conclude that the animal derives no benefit from grain which passes through the digestive tract unmastieated.

We can furnish you everything in dairy, horse, hog or poultry feeds.

INFLUENZA TAKES WM. E. NOWLAND

After Illness of But a Few Days—Private Funeral Thursday

Death claimed one of Charlevoix's oldest residents Tuesday when William E. Nowland passed away at his home on Hurlbut Avenue, following a few days illness of influenza.

Deceased was born November 17, 1868 in Charlevoix and has made his home here during his entire life. He was united in marriage to Myrtle Isaman of East Jordan, September 26, 1905. To this union three children were born, two boys, age twelve and four and one girl age seven. For several years Mr. Nowland was overseer on the Belvedere resort grounds but for a short time before his death had been working near Ellsworth.

He was taken ill February 3, but kept at his work until last Friday when he had to give up and come home. He passed away at five o'clock Tuesday afternoon. He was a kind and loving husband and father, of a charitable nature, always ready to help those in need. He will be sadly missed by his family, and his children are just at the right nge to need a kiad father's hand to guide them.

He is survived by his wife, three children, three brothers, Abe Nowland, of Charlevoix, Amos Nowland of Rudyard and Tom of Echo, three sisters, Mrs. John Ward of this city, Mrs. Charles Howard of Muskegon and Mrs. Charles Root of Portland, Oregon.

Private funeral services will be held Thursday at 2:30 o'clock from the residence on Hurlbut Avenue. Rev. Candler officiating. Interment in Brookside cemetery.

DICKEN'S CLUB BIRTHDAY LUNCHEON

Observance of Day an Annual Event With Local Club

The observation of Charles Dickens' birthday, February seventh, has become an annual event in the Charlevoix club which bears his name; accordingly at one o'clock on Friday last, the members assembled at the pleasant home of Mrs. C. E. Bailey, 211 Clinton street.

A program and luncheon had been carefully planned by the committee in charge, Mrs. Ray Faulkner, Mrs. George Finucan and Mrs. Clarence Wood. Covers were laid for twenty and the club colors, Chinese blue and pale yellow, were in evidence in the dainty decorations, and in the gowns worn by the members who partook of the delicious three course luncheon.

Among the musical selections prepared for the enjoyment of the guests were two from "the Rubaiyat" which masterpiece is being studied at this time by the club.

The afternoon was spent in a social way, interspersed at intervals by readings and musical numbers. At a late hour when the guests bade their hostess good night, all agreed that this event would be remembered as one of the most delightful occasions enjoyed by the club.

SCHOOL NOTES

There were 53 tardy marks this moath as against 135 the month before. The attendance also improved. Of course, the previous month was much affected by sickness, but this report is encouraging. The percentage of attendance for this month was 96.1 and 93.4 for the previous month. Punctuality was 98.8 as against 96.9 for the month before. Both of these can still be improved upon.

No report cards out this week, as the extra week and the examination marks, with the fiaal standing, will be entered together with the records for the month just ending.

It is reported that the game at Bellaire was an afternoon ten, enjoyed more by those absent than by those present. Righteous indignation is expressed hy Mr. Loomis over the actions of some of the other guests.

Every student should read "Another Fallacy Disproved" which hangs hy the bulletin board.

Examinations will start next Wednesday at eight o'clock. Some members of tbe high school are resting on their faith alone, others on their works, some on both. It is prophesied that most of the failures will be among the first class. The lilies of the field toil not—but they never had to pass an examination.

First M. E. Church

Every person attending the Methodist Episcopal church next Sunday night at 7:30 will receive a booklet of fourteen pages containing songs, recitations and special prayers which will be used at this service commemorating the life and work of Abraham Lincoln. The pastor, Rev. Henry Candler will deliver a lecture sermon on the life of Lincoln. The public is cordially invited to this service. At the morning worship the sermon subject will be, "The Changing Church—The Abiding Christ." A discourse especially appropriate at this time when the Church is in the midst of reconstruction made necessary by the tremendous time in which we live.

A special effort is being made to have two hundred present at the Sunday school hour. The young men of the church and congregation are asked to be present to complete arrangements for the organization of a young men's class. A good attendance is desired at the meeting of the Epworth League at six o'clock at which time special announcements will be made regarding plans for the promotion of this young people's society. Rev. Henry Candler is highly gratified at the splendid co-operation given him by the membership of the Charlevoix Methodist church and with the friendliness of the people of the city.

TOOK BUT FIVE EXTRA MINUTES

TO OBTAIN THE POINTS THAT SPELLED DEFEAT

Bellaire Puts It Over Local Basket Ball Team to Tune of 21 to 19

Our boys were beaten at Bellaire last Friday night, by the score of 21-19. We refuse to talk about the game.

They go to Petoskey Thursday of this week to endeavor to wipe out the stain of the only real loss the team has suffered. Those who went to the game will remember how it took five extra minutes for our neighbors to obtain those mighty four points which spelled defeat for us. The attendance of any of our home folks who happen to be in Petoskey next Thursday night, will be appreciated, and they will not be disappointed.

There may be a game betwcen the returned soldiers and sailors of the city. Announeement will be made later if this works out.

We have an open date next Friday, and can get no one to fill it, but may possible be able to play Alpena next Thursday. This will be one of the best teams of the season, if we can get the date. Watch for the cards in the windows.

There are two Interscholastic basket ball tournaments this year. One is at Mt. Pleasant, and one at Michigan Agricultural College's new gymnasium in Lansing. It is hoped that the team will be able to make one of the trips.

Red Cross Notes

The Red Cross work in Charlevoix is in need of helpers. We now have on haad four hundred and fifty operating gowns and six hundred handkerchiefs for hospitals. Three hundred gingham aprons for women. Fifteen layette outfits are on the way to us. Some of this work can be taken to the homes. It would encourage the officers of this branch if at least ten ladies would be present each afternoon. The rooms are always warm and comfortable and if the ladies who pledged from one to three afternoons to Red Cross work at the registration last May would he present it would lighten the burden of the fnithful ones who are there now from one to five afternoons each week. Some of this work can be done at differeat social functions and clubs and is just as important as it was one year ago. The boys are not all home yet and the refugee work is deserving of our very best efforts. Mrs. E. E. Cross, Chairman.

WHAT IS TO BE DONE TO BE A "GOOD CITIZEN"

It is essentially easy—no difficulty about it.

1. Understand that Saving and Thrift are positively necessary for the well being of the government
2. Realize that YOU are a part of the government.
3. Fix clearly in your mind that what hurts the government must harm you.

After these fundamentals are well defined in your mind the battle is half won. Then only three things are left to do:

1. Make up your mind to SAVE a certain amount of money out of your income.
2. Save that definite amount before you do anything else with your pay.
3. Spend what you have left to the best possible advantage—sensibly. One dollar starts an account at

HAS CANDIDATE FOR SCHOOL COMMISSIONER

Miss Kate Wilson to Make Run for This Important Office

On Wednesday, March 5, the Banks Township voters who sojourn to the town hall to cast their vote in the primaries will have the opportunity to deviate from the usual routine and vote for a school commissioner from their own township, the first Banks Township person to ever try for this important office. The candidate is Miss Kate Wilson, a life long resident of this vicinity and a person well known and highly respected.

Miss Wilson early decided on teaching as her life work and has made such a success that she has served on the county board of school Examiners several years. She is a graduate of the State Normal and holds a teachers life certificate.

The election of a lady as school commissioner will be something entirely new for this county but the state records show that in counties where this has been done it has never been regretted. Charlevoix county is a good example of this as any voter may find for himself (or herself) by asking any Charlevoix citizen interested in the welfare of their schools and children.

Miss Wilson is teaching in the Bellaire school at present, a position she has held for the past four years and as a result of her work may not be able to see and talk with you personally but you may rest assured that your support will be appreciated and if elected she will conscientiously discharge her duties, having at all times the welfare of your children at heart.

ORGANIZATION OF STATE FARM BUREAU

Perfected at Lansing February 4 and Officars Elected

The organization of the State Farm Bureau was perfected at East Lansing on February 4. Present at this meeting were representatives from nearly every county in Michigan. These men were among the leaders in agriculture in the different countles from which they came.

A discussion of the objects of the state bureau were brought out before the organization took place. This was the first large farmers movement in the state which has for its goal the interests of every farmer in the state, whether he is in a secret society or not. It takes in every one who is willing to co-operate in this large movement and has a definite program of work mapped out for the benefit of all branches of agriculture.

This State Farm Bureau has the same relation to the state as the County Farm Bureau has to the county, only it has the backing which is necessary for getting legislation through that no county bureau has. The legislation which will be asked for is the same as the ones which the Grange, Gleaners and Farmers' clubs are after for the benefit of the farmer, but will have the more prestige for the reason that the Farm Bureaus are the recognized farm movement which the Department of Agriculture is anxious to have all get behind. The bureaus do not work against any movement which is for the farmers benefit and aid all others farmers' organizations to get what they are after for the benefit of the people who produce the food of the world.

Rolland Morrill of Berrien county was elected president of the State Bureau and L. A. Potts of Lenawee county secretary and treasurer. Committeemen were also elected for every branch of agriculture which is represented in the state by production of livestock or crops. Also men to guide the different soils movements which must be looked after.

Arlie Hopkins of Bear Lake was the committeeman on legislation which is one of the most important of the committees.

This is the greatest time in our history and the one time of all in which the farmers should be alive to their needs and we believe they will be given laws by this legislature which will be the most beneficial they have ever received.

All farmers should unite with their county farm bureaus to give weight to this the greatest of all movements for the benefit of the farmers of the United States. R. E. Morrow, Secretary Antrim Co. Farm Bureau.

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

Two bills of interest to hunters have been presented to the state legislature. Representative Edward R. Galloway, Hillsdale county, would make Sept. 15 to Oct. 31 an open season for fox squirrels. Representative M. J. Howe, Monroe, would permit duck hunting for an hour after sundown.

The State Good Roads association will meet in annual session in Grand Rapids the third week in April, the exact dates to be selected later. Outfits of road building machinery will be exhibited in connection with the convention. It is expected speakers from several states will be present at the convention.

Charles Tanner, of Harbor Springs has a very interesting relic which he values highly. It is a pipe which was whittled out of a laurel root by one of his companions who was with him in Andersonville prison in the year 1865. It is a very artistic piece of wood carving, and the man who made it gave it to Mr. Tanner to keep in remembrance of the prison life. He was very sick at the time and the next day after giving him the pipe answered the call of death. Mr. Tanner who was in the prison for five and a half months, values it very highly.

Detroit will spend $75,000 for tokens of appreciation to its men in the service. That amount was appropriated by the council to purchase rings, medals and testimonials. Each returned soldier will receive a silver ring bearing the city's coat of arms. Parents or relatives of the men who died will be presented with medals. Each man also will receive a written testimonial of gratitude.

Grand Haven is to have women election inspectors in each ward of the city at the coming spring primaries and election. Five women have been named to serve on the boards.

An unusual incident occurred in southern Michigan in the trapping line. Frank Rhodes, of Gangea, had some traps set out for muskrats in the Kalamazoo river and when he came to see his traps he found a carp weighing thirty pounds in one of them. The carp was caught by one fin and it is supposed that it tried to swim over the trap and as the water was shallow there was not room for its big body and the trap, too, so it was caught.

"We slept anywhere and everywhere!" remarked Chester Van Tongren, a Michigan boy who returned from Camp Lee, Va., via Camp Custer. "We have parked our trucks in the middle of streets in some cities and made our beds between the trucks on the ground. We have slept in parks, school buildings, churches, on the curbs of streets and even in jails when we wanted to get out of the rain. And we slept like bricks wherever we bunked." He has been driving trucks to sea coast. He has been in twenty states, but says Michigan is the best.

Attention was called by the war department to the fact that when letters sent to officers and enlisted men in the expeditionary forces are addressed directly to the town or city in France where the recipient is stationed such mail automatically comes under foreign postal regulations and requires foreign postage rates of five cents per ounce. When soldier mail is addressed giving the unit to which the soldier belongs and the army postoffice number the domestic rate of postage, three cents per ounce applies.

A call was made for a meeting last Monday evening by the City Commission when the matter of electric light rates will be taken up. There is a feeling prevalent that the rates in East Jordan are excessive. However the Electric Light Co. have given East Jordan a mighty good service in the main in the past; they have an excellent power plant; and these things all add to the cost of production.

A petition is being circulated for signatures in East Jordan asking that the present commission form of government be changed to a council form. The matter will probably go to the voters at the spring election.

The Evans bill, permitting county treasurers to act as agents of the secretary of state to issue automobile licenses has passed the Michigan house of representatives.

In the following vitriolic terms the Mancelona Herald comments on the continuous bragging by the Central Lake Torch about the great commercial activity of Central Lake and the progressiveness of that village: "A newspaper published in one of Antrim county's deserted hamlets frequently refers to that place as 'the busy town, the leading commercial center of the county,' etc., all of which causes a smile to come over the faces of those posted on cold facts. This same town, Central Lake has forty-three pieces of property advertised in the state tax list for Antrim county this spring—more than any other village or township in the county. Mancelona village has only five and this township only six pieces of land thus advertised. When the fact is taken into consideration that Mancelona is a double township and is assessed for more than three times Central Lake's assessed valuation, and hence the taxes are that many times larger, it shows that our brother has 'hollered too loud.'

If Lincoln Lived Today

Again would he speak those now famous words:

"With malice toward none, with charity for all, with firmness in the right, as God gives us to see the right, let us strive on to finish the work we are in."

This is the spirit which America has taken across the seas to the battle-field and to the conferences around the peace table.

As evidenced by Lincoln's words and deeds it served ed America in the days after the Civil War.

This same spirit in triumph will save the shattered world today.

February 12, Lincoln's Birthday, a legal holiday, this institution will be closed all day.

INTERESTING LETTERS FROM SOLDIER BOYS

From Sergt. Xelle Miles
Horhausen, Germany,
January 16, 1919.

"My dear Mother and all—"Received your letter and was glad to get it, and to know that you are all well, as it found me feeling fine. I enjoyed a fine four day trip. We went to a rest camp, stayed in a fine hotel and ate in another in Neuweid on the Rhine river. We took a trip to Coblentz and visited one of the Kaiser's palaces on the Rhine. Then we went to Andernach and Oberbieber. You can look this up on a map. It sure was fine.

"We had show every afternoon and night and after the show we had ice cream and cake for refreshments. Also a dandy reading room and swimming pool. And mother dear, I did not ask to go, but the Captain called me over to the office and asked me if I would like to go, so that made me appreciate the trip all the more. It cost me quite a bit of money, but I should worry. I wanted to buy a lot of things anyway. I am going to bring home from Germany all a little present just to say it was from here and that I was there.

"I haven't any idea when we are going to move or where, but God only knows how I would love to start for home and see you all. I get rather lonely at times, as I can't talk German very well and I don't care about learning it either. I got a fine letter from Eugene and Esther and also Bessie I. Hope dear ones you are having fine winter weather. We have no snow yet. I will close for this time with loads of love to all. I am your loving son, Xelle.

From Leonard Herrington
Army of Occupation,
January 10, 1919.

"Dear ones all—I will write you a few lines to let you know that I am still alive and well.

"I am now with my company again in Germany, across the Rhine river near Coblentz. I came through Metz on the way here. It is a fine town, in fact all that I have seen of Germany so far looks more like home than France. It is much cleaner and shows much more industry and neatness in all ways. Has a better climate with pure and clearer atmosphere.

"The German people use us fine. We have good buildings to sleep in, furnished with stoves, lights and fuel. In some the American soldiers are quartered right in with families using their furniture and musical instruments.

"We can get but little articles such as candy and tobacco, when they have it, but beer, wine and soft drinks are quite plentiful and you can get them at moderate prices. I drink a few beers once in a while to help keep off the blues, but never drink extensively. When I get home I want to be able to look any one square in the face and say with a clear conscience that I have went through all this great task with a clean moral character.

"Well now as I am back with my company again I think I can have my mail in about one month. I am writing a card to the central office asking to have my mail forwarded and as I cannot write much of a letter until I can hear from you will close, with the best of wishes to all."

Notice to Qualified Electors

Miss Kate A. Wilson of Central Lake, Michigan, wishes to announce to the voters of Antrim county that she is a candidate for the office of County School Commissioner and will greatly appreciate the kindness of those who will support her at the primaries on Wednesday, March 5th, 1919, and at the spring election. Miss Wilson is an Antrim county girl and has taught in the county for twenty years, both in the rural and graded schools. She has served on the county board of School Examiners for two years, from 1914 to 1916. Is a graduate from the State Normal College at Ypsilanti and holds a life certificate from the scientific course in that school. Miss Wilson is now engaged in teaching in the Bellaire schools where she has been for four years. 6tf.

Daylight Saving to Start Again

In accordance with the daylight saving bill, the clocks throughout the country will be set forward one hour at 1 a m, the last Sunday of March and an hour's daylight will be gained for seven months, the clocks being set back again at 1 a m, the last Sunday in October.

Daylight saving proved a success in more ways than one in the United States last year, and it is predicted that its institution will be a permanent.

SCHOOL COMMISSIONER'S NOTES

The commissioner is keeping the machinery going in the county normal, the principal, Miss Bates, being called away by a very sad telegram. In a few of our counties the commissioners teach in the normal for a week or even a month in order to get better acquainted with prospective teachers and to give them all possible help for the coming year, but this is the first time the commissioner has here taken full charge of the work, having usually confined her county normal work to frequent visits and a series of lectures on the work of the rural schools.

Eighty-two per cent of the boys and girls of our land are receiving their education in our one room rural schools. This means that 82 per cent of the welfare of our country is in the hands of the teachers of our little country schools. Is it any wonder then that out of pure love of our country we work with all our might to make our schools better in the corner where we are? And isn't it about time that the public press and the officials of our land give due recognition to the rural school?

Forrest Weed After 160 Mile Hike, Now at Saffig, Germany—Expects to go to Coblentz—Laverne J. Yettaw Is Orderly for Army Chaplain

From Forrest Weed

Saffig, Germany,
December 12, 1918.

"Dear Mother—Will try and write a few lines this morning as we are allowed to mail same until ten o'clock. Of course when we are on the move it is hard to write and also hard to mail same.

"We have hiked about 150 miles from where we started in France. Have seen some good country and also some pretty fair sized cities.

"We passed out of France through Belgium and into Luxemburg on November 20th. The people welcomed us in both places and in Belgium they had the streets decorated and in one town the village band was playing. From what we saw of it it must be a good place to live.

"We passed close to the city of Luxemburg and crossed the border at Ethernoch at seven o'clock on Deeember 1st. Then we traveled into Germany and the first real city we hit was Mayen, a place only about twenty miles from Coblentz on the Rhine. We stayed there three days, had some time and eats too, while there. Had some of their war bread too. It is like brown bread only about twenty times heavier than that we get in the states. It is sort of sticky. Guess it is made from potato and dark flour.

"I am using my gas mask as a table, as we are now living in a barn. We like to stay in a barn where there is lots of hay as we can keep so much warmer. We have been lucky lately and have had good warm billets. However the weather on this hike has been fine and really quite warm most of the time with no sign of snow yet. The people say they do not have much snow over here only in January and February.

"We haven't the slightest idea when we will leave for the states, but are hoping to be on our way before it gets any colder or hefore the first of the year. Must close as it is time to mail. Forrest.

December 26, 1918.

"Dear Mother—Well it is the day after Christmas and we have half a day off as we were on guard until noon. Of course did not get much sleep during the twenty-four hours I was on guard, as I was two hours on and four off. I got off guard yesterday noon in time for the big feast. Of course after dinner we had to return to the guard house to stand guard mount at which time we were dismissed at two o'clock.

"Well, now I will tell you about the good times and good eats we had. Some of the fellows celebrated Christmas evening in the old way and arose Christmas morning with a big head, but I assure you that I was not one of the lot. We couldn't if we had wanted to as we eight from our company, was on guard.

"A couple of nights before Christmas the Y gave us a good bit of amusement, singing, musie, dancing and comedy and Christmas eve they also gave us a moving pieture show.

"Now about the eats. On the twenty-fourth we received from the Y one chocolate bar, cigarettes and tobacco and yesterday we were given by them, two chocolate bars, one package cigarettes, one can Tuxedo and from the commissory or quartermaster corps one half pound bologna, and some of the fellows received their boxes so we had lots of candy. We had a very good breakfast and supper, but I will just tell you about the dinner. Roast beef, brown gravy, mashed potatoes, cabbage salad, dressing, rice pudding, cake covered with jam, bread, butter and coffee. A real dinner I'll say.

"We had a Christmas tree by our kitchen and one in the other platoons room, so it was really a happy Christmas even though many miles from home. Hope you had as good a time as I did.

"The German people also celebrated yesterday in about the same way as we do. Guess this was the big Christmas for them as it was the first year they have been out of the trenches or free from warfare since it begun. However, no more so for them than us as we are mighty glad it is over too.

"Had mail from you, yesterday and also cards from Aunt Amelia. Must close for this time, love.

FORREST.

January 4, 1919.

"Dear Mother—Again I will try and write a few lines. It is evening and the fellows are laughing and joking and really having a good time, but making it a little hard to write.

"I guess we will get a chance to go to Coblentz, that is, providing we stay here long enough. We nre going to have a night school and I am going to take up history and civics if I am not picked as instructor in common school subjeets. It will be something to do and a review at any rate.

"We are still sleeping in the school house at Oberbieber Germany, but of course are looking forward to leaving here soon for some seaport.

"Am now painting a few road signs for the 63rd brigade of which we are a part. This and the 64th brigade compose the 32nd division.

"Harold Usher was in this division but guess he was shell shocked or something as I know he was at one front and I guess the rest of the time in the hospital. He is lucky to get back so soon.

"We certainly have some great times with money over here, as we do not know the proper exchange only half the time. It changes so often. One day 100 francs is worth 166 marks and perhaps the next day only 140 marks. It changes from one to the other and do not know what it is right now. We are having fine weather here with no snow. Love,

From Laverne J. Yettaw

Following are excerpts from two letters written by Laverne J. Yettaw, son of Mr. and Mrs. Titus Yettaw, residents of Charlevoix and vicinity up to eight years ago, and well known to Charlevoix people. Laverne, who is a nephew of Benj. O. Yettaw of Charlevoix, was orderly to Chaplain Cronin, and is now in a hospital at Bordeaux, France, recovering from wounds received in battle. He says in part under date of December 22: "I am still at the convalescent camp waiting for orders to go back to my outfit. It has been rumored here for several days that we are about to go, but rumors in the army never get you anywhere.

"It is raining almost constantly here, and it's a rare day when the sun shines. We have had so much rain that the grounds where we are eneamped look more like the mud at the bottom of a river. One can't keep his shoes shined here. But I am making out well and am in fine health.

"I was recently made orderly to Father Cronin of Boston, Catholic Chaplain. I am grudually becoming accustomed to my duties as handy man about the room, etc. It's much better than having to stand guard duty in the rain and mud. And I know you will be pleased, because I have to be a good boy around the priest. But I have been pretty good anyway, but there is still room for improvement.

"Christmas is only about three days away and I expect it will be pleasant enough, but my next Christmas will be my best—back home with you.

"You will be glad to know that I have gained about twenty pounds since I have been in France. A soldiers life seems to agree with me, there seems to be something about it that builds me up. Tho special diets with lots of fresh air and exercise do the trick I think."

Following are extracts from a letter dated December 25: "Christmas has almost passed and it has been one of the best I could have had over here. I started the day by going to mass at eight o'clock in an unfinished building with bare walls. But it was the more impressive for that reason. After mass I carried the chaplain's grip to the hospital where a second mass was celebrated. There the boys decorated the altar and shack with evergreens and wreaths and it was very pretty. Father Cronin spoke about how much more like the original Bethlehem our celebration was, and the effect was wonderful.

"After that mass, we packed up again and went over to the German prison camp and Father Cronin said mass at 10:30. You should have seen those prisoners at mass—they put us fellows to shame. The chapel was beautifully decorated with trees and evergreens and above the altar was an electric star and grouped about it were lighted candles.

"We had a good dinner and the Red Cross gave us a pair of socks filled with eandy and cigarettes, and the Y. M. C. A. gave us the same, so we had a happy and merry Christmas.

SALOON POWER TO BE RESTOREO

(Continued from page one)

place, public or private (except licensed saloons or breweries,) to any boy or girl, jitney driver, locomotive engineer, electric motorman, member of fire department on duty, habitual drunkard, posted person, inmate of county poor houses, prisoner—inside of pail or prison, policeman on his beat, inmates of insane asylums or anyone else.

20. And such giving could not be stopped by punishing the user, for the use is made forever lawful by the proposed amendment.

21. Neither the legislature nor any municipal council, nor the people by any initiated state law or local ordinance could punish any person no matter what his employment, age or condition for accepting and using any amount of any of the named liquors at any time or place except in saloons and breweries.

22. It will be lawful—no one can prevent or punish—to place kegs of beer, ale, wine, porter or hard cider where anyone may get it on Sundays, holidays and election days.

23. The giving away of such liquors on trains, interurbans and at depots will be lawful.

24. No city or village could impose any regulation upon saloons, for the legislature only may pass laws upon such subject and its laws must be general—applying to the whole state.

25. A city or village could not by ordinance nor even by vote of the people collect any local saloon license fees.

26. Or regulate saloon closing hours.

27. Or the use of saloon screens.

28. Or the district wherein they could operate.

29. Or the custom of treating in saloons.

30. Or the cashing of pay checks in saloons.

31. Or the employment of girls therein.

32. Or the exclusion of dance halls in connection with saloons.

33. Inasmuch as the amendment provides no method of carrying into effect the last clause of the amendment to ascertain the will of the people in cities, villages and townships upon prohibiting the manufacture, sale and keeping for sale of vinous, malt, brewed or fermented liquors within such city, village or township, such clause will be ineffective till the legislature passes a law for holding such election.

34. If the legislature does not pass and put into effect a law licensing and regulating saloons by May 7th, 1919, then anybody and everybody may sell such liquors at any time or place (Sunday, holidays and election days included,) until such laws become operative.

35. Should such an interval occur, Michigan would be absolutely without any restriction or regulation on the sale or use of beer, wine, ale, porter and hard cider—the state would be wide open on those liquors in the widest sense of the word.

36. Before such law could be passed and put into operation, saloons could probably be established anywhere in the state, without any license or regulations.

37. Such liquors could be possessed in any quantity in private residences.

39. The manufacture, sale, keeping for sale, giving away, bartering, or furnishing of spirituous liquors will still be forbidden.

39. At an election April 7th, every registered elector, men and women may vote on the amendment.

SUMMING UP THE EVIDENCE

Many Charlevoix People Have Been Called as Witnesses

Week after week has been published the testimony of Charlevoix people—kidney sufferers, back-ache victims—people who have endured many forms of kidney, bladder or urinary disorders. These witnesses have used Doan's Kidney Pills. All have given their enthusiastic approval. It's the same everywhere. 50,000 American men and women are publicly recommending Doan's—always in the home papers. Isn't it a wonderful, convincing mass of proof? If you are a sufferer your verdict must be "Try Doan's first."

Here's one more Charlevoix case.

Rome Pappin, 117 E. Garfield Ave., says: "About three years ago I got wet while watching a fire and about a week later was on my back suffering from rheumatic pains. For eight weeks I was in such bad shape I could hardly move. My kidneys were weak and acted irregularly and the secretions were highly colored and unnatural. Dizzy spells came over me and spots floated before my eyes. Doan's Kidney Pills straightened me up in a short time, curing all the trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Pappin had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

GEIKEN TO OPEN NEW COAL YARD

Alderman From Third Ward to Embark in New Business

Alderman Geik C. Geiken of the third ward has leased a strip of land 75 feet long, north of the Charlevoix Elevator plant near the old sugar factory, and will erect suitable sheds to engage in the coal business.

Both hard and soft coal will be handled as well as wood. The location, on the Pere Marquette right of way, will allow him to unload directly from the cars to the sheds, doing away with unnecessary handling and expense.

Mr Geiken expects to be ready for business on or about the last of March, and will have an office on Bridge street for the convenience of his patrons.

GET YOUR CAR READY FOR SPRING USE

Don't wait until the approaching beautiful spring weather is here, with the roads in fine shape for driving, and then find that "flivver" badly in need of overhauling and repairing. The first drive of the year is the most enjoyable—especially if the auto gives no trouble. If your car causes you trouble, the enjoyment of the day is lost.

AUTO REPAIRING IS OUR BUSINESS

That's exactly what we have spent hundreds of dollars in equipment for. That's why we have a crew of expert repairmen on our pay roll. Their work is to put your auto in running condition. After an auto passes through their hands the many vexatious delays and troubles cease. When you "step on her" the car responds, and you can start out on a hundred mile run without thought of trouble.

Bring that car to us for a thorough overhauling right now. If it needs painting, we can do that too. Do it now before spring arrives.

PRISONER IN GERMAN CAMP

HUN STOCKADE NO BAR TO RED CROSS

Boyne City Boy, Prisoner in German Camp, Praises Work of Humanity

The greatest mother in the world did her work well not only on the battlefield and in the army camps but also in the prison stockades of Germany. Ray Roop of Boyne City, just back after sixteen months of confinement at Brandenberg, says if it had not been for the Red Cross he and the other American sailors and soldiers there probably would have starved to death or died from disease caused by malnutrition just as the Russians died by hundreds there monthly.

Ray's story is one of the most interesting any Wolverine has yet related. He was a boatswain's mate aboard the Cantana when it was sunk by a German sub in August, 1917. With five others of the crew he was taken prisoner aboard the sub while the others aboard the Cantana were set adrift in small boats. He and some of the other five spoke German, which may account for his having been taken in by the U-boat captain.

In 10 days he traveled 1,200 miles in the submarine to Heligoland and then was transferred to the German coast and taken to prison. On the sub he and the other Americans were well treated and well fed. They tried to be congenial and found the crew friendly. He states that two other ships were sunk by the sub while he was aboard it and says the Germans took great delight in their work of destruction.

They explained it was no worse than killing men on battlefields and that they were merely doing their part to help win the war.

There were no superfluous hammocks so the Americans had to use the crew's beds while the Germans worked. He said it was very depressing aboard the U-boat and that it kept submerged much of the time. The crew was well disciplined. The Germans declared that if the captain of a boat obeyed orders they would not sink the small ships, but that if the captain or crew tried any trick they would never see land again. The only way he knew two ships had been sunk was by the conversation of the crew as he did not get a peek through the periscope. He knew when the torpedoes were launched, however, both by observation and sound.

He remembered only the name of one of the boats, the Trentino, an Italian vessel. The crew was set adrift in small boats. He saw this ship go down as the sub came to the surface. One man from this ship was taken prisoner aboard the sub.

But the most wonderful experience of all, he said, was the receipt almost weekly of rations and clothes from the American Red Cross at Berne. Had it not been for these packages, containing sufficient food to last a week when the German soup and two slices of bread daily were added, he is sure he would have starved or lost so much flesh and strength he would have contracted disease.

He lost only about 10 pounds in the 16 months because the Red Cross packages contain generous quantities of good things. The Germans occasionally stole the packages and then he would be very hungry until the next one arrived. The other Yanks, however, would share theirs with him, but he ate very sparingly of their food.

At the prison camp he met altogether different treatment from that accorded him on the submarine. Here the German guards were beastly brutal. He has seen French, British and Russian prisoners shot, beaten to death, whipped, left standing in the cold with only their underwear on or otherwise mistreated for refusing to jump at some demand of a German guard.

Most of those who faded to obey did not understand German and the guards were well aware of the fact. In the coal mines men were worked 12 hours a day and longer and if they became weak or ill they were often abused for faltering.

The reason the Americans were not shot was because they understood German somewhat and were wise enough to obey most of the time. He has seen Americans, however, beaten with gun butts and kicked for practically no reason. But on the whole the American prisoners fared far better in treatment as well as food than those of other allied nations.

Roop says he was the happiest in his whole lifetime when the armistice was declared. He knew it by the difference in treatment accorded the prisoners. Two months ago he was released from prison and recently arrived at Wildwood Harbur to visit his mother, Mrs. Catherine Roop. Next week he returns to Brooklyn navy yard to resume his duties.

He is 27 years old and appears well and happy, but has a sadness in his voice which even the joy of home cannot eradicate. He says 16 months in a cootie-infested, disease-infested prison camp with nothing but hard work or death staring one in the face is enough to take the joy out of any one's life—Grand Rapids Press, by J. A. Gary.

STOP CHILDREN DRIVING AUTOS

ONE OF THE MANY NEW BILLS PRESENTED

Terms of Measure Proposes That Children Under Sixteen Shall Not Set Behind Wheel

A bill that has been introduced in the legislature will, if it is passed, greatly circumscribe the activities of youngsters in automobiles the coming summer. Instead of sitting behind the steering wheel and running the machine as so many of them have done, they will have to be content with the role of passengers, as under the proposed law they will be liable to arrest if they essay the role of driver. The law also provides for cancellation of drivers' license, in the event that there is any infraction of the road rules. There has been a considerable demand for some time for a measure along these lines, and there is said to be an excellent prospect that one will be passed.

One of the features of the bill provides for the taking out of the hands of police authorities the revocation of licenses, which will be ordered by the secretary of state. Justice and higher courts will be called upon immediately to forward information of cases to the secretary of state. A suspension of license for thirty days following a first conviction after giving the offender a hearing is provided, and a second hearing may be required before a new license is issued.

Children at an early age are eager to learn how to drive the family car and there is a growing belief that parents are too ready to encourage the juveniles so that accidents occur where a driver of more mature years would avert the crash. For this reason licenses would not be issued to persons under 16 years and drivers between the ages of 16 and 18 must prove by actual test their ability to operate automobiles. Applications for licenses must be filed with the secretary of state accompanied by a fee of 50 cents.

No license will be required of non-residents provided they comply with traffic laws.

"The age limit for procuring a license is a feature of the bill, which should have the support of motorists," was the comment of a Charlevoix motorist yesterday. "Parents wish to be stern in denying their children the ambition to learn how to drive a car but too often we are swayed by the appeal of the child. This has been true in my own home and the same can be said for others. If there was a law against this practice the pleadings of children would have less influence. It is a very good way to help reduce the number of automobile accidents."

Coal Rebate Ready

December 1917 the U. S. Fuel Administrator for Michigan overcharged us 75 cents a ton on two cars of coal which we were obliged to sell for eleven ($11.00) a ton. The fuel administration are now rebating the amount of the overcharge to all who purchased any of this coal. Mr. R. C. Hammet, County Fuel Administrator, has left the checks with us to be given out. WHAT ARE RED CROSS FUNDS FOR?

MYRTLE KISER AFFAIR BRINGS FORTH CRITICISM

Donors and Workers for Relief Fund Believe Money Can be Used for Beter Purpose Than Utilized

We are reliably informed that the defense of Myrtle Kiser, the Boyne City woman found guilty at the last term of court as an accessory to a statutory offense involving a thirteen year old girl, was financed by funds to the extent of $200 furnished by a branch or adjunct of the American Red Cross through the recommendation of the local man in charge.

We understand that this fund was created to assist the dependents of men in the service. It is now reported that this fund is about to be drawn upon to enable this woman to perfect an appeal to the Supreme Court.

Ye Gods on High Olympus. Can this be true? We have no fault to find with the expenditure of a reasonable sum to enable the woman to employ counsel to present her case to the jury in a proper way, but when this has been done and the jury, after a fair and careful charge by the court, has found her guilty of a charge which involves unfaithfulness, to state it mildly, of an absent husband, we think the duty of the public ends absolutely.

Was such gross error committed by Judge Mayne in submitting this case to the jury that there can be doubt of the woman's guilt? If there was, we believe Judge Mayne can be relied upon to grant her a new trial. We ask this question. Are the funds, or any part thereof raised by the patriotic women and men of America after so much hard work and so many personal sacrifices to be expended to enable any person to obtain a reversal of verdict on technical grounds? No reversal can ever alter the verdict of that jury. It will stand as the opinion of twelve men who heard the facts.

The sickening details of that trial were enough to make every decent man and woman shudder. It was a rotten mess than stinks to high heaven and before any more of the people's money is expended to prolong the litigation, we think something more than the opinion of one man, who did not hear the testimony, and who knows nothing of the true facts, should be taken and the public consulted.

We hope that the report is not true, but there is only one way, it seems, to find out and that is to ask the autocrat to make an explanation. If this dispenser of the funds knows, we wish he would take the public into his confidence.

MAY BE WORSE THAN BARGAIN SALE

Voting Booths May be Badly Congested on Election Day

"If the women of Charlevoix persist in voting on primary day during the same hours they have appeared for registration, the scramble to get a chance to vote will be equal, if not worse, than a bargain day sale in a big department store," says Deputy City Clerk D. S. Paynn.

During the time previous to the closing day for registration, hardly a half dozen women appeared during the forenoon—all waiting for afternoon calls. By primary day fully 400 will have registered, and imagine, if you can, the scramble to vote if they postpone their voting until the afternoon hours.

Of course, they will be given the preference, but at the same time the men want to vote and should have the opportunity to do so. Possibly the men folks will take the hint and vote during the forenoon, giving the ladies the afternoon, but we doubt it.

Women voters should bear in mind that the entire vote cannot be cast during the hours of the afternoon and act accordingly. Better arrange the housework so that it will be possible to cast your ballot in the forenoon—as many as can at least. But bear in mind, all cannot vote during the afternoon, and make it a point to cast your ballot as early in the day as possible.

J. Leahy, the optometrist, will be here again on Monday, February 24. 7t2.

DON'T DODGE INCOME TAX

HOW UNCLE SAM DEALS WITH TAX DODGERS

Better Attend to This Matter at Once or Tax Man is Likely to Pay You a Visit

How does Uncle Sam deal with tax dodgers. This inquiry which was prompted by the severe penalties provided in the new revenue bill, has brought from Commissioner Daniel C. Roper a frank statement as to the Internal Revenue Bureau's attitude toward those who attempt to evade taxation.

"Any person who deliberately conceals tax liability, or who falsifies a return in order to reduce or evade any internal revenue tax, or who deliberately abets such concealment or fraud, finds arrayed against him the entire strength of this bureau pressing for the full civil and criminal penalties. That is the attitude toward the tax dodger, expressed in one sentence. Whether he is a moonshiner, a stealthy trafficker in habit-forming drugs, or juggler of income figures, a delinquent in making the sworn return the law requires, or a revenue violator of any kind, the bureau is charged with the duty of hunting him out and exacting the full punishment provided in the law.

"Towards the taxpayer who means to comply with the internal revenue laws, fully and honestly, the bureau extends a helping hand. Co-operation with the taxpayer is our watchword and objective.

"These two contrasts—the teeth of the law for the tax-dodger and the violator, and the aid of every lawful agency for the voluntary taxpayer—are policies necessary to the administration of tax laws under modern conditions.

"One of the most difficult of the many problems in tax collecting is to classify those who fail to fulfill the obligations imposed by law. The bureau is obliged to maintain a large staff and to use the utmost discretion in properly labeling these cases. Even handed justice is a heavy responsibility, and only through careful siftings can deliquents be classified.

"There are three distinct classes of delinquency with which we have to deal. First, the taxpayer who had reasonable cause, brought about by exceptional conditions beyond his control; secondly, the fellow who didn't look up or didn't realize his obligations; and thirdly, the person who willfully evaded compliance with the law.

"As for the man who shows a reasonable cause within certain lines, established by the bureau, no penalties are asserted.

"All other delinquents are more carefully investigated before prosecution is begun. Many of these offenses are caused by ignorance and negligence. Failure to make the reports required by law may in some cases warrant severe penalty, as where the delinquent continues his delinquency after being warned of the penalty for failure to make return. However, if the delinquent takes immediate corrective action, and it is clearly established through investigatinn that he did not wilfully violate the law, the bureau allows him to compromise his liability to specific penalty by tendering a nominal sum of money. In such instances the money is not really in compromise but assessed to impress the taxpayer against future violations.

"But there is no relief, no compromise, for the man who wilfully evades, wilfully neglects, or wilfully falsifies. He is classed with other lawbreakers in the eyes of the bureau, and is vigorously prosecuted in the courts. No other course is open to the bureau, in meeting fairly and squarely the demand of the willing taxpayer. 'I will—the other man must.' There is a solemn responsibility thus existing between the honest taxpayer and the bureau to locate and punish the dishonest tax-dodger.

"For a decade the drift of Federal taxation has been from the indirect tax toward direct payment by each citizen and resident of his just share of the cost of government. Gradually the circle of direct taxpayers has been increased and under the new revenue law the extension will include hundreds of thousands who never before filed declarations with the government.

"We are therefore now come to another milestone in nation progress. We approach a new test of the soundness of American ideals of a government of, by and for the people. The test is whether our wonderful victory of liberty is worth the cost as apportioned to the private pocketbook by the people's representatives.

"It is such a big thing, this collection of taxes directly from private funds and business funds, that nothing short of our best American co-operative effort can make it successful and hence just. The bureau seeks this co-operation of the people in collecting the revenues. It has never been denied or stinted; anything less than the great, voluntary outpouring of shares in the national assessment is unthinkable.

"And it is such a big thing that the willing taxpayer must have the guarantee of this bureau that the laggards, the jugglers and the violators will not escape taxation and penalties. The bureau is fulfilling its part of this contract with the people—this contract that means so much in the practical, effective and just administration of the Internal Revenue laws."

DEATH AGAIN ENTERS HOME

FATHER CALLED FIRST, THEN THE MOTHER

Deadly Ravages of Spanish Influenza Takes Mr. and Mrs. William Nowland—Case Pathetic One

The deadly ravages of influenza was never so fully realized in this city until the death of Mrs. Will Nowland, which occurred Monday at midnight, just six days after the death of her husband.

Mr. Nowland died on Tuesday night of last week and funeral services were held from the house Thursday. During the afternoon of the day of the funeral, Mrs. Nowland put the house in condition for fumigation, and with her children and sister, went to the home of Richard Lewis to stay overnight. She complained of feeling ill about five o'clock in the afternoon. At nine o'clock she was that ill that it was necessary to carry her to her room. By morning she was in serious condition and lingered along until death relieved her of her suffering at midnight Monday.

Myrtle Isaman was born in East Jordan, August 1881, and lived there until her marriage to William Nowland, September 26, 1905, when they moved to Charlevoix, where they have since made their home. She leaves three children and five sisters, besides a host of friends who will miss her as a neighbor and companion.

Private funeral services will be held Thursday morning at 10:30 from the Lewis home on Clinton street, Rev. Henry Candler of the M. E. church officiating.

PIGGOTT FAMILY VICTIMS OF FLU

Four Have Died and Five Now Ill With Dreaded Disease

Few homes in Michigan have been stricken by Spanish influenza with its resultant death toll as that of William Piggott of Echo township, southwest of East Jordan, in Antrim county.

Practically the entire family of thirteen were afflicted with the epidemic. Mrs. Martha Piggott, aged 40 years, passed away Monday, February 10. On the following Wednesday, only two days later, the father, William Piggott, a son, Richard, aged five years, and a daughter, Martha, aged two and one-half years, died from the same disease.

Five of the remaining children are confined to their beds with the disease, but with fair indications of recovery. The infant child, who has been very ill, now shows indications of recovery.

Funeral services were held for the father and two children on Thursday afternoon of last week, and that of the mother the day following her death.

Lady Washington Supper

A "Lady Washington Supper" will be served at the Congregational church next Friday evening, from 5:30 o'clock, until all are served. A good supper and a good time at the "Friendly Church," for 35 cents. The public is invited 8t1

GREATEST HIGH-WAY DEVELOPMENT

PLANS OUTLINED FOR MAIN ARTERIES IN MICHIGAN

To Be Completed at an Early Day —Both Nation and State Will Help

First—Shall the state relieve the counties from further construction and maintenance of main or trunk line highways and carry on an early completion every missing link?

Second—Shall further cost of construction and maintenance be divided upon a graduated basis between the state and counties or between townships and counties where no county road organization exists?

Third—Shall the relief so afforded to county organizations operate in a more rapid extension of local roads?

The voters will answer yes or no at the coming April election.

Recent legislative action allows the voters at the next election to amend the constitution of the state permitting the issue of bonds to the amount of $50,000,000 for the improvement of highways. When the matter was brought before the legislative bodies not a dissenting voice was heard nor an adverse vote cast, but on the contrary great interest in the proposed plan was manifest; to accomplish the action outlined in the preceding questions the necessity for a bond issue is plainly apparent. It is not proposed to issue these bonds only as needed the amount being considered adequate for years to come.

Another strong reason presents itself for a state bond issue, lies in the fact that no federal aid is granted to any state, which does not guarantee the expenditure of a like amount upon every road project.

It is not over optimistic to say that $100,000,000 per year for the next five years will be the minimum that the government will distribute to the states for the building of highways; Michigan's total share is estimated from 15 to $18,000,000 for the full five year period. The Secretary of Agriculture and the State Highway Department of each state are given authority to designate the roads upon which federal aid may be given also the character and method of construction. Federal aid is what we have been demanding for years; it came at last and we are getting our proportion by putting up dollar for dollar or an amount equal to the government's grant. From the first federal money granted to the state, Michigan received $150,650 for 1917 $301,300 in 1918; $451,900 in 1919; Michigan will also receive $612,600 for 1920 and $735,250 for 1921.

If the bond proposition is endorsed by the voters of the state which we believe is now a foregone conclusion, Michigan's annual federal share coupled with our own state funds will not only relieve each county from a heavy burden, especially where trunk lines have not been built the cost of upkeep of all trunk lines will be reduced to each county, fully one-half, leaving the county and the township organizations to complete roads of local character. This is what we have been waiting for, viz: an early and full completion of main lines, that local lines may receive greater consideration; motor trucks and motor roads must penetrate every farmer's dooryard.

From recent indication it is not unlikely that roads of national importance will be so designated by the government and receive early attention.

An outline of the aims and purposes as seen by men who are in touch with road matters leads us to believe that we cannot go astray in co-operating with those departments higher up, who clearly see the coming of a greater and better system of highways embracing the remote districts as well as the more populous" sections.

Glassford Withdraws

Frank M. Glassford, whose nominating petition for alderman from the first ward was filed during his absence from the city, has withdrawn from the race, leaving the field open to Clarence F. Wood. Mr. Glassford has served two years on the council, and figures he has done all that could be asked of him in this line of public duty.

Taming a bolsheviki by feeding him is a good deal like calming a wildcat by stroking his fur.

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

The Cheboygan city council alsn finds itself out of funds several months in advance of tax collection time. The city clerk and mayor have been given power to borrow $5,000 to tide the city over.

Harry Williams of Mancelona had his new invention, an aero auto aleight out, and has proved that such a machine will run. It has four runners and is propelled by an aeroplane propeller. He has made a record speed of 20 miles per hour and will, in a short time, have the machine perfected so as to make better time. Thia is the first of it's kind in these parts or even in the state. Harry will soon have a nation-wide reputation as an inventor.

The annual salary of the president of the German republic, elected last week by the national nssembly at Weimar, will be limited to $1,000,000 marks ($250,000), according to a dispatch from Berlin. The president will reside in Berlin. He will select his executives from all parties.

One place in which the American troops demonstrated that the Indian method of fighting is superior to Hun strategy was the Argonne forest where many Michigan men in the 32nd division were killed or wounded. The fighting is described by Private Frank Liebfried, 131st infantry, who was wounded in both legs and the right arm by shrapnel in the battling in the woods and who is at Camp Custer. Liebfried was with the 33rd division, which, with the 32nd, had a big share in that fight. "We had trees to hide behind," declared Liebfried, "but there was a lot of underbrush in which German machine guns were concealed. And the Germans were hurling shrapnel into our lines most of the time. It was necessary for us to move our positions almost every night to fool them. And talk about camouflage—there was a camouflaged German in almost every tree. I guess that Argonne battle was the nearest imitation to hell that we got into."

The United States Lake Survey reports that in January Lakes Michigan-Huron were 0.25 foot lnwer than in December, 0.63 foot higher than a year ago, 0.95 foot above the average stage of January of the last ten years, 1.87 feet below the high stage of January 1886, and 1.72 feet above the low stage of January, 1896. During the last ten years the January level has averaged 0.2 foot lower than December level, about the same as the February level.

But why wish it on the fish? Judge Collins of Owosso, made an order directing Sheriff Sproule to publicly destroy 128 pints of whiskey at 10 o'clock Saturday morning by pouring it into the river. This is probably the first time a Michigan court has fixed a time and place for the destruction of liquor. It was done at the request of the sheriff nnd prosecutor.

John L. A. Galster of Petoskey has been named a member of the Michigan fish commission, his appointment hnving been announced Friday in a message from Governor Sleeper to the senate. The appointment will be confirmed by that body next week and Commissioner Gnlster will then take his position as a member. The Michignn fish commission has charge of all of the state fish hatcheries and the planting of spawn. With years of experience as n fisherman and hunter, Commissioner Galster was selected out of many applicationa by Governor Sleeper as the proper man for the place. At present the offices of the commission are in Detroit. The appointment of Mr. Galster has pleased many northern Michigan sportsmen interested in the future of the finny tribe.

A Mancelona News item says: "A recent religious revival at Antrim gathered in so many women converts that it nearly broke up the regular Saturday night dance, making a scarcity of women for partners for the men.

Returned soldiers must doff their uniforms at once and will not be permitted to wear any part of them while seeking employment, Lieut. Edwin N. Ames, military police officer at Fort Wayne, announces. The war department has decreed that enlisted men and officers discharged from military service must not wear the regulation clothes when not in performance of their duty. This rule Lieut. Ames says, supereedes the regulation which permitted enlisted men to wear their uniform thirty days after discharge from service. Soldiers mixing parts of the uniform with civilian clothes will be liable to arrest, Lieut. Ames says, and persons or concerns persisting in selling uniforms to such soldiers, after having been warned not to do so, will be punished.

According to the Kalkaska Leader Armond Kellar, for sometime fireman on the Pere Marquette train running between there and Kalkaska and at that time a resident of Elk Rapids, killed a timber wolf near South Boardman a few days ago. The Leader says, "It is believed to he the only grey timber wolf ever killed in Kalkaska county."

Traverse City claims that when the Farmers' Co-operative creamery in that city opens this spring it will be the largest institution of its kind north of Grand Rapids. It will turn out five tons of butter and 1,000 gallons of ice cream daily.

The Libby, McNeil & Libby packing company of Chicago, who have a pickling station at Central Lake, will very materially enlarge their plant before the 1919 season in antieipation of increased business.

Some of the boys from the 85th division which left Camp Custer for France and Russia last summer, are returning with wound stripes to find they have made a nickname for themselves while they have been absent, and all because of the fact that when the 85th reached France it was used ns a replacement division, most of its men being transferred to other units. "We went over as the Custer division," grinned one of the 85th boys in the convalescent center, "and now they call us the Birdshot divlsion—because we were scattered so well."

Henry E. D. Matthews, one of the most prominent farmers of Alden, was killed last Friday when his coat caught in the governor of a gasoline engine operating a saw, whirling him around and crushing his skull against a wheel of the truck that carried the portable machine. He was a pioneer of Alden.

Thomas Proctor, John St. Peter and Warren Birdsell, of Bois Blanc island, were rescued from drowning Friday at Cheboygan by a gang of Michigan Central section men, when the thin ice in the straits broke up under them during a high wind and left them in water and on small ice floes. The railroad men laid a plank bridge to the drowning men in record time.

Elton Hartier, styling himself as formerly connected with the aviation department of the Canadian army, is being held by Boyne City officers on a charge of evading a hotel bill. He said he has been interested in seeuring options in Boyne City and surrounding territory on any property offered for sale and his stories of the flying squadron always found him a willing audience.

Good Will Given a New Impetus

A statement of Dodge Brothers war activities is due the owners of their cars.

Dodge Brothers refrained, during the progress of the war, from any reference to the performance of the car in Government service.

It seems proper now, however, to disclose the facts, because they are unusual facts—intensifying that good will which owners of Dodge Brothers Cars have always manifested.

Dodge Brothers car was the only one of its class approved and adopted by the War Department.

In a separate Ordnance Works, built especially for the purpose, costing millions of dollars and employing thousands of their skilled motor workmen, Dodge Brothers undertook an important duty designated by the War Department.

Without the aid of their great motor organization, Dodge Brothers could not have fulfilled the heavy obligation which they were asked to assume by the Ordnance Department

The other service required of Dodge Brothers motor works, by the Government, was to continue to furnish their cars as they were needed.

They *were* furnished, not in hundreds, but in thousands—both for the training camps here, and for service in Belgium, France and Italy.

The record of those thousands of camp and army cars is one in which any owner may feel the utmost pride and satisfaction.

Their performance justified the compliment implied in their selection by the Government.

The great works in which nearly three hundred thousand of their cars have been produced in the past four years furnished a vast store-house of human energy and equipment for the ordnance work.

Naturally, it will take time to adjust the motor works to its full accustomed activity.

Gradually Dodge Brothers will resume the grateful task of continuing to deserve the good will of America—and indeed of the whole world.

Dodge Brothers consider good will their most valuable possession.

They will never knowingly do anything to lessen it.

To the Voters of Charlevoix County:

I am a candidate on the Republican ticket for renomination for the office of the County Commissioner of Schools and would like to meet the voters of the county personally as I did many of them four years ago for I thoroughly enjoyed the campaign. However the duties of my office are heavy and I am now organizing the spring work of the rural schools which I love. It will therefore be impossible for me to meet many of you at this time but I shall none the less appreciate your support at the primaries March 5th. If re-elected I shall endeavor to show my appreciation to you by continued effort in your behalf. Very truly yours,

Entered at Charlevoix Post Office as second clnss matter.

There were three million wage earners out of work in the United States before the war began under the existing tariff law, which fosters foreign nnd discourages domestic peace-time production and employment and there will be four or five million men out of work under the normal operations of the law, if it is not repealed before 1920, because while we have turned our attention to war production the alien producer has grabbed our markets. The alleged statesmen who overlook this overshadowing faet are sowing wind from which this country may reap the whirlwind.

Henry Ford in advice to boys in a current magazine, tells them not to be too keen on getting a bank account but to invest their pennies in good hooks and "bits of mechanism." What does he mean "bits of mechanism?" Trying to advertise, Hen?

Nowadays the fellow who is caught with a half pint in his pocket only gets a three line paragraph in the police notes. A year from now he will get a streamer at the top of the front page.

British dispatches say England will not go dry for another generation. Pretty soon the boys will be organizing week end excursions to Liverpool.

"Republicans win in Portugal" says a current headline. It seems to be world-wide.

Does the faet that Paderewski has taken charge indicate that Poland is going to have a Jazz government.

Congregational Church

The pastor's theme next Sunday morning will be "The Enlargement of Life." Bible school at noon. A service for everybody, under the direction of the young people at six n'clock.

Interest in the Men's Class is steadily growing. Mr. E. E. Cross is the enthusiastic leader. The men have a room entirely to themselves, where a cordial welcome is waiting for every man who does not belong elsewhere. The hour is twelve o'clock.

The evening young people's service is growing in interest and attendance. Last Sundny evening the meeting was led by Mrs. Saltonstall and was exceptionally interesting. These meetings are not for those who are young in years exclusively, but for everybody. You are invited.

The midweek meeting which has been held at the parsonage during the winter months, will soon be transferred to the church. This is a meeting which deserves a more loyal and general support.

Baptist Church

Services in Baptist church next Sunday as follows: At 10:30 preaching subject: "Keeping the Sabbath." Sunday school at 11:45. B Y P. U. at 6 p. m. Preaching at 7. Prayer meeting Thursday night. We are pleased to see a gradual increase in the nttendance in the Sabbath school still there is room for more.

Snce the beginning of the B. Y. P. U. contest the attendance has about trebled. The more the merrier. So come on. Chas. A. Rice, Pastor.

Sneathen-Kennedy

Guy W. Sneathen, son of Mr. and Mrs. Frank Sneathen of this city, and Miss Margaret Kennedy of Boyne City, were united in marriage at the home of Mrs. John Tompkins of Boyne City, February 6, by the Rev Henry Candler, paster of the M E church of Charlevoix. The young couple will operate the farm of the groom's father in Hayes township

PARENTS HEAR FROM JOE POWERS

Wounded In Aetion October 18, Degree Undetermined

Wnrd has been received by Mr. and Mrs. Alonzo Powers, now living at Nashville, Tennessee, from their son Joe, from whom they have had no message from since September 25. Mr. Powers writes the Courier as follows:

"We have received word from the war department today (February 13) that our son, Joe, had been wounded in action October 18, 'degree undetermined.' We have had no word from him since September 25, so have completely lnst track of him.

"I thought his many friends ln Chnrlevnix would like tn know if we had heard from him, so am sending this information to you."

Joe left Charlevoix during the summer months, about the same time as Allan Shapton and Joe Holecheck. For n time his letters were received and then nothing was heard from him until the date mentioned above. Outside the message received on February 13, no information as to his location or condition has been received.

WHAT IS TO BE DONE TO BE A "GOOD CITIZEN"

It is essentially easy— no difficulty about it.

1. Understand that Saving and Thrift are positively necessary for the well being of the government
2. Realize that YOU are a part of the government.
3. Fix clearly in your mind that what hurts the government must harm you.

After these fundamentals are well defined in your mind the battle is half won. Then only three things are left to do:

1. Make up your mind to SAVE a certain amount of money out of your income.
2. Save that definite amount before you do anything else with your pay.
3. Spend what you have left to the best possible advantage—sensibly. One dollar starts an account at

COUNTY AGENT JOB IN THE AIR

Must Have Approval of Voters Before One is Engaged

For some time past there has been a question in the minds of some Antrim county people as to the legality of the hiring of a county agricultural agent by the board of supervisors, not authorized by a vote of the people. Evidently there has been the same question raised in other counties if we can judge by the following clipped from a state paper of recent date.

"A sensation was created at Cheboygan by the announcement of Prosecuting Attorney McPhee that Cheboygan county's farm agent for five years have secured their appointments contrary to law because the matter has not been sanctioned by the voters."

He also informed I. B. McMinty, who has held the office the past year and was a candidate for reappointment by the board of supervisors for another year, that he is out of a job and that the office will not be filled until the matter of employing a farm agent has been voted on by the people.

ARE YOUR KIDNEYS WELL?

Many Charlevoix People Know the Importance of Healthy Kidneys

The kidneys filter the blood.
They work night and day.
Well kidneys remove impurities.
Weak kidneys allow impurities to multiply.
No kidney ill should be neglected.
There is possible danger in delay.
If you have backache or urinary troubles.
If you are nervous, dizzy or worn out.
Begin treating your kidneys at once;
Use a proven kidney remedy.
None endorsed like Doan's Kidney Pills.
Recommended by thousands.
Proved by Charlevoix testimony.

Mrs. Morris Ackert, 1101 Bridge St., says: "About two years ago I was troubled with my back and kidneys. My back became weak and lame, causing my housework to be a burden, especially if I had to stoop over. Doan's Kidney Pills had been used in my family with good results so I tried them. Doan's soon relieved me and before long rid me of all the annoyances."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Ackert had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

Prisoners captured—40 officers, 2,113 men. Guns captured—21 pieces of artillery, 190 machine guns Total advance on front line, 36 kilometers.

Insignia—Barred arrow of red, chosen because they shot through every line the Boche put before them.

Oh, January!

Now, farewell to thee, O Janus,
Fare ye well before you skid;
You're not the cold detain us—
Put'er there, old Two-faced kid.

You, who only deal in freezing
Days and nights and blizzards tough,
Proved this year you could be pleasing;
Though you did steal April's stuff.

Only dealers, "Ice and Fuel,"
Think that you have been a prune;
Sure, to them you've acted cruel
With your warmth inopportune.

But about them we should worry,
Think of all the dough we save—
Say, Jan! Tell young spring to hurry
Make your brother Feb behave.

Boreas, we know, could pain us,
Should you choose to let him blow
So farewell to thee, O Janus—
Sorry Kid, to see you go

"LIFE"

Sad Case of William J. M'Ginty

Young William J. M'Ginty was n
most peculiar man,
He built his public life upon a most
peculiar plan;
He seemed to have an idea in that
round and stubborn pate
That voters had a say so in all mat-
ters of the state.
"The mandates of the people should
at all times be obeyed,"
Spoke Alderman 'M'Ginty, who was
true and unafraid,
So off he went to Washington to fight
the peoples fight;
To take his seat in congress and be-
come a Guiding Light.

Devotion such as William J.'s is
shown by very few—
As congressman there wasn't any
task too hard to do;
He wasn't ever interviewed to gain
publicity,
He served no private interests, ns
strange as that may be.
He didn't gum the mails by franking
Records by the score,
He never waxed facetious when he
spoke upon the floor;
He seemed to have the idea he was
serving folks at home;
And studied national problems from
Key West clear up to Nome.

He didn't send the farmers seven
grains of yellow corn;
He wouldn't talk even about bird
life around the Horn;
The wny the people wanted him to
vote, that's how he did,
His conscience gyroscopic was, his
brain was stamped "Nonskid!"
Yes, Congressman M'Ginty proved a
very able man,
In Washington they thought he was
the leader of his clan,
And when the next election came the
race was very hot,
They sent him back to congress, did
they not? They did—did NOT!

"I'll Say It Was"

When Omar twanged his ukelay,
The Wise Old Bird knew what to say
He knew that Life at best was
tough,
And so he pulled that well known
bluff
About just living for Today.

As to the future of our Clay,
He didn't worry himself gray;
A loaf, a jug of wine—enough!
I'll say it was.

Could Omar's teachings only stay,
One wouldn't even have to pray;
There'd be no need of law's re-
buff.
Utopia? We'd have that stuff—
But Booze was leading us astray—
I'll say it was.

There is no reason why "Drink to Me Only With Thine Eyes" should return to popularity. That's the only way Michigan has been drinking for the last nine months and the eyes are holding up pretty well under the strain.

To and From

The seasons follow
And endless chain.
Skeeters to sknters
And back again.

And the soldiers come back
To their native shore—
Cooties to cuties—
And leave no more.

While over there
What was their lot?
Billet to bullet,
And maybe shot.

Can You?

Can you tell me where the units of the army overseas
Are located? Can ynu tell me when they're coming homeward, please?
Can you ease my mother's worry, can you now ally my fears,
Can you tell me who the cook is of the Seventh Engineers?
Can you tell me if the sergeant of the Second Q. M. C.
Is on duty now in Paris, and if not where can he be?
Why should some divisions come home while the others stay behind
Tell me why I've had no letters since the armistice was signed?

Can you give me information of Trench Mortar Corps 10?
Private Simmons, is he slated for a convoy? If so, when?
Where is Base Hospital 40? Do you know the nurses there?
Give me detailed information and the colors of their hair!
What does A. P. O. and "train" mean? What is meant by C. A. C.?
What's an anti-craft squadron? What promotion is K. P.?
Do you think the troops in Russia will be mixed up in the fight?
Where's the Ninth Replacement unit Are the Signal squads all right?

Can you tell me? Can you tell me?
Tell me kindly, won't you please?
Where the companies, corps and units are located overseas?
When the troops, brigades, battalions, when the Red Cross and the Y,
Will be leaving foreign harbors? Can they leave there if they try?
Can you tell me if my brother ever got his Christmas box?
Why did not my former sweetheart ever get the knitted sox?
Can you tell me? Can you tell me?
Thank you, thank you very much!
Tell me where the A. E. F. is? Seems I'm rather out of touch.

"Do you really want this info?" asked the weary answer man,
Whereupon the merry questioners said "No!"
"We are merely asking, trying to discover if we can
Just how much about the stuff you really know!
But there is just one question more;
Can you tell us? Please don't get sore?
It seems that after all this shot and shell
That Kaiser Bill ought to go to H—
CAN YOU?

HOPYARD

Mid-year exams are over. Most all did very well.

The little people have been making "our flag" and the flags of the allies.

A part of Friday afternoon was spent in making valentines after which a postmaster and several rural carriers were elected to distribute the mail. Everybody received something, and all enjoyed a good time.

The Lincoln exercises were greatly enjoyed by the children, as the ladies of the neighborhood pleasantly surprised both scholars and teacher by attending and bringing several goodies to eat. Thanks to the ladies. We hope they will come again.

EAST CHANDLER AND THUMB LAKE

(Too late for last week)

Carl Clark was in Vanderbilt on business last Wednesday.

Wm. Hughes and son, Russell, spent Saturday and Sunday at their home here.

Carl Clark and mother were visitors Sunday at the home of Mr and Mrs. Lynn Clark of Clarion.

Just ask some hunters in West Chandler for their "Clinker pancake" recipe if you wish to conserve foodstuff.

Harry Smithengell, who has been at Camp Custer for some time, having received his discharge, returned to his home here Wednesday of last week.

SCHOOL COMMISSIONER'S NOTES

Township teachers' meetings during the past two weeks were held in Bay, Boyne Valley, Eveline, Evangeline, Wilson, South Arm, Marion, Norwood, Hudson and Melrose. Miss Redfield, temporary chairman in Hayes, has been ill and the meeting was necessarily postponed. Chandler and Big Beaver not yet heard from. The teachers conducted the meetings themselves without the attendance of the commissioner and the suggested schedule was adopted almost without exception, although complete returns are not yet available. Names of chairmen and committees appointed will be printed as soon as the line-up is complete. Our rural schools have a live wire corps of teachers organized and at work. Watch for the results this spring—interesting and the best yet.

Plans are under way also to do something substantial for our county school system in Educational Hall at County Fair grounds in September. Two townships have already nobly responded and one city superintendent to whom the plan was mentioned incidentally said: "We'll help, too. Sure we will." And it is too good to be true and we can't tell you yet but later watch for the good news, sure and definite.

Attendance greatly improved throughout the month. Better health conditions and open roads give us an unusually fine February attendance. Several schools reporting "no absence during the past two weeks."

Springvale and Maple Grove have joined the Hot Noon Lunch list. Springvale will no doubt organize under the M. A. C. plan as have Ranney and Burgess. Bay Shore handicraft club doing finely. State leader expects to visit them this month.

INTERESTING LETTERS FROM OUR SOLDIER BOYS NOW IN THE SERVICE

Sgt. Robert Jones' Name Sent in for a Distinguished Service Medal—Claude Volkert Still in Paris—Louis Adams in Hospital in France—Expects to Leave Soon

From Sgt. Robert Jones

Horhausen, Germany,
December 28, 1918.

"Dear All—I received your letter today and also the bundles of papers. Was more than glad to get them as we have some time to read now. Am in the very best of health and hope that this finds you the same.

"We had a good Christmas dinner, roast pork, gravy, mashed potatoes, bread and butter, pickles and beets. Christmas forenoon I went hunting, as we had a good snow storm, with my 75 autumatic pistol and came back in about three hours with a nice young deer. Got him on the run and shot him right in the shoulder. The next afternoon Harry Beuker and I took him to n house and had him roasted and had a good feed for eight of us.

"Last night we went to a Y. M. C. A. movie and it was great. The weather here is quite wet. Am very glad mother that you sent thnt box and expect to get it in a few days now as I have your letters of November 27 and 29.

"That piece of pink I sent with the coupon was out of a German Boche. I sent it right from the first line at Argonne and the bullets were very thick when I wrote thnt letter. My name went in again the other night for a distinguished service medal, that is the third time it has been sent in. I wrote a letter to Vern the other night, but drop him a line and tell him to quit fighting for a cup as that is all foolishness. Tell him to light the dutchmen, as there was lots of it here to do. I got plenty of it while I was here, but am ready for more any time Uncle Sam needs me.

"Tell Dad not to worry about my keeping a stiff upper lip, that I have had one for the past nineteen years. You say that Vern weighs 180. That will be a lazy job for me to pile that much weight on when I get home and hope that will be in the next few years. Well mother must close as I want to write to others. Love from your son, Sgt. Robert Jones, Hq. Co. 125th Inf., A. R. O. 731, American E. F.

From Claude Volkert

January 9, 1919

"Dear Uncle Dick—Have not heard from you in quite a while, think about a month. Suppose you are busy as usual and hardly find time to write.

"I am in Paris as when I last wrote you. Five boys from my section are here while the rest of the section is in Menbaden, Germany. I received a letter from one of the boys yesterday saying that they were having a fine time and very little work.

"There is very little work for any of the section now, but will have to stick around as long as any of the armies are in the field. Have not heard anything about our service saling for the United States, but do not think that I will get back before spring. I see by the paper that 300,000 per month are to be sent home as soon as the word is given. Perhaps the starter has a cold and will not be able to give the word for a few weeks.

"I think that Paris is a wonderful city, but just for a change now I think that Charlevoix or Grand Rapids will be just as wonderful. In Paris you are able to have a good time if you have money, but when you haven't you're lost. Most of us are lust part of the time.

"Everything of course, is much more expensive than before the war, and everything that seems excessive in price is attributed to the war, and so you may know that the war is responsible for many things.

"Moving pictures are two and three francs on an average and other shows in proportion. A glass of beer is usually a franc, two on the boulevard. It would seem mighty good to drop into a drug store and get a cocoa cola for a "fit."

"There has not been nnything extrordinary huppened here since the King of Italy visited the city. It was the same sort of n reception that was given President Wilson, although not quite as enthusiastic. Will quit for am now expecting n line from you soon. As ever Claude.

C. J. Volkert, Convois Autos, S. S. U. 650, Par. B. C. M. Paris.

From Louis Adams

Louis Adams is the son of Mr. and Mrs. Arthur Gaunt of East Jordan. He enlisted four years ago in the Canadian army; was wounded in August and is still in the hospital.

France, October 25, 1918.

"Dear Mother and all—Received yours of September 29 and was glad to hear from you. Thanks for the dollar, but did not lind two as you said. The letter was not registered and came just the same as nny other letter, think it needs looking into. We sure had some laugh over your saying 'get some pie.' Have not seen a piece of pie since I have been in France. Wrote you the day I wrote to Aunt Cora. Wish I had some honey that she told me about having up north. Guess they had a good time. She said they found you in the hay field and that you had good crops this year.

"Yes, I am in the best of health and hope that you are the same. We both wish that we were hy your fireside today enjoying some of that honey, and about six pies apiece, pumpkin preferred. That will do us until the big dinner is ready.

"You asked why I don't get transferred from this army into the American army. I think that it would he from the frying pan into the fire. As far as the lighting goes, I am satisfied where I am at present.

"About the insurance, we do not have to taken them out in this army, and in fact never thought about it until you mentioned it in your letter. I have near two hundred invested in war bonds in London, so that will he worth something at the end of the war or after. Well, I think that I will close for this time, hoping to hear from you soon. Your son,

LOUIS.

France, October 29, 1918.

"Dear Mother and all—Well here it is near the end of another month and am still holding the bed down. I am tired of lying in hed for three months. I don't know what people do that are in bed all of their lives.

"Am in the best of health and spirit at this time and hope that this finds you the same. Suppose that it is pretty cold there by this time. There is no chance of our being moved as far as I know.

"My pal was out and bought a can of peaches. They are only nbout forty-five cents a can here and I think that is going some. Everything is beastly high. Butter is worth ninety cents a pound nnd everything is the same. Why you can hardly get a thing for what we call five francs. You get five and a half of them for one dollar. I can hardly get used to this money. Why it makes the tears come to my eyes to see a good old dollar bill. Well, must close and let the orderly take this as he has just come in with the mail and he will take it with him. Your son,

LOUIS.

January 7, 1919.

"Dear Mother and all—Just a few lines to let yuu know that I am in the best of health. You must excuse me for not writing before, but have been so busy lately, so furgive me and I will see that it does not happen again as I expect to be home in a month's time, and hope to be on my way in a few days. You better nut write me any more as you might be able to write to me in Canada. A few days more have been marked out for a long time, but nm expecting to go most any day now.

"Have not had any mail from you since coming here, in fact have not had any mail at only, only local mail. Must close for this time, hoping to see you soon. Your son.

LOUIS ADAMS.

From Cpl. Herbert S. Wakefield

Honningen, Germany,
January 18, 1919.

"Dear Mother and all—I received your welcome letter of December 14 yesterday and was very glad to hear from you. The weather here is very nice, has not snowed yet, although they say that they have had some in places. Suppose back in old Michigan they have lots by this time.

"Have received all the letters that you have written, but have not received the papers. Don't worry about my staying here any longer than I have to. It sure was good news when we henrd the war was over. I had just joined the 4th division and it was just back of the front lines, and just a little ways from the big guns that were working as fast as they could to send the big shells over to the German lines. They kept up from the 9th of November to the 11th at eleven o'clock, when all of a sudden it stopped and you could hear the men yell for two miles or more. Some of the fellows said that it was not so, but that night the officers told us that we could light a fire, so then we knew that it was true. The next day we moved back to a little town. I have been in a lot of towns that were all torn to pieces by the big guns.

"In a woods that we were in the Germans had houses built like summer homes and dugouts that were big enough to hold two hundred men or more. They did not think that they would have to get out of the country that they had taken from France, but when the Americans got after them they soon hegan to move.

"I will tell you more when I get home and I do not think that it will be long for I think that I will be home in April and maybe sooner. I am sending you a few postcards so you can see what this country is like. Don't worry about me for I am alright. Must close for this time. Your son and brother,"

GET YOUR CAR READY FOR SPRING USE

Don't wait until the approaehing beautiful spring weather is here, with the roads in fine shape for driving, and then find that "flivver" badly in need of overhauling and repairing. The first drive of the year is the most enjoyable—especially if the auto gives no trouble. If your ear causes you trouble, the enjoyment of the day is lost.

AUTO REPAIRING IS OUR BUSINESS

That's exactly what we have spent hundreds of dollars in equipment for. That's why we have a erew of expert repairmen on our pay roll. Their work is to put your auto in running eondition. After an auto passes through their hands the many vexatious delays and troubles cease. When you "step on her" the ear responds, and you ean start out on a hundred mile run without thought of trouble.

Bring that car to us for a thorough overhauling right now. If it needs painting, we ean do that too. Do it now before spring arrives.

"The Humility of John the Baptist," is the sermon subject for next Sunday morning at the Methodist Episcopal church. A special effort is being made by the Sunday school to register two hundred present at four consecutive Sundays, succeeding in this, a banquet will be served by the school to all its members. Mr. Will Bellinger has been appointed teacher for the young men's class which was organized last Sunday. All young men who are members of the church and others whose duty does not take them elsewhere are cordially invited to unite with this class. A very noticable increase of men in attendance upon the services of the church moves the pastor to urge those brothers to remain for the men's class which meets at the Sunday school hour.

Epworth service at six o'clock will be led by Signa Thorsen and Pearl Snyder, the topic is "The Christian Mastery of the Pacific."

At 7:30 Rev. Candler will preach from the text, "For our light affliction, which is hut for a moment, worketh for us a far more exceeding and eternal weight of glory."

MICHIGAN NEEDS MORE GOOD ROADS

STATE FACING GREAT ERA OF ROAD BUILDING

Farmers and Autoists Urged to Vote "Yes" on Amendment Submitted at Spring Election

Frank F. Rogers, Michigan's first graduate engineer to fill the office of state highway commissioner and whose administration of that big department has been perhaps the brightest spot in Wolverine politics of recent years, draws some interesting deductions from the history of road building in Michigan, which shows the evolution has been toward the method of financing which calls for the use of the state's credit.

The submission of an amendment to the constitution authorizing the people, through their representatives in the legislature, to bond Michigan for a permanent, comprehensive system of main markst highways is but a logical result of the march of progress in road building in the Wolverine state. "Road building in Michigan is not the simple problem it was fifty years ago," says Commissioner Rogers. "In the early days, when the roads hardly justified the term of highways, the townships had entire control of road building and maintenance and maintenance in those days was a negative quantity. The great majority of the work was done by statute labor. The property owners went out on the roads with teams, men, plows, wagons and other farm tools and performed the necessary work. At least they performed such work as the overseers of the several road districts directed.

"Any Michigan farmer whose memory goes back to that age of road improvement will smile as he recalls those happy days. He will remember how haphazard was the routine and how lacking in efficiency and direction. Road work was in the nature of a social gathering in most instances. It was timed not to interfere with the routine of the farm work and being a local official, the district overseer never imposed any great burdens upon the men who were called upon under the statute to do the work. The hours were short and the work made as easy as possible. The quality of the road, so long as it was kept in reasonably passable condition, was of little importance. In the light of present-day road building, it was a joke. But it was a beginning and it led to better methods just as soon as the economical value of good roads began to get universal recognition.

"During the last ten years sixty-one Michigan counties have adopted the so-called county road systems. This made the county rather than the local district the unit through which road building and maintenance was administered. Under this plan, a tax is levied upon the property of the county to obtain a fund for building such highways as the county road commissioners elected should be built. In the meantime, the system of state aid or state reward has been inaugurated as a further spur to the movement of good roads.

"It worked out splendidly and Michigan took long strides along the pathway of highway improvement. The trend of events always has been toward the big unit for control of road building and maintenance. There followed farther expansion. The so-called Covert law authorized the state to build and supervise the building of roads and charge the cost to the abutting property and property holdings lying within a certain distance from the highway to be improved.

"The next step along the pathway of progress and toward the bigger unit of control for road building was registered when the United States government took cognizance of what the states were doing to provide good roads and inaugurated the federal aid system. Michigan already has reaped its reward from this system and is destined to get a lot more assistance from Uncle Sam. It is to pave the way for federal aid that the legislature, without a dissenting vote passed the resolution to submit to the people of the state an amendment to the constitution which will make it possible for the Wolverine state to have funds available to match the federal government, dollar for dollar, and get Michigan's share of the $200,000,000 good roads plum to be distributed among the various states of the Union.

"We now are facing probably the

50-50 AMERICANISM

Speaking on Americanism at a Republican convention at Saratoga, N. Y., last July Theodore Roosevelt said:

"As regards Americanism, we must insist that there be in this country but one nationality, the American nationality. There must be no perpetuation in this country of separate national groups with their separate languages and special loyalties to alien overseas flags. There can be no 50-50 Americanism in this country. There is room here for only 100 per cent Americanism, only for those who are Americans and nothing else. We must have loyalty to only one flag: the American flag; and it is disloyal to the American flag to try to be loyal to any other whether that other is a foreign flag or the black and red flag, which symbolize either anarchy or else treacherous hostility to a war for which the nation stands."

BOYS BREAK THROUGH ICE

TWO YOUNGSTERS HAVE NARROW ESCAPE

Treacherous Waters of Round Lake Nearly Claims Victims—McHugh Makes Thrilling Rescue

That Charlevoix seems to be guarded by some unseen hand against drowning accidents was once again most strikingly illustrated during the noon hour Saturday, when the lives of two young lads who had broken through the ice on Round Lake were spared.

The youngsters, Clayton Dutcher, Clare Usher and Walter Bergeon, with several other children, had been engaged by the Blanchard Hardware Co. to help with some pictures taken at the Priest studio. After completing their work, Dutcher, Usher and Bergeon went on the ice at the rear of the studio, to watch the fellows who were fishing. After spending some time near the shanties, they started for shore, Dutcher and Usher going north on the lake to the foot of Clinton street, and the Bergeon lad leaving the ice at some point before reaching Clinton street, but joining them again at the point they attempted to leave the lake.

Stories as to how the accident occurred are conflicting, but as far as we can determine, Dutcher and Usher reached the dock at the foot of Clinton street, but again ventured out upon the ice. When they broke through they were about eight feet east of the north dock. Both lads lustily cried for help, as well as the youngster who was on the dock, and their cries attracted the attention of H. E. McHugh, who was passing south on Bridge street, who on passing had noticed the lads on the ice at the foot of the street.

When attracted by their cries, McHugh was on Bridge street near Cartier's tailor shop. He turned and ran to where the boys were struggling in the water, and without thought to his personal safety, threw off his overcoat and jumped into the icy water. Clare Usher, who was lightly clad, had by this time managed to extricate himself and was on his way to shore, but the Dutcher lad, clothed in a heavy mackinaw, was feebly struggling in the water, just his hands showing. McHugh, by superhuman efforts managed to lift the Dutcher lad from the water onto the ice, and told him to scramble to the shore. Almost entirely numbed by the cold, the young lad could hardly move, but finally reached the dock and safety.

Meanwhile men on shore had thrown planks in the water near the struggling boy and McHugh, which greatly aided him in his efforts to rescue the Dutcher lad. By this time McHugh was nearly exhausted and had it not been for the forethought of L. S. See in procuring a rope, which was thrown to him and by which means he was hauled from the water, he might have sacrificed his life in his brave efforts of rescue.

Both lads and McHugh suffered no serious after effects from their chilly bath, and the youngsters have learned a lesson that we hope will last a life-time. In plunging into the water to rescue the boys Mr. McHugh is deserving of much praise. The Courier extends to him our most sincere thanks, and if it is possible, will lend our aid, with the efforts of the citizens of Charlevoix, to secure for him a suitable reward for his brave and heroic act.

A Straight Talk to Straight People

In my judgment, every candidate for public office should make a public statement of his attitude on questions at issue or of special concern to the voters, so that they may know where he stands and thus enable them to vote intelligently and according to their best judgment. I am not making this statement in order to advance my own interests. I have become a candidate for renomination as Mayor because so many people have represented to me that it was my duty to help finish the work begun during the past year, and that will require the greater part of another year to complete. Under these circumstances I could not well refuse to leave it to the choice of the people to determine whether or not I should go ahead and finish the work. If the voters desire it, I am ready and willing to do the best I can to carry out what I believe to be for the best interests of the city.

Important changes have been made in the city business during the past year and the Council has been carrying a heavy load of responsibility, notably in connection with the electric lighting system. Last April the People voted almost unanimously, instructing the Council to purchase the Bellaire Power Plant. As was well known at the time, extensive additions and improvements had to be made to that plant, and they have been made under the advice of competent engineers. In the main, the results have been good and are improving gradually. In all of the changes the strictest economy has been practiced consistent with the betterment of the service and the Council has given careful study of the various problems.

Some criticism has been made of the judgment of the Council in the purchase of the kerosene engine installed at the local station for emergency use. It is true that the engine has given some trouble, but this trouble is being overcome. The engine is all right. An exact duplicate of this engine is being installed on the Loeb Farms and is proving satisfactory. There is NO reason at all why ours will not be equally satisfactory.

Personally, I am advocating a complete separation, as far as possible, of the water and electric plants and the funds of each, so that each utility will stand on its own footing. I believe beneficial results will be obtained from this change.

A complete revision of the schedule of rates for light and water must be made. I favor a schedule of rates that will enable the consumers to have the service at the lowest possible cost, based upon a scientific and sensible system of operation. With the experience of the past twelve months operation and the computation which can be made of the approximate cost of manufacture, a fair and equal rate can be and must be arrived at. The work of computing and arranging these figures is now being done and will be completed at the earliest possible date.

In the other departments of the city business strictest economy has been necessary. Considerable work which would have been done under ordinary circumstances, has been postponed and the times are not yet stable enough to warrant extensive work. The majority of those who feel that work in which they were particularly interested had been neglected, have been patriotic enough not to complain. Some people, however, fail to understand and realize how easy it is for a city to spend money, and how necessary it is to cut down expense somewhere.

Our Fire Department is in need of better and more modern equipment and in my judgment it will be good policy and good insurance for us to spend a reasonable sum for this improvement. A one-ton truck which will cost approximately $600 should be provided. It will undoubtedly pay for itself in a few years time, in addition to enabling the firement to reach a fire in a much shorter time, which is a vital matter. It is not good judgment, nor it it fair to ask these men to do the hazardous work they are called upon to do without reasonably up-to-date equipment.

It has been my aim to help keep the city clean and respectable and I am lead to believe that considerable has been accomplished along these lines and that our city is a credit to us.

I am informed that some criticism has been offered regarding some work done by me at the time of the accident to the water wheel at Bellaire. It was necessary to employ a diver to repair the damage done. It was necessary that I should do it, or that an expensive man from the Soo be sent for. The Council was unanimous in their opinion that I should do the work and save the extra expense. I did it and saved the city a large sum of money. If I am to be criticised for this, my only answer is that I believe there is not an unprejudiced man in Charlevoix who would not have done as I did. My bill was very small and because I was familiar with the situation, I was able to do the work in a comparatively short time. I leave the matter of whether I did right or wrong to YOUR good judgment.

Everything that has been done during my administration and every cent of money expended is on record in the office of the City Clerk. These records will bear your closest inspection. It is your privilege and duty to inspect them. **No money has been squandered or misspent.** Of that I am sure. If attempts are made to dispute this statement, I simply ask that you go to the City Clerk or ask me about it, and I will see that you have full information.

Very truly yours,

SIMON M. ROSE.

CAMPBELL HOME SADDENED BY DEATH

Eleven Months Old Son Dies in Chicago—Burial Thursday

Paul D. Campbell, eleven month old son of Mr. and Mrs. P. D. Campbell died in Chicago February 19, following a weeks illness of gastro interitis.

While they were residing in Holland, Paul suffered an attack of influenza and had not fully recovered when he was stricken with the disease that caused his death.

Remains were brought here from Chicago on Thursday of last week and funeral services held Friday, February 21 from the Chestnut cottage, Rev. Henry Candler officiating. Interment in Brookside cemetery.

JAY MEADE DIES AT MASONIC HOME

Word Received Tuesday of Death of Former Townsman

Word was received Tuesday from Alma stating that J. R. Meade, formerly of this city, had died at the Masonic Home in that city, cause of death being a complication of diseases.

Jay Meade was one of the best known men of Charlevoix, and had lived here in the neighborhood of 25 years. He was a painter and paper hanger by trade and followed that vocation while a resident here. About four years ago, he left for Alma to enter the Masonic Home, where he lived until his death.

On account of absence of near relatives, little can be learned of his early life other than he leaves two daughters, Mrs. L. W. Kirby of Spokane, Washington, and Mrs. Ed. Guard of Portland, Oregon. During his residence in Charlevoix he made numerous friends who will learn of his death with deepest regret.

He was a member of the Masonic lodge, also of the Charlevoix County Masonic Benefit association. The remains are expected sometime Thursday and will be interred at Brookside, in charge of Masonic lodge.

VICTOR BERGER GETS TWENTY YEARS

Wisconsin Congressman Must Serve Long Prison Term

Victor Berger and four other socialists convicted of violating the espionage act each have been sentenced to twenty years imprisonment by Federal Judge K. M. Landis, of Chicago after he had overruled motions for a new trial.

Judge Landis listened patiently for hours while each of the defendants delivered speeches on socialism and likened themselves to the political and moral martyrs of history. It was their privilege to say something before sentence was pronounced and each took full advantage of the opportunity. When the last one sat down Judge Landis pronounced sentence.

Berger was published of the Milwaukee Leader, a socialist daily, and was one of the organizers, with Eugene V. Debs of the national socialist party. Of the other convicted men, Irwin St. John Tucker was a lecturer and writer for the party; J. Louis Engdahl was editor of the socialist daily newspaper; William F. Kruze was the head of the Young People's Socialist League and Adolph Germer was secretary of the socialist party.

OBSERVE THEIR GOLDEN WEDDING

MR. AND MRS. GEO. M. DUBOIS PASS 50TH MILESTONE

Event Was Celebrated Friday Night at Home of Their Daughter, Where Friends Meet

To have lived together through fifty years of happy, useful wedded life would seem to most people like having traveled to the end of the rainbow of matrimony. Mr. and Mrs. George M. DuBois, of this city, reached that wonderland in life Saturday, when they observed their golden wedding anniversary. Fifty years of usefulness in this world, fifty years of Christian life well spent in the services of their Master, fifty years of wonderful experience in the sadnesses and sorrows of wedded life.

This happy couple were married fifty years ago Saturday at St. Johns, Michigan, then but a small hamlet surrounded by an almost unsettled wilderness. After their marriage they located on a farm in Gratiot county, living there until about eight years ago when they moved to Charlevoix, to make a home for their son, Glen M. DuBois, at that time editor of the Charlevoix Courier, whose death occurred in June, 1913. After the death of their son, Mr. DuBois became senior member of the firm of DuBois & Usher, publishers of the Courier. Their life in Charlevoix has been one which has endeared them to the hearts of every acquaintance.

Friday night friends of the family gathered at the home of their daughter, Mrs. A. J. Usher, to aid in the celebration of the golden wedding. There was no renewal of the wedding vows, but instead there was a most enjoyable evening, both bride and groom expressing themselves entirely satisfied with the choice of life-mate made fifty years ago.

A six o'clock dinner was served after which the evening was spent in a social way. Before the guests departed, Mayor S. M. Rose, presented in behalf of the assembled guests a beautiful bronze clock to the bride and groom.

FIRST HOME GAME FOR SEVERAL WEEKS

Charlevoix Basket Ball Team Will Play Harbor Springs

Next Friday night we meet our worthy opponents, the team from Harbor Springs. It is anticipated that this will be, next to the Petoskey game, which could hardly be beaten for interest, the best game on our home floor. Our score at Harbor Springs was small. We will try to make amends Friday evening.

This is the first home game in several weeks. It may be the coldest night we have had a game. Let us prove that a little cold weather can not reduce our enthusiasm to such a degree that we do not go down to the rink and lend the high school boys our well deserved support.

DIXIE HIGHWAY BUILT CONCRETE

WOULD BRING 10,000 MORE AUTOMOBILES SAYS VANPELT

Charlevoix Good Road Booster Hard at Work in Southern City—Urges All to Act

That our friend and fellow townsman Geo. H. VanPelt is hard at work urging the necessity of good roads—especially those built of concrete—is quite evident as is expressed in the following article taken from the Datonn Daily News. We are reprinting this article, believeing it of as much much importance to citizens of Michigan as of Florida. The Daily News says:

"Uncle George H. Van Pelt, the good concrete roads advocate in preparing this article for The Daily News, said that its object was to urge upon every newspaper, every association of commerce and organizations of every description, which had the welfare of the community at heart the importance of acting individually as well as collectively to impress the law-makers, state and national, with the importance of immediate action. The writer declared that the failure of a single citizen in a community to write to his congressman in behalf of the good road movement as propounded below would be the same as leaving out a brick in a busie pillar, which might easily result in the collapse of the whole structure.

"Today is the time to unite in pushing the development of our internal interests by the United States government, state, county, city and township, in building permanent hard surfaced roads, which will also open up wider fields for ready employment in agriculture and commerce.

"Remember, we have the truck proposition to reckon with now, and roads must be built to carry a fifteen ton load (truck and load.)

"The geographical location of the two states, Florida in the extreme south and Michigan in the extreme north, should make it logical that both unite their interests and make a superhuman effort to get a concrete road built 16 feet wide from end to end on the Dixie Highway. Yes, and every state through which this national highway passes, should also put in their best licks for the same kind of a road, and not only lend a helping hand, but should push and pull for it with all their might, for there is not a single town on this route which would not receive some benefit from the tourists who would pass by in large numbers.

"In sitting around the 'Liars Corner' at the 'Clarendon' I have heard it expressed dozens of time this year, that had the roads been good (I mean a good concrete road) that at least 10,000 more automobiles with an average of five persons in each car, would have come to Florida and spent the winter here, and I believe that this is true.

"Now there is only one way in which this can be done, and that is to get your senators and representatives in congress your lobbyists, your

SUNK THE EVIDENCE

"I want to see what's in Officer Sam Duncan of Ludington, seizing a suitcase carried off the Pere Marquette carferry by Joe Tennant, player in a local orchestra.

"What right have you to search my bag?" Tennant demanded.

Duncan released his hold on the bag, threw back the lapel of his coat, disclosing a big, bright star.

"There," he exclaimed with triumphant smile, but Tennant didn't wait to examine the star. He hurled the suitcase into the lake.

The officer summoned assistance and sought to rescue the "evidence" with pike poles but he succeeded only in puncturing the bag and hastening its disappearance in 38 feet of water.

Captain Pugh and his coast guard crew also were unable to locate the sunken treasure.

Tennant has been held for appearance Monday, under $300 bail, to answer to a charge of violating the state liquor law.

CORRESPONDENCE

IRONTON

Clyde. Ogden and family spent Sunday at the Loeb farm.

Mr. Tumath, who is working at the Loeb farm, spent Sunday at home.

The Ward children are out of school with a slight attack of the flu.

C. W. Reber of Petoskey is here visiting his daughter, also fishing some.

The sewing bee at Mrs. McMulkin's last Wednesday was largely attended.

A party was given for Miss Eva Brown Saturday evening, it being her 15th birthday.

Mrs. Arthur Lndlow and her mother from the Loeb farm spent Tuesday at the Ogden home.

Mr. Pangburn of East Jordan was here a few days on business and also visited at the Hugh King home.

The Ironton church has recently organized a bible class with Robert Sherman as teacher. Mr. Sherman is a very good teacher and extends a cordial invitation to all adult people of the community.

Miss Tumath and Miss Schneider entertained about twenty-five ladies Saturday afternoon, the event being a miscellaneous shower for Mrs. Bessie Allen Dean. The bride received many nice presents. A bountiful lunch was served, entertainment being Victrola music and a mock wedding.

NORWOOD

Mrs. Cowan of Charlevoix is visiting her sister, Mrs. Wagner and Mrs. Empey

The Ladies Aid will meet at the F. A. Swartout home on Wednesday, February 26.

Mrs. F. A. Swartout, Mrs. F. E. Richardson, Mrs. Merrill Richardson, Mrs. Amerdon Stafford, Mrs. Harold Stafford, Mrs. Harry Weilerburn and Mrs. Cowan have been on the sick list the past week.

Dr. Hewitt, who has been spending the winter in Florida expects to be with us again next Sunday, March second His sermons are always something special, so we wish everyone who can to be present to hear this excellent speaker.

The patriotic program and box social given Friday evening, February 21, at Norwood town hall, under the able direction of Miss Golda Jensen, was pronounced by all present to be a grand success. It was composed of patriotic songs and selevtions with just the right amount of humorous recitations and dialogues which showed the patience and training of the teacher and talent of all who took part and ended with a very pretty "folk dance" by two little girls. The school and teacher are deserving of the praise they received and also the rising vote of thanks which was tendered them at the close of the program. After the program the lunch boxes were auctioneered, which caused much merriment as usual and all went home feeling well repaid. The proceeds were $25 with which the pupils have decided to purchase a flag. We nearly forgot to add that one gentleman was heard to remark that Norwood is developing mentally, as a few years ago a program like this would have been impossible.

(Will the person who sent in the above items write or call at the Courier office. We may have something of importance for you.)

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up. The air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night, your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

HAYES

Wm. Ferris is reported on the sick list

Earl Sneathen returned home last Friday evening.

Wade Howe finished drawing his logs Saturday noon.

Lee Sneathen took a load of hay to Boyne City Tuesday.

Mr. Wightman has gone to Horton Bay this week to bale hay.

Henry Howe and family spent Sunday with Mr and Mrs. Pant.

Wade and Leslie Howe are cutting some more logs this week.

CLARION

Miss Mona Bardwell spent Saturday in Petoskey.

Mrs. W. G. Wener, who had been ill at Petoskey hospital, returned home on Saturday.

Glenn Thomas returned last week to Camp Custer, where he expects to receive medical treatment.

Miss Irma Tubbs spent the week end at the home of her parents, Mr. and Mrs. L. E. Tubbs of Resort.

Barney Kleinhenz has purchased the old Lynn Clark store building and will open an auto livery and repair shop.

Mrs. Mary Herrington returned last week from Medina, Ohio, where she has been visiting friends for some time.

Emmet county farm agent Vining was present at grange on Wednesday when he gave a very interesting talk on farm matters.

Leland Butler, who has been staying at the home of Chas. Hass for some time, returned Monday to his home at Springport, Mich.

About $6 was cleared at the Washington's birthday program given Saturday at the M. E. church. A very fine program was enjoyed by all.

Private James M. Hankins, who has been with the American forces in France, returned Sunday and is now visiting at the home of his parents, Mr. and Mrs. Frank Hankins.

BARNARD

A little more like winter at the present writing

The musical entertainment at the church on Friday evening was well attended and enjoyed by all. The orchestra music was especially good.

Rev. Mr. DeYoung of Holland, Michigan, preached at the Dutch Reformed church in South Barnard last Sunday and will also preach next Sunday at the usual hour.

The Ladies Aid society will meet next week with Mrs. Edmund Shapton. On account of the primary election on Wednesday the Aid meets on Thursday. Every member urged to be present.

Our community was saddened by the news of the death of Harold Cole of Boyne City, who died of spinal meningitis in France on February 6. Harold was formerly a Barnard boy, and his bereaved parents have our sincerest sympathy.

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

According to the Mechanics and Metals National bank of New York the total indebtedness of the nations of the world has increased as a result of the war to more than $200,000,000,000. This inskes no allowance for obligntions yet to be incurred for further military purposes, for demobilizing armies, and for restoration and replenishment expenditures, which in some countries will be heavy.

If Jacob and Esau who lived some 6,000 years ago, were atill alive, and if Esau had earned $10.00 every day, Sundaya included, and had saved it all he would hsve $21,900,000. On the other hand, if Jacob had deposited one dollar at 1 per cent intereat, compounded every 100 years, he would have $576,460,752,303,423,488 provided there were anywhere near thnt much money in the world.

By agreement of counsel the $1,000,000 libel suit brought by Henry Ford against the Chicago Daily Tribune in which change of venue was recently granted was transferred to Mount Clemens, Macomb county. Date for the trial is to be fixed later. Motion by attorneys for Mr. Ford to vacate the order granting change of venue on application of the defense was denied by Judge Mandell in Wayne county. The formal motion was made preliminsry to institution of mandamus proceedings in the Michignn supreme court.

Maric Stark, seventeen-year-old daughter of Mrs. Phillip Stark, of Resort township, was killed last Thursday night at nbout 10 o'clock while coasting with a party of young people on the Miles hill. A heavily loaded pair of bobs had started down the hill and Miss Stark followed on a single sled. The bobs upset when about half way down and when Miss Stark's sled bumped into them she was struck in the abdomen and a blood vessel was broken. She was taken at once to her home but died within a few minutes.

A two-headed calf was born on the C. L. Harkness farm in Center township Monday, says the Pellston Journal. The heads were brought to town the same day and placed on exhibition at Small's meat market. The freak of nature had four eyes, two complete sets of jaws, etc. The animal lived but a short time after birth.

The Michigan house of representatives in committee of the whole, has passed the bill of Representative Chew of Charlevoix county to make Roosevelt's birthday, October 27, a school holiday on which to hold patriotic exercises and amended it to also include Liberty dny, Novemher 11th.

Traverse City is fluless. The rigid quarantine established by the state board of health in January is credited with having checked the epidemic. Several hundred cases were reported in Traverse City when the state board took charge. Thursday a single home under quarantine is the only trace of the scourge which at one time threatened to get beyond all control. Leelanau county has also vanquished the disease.

The 80,000 acres comprising Camp Custer may be purchased by the government and used as one of the national army camp sites, business men and others said today. An option on the whole parcel of land is in possession of the government and the right of purchase can be exercised any time up to 1922, it was said. The original leases expire next June. They are renewable up to 1922 and contain a purchase clause which would give the land to the government for about $600,000.

As a result of the increass in the average rate of taxation from $18.28 to $20.18 per $1,000, the primary school fund this year will be increased approximately $50,000. In computing the tax paid by railroads and other corporations assessed on an ad valorem base the average rate for the state is used. As a result the railroads will have to pay considerable more money. The total amount of money raised in Michigan during 1918 for state, county, school and local taxes amounts to $83,132,657.13, compared to $73,612,267.87 in 1017. The state tax was lower this year, the big increase coming from school and local taxes. According to figures given out by the state tax commission the assessed valuation of the state for 1918 was fixed at $4,218,731,678 an increase of $189,416,961 over 1917.

There is much talk these days regarding our new postoffice building, says the Boyne Citizen, and as everyone is interested in the project, we feel that the following extract from a letter written by Congressman Frank D. Scott to a friend in that city may shed some light on the subject:

"When we entered the war the Treasury Department indicated to Congress that every cent was needed for war purposes and they urged the members to defer appropriations for the conatruction of post office buildings until the war was over. This was dono and the people of the country were glad to endure the inconveniencea of inadequate post office facilities to the end that these appropriations might be devoted to a successful winning of the war. When Congress reconvened last December. I, in conjunction with other members of Congress, asked the Treasury Department to adviso us as soon as it would be possible to start work on the post offices previously authorized. Last month the Treasury Department indicated that funds would be available for the construction of post offices which were urgently needed. I appeared before the committee and endeavored to show them the situation in Boyne City. They not only admitted the necessity for the post office, but the committee increased the appropriation from Thirty to Forty Thousand Dollars and that is the amount which will be carried in the bill presented to Congress this week or next. I have endeavored to present these facts to the committee and the action of the committee recommending Forty Thousand Dollars instead of Thirty proves the merit and justice of your claim for a post office building."

Spanish influenza has caused more deaths in this country during the last four months than America's losses by death in 19 months of war. That was revealed by figures made public showing extent of the scourge and its companion disease, pneumonia, in this country. Figures compiled by the public health service, disclosed that in 40 cities of this country alone were 125,502 deaths from September to January. These figures do not take into consideration any of the army camps or rural sections of the country, or any of the small towns or cities. It is estimated that a complete census of influenza's ravages in the United States would disclose between 250,000 and 300,000 deaths in the September-January period.

"The wets certainly passed up no bets when they framed their proposed wine and beer amendment," declares Walter S. Foster, of Lansing, "for the measure would make us helpless here in Michigan to enforce national prohibition. It is intended that the federal dry law shall be enforced by state as well as by national officers. but if the wine and beer amendment should win, it would deprive Michigan sheriffs and police officers of authority to make arrests for bootlegging, tipping or other offenses. Enforcement of the law would be up to federal officers alone, and with the whole state to cover, it will be seen that it would require an army corps of revenuers."

The first complete budget for the fiscal years ending June 30, 1920, and the same date 1921, prepared by the Michigan budget commission for guidance of the legislature, is made public. The commission's complete recommendations call for an aggregate of $26,679,070.44 for the two fiscal years ending June 30, 1920, and June 30, 1921. To this should be added $1,447,697, estimated by Auditor General Oramel B. Fuller, to be needed for sixty-eight miscellaneous items, making the aggregate $26,679,070.44. Heads of the various activities, which include practically every money expending function of state government requested $40,808,926.51. From this, the budget commission recommends lopping off $14,129,856.07. The cost of running the state for the fiscal year ending June 30, 1918, was $14,561,167.67

Good Will Given a New Impetus

A statement of Dodge Brothers war activities is due the owners of their cars.

Dodge Brothers refrained, during the progress of the war, from any reference to the performance of the car in Government service.

It seems proper now, however, to disclose the facts, because they are unusual facts—intensifying that good will which owners of Dodge Brothers Cars have always manifested.

Dodge Brothers car was the only one of its class approved and adopted by the War Department.

In a separate Ordnance Works, built especially for the purpose, costing millions of dollars and employing thousands of their skilled motor workmen, Dodge Brothers undertook an important duty designated by the War Department.

Without the aid of their great motor organization, Dodge Brothers could not have fulfilled the heavy obligation which they were asked to assume by the Ordnance Department

The other service required of Dodge Brothers motor works, by the Government, was to continue to furnish their cars as they were needed.

They *were* furnished, not in hundreds, but in thousands—both for the training camps here, and for service in Belgium, France and Italy.

The record of those thousands of camp and army cars is one in which any owner may feel the utmost pride and satisfaction.

Their performance justified the compliment implied in their selection by the Government.

The great works in which nearly three hundred thousand of their cars have been produced in the past four years furnished a vast store-house of human energy and equipment for the ordnance work.

Naturally, it will take time to adjust the motor works to its full accustomed activity.

Gradually Dodge Brothers will resume the grateful task of continuing to deserve the good will of America—and indeed of the whole world.

Dodge Brothers consider good will their most valuable possession.

They will never knowingly do anything to lessen it.

To the Voters of Charlevoix County.

I am a candidate on the Republican ticket for renomination for the office of the County Commissioner of Schools and would like to meet the voters of the county personally as I did many of them four years ago for I thoroughly enjoyed the campaign. However the duties of my office are heavy and I am now organizing the spring work of the rural schools which I love. It will therefore be impossible for me to meet many of you at this time but I shall none the less appreciate your support at the primaries March 5th. If re-elected I shall endeavor to show my appreciation to you by continued effort in your behalf. Very truly yours,

PROMOTING IDLENESS

That President Wilson is directly and personally responsible for much of the idleness that exists in the ranks of labor today, is demonstrated by reports received from shipyards on both the Atlantic and Pacific coasts, that they are not permitted by the government to accept contracts for steel ships for foreign account. Meanwhile the Shipping Board is cancelling many of its contracts, particularly those for wooden vessels. The result is that thousands of men are thrown out of employment. It has been supposed by many that the prohibition of our yards for the construction of foreign steel ships emanated from the Shipping Board. That such is not the fact, however, is demonstrated by correspondence with and reports from that board. Mr. Donald, the chairman, writes "Those of us who are here are quite firmly of the conviction that permission should be granted to American yards for construction therein of vessels for approved foreign account." But in spite of the favorable attitude of the Shipping Board the hands of the shipbuilders remain tied. "This restriction," says the board in a report to the Senate, "remains in force temporarily BY DIRECTION OF THE PRESIDENT, whose delegate the Shipping Board is in the exercise of his authority.

How the action of Mr. Wilson has affected the northwest is related by Senator Jones of the State of Washington. At Tacoma the Foundation Company built a large yard with French capital and have just completed 20 wooden vessels for that country. France wants one hundred and fifty 8,800 ton steel ships, and naturally turned to the Foundation plant in Washington for some of the work. The yard could be converted into a steel yard in 60 days, and the owners want to do it, but were denied a permit in compliance with the President's order, to go ahead. The Tacoma yard is idle today. Labor is unemployed and material is unused. Meanwhile the French have let contracts to British shipbuilders for 300,000 tons of steel ships, and it is probable that their entire requirements will be met in other countries very soon.

Another large concern has invested hundreds of thousands of dollars at Everett, Washington, hoping to get contracts from the government. The armistice was signed about the time the yard was completed and no contracts are to be had. But Norwegian interests are anxious to place contracts at Everett for some steel ships of 12,000 tons, costing around $2,000,000. Nothing can be done because of the attitude Mr. Wilson and this yard, too, is idle.

The situation in the State of Washington can be duplicated at many other points along our coasts. In every case thousands of trained men are kept idle, millions of dollars in wages have ceased to be paid, and general unrest prevails among the former workmen and their employers. While the President busies himself in stamping out anarchy in Europe by the distribution of food and soft words, he gives specific orders in his own country the inevitable result of which, if continued in force will be to bring upon the United States precisely the same conditions that are now overwhelming Europe. Let Mr. Wilson give more heed to the practical demands of the labor situation in America, and less to his idealistic dreams for the economic and social regeneration of the world.

FORD'S CHICANERY

The Republican publicity association, through its President, Hon. Jonathan Bourne, Jr., today gave out the following statement from its Washington headquarters.

"The whole fight in the Michigan Senatorial election case centers around the primary at which Newberry defeated Mr. Ford for nomination on the Republican ticket. 'If it were not for the primary there would not even be an allegation that there was any fraud in the election,' says Senator Townsend. The part played by Mr. Ford in that primary should be clearly borne in mind by anybody who takes an interest in the case.

"Mr. Ford was called to Washington by the President and asked to become a candidate for the Senate. He says he took that request as a command although he had no disposition to be a Senator, and announced himself as a candidate. He was asked what party he would represent, and said that he was not a party man but would consent to be a candidate on both tickets. Of course everything that was done in behalf of Mr. Ford from start to finish was directed by the Democratic organization of the state. They tried to select the Republican nominee not to defeat him, but to prevent the Republicans of the state from making the choice themselves. The laws of Michigan prevent a man from running on two tickets, but an agreement was made that if Mr. Ford received both the Republication nomination and the Democratic nomination, he would accept the Republican ticket as his own. In that way the Republicans of the state would not have a candidate on the ticket, and would be compelled to vote for Ford or each voter would have to write in the name of his choice. The Democrats on the other hand, were to have the word passed among them to cut their ticket so far as the senatorial contest was concerned and give their support to Ford. The people of Michigan were wise to the designs of the Democrats, however, and the plan failed to work. Ford was defeated in the primary and Mr. Newberry was chosen to represent the Republicans.

"The course pursued by Mr. Ford and his Democratic managers and supporters in their attempts to controvert the spirit of the primary law was utterly despicable. They deliberately conspired to defeat the will of the majority of the voters of Michigan. It is declared by law to be wrong to use money in an election for certain purposes and beyond certain amounts. How much worse is it to try cunningly to place upon an election ballot a candidate for a party who is not a member of that party at all, and who, in fact, is the choice of the opposition. Yet that is precisely what the adherents of Mr. Ford endeavored to do. There appears to be no law that will reach such political depravity, but the senators who will pass upon the qualifications of Mr. Newberry will bear in mind the circumstances attending the primary at which he was nominated and Mr. Ford defeated."

First M. E. Church

To find the true interpretation of St. John's admonition, "Love not the world," will be the preacher's task next Sunday morning at the Methodist Episcopal church at 10:30. A special effort is being put forth to build up the Sunday school in all parts of its varied activities. Instrumental and vocal music will be a feature next Sunday morning. The young men's class has started in a manner which greatly encourages those in charge of this important work. A very cordial invitation is given to all men who do not belong elsewhere to attend this service of the church.

The Epworth League social service is held at 6 o'clock, both young and old enjoy this service. "Influence" is the sermon subject for the evening service at 7 o'clock. "Minute men" will speak for five minutes at each service regarding the Centenary movement which is in full swing throughout the country.

Prayer service Thursday evening at 7 o'clock. Sunday school and preaching service at Barnard M. E. church in the afternoon.

SCHOOL COMMISSIONER'S NOTES

Interesting school news was found last week in the notes from Hayyard, Marion, Maple Grove, Burgess, Barnard, and Mountain schools. They were all allied with St. Valentine this year. How about other schools? We are sure the editor would welcome your items and the neighboring schools like to know what you are doing. It is good for the eighth grade English once a week and it is fine for school spirit.

The following report went in to the chairman of the chapter school committee this week. Charlevoix county-wide branch Junior Red Cross: Total number of school auxiliaries, 65; Total number of Junior members, 1411; Amount Junior funds on hand July 1, 1918, $178.55; Amount collected since July 1, 1918, $361.78; Total amount of funds collected, $540.33; Amount expended since July 1, 1918, $142.92; Balance on hand February 25, 1919, $397.41. Signed, Ethel Brintnall, Treasurer. May L. Stewart, Chairman.

Chandler township meeting was also held the week in which others were called. Report of meeting reached this office late. Preliminary arrangements for spring exercises are now well under way in nearly every corner of the county.

Second term examinations are being given now according to the amount of work already made up by schools previously closed during sickness. Reports will not be sent to this office. The third term tests will be given on regular date for same some time in April as in previous years. It is hoped that all schools may then be up to the course of study prescribed for each grade.

The attendance continued to be splendid throughout the county. The Robinson school reported no absence and no tardiness for two weeks. We are now looking for the 100 per cent monthly record.

The commissioner worked in behalf of the county normal board in Boyne City last week and had the pleasure of visiting the ward schools observing while there some very superior teaching. Through the kindness of Supt. Stead also arrangements were made for a number work demonstration so that the commissioner observed Mrs. Miller's work with the Practical Number Method Chart. The author of the chart suggests a time record of 50 seconds per drill and although the work had not been in daily use during the past month, many of the children made 25 second records. This chart is now in use in over 90 per cent of our rural schools.

HAROLD J. COLE DEAD IN FRANCE

Son of Jerome Cole of Boyne City Gives Life to the Service

Mr. and Mrs. Jerome Cole of Boyne City received a telegram from Washington under date of February 20, stating that their son, Harold, had been officially reported dead by the medical department in France; cause of death being cerebro spriaal meaingitis.

Harold J. Cole was twenty-two years of age and entered the service on the 15th day of September, 1918, going to Camp Custer. He arrived in France on the day the armistice was signed.

Prior to moving to Boyne City, he with his parents lived on a farm near Barnard. For a short time Harold was in the employ of Benjamin Brown. He was married about the time he entered the service.

Again a Charlevoix county boy has made the supreme sacrifice that the world may be in peace and not under the dominant ruling of the Hun butchers.

Congregational Church

"The Church and Her Critics" will be the pastor's theme next Sunday morning. The Bible school meets at the noon hour and all men will be welcomed in the men's class.

Miss Genevieve Carrel will lead the evening meeting at six o'clock. The attendance last Sunday evening was so large as to suggest the possibility that it might soon be necessary to hold the meeting in the auditorium instead of the lecture room.

Mrs. W. H. Miller will lead the meeting of the Women's Missionary society next Friday afternoon. The meeting will be at the home of Mrs. S. A. Correll, 221 Antrim street. The subject for discussion is "Democracy in Church and State."

In the death of Mrs. John P. Wilson at Pasadena, California, last Saturday morning, our church lost a large-hearted, generous and greatly esteemed friend. For more than thirty-five years Charlevoix has been Mrs. Wilson's summer home, and during her stay here she was a frequent, appreciative and reverent worshipper at our services. Our deepest sympathy goes out to the bereaved husband and children.

DREAD FLU TAKES ITS THIRD VICTIM

Miss Cecile Barkley Ill But Four Days at Lewis' Home

Influenza claimed another victim at five o'clock Monday morning when Cecile Grace Barkley passed away at the home of Richard Lewis, after an illness of only four days.

Cecile Grace Barkley, daughter of Mr. and Mrs. William Barkley, was born December 4, 1889 in East Jordan. When she was nineteen years of age she came to Charlevoix to attend the county normal, graduating with the class of 1908. A little later she became interested in religion and attended the Cincinnati Holiness bible school in Cincinaati, Ohio, and since that time has devoted her life to the eause and proved her true Christian character by her many deeds of love and self sacrifice. She was an ardent worker in the Sunday school and Church of God of which she was a member, and acted as assistant pastor for Rev. Pontius for the past two years.

Deceased made her home with Mr. and Mrs. Richard Lewis while in Charlevoix, and after the death of Mrs. Lewis continued her home there. She leaves to mourn their loss, her mother and three sister, the mother and two sisters being with her at the time of her death.

Private funeral services were held Tuesday at 12:30 from the Lewis residence on Clinton street, Rev. Pontious officiating. Remains were taken to East Jordan Tuesday afternoon and laid to rest in Jones' cemetery.

MRS. MILLER ENTERTAINS AT THIMBLE PARTY

Ladies Spend Afternoon in Sewing and Fancy Work

Mrs. Merritt B. Miller entertained tweaty-four of her friends at a thimble party last Saturday afternoon in honor of Washington's birthday.

The decorations were carried out with flags and minature cherry trees and the dainty refreshments that were served helped to carry out the color scheme. The afternoon was profitably and delightfully spent in sewing and doing fancy work, with Victrola musie enjoyed by all.

At the close of the afternoon the hostess presented each guest with a small red, white and blue basket of candy as a souvenir of the day.

BOYS READY FOR ANOTHER CONTEST

Say Girls Are Good Losers and Fine Entertainers

Mrs. A. Edwards Sunday school class of girls entertaiaed Mrs. J. G. Ekstrom's class of boys at the M. E. church Tuesday evening at a six o'clock supper, the outcome of a contest for membership in which the girls were losers.

Even though losers in the contest the girls proved to their young friends that when it came to serviag a supper, they were right in their elemeat, aad had the contest been along this line of work, the boys would have stood little chance of winning.

The evening was a most enjoyable one and the contest may be continued over another period of time—at least the boys are ready for it.

MAKE UP RUM-RUNNING CREW OUT OF WET TERRITORY

Persons Arrested at Monroe Are Not Merely "Nice People" in Quest of a Nip

The rum-runners and would-be rum runners who have been endeavoring to evade Michigan's dry law and attempted to run the gauntlet of the state constabulary at Monroe are enjoying a reputation for romanticism to which they are not entitled, in the opinion of Fred L. Woodworth, state dairy and pure food commissioner. Most of the individuals caught by Colonel Vandercook's troops are not adventurous persons out for a nip and a lark but aliens, pickpockets and thugs, the commissioner declares today.

"Like the pirates of old, the men who have been essaying to sneak into Michigan with liquor are enjoying credit for virtues they do not possess said Commissioner Woodworth. "Fiction has woven about the pirate of a hundred years ago an unwarranted web of romance. We know from ungarnished history that the pirate was almost invariably a common, everyday cut-throat without regard for decency or the laws either of God or man.

"Here in Michigan because of the tales that have been coming to us from Detroit some of the people have begun to picture the would be rum runner as a debonnair and gallant sort of chap attracted by the excitement of defying the guards. As a matter of fact, most of the men and women who have been causing the trouble at Monroe and elsewhere on the Michigan border are just the common run of law breakers everywhere. Officers in Detroit tell me that at least a third of the persons arrested are known to them by sight as pickpockets, thugs and common criminals, and as many more are individuals of the same class who still imagine that Michigan was joking when it voted for prohibition. The clique is the same that has always been associated with the liquor traffic. Mighty few of the individuals caught by the state troops are 'nice' people merely out for a lark.

"Another noticeable feature is that a considerable number of the men attempting to come into the state with booze are aliens who do not seemed to have learned that American laws are made to be obeyed.

"I am told by Detroit officials, I might add, that despite many wild yarns to the contrary, the amount of liquor consumed in Detroit today is not one per cent of what it was before the city became dry."

The commissioner, incidentally, is lending his support to the campaign to defeat the wine and beer amendment to be submitted to voters in April.

"Perhaps I'm dense," he stated, "but I can not see much difference between what we voted out in 1916 and what the wets are asking us to vote in again this spring. The wine and beer amendment must be defeated."

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood while the bowel pores do, says a well known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist; it is inexpensive and almost tasteless; except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and you're also to prevent their formation.

To feel like young folks feel; the way you felt before your blood, nerves and muscles became saturated with the accumulation of body poisons, begin to-day treatment and at once all feeling of [illegible] soap and hot water on the skin, cleansing [illegible] limestone phosphate [illegible] before breakfast [illegible] liver. It is [illegible]

TIME IS THE TEST

The Testimony of Charlevoix People Stands the Test

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Charlevoix people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from kidney ills is looking for.

Mrs. John Cook, 307 Mason St., Charlevoix, gave the following statement in October, 1911: "I have used Doan's Kidney Pills on different occasions for kidney disorder and backache and they have always given me splendid results."

FIVE YEARS LATER Mrs. Cook added: "Doan's Kidney Pills cured me of kidney trouble and I have had no occasion to use a kidney medicine since. I am always ready to say a good word for Doan's."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cook had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

TWO CANDIDATES FOR COMMISSIONER

People Should Use Discretion in Marking Their Ballot

Wednesday, March 5th is primary day and the voters of this vicinity will have the opportunity of deciding on a choice for School commissioner. Two candidates are in the field on the Republican ticket this year. One is C. W. Wing of Alba, the present incumbent by reason of appointment by the board of supervisors to fill the vacancy caused by the resignation of A. C. Belding. The other candidate is Miss Kate Wilson of Banks township. Miss Wilson has a decided advantage in teaching experience, having taught over twenty years in this county.

In voting on this important office it is worth while considering that ninety-seven per cent of the teachers of Antrim county are ladies and it is to be supposed that lady teachers could more easily discuss the problems arising daily in school work with one of their own sex.

Both candidates are held in the highest esteem wherever they are known, but the fact that the counties of the state are rapidly coming to the point where they realize that wherever a woman is elected as commissioner of schools, she gives her undivided time to the schools more frequently than do commissioners of the opposite sex, should have a direct bearing on your vote at the coming election.

Above all things, go to the polls on March 5, and by so doing show that you have the interest of your children at heart.

February 24, 1919.

The common council of the City of Charlevoix met on the above date, Mayor Rose, presiding.

Aldermen present: Benton, Geneit, Hiller and Washburn.

Minutes of the meeting of February 17th, 1919, were read and approved.

Enter Ald. Geiken.

Ald. Benton seconded by Ald. Hiller moved the adoption of the following resolution:

RESOLVED, by the Common Council of the City of Charlevoix, that the City Clerk be directed to advertise for sealed bids for the purchase and removal of the building located on Block Nineteen of Newman's Addition to the City of Charlevoix and commonly known as the O'Leary barn. Such advertisement to call for the complete removal of the building on or before May 1st, 1919 and to be published in the official paper for one week.

RESOLVED FURTHER, that such bids be received up to six o'clock p. m. of Monday, March 3rd, 1919, and be accompanied by a certified check in the sum of $25.00 dollars payable to the City Clerk as pledge on the part of the bidder that he will enter into a contract with the City to purchase and remove such building according to the terms of his bid.

Adopted at a regular meeting of the Common Council held in the Council Rooms on the 24th day of February, 1919 by aye and nay vote as follows. Ayes: Ald. Benton, Geiken, Geneit, Hiller and Washburn. Nays—none.

S. M. ROSE, Mayor.

Countersigned:
D. S. Payton,
Deputy City Clerk.

Ald. Benton, seconded by Ald. Hiller moved the adoption of the following resolution:

RESOLVED, by the Common Council of the City of Charlevoix, that the polls of the primary election to be held in the City of Charlevoix on the 5th day of March, 1919, be opened at seven o'clock a. m. and close at eight o'clock p. m. of said day.

Adopted at a regular meeting of the Common Council held in the Council Rooms on the 24th day of February, A. D., 1919, by aye and nay vote as follows. Ayes: Aldermen Benton, Geiken, Geneit, Hiller and Washburn. Nays—none.

Moved by Ald. Hiller, seconded by Ald. Geiken, that A. L. Fitch attend the conference of municipalities at Lansing, Mich., February 26 and 27th, 1919. Motion carried by the following aye and nay vote. Ayes: Benton, Geiken, Geneit, Hiller and Washburn. Nays—none.

The Mayor appointed the following election inspectors: S. J. Alcox, L. E. Benton, Grover Geneit, A. L. Fitch, Frank Glassford, Mrs. Margaret M. Harsha and Mrs. Maude Armstrong. The appointment was confirmed by Ald. Benton, Geiken, Geneit, Hiller and Washburn.

Ald. Benton, seconded by Ald. Washburn moved the adoption of the following resolution:

RESOLVED, by the Common Council of the City of Charlevoix, that the dedication and use of those certain pieces or parcels of land situated in the City of Charlevoix, County of Charlevoix and State of Michigan, and known and described as Lots, One, Two and Three of Block Nineteen of Newman's Addition to the City of Charlevoix, for park purposes is a desirable and necessary public improvement.

THEREFORE IT IS RESOLVED, that such lands, which have been in part donated to and in part purchased by the City of Charlevoix, be and hereby are dedicated to the public as a public park.

RESOLVED FURTHER, that it is desirable that such park shall be improved and further dedicated as a perpetual memorial to the men and women of Charlevoix county, living and dead, who served their country in the great World War.

RESOLVED FURTHER, that it is the intention and desire of the City of Charlevoix that such park shall become the property of the people of Charlevoix county to be kept and maintained by the County of Charlevoix as an enduring testimonial of the gratitude of its people for the sacrifices of those men and women in that war.

THEREFORE IT IS ALSO FURTHER RESOLVED, that Ira A. Adams, John M. Harris and John Porter, constituting the duly appointed War Board of Charlevoix county, be and hereby are designated and appointed joint trustees with full power and authority to execute the purposes of such dedication by the improvement and development of the site for such memorial and the erection of such monumenta as to them shall seem necessary or desirable. Such trust to continue for the period of two years from and after the Eleventh day of November, 1918.

RESOLVED FURTHER, that the City of Charlevoix reserve and does hereby reserve the right to erect suitable pavillions, rest rooms, monuments or other improvements on the South half of said Lots One and Two, or on said Lot Three which shall not interfere with or, in the judgment of its Common Council obstruct or be detrimental to the purposes of the dedication of the whole of said lands.

RESOLVED FURTHER, that the City of Charlevoix reserve and does hereby reserve the power of appointment of a successor or successors to any or all of said trustees should a vacancy therein occur from any cause, or for any reason the said trustees should refuse or neglect to enter upon the exercise of the powers herein expressed.

RESOLVED FURTHER, that nothing herein contained shall be construed by the said trustees to bind the City of Charlevoix to defray any part of the expenditures made by them in carrying out the objects of the trust, it being the intention of this resolution to vest the said trustees with the power and authority to improve and develop the said park for and in behalf of the people of Charlevoix County as a whole and from funds contributed by the whole county.

Adopted at a regular meeting of the Common Council of the City of Charlevoix, held in the Council rooms on the 24th day of February, 1919 by aye and nay vote as follows. Ayes: Aldermen Geiken, Geneit, Benton, Hiller and Washburn. Nays—none.

S. M. ROSE, Mayor.

Countersigned:
D. S. Payton,
Deputy City Clerk.

Mayor Rose being excused, G. C. Geiken, president of the council presided.

Moved by Ald. Benton and seconded by Ald. Hiller that a 50 foot life line with buoy attached be placed, one at the foot of Mason and one at the foot of Clinton street. Motion carried by the following aye and nay vote. Ayes: Benton, Geiken, Geneit, Hiller and Washburn. Nays—none.

The Mayor referred the matter to the Street, Sewer and Public Health committee with instructions to install the same.

There being no further business the council adjourned.

D. S. PAYTON,
Deputy City Clerk.

Notice

Sealed bids for the purchase and removal of the building known as the O'Leary barn from the lands owned by the City of Charlevoix in Block Nineteen of Newman's Addition to said city, will be received by the City Clerk at his office in the Council Rooms up to 5 o'clock p. m. of Monday, March 3rd, 1919.

All bids must be accompanied by a certified check in the sum of $25.00 dollars payable to the City Clerk as pledge that the bidder will enter into a contract in accordance with the terms of his bid. The City reserves the right to reject any or all bids. Work of removal to be completed on or before May 1st, 1919.

Dated February 24, 1919.

D. S. PAYTON,
9t1 Deputy City Clerk.

John Harvard's History Traced.

Until modern times, says the London Graphic, John Harvard was "the Melchizedek of New England." He was "without father, without mother, without descent." So profound was the ignorance concerning the founder of America's first and greatest university, that an offer of a princely reward for "five lines of definite information" about him went unclaimed. Gradually, however, the labors of various industrious investigators bore fruit, until today John Harvard is a real figure of American history, whose footprints on English soil are clearly legible.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like load or Bladder bothers you—Meat forms uric acid

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble

DIXIE HIGHWAY BUILT CONCRETE

(Continued from Page one)

friends and those who can, to go to Washington with the demand that a national highway department be established and then fill them so chock full of self-convincing evidence that they cannot help working for it, thereby compelling congress to make such a department.

"I suggest a commission of four or five men, good and true, with a salary of from $10,000 to $12,000 per year, and a yearly allotment of from $100,000,000 to $150,000,000 to spend for hard surfaced roads. Then we will get roads, and not until then will, or can we get such roads as we need and which will be permanent. Our task is to organize all along the line of the Dixie Highway and to see to it that every town, city and township through which the Dixie Highway passes, is in honor bound to work for the building of a concrete road the entire mileage of this most beautiful National Highway.

"The officials of the Dixie Highway have done a great deal of good work in advertising and in getting this road laid out as a National Highway. The main line is worth a large sum of money, but it unfortunately passes through several states which have not the money with which to build permanent roads, and they are getting tired of spending all the money appropriated or what they can raise in keeping the soft dirt roads which they have in a half-way passable condition. The facts are that after a heavy rain there are few roads along the line which are passable. Many of the tourists who have had the courage to drive through this year, have the same story to tell of being stalled and of all kinds of delays and accidents.

"I do not want to knock Florida, this most blessed of all winter climates, neither do I want to knock Michigan, because its summer climate is equally as good for summer as Florida is for the winter, but the man from the east or the west, the north or the south, who has been to Michigan, has a desire to take northern Michigan cherries and apples down to Florida and exchange them for their oranges and grapefruit and the Florida people wish also to exchange theirs for the Michigan. The Michigan climate in the good old summer time vies with the soft balmy climate of Florida's delightful winters, so we two, Michigan and Florida, ought to pull together and in doing so, we are both helping to build up all the cities between in the other states.

"The time has passed and gone for anyone to say 'I am not on that road and I will be darned if I will work for it.' That saying is enough to make a man strike his mother-in-law. It will help you even if you are 25 miles distance from the good concrete road, because then you are only that far from a real he-man's road, so go for it; get the Dixie Highway built as it should be built and instead of having a few hundred hotels in Florida, we will have thousands of hotels. The roads already built are what have made Florida what it is.

"It would now seem to me that the good Lord has been favoring the north with unusually pleasant weather thus far this winter, probably in part payment for your part in going across and defeating the Huns, while we down south have also been largely favored by the 'next best' who gave us the same privilege and in addition a whole lot of cantonments and new business enterprises for all of which we are deeply grateful. At the present writing the weather is 74 and the water 62, so why not come down while conditions are so favorable and escape some of the bad weather which you 'most always sometimes' cannot bet on at being good in February and March. You, who have never been to Florida, do not know what you have missed. The water is fine and wet, so come in and when you dry off you probably will want to go to Havana and Halifax next year, but if you stand in with the real live 'he-man' now you may get a rub-down occasionally.

Remember the good old Republican days when you had to apologize for serving a bacon and beans dinner?

ADD SAGE TEA IN FADED OR GRAY HAIR

Mixed with Sulphur it Darkens so Naturally Nobody can Tell.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it is so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

SEEK LEELANAU NUN MURDERER

BODY OF SISTER MARY JOHNS DISCOVERED

Said to Have Been Buried Under Church at Isador—Had Been Missing 11 Years

A possible slayer is being sought by officers of Leelanau county, in connection with the death of Sister Mary Johns, who disappeared mysteriously from the convent at Isadore, near Traverse City, eleven years ago.

The body of Sister Mary, it is claimed, has just been recovered, and a chain of evidence has been wrought by officers that it is thought will place responsibility for the crime within a few days.

That Sister Mary Johns was murdered is practically certain, for her body, it is asserted, has been exhumed in the basement of the Isadore church.

The greatest mystery of the day was the disappearance, eleven years ago of the sister, thirty-three years old, who came to Traverse City from Detroit. The entire region took up the search with bloodhouds, but to no avail.

Because threats were made a few days ago to a certain young woman in the neighborhood of the convent, that she would "be put where Sister Mary is" if she revealed indiscretions with a man of the neighborhood, the latest development of the weird tragedy leaks out. This is the substance of the story.

Some time ago a new basement was to be built under the Isadore church. At that time, it is asserted, one of the men in charge received a communication from a person who asked that Sister Mary's body be dug from beneath the church and placed in the cemetery before the basement work was started. It is further said the request was carried out. In the process of exhuming, and later reburying, the services of a man were employed, who it was judged would "keep the matter to himself." This helper's statement has been obtained and his affidavit is in the hands of the officers.

At the time of the disappearance of Sister Mary, stories were circulated involving certain persons of the neighborhood of Isadore. Murder was hinted.

TAX COLLECTOR TO VISIT COUNTY

Will Aid Those Unable to Make Out Income Tax Returns

Get ready for the income tax man. He will be in Charlevoix March 5th to 7th. If you are uncertain regarding the amount of your income and whether you come under the ruling, better see him and be sure about it. We have been asked to give the following letter wide publicity:

Charlevoix Courier,
Charlevoix, Michigan.

Dear Sir: In view of the fact that all income tax returns under the new revenue act must be filed and at least 25 per cent of the tax paid on or before March 15th, you are respectfully requested to give the accompanying information as wide publicity as possible.

An income tax deputy will visit Charlevoix county and be at the following places on the dates named: Charlevoix, March 5th to March 7th; Boyne City, March 13th and 14th; East Jordan, March 15th

Blanks will be mailed from this office to all individuals who made returns in 1918 of incomes received in 1917. It is important that the individual use the blank mailed to him as his name, address and number is printed thereon. If he goes to a deputy he should present this blank.

Your co-operation and assistance in spreading this information will be of great value to the government in carrying out the provisions of the new law, and at the same time save many from becoming delinquent and being subjected to the penalties which accrue in cases of failure to make return in time. Respectfully, Emanuel J. Doyle, Collector.

MICHIGAN NEEDS MORE GOOD ROADS

(Continued from page one)

greatest era of road building Michigan ever has seen.' The unanimous vote of the legislature submitting a constitutional amendment to the voters which will allow the state to borrow not to exceed $50,000,000 for the improvement of highways marks the climax of the march of events in the history of road improvement in our commonwenlth. It should be borne in mind by the people that the vote on April 7 is not to bond the state for $50,000,000 or for any sum There is no intention of issuing $50,000,000 worth of bonds. The amendment merely provides that bonds may be issued from time to time as they are needed for road work and to assure Michigan of its share of federal aid. The people themselves, through their representatives in legislature and through their governor who always holds a check on legislation by virtue of his power of veto, later may designate the time and manner of issuing the bonds. The $50,000,000, which seems to have proved misleading, simply is a limitation. It established a wall beyond which even the people themselves may not go."

INTERESTING LETTERS FROM SOLDIER BOYS

From Edward Edwards
January 16, 1919.

"Dear Mother—How do you like the looks of my new stationery? Just purchased it at the Y, so am going to initiate it by writing to you. I'll start this tonight but will not promise to finish it.

"I just finished drawing the picture of a large tank upon a fellows leather jerkin. I have drawn three such tanks already and have as many more to draw. We all want tanks on our jerkins, hut we cannot all draw them, so I am busy helping out the other fellows. I hope I can bring my jerkin home, it is a regular picture poster. Tonight I am all alone, the other two fellows being out, one at cards and the other to a supper. Our room here is becoming more like a home to us. We are not satisfied to remain in here always, but time does not drag as heavily as it did.

"We managed to purchase some butter at the commissary yesterday so now we almost live on buttered toast. We can buy bread (mighty good bread, too.) When I get back I will eat lots of toast and milk. You will notice the difference in the amount of bread you use and the milk you get. I will drink milk for every meal, it is very scarce over here and I sure miss it. Butter costs sixty cents a pound at the commissary. I guess that is their price. (U. S. commissary.) Sugar is also very scarce, cannot buy it. There are hundreds of things that we cannot get, but of course we do not expect them. We are not in America, the only land of plenty.

"Well, I am rather tired tonight. We had a big morning, a shomae battle was put on and I was scouting for machine gun nests and snipers. It required and took a great deal of running from cover to cover. I wasn't ruled out (shot) so was out in the entire attack. The result is that I am stiff and tired tonight, so will turn in.

"Today is Saturday. I am on police detail (cleaning the roadway), that is, I am supposed to be, but they have me on a truck helping to draw stones. O, the army here is a diversified occupation, we get all kinds of different jobs. I like details any day but Saturday, those days are holidays practically, as also are Sundays. Am not on detail tomorrow and am glad of it, as I will have a whole day to myself.

"Yesterday we were out hunting machine gun nests and snipers. It is quite a game. I did not have to do as much this time as I did the day before. Was in the reserve army. The game is interesting and better than drilling all the time, but farming beats them all and I wish I were doing it back home right now.

"My homecoming is still in obscurity and sinks deeper and deeper every day. I believe it will be months before we will be headed toward home. Father must not plan on me for the summer. Will come home as soon as I am released, but that at present looks far away. He and Percy must go ahead and not plan on me. Albert will be home and Arthur has a more of a chance at getting home than I have. I wish I could see more of France, but it does not look possible. If the weather was better it wouldn't be so bad staying. Imagine next month we will get nice weather again. It looks as though I will be here to spend my birthday, February 12th.

"I received a second letter from you the other day. It was written on the 19th of December I think. I have lost a lot of mail I think. I must have or else my friends and you have neglected me. I cannot write to all my friends so speak a good work to them for me. You know who they are so speak to them and tell them that I would like to have them write to me. To sing in the choir again would be a great pleasure. Tell father that I am anxious to get home and will come as soon as uncle lets me go. Lots of love." Edward Edwards.

GET YOUR CAR READY FOR SPRING USE

Don't wait until the approaching beautiful spring weather is here, with the roads in fine shape for driving, and then find that "flivver" badly in need of overhauling and repairing. The first drive of the year is the most enjoyable—especially if the auto gives no trouble. If your car causes you trouble, the enjoyment of the day is lost.

AUTO REPAIRING IS OUR BUSINESS

That's exactly what we have spent hundreds of dollars in equipment for. That's why we have a crew of expert repairmen on our pay roll. Their work is to put your auto in running condition. After an auto passes through their hands the many vexatious delays and troubles cease. When you "step on her" the car responds, and you can start out on a hundred mile run without thought of trouble.

Bring that car to us for a thorough overhauling right now. If it needs painting, we can do that too. Do it now before spring arrives.

Educational Standing of our County School Commissioner, candidate for Renomination on Republican ticket.

To Whom It May Concern:

Miss May L. Stewart has been Commissioner of Schools for Charlevoix county for four years. She is now a candidate for re-election.

Miss Stewart's preparation for this responsible position has been thorough. In scholarship and experience she has accumulated a fund of practical knowledge fitting her in an exceptional manner for the work of standardizing the schools of the county.

In successfully organizing the schools, Miss Stewart has proved herself to be energetic both in establishing harmony and in insisting upon efficiency; progressive in the adoption of tried principles and energetic in their execution.

During the last two years Miss Stewart's war work has stood out in marked relief. The patriotic training given the students of the county, under her direction, will have much to do in developing the democratic citizenship of our youth for which our school system is established.

I endorse her candidacy without reserve. Yours truly,

A. G. Stead, Supt. of Schools, Boyne City.

To Whom It May Concern:

Miss May L. Stewart, a candidate for re-election as County School Commissioner, is an enthusiastic, courageous, enlightened, up-to-date educator.

Her administration has been marked by many educational advances in the schools of the county, more standard schools, higher educational requirements for teachers, and improved text books.

I believe her past record as County Commissioner should entitle her to the support of the people at the coming election. Signed,

Supt. H. A. Craig, Charlevoix.

To Whom It May Concern:

I am pleased to have an opportunity to say a good word for Miss May Stewart, School Commissioner of Charlevoix county. During the time that I have taught school I have been more or less familiar with the work of several county school commissioners. From what I have seen of Miss Stewart's work, I believe she is the most progressive and educationally up-to-date of any commissioner I have known. The splendid work which she is doing and her realization of the big school problems which are coming forward, fit her unusually well for the important position of School Commissioner of Charlevoix county. Very truly yours, M. R. Keyworth.

Supt. of Schools, East Jordan.

FARMERS INSTITUTE AT IRONTON GRANGE

State Speakers to Have Charge of Days Program

Farmers Institute will be held at Ironton Grange hall, Friday, March 7. The meeting will be conducted by W. F. Taylor of Oceana Co., and Mrs. Dora Stockman of Lansing.

Mr. Taylor needs no recommendation to those who heard him at Ironton last year, and Mrs. Stockman's ability as an Institute and Grange speaker is known all over the state. Pot luck dinner at noon.

To the Voters of the Third War:

On March 5th you will have the opportunity of electing an Alderman for the Third Ward. As I am a candidate for that office I earnestly hope to receive your support and if elected will promise to use my business experience to work for the best interests of the Third ward and city. 9t1 Pd. THE PASSING OF MOSES COOPER

ONE OF THE EARLIEST SETTLERS OF CHARLEVOIX

Ten Day Illness Terminates With Stroke of Paralysis—Funeral Services Tuesday

Another Charlevoix pioneer gone. Moses Cooper or "Uncle Mose" as he was familiarly known to many friends around Charlevoix and his home township, has passed away. He was taken ill ten days prior to his death, the end being caused by a paralytic stroke on Sunday, March 2, at 8:40 p. m.

Mr. Cooper was one of the very earliest settlers in Charlevoix, having moved here from Little Traverse as early as 1865. Deceased was born in England in 1839. His father died there when he was a small child, his mother afterward taking her two children, himself and a brother Richard and came across to New York eventually drifting up into what was then known as "The Traverse Region" of Michigan, settling finally in Little Traverse now known as Harbor Springs.

Mr. Cooper was married in 1859 to Sarah Griffith, a sister of Mrs. Daniel H. Pieree, now living in Charlevoix. Four children were born to this marriage, two of whom are now living, Fred, who has lived many years in Seattle, Washington, and Richard now living in Hayes township. His first wife died and in 1869 he was again married to Olive Cratsley, who is still living. Had he lived until May 4, they could have celebrated their golden wedding anniversary. Three children of this second marriage are now living, Lena in Wilson Creek, Washington, Mrs. Nora Brown of Charlevoix and Vera living at home.

Mr. Cooper was elected the first treasurer in Hayes township and has held that office many terms since. He, in partnership with Mr. Burgess, was engaged for many years in the lumber and shingle business at Oyster Bay, until the sale of the property last year.

His unfailing good nature and cheerfulness through life won him a wide circle of friends, many of whom were gathered at the home Tuesday to pay their last respects. Funeral services were held from the home in Hayes township Tuesday, Rev. Chas. A. Rice of the Baptist church officiating. Interment at Brookside cemetery.

LIVED LIFE OF UNSELFISH DEVOTION

Demise of Mrs. Fred Mason Causes Grief to Friends and Relatives

Mrs. Fred Mason died at her home in Marion Township, Friday morning, February 28, at the age of fifty-nine years.

Caroline Stevens Mason was born near Adrian, Michigan, February 7, 1860. At the age of six years she moved with her parents to Charlevoix county. She was married to Fred Mason in 1884 and has lived on a farm in Murion township since that time.

She was a devoted christian wife and mother, and her life of unselfish devotion to her family and her heavenly Father was an example to those who knew her. Several times during her sickness the family heard her asking God to take her home if he was ready for her to come, showing that her trust in Him was steadfast until the last.

Besides her husband she leaves two daughters, Lula and Countis, three sisters, Mrs. Fred Dean of Ironton, Mrs. Edwin Lewis of East Jordan and Mrs. R. N. Wilson of Almont, a number of nieces and nephews and many friends.

The life that has gone out has been like music full of concord, full of sweetness, richness, delicacy, and truth, there are two ways to look at it, one is to say, "I have not lost it." Another is to say "Blessed be God, that I have had it so long."

Hayes Township Caucus

A township caucus will be held at the Town Hall in Hayes township on Thursday, the 18th day of March, commencing at 2:00 o'clock p. m., for the purpose of nominating candidates for township offices and any other business that may properly come before the meeting. By Order of Committee. 10t2

HAVE NO KICK NOW ON MAIL SERVICE

Beavar Islanders Receive Two Deliveries In One Day

For the first time in the history of the country, Beaver Island received two mail delfveries in one day, last Thursday.

The tug Geiken left here Thursday morning with tha mail and upon arriving at St. James, Capt. Ava Smith learned that the infant child of Frank E. Leff was seriously ill and that Dr. Armstrong was wanted immedlately if the child was to be saved. They returned to Charlevoix, summoned Dr. Armstrong, picked up the mail and left again that evening at 8:30 for tha Island.

High winds came up, blowing the ice into the harbor at St. James, causing them to remain on the Island until Saturday. On their way out Saturday they broke through three miles of ice which was in winrows twelve foot deep. Tha tug could not make it forward, so turned around and dredged out backwards.

The men aboard the boat claim that every effort was put forth by the St. James people to make them comfortable during their stay, and that they were greatly elated over receiving the mail twice in one day, especially at this time of the year.

METHOOIST CENTENARY PROGRAM

100TH ANNIVERSARY OF METHODIST MISSIONS

Program Calls for tha Raising of 85 Million Dollars Within Next Five Yaars

The Centenary, as the name indicates, is the 100th anniversary of the Methodist Missions, and calls for a program extending over a period of five years and for tbe raising of 85 millions of dollars to be used as follows:

In European War Reconstruetion, for the caring of the orphans, relief of the wounded, and to insure Democracy's safety in Europe. In the foreign field, for reinforcing our schools, hospitals, churches, with medical and social equipment, and evangelistic propaganda for the saving of the Far East, Africa and South America. In the home field the Methodist church has a modern 20th century christian program, for city, town and country, including the foreigners in our cities, giving financial, social and educational aid to weak churches.

One of the aims of this movement is to seeure thousands of ministers, missionaries, teachers, physieians, nurses, recreation and soeial directors for the world of tomorrow.

Rev. Henry Candler says that the local Methodists has been thoroughly organized, the entire church membership divided into groups and divisions with forty-five leaders and assistants to give direction to the work.

There will be a meeting of all group leaders at the parsonage after the prayer meeting Thursday night. Drs. Howard A. Musser and R. E. Meader will be in Charlevoix all day on March 12th to conduct public services in behalf of the Centenary. Dr. R. E. Meader will also spend Sunday, March 16th at the local Methodist church.

Rev. Candler is very confident that the Methodists of this city will do their full share in this great effort.

OLDHAM ASSURES NO APPEAL WILL BE TAKEN IN THE KISER CASE

Courier Makes a Few Further Observations in Connection With Proper Use of Red Cross Funds—Those Who Provide Money Should be Consulted

In our issue of February 19, we commented upon the Myrtle Kiser case and asked what seemed to us pertinent questions relative to it. We acknowledge the receipt of an answer published in the Charlevoix Sentinel, signed by Mr. Harry L. Oldham, which we assume was intended for us as well as the rest of the general public. Now that we are assured that no appeal of that case is proposed, we will proceed to make a few further observations.

Before we go on, we wish to advise Mr. Oldham that our comment was not made for any of the purposes he mentions. Never before has this paper been accused of making trouble for the Red Cross. On the contrary, it has at every opportunity done all within its power as an American newspaper to further every war activity. He will therefore get that mistaken idea out of his head. Neither has this paper ever been accused of having shoved a young soldier's wife or any other person or persons into the mud and mire. It has always endeavored, and will continue to endeavor to do all within its power to assist and defend the weak or fallen and help to place them again upon their feet. We believe that it is not only our duty, but it should be our pleasure to do this. So Mr. Oldham will eliminate that idea from his mental works.

We will also advise him that the purpose of our comment was not to make an attack upon him. We confess to a feeling of annoyance over the fact that there is such a want of co-operation between him as the director of Civilian and Military Relief of the American Red Cross of Charlevoix county, and the local Red Cross organization. We have for some time deplored the fact that Mr. Oldham has been so aloof from the general public. We concede his personal right to isolate himself in his Park avenue home, but we do not concede that, as one holding the public position he does, he may claim to be "sufficient unto himself" and keep the people in the dark as to his public undertakings. He is spending our money and he must hold himself in readiness to account to somebody, and in our judgment that means the people who provide the funds. Understand us. We do not for a moment think that Mr. Oldham should consult us, or account to us, or even recognize us individually. We will, however, reserve to ourselves the right to speak out and to speak plainly in any matter affecting the public interest. This is our prerogative and we shall exercise it whenever we deem it necessary. Be sure of that.

Now to get down to cases. We have read with interest, Mr. Oldham, the letters quoted by you. We note particularly your letter to divisional headquarters. We observe that you failed in that letter to acquaint such headquarters with all the facts which would enable them to know the true situation as we and the local Red Cross know it. You advised that the woman in question was charged with "pandering," a general term, but you did not advise that the woman was charged with having lead a young girl thirteen years of age into the depths of the underworld. You did not advise that she had deliberately deceived the mother of the girl in order to accomplish her ends. You did not advise that she had not heard a word from her husband in the service, since the preceeding August. You did not inform them that you had heard the evidence in the case or had taken the trouble, before you employed an attorney to defend her, to acquaint yourself with the true facts. More than all, you did not state in that letter that, before you employed this attorney, you had consulted the prosecuting attorney or sheriff or done any other thing to post yourself as to the true facts or the merits of the case. You did not advise that you had advanced, as we are reliably informed, $200 for the services of an attorney, besides other moneys for a transcript of record. Nor did you advise that you had consulted the local Red Cross workers of the advisability of the expenditure of the funds for such purpose. It does not appear that you stated the amount of any money you had expended in the case. Don't you think that Mr. Gillin should have known all of these things before he was asked to pass upon the matter? His decision is not of much value under these circumstances.

We ask you, Mr. Oldham, where you got your information that this soldier loved his wife and wrote devotedly to her? Don't you know that she has not received a letter from him since last October, and as her testimony in the case showed, probably not since last August? Some of the statements in your "self-explanatory letter" meet with our approval. The weak and wayward should be protected and their redemption affected if possible. It is only the way in which you went about this that we cannot approve. The law has provided for a circuit judge, and our own judge is noted throughout Michigan as a firm believed in the probation system for offenders against the law. If this woman had gone to Judge Mayne; if you had taken her to him, yourself, when you first heard of the case, she could have told him the truth and there can be but little doubt that she would have been in a far better position than she is now. If she would not do this, and preferred to go before a jury and air all of the disgusting details of her shame, the law provides that the court may appoint an attorney to defend her and she may make her own selection. Mr. Harris has defended many cases on such an appointment. The expense of the defense would then have been borne by the whole people and the funds raised by the patriotic men and women of this county for better purposes would not have been drawn upon.

The evidence seems clear to us that you plunged into this matter without due deliberation and without consulting those who had the right to be consulted. Then when you are asked to explain, you resort to abuse and villification and talk of curs and scoundrels.

You talk about a reconciliation and say that you believe this soldier will take this woman when he returns. What manner of a man are you, anyway? Do you mean that we should conceal the facts from this absent husband and thus induce him to take back his wayward wife? Has she made an honest confession and is she repentant? You do not say.

Now, this is about all we care to say about the matter. You seem to have a mistaken idea that any question asked you regarding your acts, is an attack upon the Red Cross. This girl is but an incident in this controversy. The main fact stands out that just such ill-advised undertakings as appear in this case are what cause unrest and lack of confidence on the part of the people. We are at the beginning of another Liberty Loan drive and more work faces the Red Cross and other kindred organizations. The people must have confidence and must be convinced that their money will be well expended. If they know that in the future more care will be exercised and unwarranted uses of their money stopped, and that there IS a way to stop it, perhaps the confidence which was rapidly being lost will in a measure be restored. That is our purpose and OUR ONLY PURPOSE. While it may hurt sometimes and cause unpleasantness, still pitiless publicity is often the only remedy.

Regarding the auditing of your accounts. We note that you say they are audited by an auditor from national headquarters. National headquarters are NOT the only ones interested in the expenditure of these funds. It seems to us that the publication, (not necessarily in the Courier) of a statement of receipts and expenditures by your office would be of considerable interest to the people of Charlevoix county. Furthermore, we believe they are entitled to it. Any person holding a position of public trust assumes this obligation when he accepts the place. Our state senate has, within the last few days, required a complete itemized statement of the receipts and disbursements of the State War Board. We see NO difference in the cases.

In conclusion let us say to you, Mr. Oldham, that for any and all good things you have done, we are ready to be the first to give full credit; for any mistakes you have made with good intent, we are willing to be charitable because of the good, but for willful mistakes, openly and stubbornly persisted in, you will merit criticism in a good full measure. In no other way can a balance be kept. We judge no man. That is not our province as a newspaper, but we can and WILL publish facts.

In the future, please refrain from the use of nasty words and epithets. They do not sound well and besides they are not effective. You have stated on a number of occasions that we should be run out of town. That makes us mad. Just let us remind you, that no good American ever ran from an Englishman, and NEVER WILL.

ENTERTAINED AT COASTING PARTY

M. E. Church Sunday School Class Entertained at Ekstrom Home

The Misses Lena Ekstrom and Ruth Ranger entertained the fifteen girls who are members of Mrs Beeman's Sunday school at the Ekstrom home Tuesday evening.

A coasting party was the feature of the evening after which the young ladies were invited to the Ekstrom residence to partake of dainty refreshments that the hostess' mother had ready for them upon their arrival. Needless to say the young ladies enjoyed the evening as well as the lunch, as their appetites had been sharpened by the out of door sport.

DICKENS CLUB INFORMAL DINNER

HUSBANDS GUESTS OF MEMBERS OF CLUB

Enjoyable Event Held at Home of Mrs. Harry Nicholls—Covers Laid for Thirty-four

On the evening of February 27, the Dickens club of Charlevoix entertained with an informal dinner at the home of Mr. and Mrs. Harry Nicholls The guests were the husbands of the club members and covers were laid for thirty-four.

The ice and snow reigned without, a glimpse of the glowing interior and the spacious living rooms brought a veritable breath of spring, for daffodils, ferns and bluebirds were everywhere, the soft light of candles and gleaming silver made a beautiful setting for a repast that would have pleased even Charles Dickens—that connoisseur of good things.

Not alone in decoration was the color scheme of Chinese blue and yellow (the club colors) observed, but in every course from the dainty dinner cards of bluebirds hiding boxes of almonds, to the yellow and blue flowers on the ices and cakes of the dessert, were these colors in evidence.

While not conforming throughout to the menu of Dicken's days, the dinner course of whole baked ham garnished and spiced, was one of the dishes most often described at the dinners and family gatherings, the great novelist so realistically portrayed.

Following the dinner, Mrs. Nicholls as toastmistess, in her usual charming manner, introduced the following program of music and toasts. Piano solo, Nocturne, Mr. Beers; Greeting and Resume of Club Work, Mrs. Cooper; Our Guests—The Dickens Club; Response, R. L. Lewis; Solo, The Gypsy Trail, Lieut. Wilkinson; Reading from Rhymes of a Red Cross Man, Mrs. Vandermade; Solo, What the Chimney Sang, Mrs. Livingston.

Each number was enthusiastically greeted and enjoyed and those present were unanimous in expressing their appreciation of this delightful occasion, which though true to their simplicity which Charles Dickens loved, was one overflowing with jovial cheer and good fellowship.

LITTLE FOLKS ENJOY AFTERNOON

Miss Bernice Marshall Entertains on Her Ninth Birthday

Miss Bernice L. Marshall entertained eighteen of her friends last Thursday afternoon, the occasion being her ninth birthday.

The little folks enjoyed the afternoon by playing various games. At six o'clock a dainty luncheon was served including the birthday cake with the nine candles which proved to be the feature of the day. Miss Bernice received many nice tokens as a remembrance of the occasion.

LANOSLIOE FOR MAYOR ROSE

CARRIES THREE WARDS OF CITY BY 331 MAJORITY

Defeats Opposing Candidate in His Home Ward by 105 Votes—Stawart Commissioner

Simon M. Rose will succeed himself as mayor of Charlevoix for the year 1919-20 despite political combinations, newspaper attacks upon his record, hand bills, and a 99th hour public meeting in which he was viciously assailed by those who were seeking to defeat him. That the people had confidence in him and his ability to handle the affairs of the city is most strikingly demonstrated by his overwhelming majority.

His majority of all votes cast is 331 in the three wards. The first ward gave him 38, second ward 188, and the third ward 105. Quite a tribute to a man charged with incompetency and lack of ability.

In the first ward Darwin F. Meech defeated A. A. Swinton for supervisor by 11 votes. In the second ward Nat Burns was defeated by Harold Bedford by 15 votes.

The race for alderman in the second ward between N. R. Washburn and William Finucan was close, Washburn winning out by a majority of 49. In the third ward Meyer A. Levinson defeated D. J. Eckinger for alderman by a vote of 32.

The total vote cast in the three wards of the city was 649. Following are the returns as the Courier has been able to obtain them:

RUEL CHELLES NOW A LIEUT.

HAS A MOST ENVIABLE ARMY RECORD

Former Ellsworth School Teacher Saw Bordar Service With 33rd —Served Overseas

Mr. and Mrs. E. J. Chelles received news from their son, Rael, one day last week stating that he was leaving the following day to rejoin his oatfit. He also informed them that he had received his commission as 2nd Lieut. for which he was recommended some time ago. This is welcome news to his many friends here as it shows that he has made the most of his opportunities.

Lieat. Chelles' first experience in army life was when he enlisted in Co. I, 33rd Mich. Inf., at East Jordan, February 19, 1916. He saw border service with the 33rd in Texas and was discharged on their return April 12, 1917. He tried life as a "civie" for a short time but following the declaration of war of the United States against Germany he resigned his position as school teacher at the Atwood schools and went to Waco, Texas, where he reenlisted in his old outfit the 33rd, which by this time was called the 125th Infantry. This was on January, 1, 1918.

Within a few days of his arrival at Waco, the 125th was ordered overseas as a part of the 32nd division.

Of the splendid fighting record of the 125th everyone knows and by the fact of Ruel being commissioned which was for ability and bravery we are sure he played his part among an outfit where each an every one did well.

Mr. and Mrs. Chelles are to be congratulated on the fact that both of their sons in the service distinguished themselves, Ruel's older brother Walter L. Chelles having been given a distinguished aervice medal for exceptional bravery ander fire.

Lieut. Chellea took part in every engagement in which the 125th was engaged and was on his way to a base hospital to recover from gas on Nov. 11, the day on which the armistice was signed.

Sgt. W. L. Chelles was discharged a short time ago at Camp Beauregard, La., where he had been sent as an instructor in the intelligence service and is now at Detroit, and the entire community joins with Mr. and Mrs. Chelles in hoping for a safe and speedy return of their other son to the home and fireside.

MOVE TO FORM CEMETERY ASSOCIATION

Condition of Grounds a Disgrace to the Community

There will be a meeting at the Congregational church at 7 o'clock on Friday evening of this week for the purpose of forming a cemetery association.

The condition of the cemetery is and has been for years a disgrace to the community. The fences are down and the grounds foul with weeds and brush.

It is proposed to secure memberships in the association, charging a small entrance fee and electing officers whose daty it will be to see that the place is put into such shape that we will not be ashamed for outsiders to visit the place.

Anyone and everyone of this community should be interested in this move and should attend this meeting ready to lend your financial and moral support to the proposition. Remember the time, the place and the hour.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion; others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance, shortly.

FARMERS INSTITUTE ALL DAY MEETING

Meeting Well Worth Attending at Ellsworth March 14

There will be an all day meeting of farmers and their wives at a Farmers Institute at Ellsworth on March 14, Friday. An evening session will be held and dinner will be served in the hall at noon.

James Helme editor of the Michigan Patron and ex-Fond and Dairy Commissioner will be one of the speakers and Mrs. Woodman of Van Buren county will also be there to talk on subjects which will be of great interest to the women.

No one who is interested in better agriculture and better homes can afford to miss this meeting of the farmers. We do not have a chance to hear such people every day and we should take advantage of these opportunities when they come to us.

ESSEX

Mrs. Wm. Drenth is improving from her recent illness.

Mrs. N. Dekkenga was on the sick list the first of last week.

Mr. and Mrs. Fielstra of Pleasant Hill visited at the Dekkenga home Friday.

Nick Brock has rented and will ran Mr. Drenth's farm for the coming summer.

Mr. and Mrs. Tjapka and family of Pleasant Hill visited Mr. and Mrs. George Drenth Friday.

Mr. Sarasin of Boyne City is now at the Dekkenga home working on Mr. Dekkenga's new barn.

Some of the neighbors helped Mr. Dekkenga haul lumber for his barn from East Jordan last week.

Mr. Drenth is working on his house in Ellsworth where they will move soon, and then we will lose an old neighbor and gain a new one.

Mrs. Wieland entertained the Ladies Aid of the Methodist church of Ellsworth last Thursday. A nice dinner was served by the hostess and a pleasant afternoon was enjoyed by all.

ATWOOD

March 3, 1919, and roaring cars still running.

To Norwood correspondent: write again please.

Ethan Joliffe was in Central Lake last week taning pianos.

Mrs. Henry Blow has rented her farm to Will Brown of Atwood.

Preaching at the M. E. church next Sunday at 10:30 a. m., by Rev. Vane.

Joe Seymour of Charlevoix was here last week visiting his daughter, Mrs. Chas. Hibbard.

Geo. Parson last week purchased of G. V. Nash the 80 acres of land adjoining his farm, to the east.

Floyd Parsons is in Detroit enjoying the sights—at least, this is what he has written to his father.

Most of the farmers have harvested a nice lot of ice. This means lots of ice cream the coming summer.

Ed. Rabideau recently purchased of Mr. Williams of Norwood, 80 acres of land joining his farm on the west.

We certainly do not want the saloons back again. Neither will we if every voter will do his or her rightful duty. Vote no.

Thos. DeMoulpied, who has lived on the Aaron Harwood farm during the past two years, has rented a farm near Traverse City. He will move soon.

We are sorry to learn of the death of Mrs. Fred Mason of Phelps. We take this way of conveying to relatives and members of the family our sincere sympathy.

We understand John Parsons, Jr., traded horses last week with W. P. Smith of Ellsworth, and Russ Alward has purchased a horse to match his roadster. Well, enough said.

Peter Visser, of Grand Rapids has rented part of his farm to Mrs. John Essenberg, reserving several acres. Mr. Visser is contemplating quite seriously of farming some himself.

In East Jordan, the commissioner continued her preliminary work in behalf of county normal class for 1919-20.

REV. C. W. HEWETT WILL NOT RETURN

Unable to on Account of Continuad Ill Health of Wife

We have an announcement to make this week which no doubt will cause a deep disappointment, not only at Ellsworth, but to Atwood and Norwood residents.

It was learned just a few days ago that owing to the continued ill health of Mrs. C. W. Hewitt, it will be impossible for Rev. Hewett to return to Ellsworth and continue as pastor of the M. E. church.

It is seldom that anyone wins the hearts of the people of a community as did Mr. and Mrs. Hewett during their brief stay here last fall and it is deeply regretted that Mrs. Hewett's health is so delicate as to make an extended stay in the north an impossibility. Dr. Hewett holds out one ray of hope however, as he intends to make Ellsworth his home during the summer months.

However, we are not to be without a resident minister this summer and in the selection of one, the board we believe have made a wise choice in securing the Rev. E. F. Vane to fill the place made vacant by Dr. Hewett. Rev. Vane is a young man of exceptional ability along his chosen line of work. He comes here from Buckley, Mich., and is highly recommended both by his former congregation and by the district superintendent, Rev. R. E. Meader of Traverse City, who was in Ellsworth on Tuesday of this week. Rev. Vane preached his first sermon last Sunday night and gave excellent satisfaction. Arrangements will be made at once by the new pastor to bring his wife and children here and will announce his hours for preaching service at an early date. Let us hope that the people of this vicinity will overlook their disappointment of the loss of Dr. Hewett and will get together and give the new man the support and encouragement he deserves and to which he is entitled to.

SERGT. DOUGLAS ARRIVES HOME

Receives Honorable Discharge at Camp Custer, February 25

Sgt. Douglas Smith, who has been overseas with the 125th Inf., 32nd division, reached home on Tuesday of this week, looking and feeling fine.

Sgt. Smith landed at Hoboken nearly three weeks ago, sent home to recuperate from Spanish influenza, pneumonia and gas and was discharged February 24 at Camp Custer. He was with the 125th at Chateau Thierry, Soissons and at the Argonne, but luckily was never woanded. He was slightly gassed on several occasion, however, but never sufficiently bad for a hospital trip.

He stopped in town only long enough to say hello to old friends and for a handshake all around and immediately drove out to the home of his parents, Mr. and Mrs. W. P. Smith, west of town. He has not fully decided what he will do but will spend the next few weeks renewing old friendships and forming new ones.

ELLSWORTH LOCALS

Sheriff Dansmore of Bellaire was in Ellsworth on business on Monday of this week.

Mrs. B. J. Beuker and daughter, Alida, visited friends at Petoskey Thursday and Friday of last week.

The township committee met one day last week and decided on Thursday, March 13th as the day for the township caucus.

The intermediate room of the Ellsworth schools enjoyed a sleighride to the Wright school on Friday afternoon of last week.

Mrs. A. L. Ely entertained her mother, Mrs. A. Brosche and her sister, Mrs. W. E. Moon of Traverse City from Saturday until Monday.

The Ellsworth Produce Co. shipped three cars of potatoes on Saturday of last week. Mr. R. Nelson went through with the cars to look after the fires.

Walter Youngdyke, who has been working the F. H. Skow farm the past two years, has purchased the James Drenth farm east of town. It is understood that Harry Elzinga of near Atwood has rented the Skow farm.

Peter Hennip purchased the Dell Bowman farm last week. This farm is near Essex and is considered to be one of the best farms in this vicinity. Mr. Bowman expects to locate in the southern part of the state.

Wm. Drent his working each day converting the old meat market building on Main street which he recently purchased from Geo. Klooster, into a residence and he expects to move down town some time this month.

Mrs. DeVries, who has been visiting her daughter, Mrs. B. J. Bouker the last month, left last week for her home at Grand Rapids. Mrs. Beuker left at the same time to spend a time with relatives at Holland, Mich.

Mrs. Huson Ruggles was taken to the Petoskey hospital the first of last week and there underwent a serious operation from which, however, she is nicely recovering. Mrs. Raggles was formerly Miss Kate Nicholls and was well known here.

The Banks Marketing association held an interesting meeting at the Blue hall on Friday of last week, at which all subjects of interest were discussed. The speakers were Hulo Tennent, the good farm expert, Dorr Bael of Cadillac and County Agent Cribbs.

E. C. Powers of Harbor Springs visited friends in Ellsworth one day this week. Mr. Powers was the carpenter in charge of the school house here which was built last year. Since leaving here he has been working at Freemont on a county hospital and just recently finished his job.

The farmers institute will be held at the Blue hall at Ellsworth, Friday, March 14th from 10 a. m. until 4:30 p. m. and will be led by James Helme and County Agricultural agent W. C. Cribbs. This meeting has no connection with the co-operative association but is held for the general benefit of farmers. A good attendance is looked for.

FAIRVIEW-BANKS

Sheriff A. Dunsmore was in this neighborhood Friday.

Mrs. Ennis Schaver left for Grand Rapids, Friday, where she will visit friends and relatives.

J. Caniff of the Libby, McNeil and Libby Co., was in the neighborhood contracting pickles Friday.

Quite a number of the farmers around here attended the Market Association at Ellsworth Friday.

Miss Edith Oosterbaan returned home Saturday, after spending a few weeks with relatives in Holland, Mich.

PLEASANT HILL

Mr. and Mrs. Fielstra visited at the Dekkenga home Friday last.

Mrs. Jeff Bearss is on the sick list. We all hope she will recover soon.

Mrs. John Fielstra visited at the Van Til home Tuesday of last week.

Frank Davey is buzzing wood for Harm DeYoung and Albert Fielstra.

Lucy Van Til visited Annie Prince from Tuesday until Wednesday last.

Mrs. Fielstra and daughter Bessie visited at the Bearss home Thursday.

Mr. and Mrs. Powell and daughter, Dorothy, visited at the Bearss home Sanday afternoon.

Misses Annie Prince and Allie DeYoung visited at the VanTil home from Saturday until Monday.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is musay and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Moved by Ald. Washburn and seconded by Ald. Geiken that the bills as read be accepted and the mayor and clerk be authorized to issue warrants on the city depositories for $3,066.03 and the clerk be instructed to draw orders on the various funds for the amount of each respective bill. Motion carried by the following aye and nay vote.

Ayes—Benton, Geiken, Hiller and Washburn. Nays—none.

Moved by Ald. Washburn and seconded by Ald. Benton that the report of the Finance Committee relative to the purchase of the O'Leary property be accepted and placed on file and said report be spread at length upon the minutes. Motion carried.

Charlevoix, Mich., Feb. 24, 1919.

To the Honorable the Mayor and the Common Council of the City of Charlevoix.

Gentlemen:

The following is a report of the expenditures connected with the property known as the O'Leary livery barn:

State and Co. tax, 1918	$ 38.63
City tax, 1918	36.04
Accrued Int. on mortgage	64.17
Revenue Stamps	1.50
Mortgage assumed	1000.00
Chax. Co. Bank, client	1067.66
	$2208.00
Purchase price of property	$2200.00
Unearned prem. on policy	8.00
	$2208.00

Order drawn to Charlevoix County Bank covers balance due owner and revenue stamps, or $1069.16.

Respectfully submitted,
E. J. HILLER,
Chairman Finance Com.

Moved by Ald. Hiller and seconded by Ald. Geiken, that all bids to purchase the O'Leary barn be respectfully rejected and the clerk be instructed to advertise for new bids, same to be opened at regular meeting of council on 17th of March, 1919. Motion carried.

Ald. Hiller seconded by Ald. Benton moved the adoption of the following resolution:

RESOLVED, by the Common council of the City of Charlevoix, that a vote of commendation be extended to Mr. Harry E. McHugh, an esteemed and respected resident and citizen of this community, in recognition of his splendid service to his fellows in rescuing from drowning the two boys, who on February 22nd last broke through the ice of the harbor of this city. But for the presence of mind and cool bravery of Mr. McHugh, the life of at least one of the boys would have been lost. His noble disregard of his own life and safety in plunging into thirty feet of icy water and bringing the helpless boy to safety, merits an expression of the highest form of appreciation in behalf of the people of this community.

RESOLVED FURTHER, that this resolution be spread at length upon the minutes of the proceedings of the council, one copy forwarded to Carnegie Institute and a copy properly engrossed presented to Mr. McHugh.

Adopted by a unanimous vote of the Common Council of the City of Charlevoix held in the council chambers in said city, on the Third day of March, A. D., 1919.

Moved by Ald. Hiller and seconded by Ald. Benton that the matter relative to repairing the trash rack at Bellaire be referred to the Electric Light and Water Committee with power to act. Motion carried by the following aye and nay vote. Ayes—Benton, Geiken, Hiller and Washburn.

There being no further business the council adjourned.

Chas. H. Emrey, City Clerk.

ANTRIM CITY

March came in rather on the "lion side."

J. J. Smith and family spent Sunday at Eastport.

Clyde McGuire spent the week end with his aunt, Mrs. McDowell.

A number of the neighbors hauled logs to Central Lake last week.

G. Stoel and F. Mason attended the Association meeting at Ellsworth Friday.

Mr. Brant and Inez were at the home of F. Simons Sunday. Mr Simon killed a goose to save it's life and needed help to keep it from spoiling. We say they got it:

We suppose that the D. T.'s in the future will stand for Dry Territories.

WRIGHT DISTRICT

Monday of last week looked quite a lot like winter.

Miss Eva Wrieley spent Tuesday night at the Isa Alward home.

Mrs. Melvin Smith returned home from Traverse City Tuesday of last week.

Miss Nellie Janecon called at the Harm Sitzema home Friday afternoon.

Mrs. H. H. Herington spent Friday afternoon at the Ralph Sitzema home.

Curtis Feltenbarger and son, Clarence, spent Sunday afternoon at the Herington home.

Tom Sutherland is splitting his own wood this winter. He split a whole cord last week.

Mrs. Curtis Feltenbarger is spending a few days with her sister, Mrs. Thomas DeMoulpied, near Atwood. She went Saturday afternoon.

Mrs. Isa Alward returned from East Jordan Monday where she spent a few days with her brother and sister, Mr. and Mrs. Glenn Smith.

Miss Eva Wrisley has returned from her grandmother, Mrs. A. Wright's home where she spent from Wednesday afternoon until Friday afternoon.

The home of Elmer Herington of Kewadin was destroyed by fire on Wednesday morning, February 19. Only a few things were saved and there was no insurance.

All the relatives and friends of Mrs. Fred Mason, a resident near Phelps, are extended the full sympathy of the community. Her sudden death was a shock to all.

Bert Melosh, a former resident of this district and of Ellsworth, received an official telegram from Washington, stating that his son, Eugene Melosh, had been killed in action on October 26. The residents of this entire community extend their sympathy to the parents and relatives.

Banks Township Caucus

Notice is hereby given that the regular township caucus for Banks Township, Antrim county, will be held at Ellsworth in the Boss hall on Thursday, March 13th at two o'clock in the afternoon, for the purpose of placing in nomination the township officers for the current year and the transaction of any further business that may properly come before it.

Dated at Ellsworth, Mich., March first, A. D., 1919.

Signed by the township com., J. S. McElroy, D. E. Carpenter, E. R. Harris. Adv 10t1

MILES DISTRICT

Manila Miles went to East Jordan last week and had dental work done.

Catherine LaLonde spent the week end at her home.

Lawrence Cincush hurt his knee quite badly last week, but it is better now.

Mrs. Frank Boyd and little son, visited at the home of Mr. and Mrs. Gilbert LaClair a few days last week at East Jordan.

Private Lynn Evans of Camp Custer is home on a furlough, visiting his parents, Mr. and Mrs. Birdette Evans and other relatives.

ROCK ELM

Mr. Whaling is on the sick list.

A few of the neighbors enjoyed a social evening with Mr. and Mrs. Ben Smatts February 22.

The school boys are certain that spring is near for they have heard the melodious warbling of the crows.

Jesse Lawton left Friday morning for East Lansing to take the four weeks Truck and Tractor course at the M. A. C. which began March 3.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone, makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

The above choice collection of epithets and phrases thrown together in groups of sentences, verb without object and vice versa, and subject without object and versa vice, somehow call to our mind a literary (?) editorial we have read somewhere lately.

Will some nice bright boy in the fourth grade grammar class please arise and parse and analyze?

Can it be that we are coming to understand what Thomas Carlyle meant when he coined the phrase "Leeterary Celeebrity?"

BETTER SALARY FOR TEACHERS

Doubling the salaries of teachers within the next five years, and then adding 50 per cent before another 10 years have passed, so that the minimum average salary for teachers will be $1,500—this is the program urged by Dr. P. P. Claxton, U. S. commissioner of education. Dr. Claxton says:

"It is only by very large increases in pay of teachers that we may hope to improve our school appreciably. Small increases of 5, 10 or 20 per cent will not avail, for they will not be sufficient to hold in the schools men and women of superior ability.

"Teachers are now paid less for their work than any other class of workers, and the increase in their pay in the last few years has in no wise been in keeping with the increase in pay of other workers, or with the increase in the cost of living. While the cost of living has increased approximately 80 per cent—food, 85 per cent; clothing, 106 per cent; drugs, 103 per cent; fuel, 53 per cent; and house furnishing goods 75 per cent—the salaries of teachers have increased only about 12 per cent. The purchasing power of the salary of the teacher in our public schools is, therefore, only about 63 per cent of what it was four years ago.

"Many of the better teachers are leaving the schools and their places are taken by men and women of less active ability, less education and culture, and less training and experience. Many of the places are not filled at all. As an inevitable result the character of the schools is being lowered just at a time when it ought to be raised to a much higher standard.

"Students now entering the normal schools to prepare for teaching are not of as good quality as they were formerly, which means that the standards of the schools must continue to fall. In some normal schools the enrollment is far less than in former years.

WHO RULES THE WAVES?

The best story the peace conference has brought out is this:

When the German fleet surrendered to the British, American and French squadrons, the captive crews were taken aboard the British battleships. One big, round headed German was plainly disgusted with the way things had gone and showed it.

Walking up to a group of British sailors he spat overboard and said:

"That's what I think of your verdammt fleet and as for Admiral Beatty, why—and he spat over the rail again. Then he spat a third time by way of expressing his opinion of the whole British nation.

As he finished a big British sailor hitched his breeches and said:

"Look here, Fritz! You can say what you please about the English fleet—and act as you wish toward Admiral Beatty—and think what you want about the British. But you be damn well careful whose ocean you go spitting into."

COURT MARTIAL REFORM IS NEEDED

Brig. Gen. Samuel T. Ansell, acting judge advocate general of the United States army, has just caused a nation-wide sensation by his recital, before the senate committee on military affairs of certain astounding facts regarding sentences imposed by courts martial during the war period.

"Some of these sentences" he stated, "have reached the very height of injustice, bearing no reasonable relationship to the offense committed.

General Ansell also stated that the methods of the American courts-martial are much harsher than those of the armies of Great Britain, France or any other countries except Prussia, Prussia and Spain.

Among the many instances related to the senate committee by General Ansell, were the following:

An American soldier, proved that he was ill and physically unable to obey an order to drill. To this charge he pleaded guilty; the death penalty was imposed; the military authorities in France insisted upon his execution; and the man was saved only by executive clemency.

A soldier in a camp in this country went, without leave, to the bedside of his dying father and returned to duty voluntarily as soon as his father died. The court-martial ordered the death penalty and the sentence would doubtless have been carried out but for interefrence from Washington.

A young soldier, who had been in the army but a few days, was sentenced to 40 years imprisonment because of his refusal to give up a package of cigarettes to a second-lieutenant who happened to be his superior officer. In referring to the matter General Ansell called the affair a "company row" and indicated that the officer was practically as much to blame as the soldier.

SUFFERS SLIGHT PARALYTIC STROKE

Condition of F. E. Wood Not Considered as Serious

Frank E. Wood, well known in the city, suffered a slight stroke of paralysis on Saturday of last week. On the following morning (Sunday) another slight stroke followed.

While Mr. Wood's condition is not considered serious by the attending physician, his friends and members of the family hope nothing of consequence will result.

"LIFE"

Smiles

See the movie heroes' smiles,
Wooden smiles;
As the celluloid reels of its miles and miles and miles!
Many times the smile's repeated
From the pallid movie screen,
As the villian is defeated,
And the story is completed,
And he wins his movie queen;
Looking gay, gay, gay,
In a filmy sort of way,
While the censored osculation makes a hit with juveniles,
Still the smiles, smiles, smiles,
Smiles, smiles, smiles—
Run for miles, miles of films, miles of smiles.

See the Douglas Fairbanks smiles,
Peppy smiles!
What a personality, and how the grin beguiles!
Through the thrilling western plot
Whether cold or whether hot,
Still we see the broad expanse
Of his mouth!
What a power to entrance,
Women fall in love with him—at a glance
North and South!
Oh, from out the picture mod,
See him "stunt" to beat the band!
"Ain't he grand?"
"And what sand!"
"He can cash me on demand!"
"Loving rough! I like that brand!"
So say Dolly, Kate and Polly,
Three unhappy juveniles,
Of the smiles, smiles, smiles, smiles,
Smiles by miles,
Of the Dougy, loving, huggy smiles.

See the movie heroes' smiles!
Camera wiles!
Look up all the histories in motion picture files!
How its often accidental
That an actor makes a hit;
Not because he's ornamental,
But because he is so dental
That he gets away with it.
Work is sloppy, plots are choppy,
Still the money piles and piles.
While the patrons crowd the aisles,
Just to see the smiles, the smiles,
Miles and miles,
Gleaming, streaming fillum hero smiles!

First M. E. Church

"What Would You be Worth If You Were to Lose all Your Money?" is the sermon subject to be treated next Sunday morning at the Methodist church by the Rev. Henry Candler. "The Kind of Christianity the World Needs," is the subject for the evening service at 7 o'clock. The special effort which is being put forth to secure two hundred attendance at the Sundsy school for four consecutive weeks is bearing good results. The attendance and interest is increasing and the prospects are bright that when Dr. Wilkinson, the recently elected Superintendent of the Sunday school returns from the U. S. army next month that the school will be in splendid condition for his administration. The acting superintendent, Earl Shapton promises something very special for next Sunday morning. Choir rehearsal Thuraday night following the prayer service. Epworth League service Sunday evening at six o'clock. All members and friends are cordially invited to this meeting. A special program will be presented.

Congregational Church

The Communion of the Lord's Supper will occupy the morning hour next Sunday. There will be a brief communion address by the pastor. Following this service the Bible school will meet.

The Young People's meeting will be held at six o'clock, led by Mr. Ivan Holmes. The friendly contest which has been in progress during the last few weeks, will close next Sunday evening. The contest has been carried on with much enthusiasm, under the leadership of Miss Hazel Burns as the captain on one side, and Mr. Ivan Holmes as captain on the other. It has resulted in a largely increased attendance and a deeper interest in the society and a number of additions to its membership.

Next Sunday evening at seven o'clock the pastor will begin a series of Sunday evening addresses, to be continued through Lent. Special music will be a feature at each service and all will be done that can be done, to make the services interesting, informing and helpful. The public is cordially invited.

12 pounds mixed hay	.36	5.82
3 pounds Buckwheat Midds.	1.97	6.13
	2.73	18.32

The above table compiled from "Advisors and Cow Testers Manual" shows a ration, cheap and easily obtained, that almost exactly fills the average Holstein's wants.

A cow's capacity for roughage, according to size and breed, almost automatically balances her ration with BUCKWHEAT MIDDLINGS.

A good grain ration to balance approximately with the standards should contain 18 to 22 per cent digestible protein. BUCKWHEAT MIDDLINGS have 24.6 per cent protein, 22.3 per cent of which is digestible.

HELPED CELEBRATE NINTH BIRTHDAY

Beatrice Williams of Norwood Hostess to Young Friends

Last Saturday afternoon Beatrice Williams of near Norwood entertained fourteen of her little friends, the occasion being her ninth birthday.

Various games helped to pass away the afternoon hours, at the close of which a three course dinner was served, covers being laid for fourteen. The pyramid birthday cake with its nine candles, which Miss Beatrice lit, was enjoyed by all.

When the lunch was finished all arose and repeated the "Pledge to Our Flag," and clapped hands, also wishing Miss Beatrice many more happy birthdays.

The young hostess received many nice tokens in remembrance of the day.

BAD WRECK ON G. R. & I. NEAR CADILLAC

Passenger Train Runs Head-on Into Stalled Freight

G. R. & I. train number 5, northbound, due in Petoskey at 3:05, was wrecked just south of Cadillac just before noon on Wednesday last, in a head-on collision with a south bound freight.

Engineer Dan Scanlon and fireman Dyer of the passenger were killed outright the fireman of the freight train was hurt so badly that he died a few hours later. Passengers were bruised and shaken up by the collision, but none seriously injured.

One of the saddest features of the accident was that fireman Dyer was on his last trip, intending on his return to Grand Rapids, where he lived, to quit the railroad and begin the operations of a farm he had but recently purchased. The wreck is said to be the worst in years.

Born, to Mr. and Mrs. Jesse Gregory, March 5, a son. Name, Edwin Guy.

Klooster to Move

Edward Klooster will commence moving operations the first of next week and will occupy his new quarters at the corner of Park avenue and Bridge street, formerly occupied by Bergeon's Dry Good store.

The kidneys feel congested, sore and painful.

The urinary passages are often irregular and distressing.

The sufferer, tired, worn-out and depressed.

Weak kidneys need quick help.

They need a special kidney remedy.

Doan's Kidney Pills have stood the test.

A remedy especially for kidney ailments.

Can any Charlevoix reader doubt this statement?

Mrs. Chas. Hyers, 204 May St., Charlevoix, says: "I felt tired and languid all the time and my back ached continually, making it hard for me to do my housework. I read of Doan's Kidney Pills and bought some nt Metcalf's Drug Store. Doan's soon removed the trouble after several other kidney remedies had failed."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hyers had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

BARNARD

Old March came in like a lion and seems to be trying to live up to his "windy" reputation.

Among improvements wa notice that John Potter is bustling work on his new barn and that John Smith has a new windmill.

We are sorry to hear of the death of Mrs. Fred Mason of Phelps. The bereaved family have the sympathy of Barnard friends.

John Walker had the misfortune to have a runaway last Saturday night. The team ran into Holliday's barn and damaged the harness considerably.

The following report of Barnard school is submitted: Those neither absent or tardy for five months ending Februsry 28: Annie Gornell, Margaret Gornell, Minnie Gornell, Irene Walker. Tardy once: Emerald Bolhuis. Tardy once and absent one-half day on account of sickness, Robert Bolhuis. Absent two half days on account of sickness, Dorothy Gornell. BAY SHORE

Ray Knreher spent the week end with his parents.

Those who are near enough to the inland lakes are putting up ice.

Word has been received that Otto Hartwirk has returned from France and expects to receive his discharge soon.

Paul North just returned from service in France, visited his parents a few days after receiving his discharge from the army. He returned to Detroit Monday.

There was a "hard time" social at the hall Friday evening, given by the Ladies Aid Society of the Presbyterian church, and a goodly number attended for such a stormy evening. A good time was enjoyed by all and a little over $21 raised.

Mrs. Nelson Hall received the sad news of the death of her niece, Mrs. Eva Cummings of the Soo, at the home of her mother, Saturday, March 1st. Her husband had just returned from overseas service two weeks ago. The remains will be taken to Twin Lakes for funeral and burial. Mrs. Hall will join the funeral party at Bay Shore. Mrs. Cummings is quite well known here, having visited her aunt, Mrs. Hall several times and winning many friends.

EAST CHANDLER AND THUMB LAKE

Bernie Adams is quite sick with the flu.

George Gallop is on the sick list at this writing.

A dance was held at the Springvale town hall Friday evening.

Cecil Hughes attended the dance at Clarion Friday night of last week.

Mr. and Mrs. Clarence Jewell are the proud parents of a new baby boy, born February 19.

Wm. Clark, Jr. spent most of the week at Clarion working for his brother Lynn, in the store.

Mr. and Mrs. Carl Clark and daughter, Lois, spent Sunday nt the home of his parents, Mr. and Mrs. Wm. Clark.

Mr. and Mrs. Arthur Sly of Detroit are now spending a few days here with her parents, Mr. and Mrs. Wm. Clark and other relatives.

Russell Hughes, Miss Iva Crego and Jessie Skelton spent Saturday and Sunday here with their parents, returning Sunday to Boyne City where they are nttending school.

Little Albert, the two year old son of Mr. and Mrs. R. A. Tousla, died Tuesday night from spinal meningitis. Funeral services were held at the house Thursday morning. Interment in the cemetery here.

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

The U. S. government now owes nearly 2,000,000 men each $60. With the signing by the president of the great $6,000,000,000 revenue bill, which appropriates a bonus of $60 to every service man upon his honorable discharge, every honorably discharged soldier, sailor and marine is now eligible to claim this amount from the government, it was announced at the treasury department.

John Schiedel, nine year old son of Mrs. Schiedel, of Beasbine avenue, Petoskey, had his head badly cut and crushed when he fell while trying to get off from a sleigh on which he rode from Petoskey toward bis home. He was taken to Petoskey hospital where a piece of skull was removed.

Private John Bowers, of Petoskey, just home from a German prison camp as Strassburg, has little use for the Huns. He went overseas a year ago and was sent into the fight almost immediately. About the first thing the Huns did to him was to wound him badly. Being badly shot up he was unable to retreat with the other men and was taken prisoner.

Recurrence next winter of the influenza epidemic which caused thousands of deaths in all parts of the country during the last five months was predicted by Read Admiral W. C. Braisted, surgeon general of the navy, to Representative Fess, of Ohio, urging that an appropriation be made for research work to determine the cause of the disease and its cure.

Citizens of Cheboygan are up in arms over what they term and unjust court martial sentence imposed on Private Joseph Lineske, 125th Infantry, a native of their town. Senator C. E. Townsend laid the facts in the case before the senate without comment, except to say that it was a horrible example of court martial proceedings. Lineske served a year in the Michigan National Guard, but was discharged at the outbreak of the war for physical reasons. He was immediately afterward drafted and sent to Camp MacArthur for training. There he submitted to an operation which, according to the admissions of surgeons, failed to help the malady from which he was suffering. They then ordered him to submit to another operation. He asked if it would save his life and was told that no promises could be made. Lineske then refused to give consent to the operation. He was at once court martialed and sentenced to a three year term in Fort Leavenworth penitentiary, where he is now serving.

A petition was circulated last week by Petoskey business men asking the city council to turn on the street lights again. The petition declares that the signers are fully aware of the financial condition of the city but that they hope the council will be able to find some way out of the difficulty and give the city street lights again.

Prof. H. M. Hinds, for two years teacher of agriculture in the Boyne City schools, has accepted the position as farm agent in Montmorency county. Mr. Hinds was with the colors eight months and has just secured his discharge. Montmorency county will work under the same system as is being used in Charlevoix county.

A band of Gypsies hit Boyne City Tuesday of last week about nine o'clock and registered at the Wolverine hotel securing a double room on the third floor, says the Boyne Citizen. The following morning they started out on a systematic hold-up campaign. In the first place we have evidence of their entering, they secured three dollars and seventy-five cents by opening the cash drawer and taking the silver, in halves and quarters before the very eyes of the clerk. They were ordered to replace it and supposedly did so, but upon counting the change, after their departure, the shortage was detected and a complaint made before the prosecuting attorney. While the warrant was being sworn to they entered a store, and getting into the cash register, walked away with two dollars ond ninety-six cents and, on their way to the next victim, carried off two bolts of silk cloth. From a garage they secured ten dollars and from another merchant's safe forty dollars. This was taken while the merchant was watching the thief; but he did not suspect that he had been "flim-flammed" until he was advised to count his currency later by officers. About noon, the entire crowd was gathered in; there were two men, three women and three children. Prosecutor Ruegsegger forced them to pay back the money they had stolen, and the court costs amounting in all to over one hundred dollars and then under escort of an officer, they were allowed to take the train for Detroit.

Cheboygnn county has been assured of a county fair for 1919 by nction of the board of directors of the fair organization, which has fixed the dates as Sept. 16, 17, 18, and 19. F. E. Skeels is president of the fair organization.

A well attended mass meeting was held at the Hose House at East Jordan Monday evening and the old East Jordan Fish and Game Protective Association was resurrected and reorganized. Following were the officers elected: President, Len Swafford: vice president, George Chapman; sec'y.-treas., Matt Swafford; executive com, Thos. Shepard, Henry Clark, Kit Carson, Horace Hipp. The Association starts out with about one hundred members. The membership fee is only twenty-five cents, the main object being to get local nimrods interested in concerted action on matters pertaining to hunting and fishing, the establishing and enforcing better fish and game laws and the planting of fish in nearby waters.

By a vote of nineteen to nine the state senate on Wednesday of last week defeated the bill of Senator Brennan to legalize the opening of theatres after one o'clock on Suunday afternoons. It was the intention of the bill to submit to a referendum in each city of the state the question of having theatres and public halls open Sunday afternoons and evenings. The law which the Brennan bill attempted to amend is one of the so called "blue lawa of 1846." Under its terms no business conducted for profit may operate on the Sabbath.

It will cost the American people nbout $1,200,000,000 a year for the next 25 years to pay off the war debt according to estimates of the treasury, based on incomplete knowledge of precisely what the final war debt will be. This calculation is made on the assumption that the net war debt with deductions for loans to the allies will he in the neighborhood of $18,000,000. Interest on this amount at the rate of 4 1-4 per cent would be $765,000,000 a year, to be raised by taxes, and then repaid to bondholders. In addition about $417,000,000 would have to be provided every year as a sinking fund to redeem all bonds in 25 years.

At the spring election the township of Milton, Antrim county, will submit to the electors the question of bonding the township for $10,000 for the purpose of completing the highways of the township.

MAY REDISTRICT CIRCUIT COURTS

SMALLER CIRCUITS MAY BE CONSOLIDATED

Joker Found in Defoe's Public Utilities Bill—Warehouse Bill May Get Through Senate

Instead of putting through n bill increasing the number of circuit judges in the state there is a possibility that the legislature will give seriout consideration to a measure to redistrict the judicial circuits and consolidate some of the smaller districts where court is held but a few weeks each year. The circuit judges are asking the legislature to increase their salarics to $6,000 per year and Senator Herbert Baker of Cheboygan, says he intends to draft a bill to redistrict the judicial districts and would provide for an increase in salary for the jurists. Representative Andrew B. Glaspie, of Oakland county, put in a bill which prevents circuit judges from receiving extra compensation when they hold court in districts where the compensation is higher than in their own district. The Glaspie bill permits them to draw actual expenses for actual work outside their own district, but if passed will cut off cosiderable revenue to judges who receive $15 per day additional to their regular salary while holding court in Wayne county.

Members of the house discovered that the new utilities committee bill introduced by Representative Lemuel Defoe, of Alpena, contains a provision which would absolutely eliminate home rule aad local control of public utilities. It takes from municipalities the right to regulate the rates of their own municipality owned plants and turns everything over to the new commission. Gas plants, electric light plants and in fact every public utility with the exception of telephones are included. A similar bill was decisively defeated two years ago and it is said that when the various municipalities learn of the provisions of the Defoe bill there will he a determined lobby here to work against it.

As a result of a trade in votes, it appears likely that Senator McNaughton's resolution for an amendment to the constitution authorizing the state to engage in the construction and operation of terminal warehouses will be passed by the senate. If the city members support this resolution the farmer members in turn will vote favorably on Senator Walter J. Hayes' proposed amendment to increase the salaries of justices of the supreme court.

The posting of u notice in any place or public resort to the effect that the trade of persons of certain race or religion is not desired is made a misdemeanor in a bill proposed by Representative Copley, who admits that it has for its principal purpose the elimination of discrimination against negroes. A person so discriminated against will he able to collect damages to the extent of $250 in a civil court under the terms of the Copley bill. "We did not draw the color line in drafting our army. Why should we discriminate against them by refusing them admission to theatres, eating places and other places of public resort," said Representative Copley.

The budget bill was reported out by the state affairs committee of the house and after the representatives have had an opportunity to digest the mass of technical amendments tacked on to the measure by the committee, it is believed that it will be passed and returned to the senate. There is practically no opposition to the budget bill in the house and those who have made a careful survey believe it will go through by practically unanimous vote.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

INTERESTING LETTERS FROM SOLDIER BOYS

From Lee Allard

February 4, 1919.

"Dear Swain—Well this is one winter that I did not get to hunt in Charlevoix, but have done some deer hunting here in Germany.

"We expect to leave for home this month, that is what we expect, but we expect a lot of things in the army that we do aot get.

"Frank and Dobby are both well und looking fine. I am sure proud to call Frank Cotta a friend of mine after seeing him work at the front. He has not had a square deal in this company or he would have been sergeant by this time.

"We are having some cold weather, no snow but everything is covered with frost.

"I am with the baad now und have been for about two months. We have a 'nigger" minstrel and are on the go all of the time. Tonight we go to a town where Candy Nowland and Harry Noble are. We do not have to get up until nine o'clock in the morning as we are up so late nights.

"Well I have to close now as we are going to leave on the trucks. Your old friend, Lee Allard.

THE MEANING OF "NET INCOME"

INFORMATION TO THOSE SUBJECT TO INCOME TAX

Items That May be Deducted When Figuring Up Your Income for Year 1918

"Net income" for the purpose of making out an income tax return is gross income less certain deductions provided for by the revenue bill. The current act allows the ordinary and necessary expenses, and specifically includes salaries for personal services and rentals paid for business purposes.

Losses incurred by a taxpayer in any transoction entered into for profit outside of his regular line of business are allowed. Under the 1917 act deductions for such losses were allowed only to the extent of gains in similar transactions. If, for example, a person made $1,000 in one stock market and in another one lost $5,000 he was required to include the $1,000 in his return as gross income and could deduct only that amount as a loss. Under the current act he is allowed a net deduction of $4,000.

A reasonable allowance is made for depreciation of business property including a reasonable amount of obsolescance. In the case of buildings, machinery and equipment, built or uequired after April 6, 1917, and ships built or ncquired after that date and used in the prosecution of the war, a reasonable allowance is made for amortization.

Coatributions or gifts made during the year 1918 to corporations organized for charitable, scientific, religious or educational purposes, or for the prevention of cruelty to children or animals, may be deducted to an amount not exceeding 15 per cent of the taxpayer's net income.

Other items which may be deducted are as follows:

Taxes paid or accrued, except income, war profits and excess profits and these assessed against local benefits of a kind tending to improve the value of the property.

Losses in trade or business if not compensated for by insuranee or otherwise.

Loss of property not connected with trade or business if arising from fires, storms, shipwreck or other casualty, or from theft, if not compensated for by insuranee or otherwise.

Debts ascertained to be worthless and charged off within the year.

Interest paid or accrued on indebtedness exeept indebtedness ineurred to purchase securities, the interest on which is exempt from tax.

The following items are not deductable: personal, family or living expenses. Amounts expended for new buildings or permanent improvements made to improve the value of property. Amounts expended in restoring property or in making good exhaustion thereof for which an allowance for depreciation has been made. Premiums paid on any life insurance policy covering the life of any officer or employe or any other personal financially interested in the trade or business carried on by the taxpayer when the taxpayer is directly or indirectly a beneficiary in the policy.

GET YOUR CAR READY FOR SPRING USE

Don't wait until the approaching beautiful spring weather is here, with the roads in fine shape for driving, and then find that "flivver" badly in need of overhauling and repairing. The first drive of the year is the most enjoyable—especially if the auto gives no trouble. If your car causes you trouble, the enjoyment of the day is lost.

AUTO REPAIRING IS OUR BUSINESS

That's exactly what we have spent hundreds of dollars in equipment for. That's why we have a crew of expert repairmen on our pay roll. Their work is to put your auto in running condition. After an auto passes through their hands the many vexatious delays and troubles cease. When you "step on her" the car responds, and you can start out on a hundred mile run without thought of trouble.

Bring that car to us for a thorough overhauling right now. If it needs painting, we can do that too. Do it now before spring arrives.

SCHOOL COMMISSIONER'S NOTES

All education consists of four steps: First, implanting a desire for improvement. Second, developing permanent interest in the same; Third, accumulating knowledge in the matter; Fourth, drill until habits desired are formed. In what way will the teacher present these four steps? In what way may parents cooperate? How can you know that all is going well?

A worried teacher writes: "What shall I do about my eighth grader? There hasn't been much school this winter and she really hasn't a fair chance at the examination. She was discouraged when she failed last year and doesn't want to write. If she doesn't write this will be her last year for she will soon be sixteen. If I urge her and she takes the examination and fails she will be all broken up over it and her folks will blame me. What shall I do?" Are there others of last year's class in just this situation? Is education based on grades only? Is there strength in defeat? Parents, we appeal to you.

Bulletins are at hand on state study of teachers salary question. The commissioner is compiling and studying figures revealing the situation in Charlevoix county.

Please—teachers! The state department bulletins on eighth grade reading are not yet at hand—neither should they be studied for another month if interest and knowledge are to be maintained until May 10. As soon as received from the state department a number of them will be sent to every eighth grade teacher. Mr. Keeler says that these bulletins will not be prepared until some time in March.

Schedule of spring contests almost completed. Beaver Island accepts the date suggested and has sent in returns of Island Teachers' meeting.

UNCLE SAM SHOWS APPRECIATION OF SACRIFICES

All Members of Military Forces Separated From Active Service to Receive This Amount

The Charlevoix Selective Draft Board has sent the following communication to all newspapers in the county with the request that it be given the widest publicity:

The following general telegram was sent to commanding officers in the United Stutes on February 25, 1919:

"Section 1406 of the Revenue Act approved February 24, 1919, provides 'that all persons serving in the military or naval forces of the United States during the present war, who have since April 6, 1917, resigned or been discharged under honorable conditions (or, in the case of Reservists, been placed in inactive duty), or who at any time hereafter (but not later than the termination of the current enlistment or term of service) in the case of the enlisted personnel and female nurses, or within one year after the termination of the present war in the case of officers, may resign or be discharged under honorable conditions (or, in the case of Reservists, be placed on inactive duty), shall be paid in nddition to all other amounts due them in pursuance of law, $60 each. THIS AMOUNT SHALL NOT BE PAID (1) to any person who though appointed or inducted into the military or naval forces on or prior to November 11, 1918, had not reported for duty at his station on or prior to such date; or (2) to any person who has already received one month's pay under the provisions of Section 9 of the Act entitled 'An act to Authorize the President to Increase Temporarily the Military Establishment of the United States,' approved May 18, 1917; or (3) to any person who is entitled to retired pay; or (4) to the heirs or legal representatives of any person entitled to any payment under this section who has died or may die before receiving such payment. In the case of any person who subsequent to sepnration from the service as nbove specified has been appointed or inducted into the military or naval forces of the United States and has been or is again separated from the service as above specified, only one payment of $60 shall be made. The above amount, in the case of separation from the service on or prior to the passage of this Act, shall be paid as soon as practicable after the passage of this Act, and in the case of separation from the service after the passage of this Act shall be paid at the time of such separation. The amounts herein provided for ahall be paid out of the appropriation for 'Pay of the Army' and 'Pay of the Nuvy,' respectively, by such disbursing officers as may be designated by the Secretary of War and the Secretary of the Navy. The Secretary of War and the Secretary of the Navy respectively shall make nll regulations necessary for the enforcement of the provisions of this section."

"Paragraph 2. All persons separated from active military service after receipt of these instructions who are entitled to the bonus of $60 provided for in the Act above quoted will be credited with and paid such bonus upon their final pay vouchers. In the event that they have been separated from active service prior to receipt of these instructions, but have not yet received final pay, the disburaing officer making final settlement will include and pay the bonus of $60 in making such settlement. Disbursing officers making payment of $60 bonus in connection with final settlement will make indorsement in each case on the discharge certificate or discharge order, if no certificate is issued, of each person showing speeifically that such bonus was paid.

"Paragraph 3. All persons separated from active military service from April 6, 1917, to date of receipt of these instructions, who are entitled to the $60 bonus in reference, and who have received their final pay will forward claims for auch bonus direct to the Zone Finance Officer, Lemon building, Washington, D. 2-CENT LETTER-RATE COMING

FAVORITE RED STAMP TO COME BACK

July 1 Set as Date on Which Nation Will Go Back to Pre-War Letter Postage Rate

The before-the-war rate of postage of two cents on first class mail, and one cent for postal cards, will be restored July 1, 1919, according to orders received from the postoffice department at the postoffice last week.

Postmasters are instructed to order the new issue of stamps nt an early date, but they must not be placed on sale until July 1.

The three cent rnte of postage has been in effect for seventeen months. The increase was ordered to begin October 3, 1917.

"I do not think that the lowering of the postage rate will make any difference in the number of letters that are written,'" said Postmaster T. G. Finucan at the postoffice. "After the increase went into effect the stamp sales were just about the same as they were before. People will write to their friends regardless of the postage rate."

Newspapers, circulars and advertising matters are not affected by the change in postage either in 1917, nor by the present order.

ENTERTAINED AT SIX O'CLOCK SUPPER

Five Hundred Played During the Evening—The Prize Winners

Last Thursday, Mr. and Mrs. Nat Burns entertained about twenty of their friends. At six o'clock a three course dinner was served, the first course consisting of chicken pie and, as the guests say, everything to go with it.

The color scheme used throughout the dinner was pure white. During the evening there were four tables of five hundred, each one playing their very best to win one of the prizes that had been provided by the hostess. However, Mrs. O. D. Hummond was the lucky lady and carried off the first ladies' prize. Mr. H. B. Jacobs the lucky gentleman won the first gentlemen's prize. Mr. nnd Mrs. L. J. McCann, not quite so lucky, carried away the booby prizes.

A most delightful evening was spent by all the guests who declared that both Mr. and Mrs. Burns were charming entertainers.

Played Five Hundred

Mr. und Mrs. Henry Partridge entertained ten couple last Thursday evening at five hundred at their home on Michigan Avenue. The occasion was repeated Wednesday night of this week when they entertained ten more couple, five hundred being the feature of the evening again. A dainty lunchon was served on both occasions, the guests proclaiming them the most enjoyable evenings of the season.

COXEY TO STACK ARMS IN WASHINGTON

Coxey's army may march again.

So says Jacob S. Coxey, who in 1894, led a famous band to Washington to plead for improvement of public roads throughout the country as means of furnishing employment to enforced idleness by the closing of mines and factories.

This time Gen. Coxey says he will fight for the initiative and referendum as an amendment to the constitution so that through it the prohibition amendment may be repealed.

When the special session of congress opens he will first make his appeal in person, and if in two weeks there is no sign of action on the part of congress he says he will issue a call to all those who are in favor of the amendment to assemble in Washington within thirty-five days' time and camp there until congress puts the measure through.

ALLAN SHAPTON TWICE WOUNDED

SAW HARD SERVICE WHILE ON OVERSEAS DUTY

Wounded in Shoulder and Hip by Fragments from High Explosive Shell

Allan Shapton, twice wounded overseas, is home, glad to again be among his friends. He feels that he has done his "bit" and does not hesitate in stating he is more than glad and also extremely fortunate to escape the horrors of the great world war just closed.

Allan was among the drafted men who left Charlevoix for Camp Custer June 24, 1918, where he became a member of Co. C, 340th Inf. In three weeks he was transferred to Camp Mills, Long Island. After a week in this camp he boarded the transport Vestria and went to Halifax, joining a convoy, and after a two days wait sailed for overseas, landing at Le Havre, France, 14 days later.

From Le Havre they went to a rest camp, remaining there two days and were then transferred to Veaugues, where they were drilled for two weeks. He was then transferred to the 3rd Division, 4th Inf., Headquarters Co., on the 24th of August, which outfit he remained with through the duration of the war.

Upon joining this division he started drilling on 37mm guns and continued in this line of work until September 24, when the company started on the long hike toward the St. Mihiel sector, where they were placed in support of the attacking line. Allan states they stayed here but a short time, as the Boche were retreating with such rapidity it was impossible to keep in touch with them. They returned to St. Mihiel where they stayed for two days, and then were transferred in Chinese (French) trucks to the Verdun woods, where they were again drilled for a two weeks period.

From the Verdun woods they hiked day und night until they reached the front lines at the Argonne Forest. Here they held the lines for three days under terrific fire, awaiting artillery support.

On October 4 his company was ordered over the top. He was continually in hard fighting day and night, without rest, until the morning of October 15, when he was badly wounded in the shoulder and hip by fragments from a high explosive shell. For eight hours he laid in a shell hole before first aid was given.

From the first aid hospital he was transferred to Mobile hospital No. 5 where he remained for five days. From Mobile he was taken on a French hospital train to St. Denis, where he remained from the 21st of October to the 7th of January. Being partially recovered he was again transferred to Blois and placed in a casualty company. He stayed there two weeks, then was taken to Bordeaux, and after a two weeks wait sailed for the U. S. on February 6, on what was formerly a German ship, now called the Pocahontas. After a thirteen day trip he landed at Newport News, where he remained a week and was again transferred to Camp Custer und received his honorable discharge.

The Courier could relate many incidents of interest told by Pvt. Shapton, but space forbids us. We are glad he is home and among his friends and relatives. He is but one of thousands who have gone through similar expeirences.

WENT FISHING ON SEVENTH BIRTHDAY

Miss Doris Soloman Entertains Her Little Friends

Miss Doris Soloman entertained ten of her friends last Wednesday afternoon from 3:30 to 6 o'clock, the occasion being her seventh birthday.

The chief attraction of the afternoon was a fishing pond, the girls were provided with a fish line and each had the good luck to catch a very pretty gift. Other games were indulged in during the afternoon after which dainty refreshments including a birthday cake with candles were served by the hostess' mother.

Miss Doris' friends left with her many nice tokens in remembrance of the day.

TAX ON SMOKES NOW IN EFFECT

FANCY BRANDS ARE HIT THE HARDEST

Fifteen Cent Cigarettes Now Selling for Twenty Cents in Charlevoix

Worshippers at the shrine of Old King Nicotine will be asked to show a livelier faith when the price of cigars, cigarettes, chewing and smoking tobacco will be boosted up a peg or two in price over the already prevailing high figures as a result of the new war tax that has been placed on the "weed" by the passage of the war revenue act of 1918.

The government schedule of prices which is now operative says that on all cigars of all descriptions made of tobacco or sny substitute thereof and weighing not more than three pounds per thousand the tax will be boosted from $t to $1.50 and on all cigars which weigh over three pounds per thousand, and which retail for less than 4 cents each, the tax will be pegged up from $3 to $3.50. Stogies, cheroots, etc., come under this classification. Cigars that retail for 8 cents and up to 15 cents will receive a tax of $9 which is an increase of $3, and cigars which retail from 15 cents to 20 cents will have to stand a $4 raise. The classy 20-cent perfectos get the most severe jolt, they being boosted by a $5 raise.

The tax on cigarettes will be raised from $2.05 to $3 on the minor brands and from $4.80 to $7.20 on the kind that are done up in tin foil, have faney cork tips and which are tucked away in boxes elaborately labeled and with pictures of women wearing draperies instead of gowns.

Users of "snuff" get nway soft, the raise on their favorite narcotic being only 5 cents a pound.

But the tax is by no means confined to tobacco but will include ice cream, soda, and all kindred drinks, candy, chewing gum, cameras, thermos bottles, sporting goods, traveling bags, toilet cases, purses, hand bags, etc., as well as jewelry, patent medicines nnd toilet preparntions Taxes on this last named item run from less than 1 per cent to 15 per cent.

LACK OF MONEY ONLY HINDERANCE

Local Baskat Ball Boys Urge Citizens to Attend Games

Last Friday night, on Central Lake's floor, Central Lake had us nailed to the mast, 11-9—at the end of the first half. The end of the second half told a different story. The score was then 30-15 and the Red and White was on the long end. With the Charlevoix pep and come-back, Hampton whipped his team into a victory after an uphill fight in the first session. Incidentally, Hampton outplayed himself that night. Wexstaff also looked like an entirely different man from the night we played Harbor Springs. These two and Halverson, always dependable, were the stars of the evening.

This week we play Elk Rapids here at home. It will be a warm night and we expect a crowd. We have three reasons for expecting a crowd:

1. We know you like to see the game.
2. We need your presence and support.
3. WE ARE GOING TO LANSING TO THE TOURNAMENT IF WE CAN POSSIBLY RAISE THE MONEY, AND WE CAN.

W. C. T. U. MEET FRIDAY AFTERNOON

Outline of Past Year's Work to be Given

The next regular meeting of the W. C. T. U. will be held Friday afternoon March 14th, at the home of Mrs. Shores on Dixon Avenue.

There will be reports of last year's work given by the retiring officers, followed by the election of new officers.

A fine program has been arranged consisting of a reading by Miss Rogers, a citizenship questionnaire, a suffragist play and songs by Dr. Frank Wilkinson. At the close of the program a supper will be served. All are welcome.

DEATH CAUSED BY HEART FAILURE

Norwood Township Pioneer Dies Suddenly in Detroit

One of Charlevoix's pioneers passed away last Sunday in Detroit, death being caused from heart failure.

Thomas Cummings was born March 27, 1865 in Wawanash, Ontario, Canada, and resided there until 1878 when he moved to Sault Ste Marie, coming to Charlevoix and locating in Norwood township in 1886.

He was united in marriage to Louisa Ball, March 5, 1890 and to this union two sons were born, Glen and Earl both of Charlevoix. Mr Cummings became member of the Baptist church while in early manhood and remained faithful to the last. He was known among his friends and acquaintances as an honest, upright man.

Early last fall he went to Detroit to spend the winter and died in that city March 0th of heart failure. He is survived by four sisters, Elizubeth and Maria of Charlevoix, Margaret of Swift Current, Saskatchewan, Mrs. Nelson Lindley of this city and one brother, William, of the Soo, besides two sons, both of this city.

Remains were brought to this city Tuesday afternoon. Funeral services will be held Thursday at 2:00 o'clock from the Barnard church, Rev. Candler officiating. Interment in Barnard cemetery.

SNEAK THIEF NEARLY CAUGHT

ESCAPES FROM JACOBS STORE BY REAR DOOR

Disturbed in His Work of Pilfaring by Early Morning Call of Proprietor

Had he selected the right key when entering his store early Monday morning, H. B. Jacobs might have caught the person who had gained entrance to his place of business with the intent of laying in a stock of groceries and possibly pilfering the cash register.

Mr. Jacobs made a trip from his home on Clinton street to his store about 4:30 a. m. Monday. When he reached the store and was unlocking the door, he became attracted by sounds from within indicating that someone was making a hasty exit. Unfortunately in his first attempt to unlock the door, Mr. Jacobs selected the wrong key, und by the time he had the door open, the person inside hud made his escape through the rear door.

Examination revealed that some person had pried open a window in the store room, crawled through, unfastened the rear door, so that his escape would be an easy one if disturbed in his work of pilfering.

A dirty fish basket, filled with groceries, canned goods, eggs. etc., was found on the floor near the cash register, also a sack of cookies and candy. In his hurry to escape, the maurader was forced to leave these behind, thinking probably only of his own getaway.

Mr. Jacobs is unable to state his loss, other than a suspicion that several other articles were taken from the shelves. A dollar sack of sugar cannot be accounted for, and other articles may be missed when the sales of the preceeding Saturday are checked up. Other than the fish basket no clue that might lead to the apprehension of the theif has been found.

BIRTHDAY PARTIES ARE NOW THE FAD

Games and Dainty Refreshments Enjoyed at Smith Home

Little Miss Edith Smith entertained about fifteen of her friends at her home on State street Tuesday afternoon, the occasion being her fifth birthday. The afternoon was spent with games followed by the guests being invited to the dining room, which was prettily decorated in pink and white, to partake of dainty refreshments. The pink and white color scheme was also used on the table, the three birthday cakes of white and pink candles, and little favors in the form of pink baskets filled with candies and also oranges cut in halves, with wire handles. The little folks enjoyed the afternoon and prescated Miss Edith with many pretty gifts as a remembrance of the day.

BARTLETT HOUSE GUTTED BY FIRE

EARLY MORNING BLAZE PROVES DISASTROUS

Fire Thought to Have Been Caused by a Spark From Burning Chimney—Loss Heavy

The beautiful private boarding house owned by Mrs. L. B. Bartlett on Park Avenue, more familiarly known as the Bartlett House, was completely gutted by fire between 7:30 and 8:00 Wednesday morning. The blaze is thought to have been caused by a spark from a chimney that had burned out a short time before the fire was discovered, as when first seen no flames were visible at any point than on the roof.

Before the fire department arrived, the entire third floor was a mass of flames, which fanned by a strong westerly breeze, gained such headway that little could be done other than to keep the fire from reaching the lower floors, and it proved to be one of the most stubborn fires the department had came in contact with for many years. They did splendid work, however, regardless of being handicapped by a lack of ladders and equipment for fighting a fire in the upper floors of a three-storied structure.

Furniture from the first floor and nearly all from the second was removed in a more or less damaged condition. On the third floor practically nothing was saved.

Losses of clothing and other valuables among those who made their home at the Bartlett will amount to several hundreds of dollars. Mr. and Mrs. Frank Fox, who occupied rooms on the third floor, lost all their clothing, valuable books, several Liberty bonds, beside an amount of money estimated not less than two hundred dollars.

Miss E. L. Boyce, trimmer and saleslady at the Bellinger millinery store, another occupant of the third floor, lost valuable clothing and jewelry.

Tom Russell, but recently returned from overseas, lost all of his clothing, including his uniform. In another instance a young lady in the employ of Mrs. Bartlett, who had rooms on the third floor, lost every particle of clothing she possessed. Practically every occupant of this floor lost their personal effects.

Occupants of the second floor, some who were still in hed when the fire was discovered, were able to leave the burning dwelling without suffering serious loss among their personal effects.

The once comfortahle hostelry today presents a most desolate appearance. The roof is gone, ragged holes burned through the siding on both upper floors and soaked with water from garret to cellar. The loss to its owner is considernble as insurance to the nmount of only $4,000 was carried on hoth house and contents.

Order Books Audited

At the regular meeting of the common council Monday evening, a motion was passed which will result in the making of a complete audit of the city's financial affairs before the first of May. The prior audit was made in 1916.

WAR CAUSED TOLL OF 17,500,000 DEATHS

The total number of deaths caused by the war reached 17,500,000 according to a summary compiled by The Manchester Guardian. This number includes a mortality of 4,000,000 from influenza and pneumonia due to war conditions.

The total allied losses were 5,500,000. The central powers' deaths are 2,900,000. It is estimated that 4,000,000 Armenians, Syrians, Greeks and Jews were massacred by the Turks. German submarines killed some 7,500 neutrals.

Italy's losses during the war amounted to 462,391 killed and 953,836 wounded, according to figures prepared by Dr. Silvia Crespi, Italian minister of food and transportation. The country also lost 880,000 tons of merchant shipping or 57.5 per cent of her total tonnage. Italy's money outlay was $13,000,000,000 figuring exchange at par.

WORDS FROM HOME

Statements That May Be Investigated—Testimony of Charlevoix Citizens

When a Charlevoix citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills Such testimony is convincing. Investigation proves it true. Below is a statement of a Charlevoix resident. No stronger proof of merit can be had.

H. R. Fox, carpenter, 205 Park Ave., says: "Sometimes when I catch cold or do too much stooping my kidneys get out of order and my back becomes lame. Whenever I get these attacks, I feel all tired out. All I have to do when I get an attack like this is to take Doan's Kidney Pills and they straighten me up in A No. 1 shape. All kidney sufferers should use Doan's."

Lee Sneathen and family spent Sunday with Dee Sneathen and family.

Alice and Ralph Burns spent Sunday evening with Dulcie and Walter Howe.

Mr. and Mrs. Floyd Bartholomew and Mrs. Fred Smith went to Boyne City Monday.

Mr. Kane and Otto attended the sale of E. Jones and Mrs. Kane spent the day with Mrs. Helmes.

Ladies who are not registered call on your township clerk on the 15th and 22nd. See if you can't do so then.

Roy Kane is having a new well driven at his farm. James Shearer had one drove last month. Alex Banks is doing the work.

One of the real good times at a birthday party was had last Wednesday at the home of Mrs. Anna Stroud. A pot luck dinner of roast beef and mashed potatoes was served by the hostess. A good time was had and all did justice to the dinner. Fourteen were present for dinner and later in the day a few more came in.

MAPLE GROVE SCHOOL NOTES

Very busy this week with tests.

Willie Ferris and Floris Minier are still sick.

Roll of honor for week ending Friday, March 7th: Ruth and Ella Pant, Nora Webster, Elsie and Katherine Sneathen, Cora, Mabel and Custer Howe, Ruby and Lottie Webster, Hilda Wightman, Tommy Boncie, and Ethel Monty.

Earl Sneathen visited our school Wednesday afternoon and gave us a very interesting account of his trip to England. Also many amusing incidents that occurred while there. We all enjoyed the story so much that we hope he will come again and tell other incidents.

BARNARD

Some of our citizens are busy harvesting ice.

Mr. Bystra and family are visiting Mrs. Bystra's sister, Mrs. John Bottema.

Jacob Klooster went to Traverse City on Saturday to visit relatives in that place.

Misses Effie Gornell and Mamie Bennett visited in Barnard Monday night and Tuesday.

Joe Bottema returned last Wednesday from Pennsylvania where he spent the late fall and winter.

District Superintendent Meader is expected in Barnard next Sunday at the usual church hour. Let everyone be there to hear him.

Among the unfortunate ones to be injured by falling on the ice are Mrs. Hoyt, Mrs. Lewis and Dorothy Gornell. All are able to be around at present writing.

The entertainment on Monday night by Charlevoix musicians was well attended and enjoyed by all. Light refreshments were served and $24 were cleared.

The Ladies Aid meeting at Edmund Shapton's was well attended by gentlemen as well as the ladies. They adjourned to meet next month with Rev. and Mrs. Chandler in Charlevoix.

We learn with regret of the death of Thomas Cummings in Detroit on Sunday, due to heart failure. His son Glenn went there immediately to bring the body home. Interment will probably be in Barnard cemetery.

SAY, you'll have a streak of smokeluck that'll put pep-in-*your*-smokemotor, all right, if you'll ring-in with a jimmy pipe or cigarette papers and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, *then*, to hit the peak-of-pleasure you land square on that two-fisted-man-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smokethrottle wide open! *Talk about smoke-sport!*

Quality makes Prince Albert so appealing all along the smoke line. Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! *P. A. can't bite or parch!* Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or the papers and land on some P. A. *for what ails your particular smokeappetite!*

You buy Prince Albert everywhere tobacco is sold. Toppy red bags, tidy red tins, handsome pound and half pound tin humidors—and—that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

Walter Saranson passed away at the home of Mr. and Mrs. J. T. Hitchcock in Wilson township, Saturday, March 1. The young man, who was eighteen years of age was working at one of the East Jordan Lumber Co. camps when taken ill with tonsilitis. He had been making his home with the Hitchcocks and returned there for treatment. His mother, Mrs. Rose Smith, of Traverse City, was called here by his death. The remains were taken to Traverse City, Tuesday, for interment.

William Tate has a hen on his Afton farm that is doing her share toward keeping down the high cost of living, says the East Jordan Herald. Since November 1 it has laid 102 eggs and is still busy. The hen is a cross between a Plymouth Rock and Buff Cochin, and a peculiar thing is that it failed to shed feathers during the moulting season.

At a meeting of the Petoskey city council Monday night, March 3, it was decided to boost both electric light and water rates twenty-five per cent. The plants are municipally owned, and, although an increase of electric light rates was made several months ago, they have been found inadequate to meet the increased costs.

Six-year-old Charles Sherry, son of Mr. and Mrs. Archie Sherry, of Cheboygan, was instantly killed Tuesday, March 4, at his home in that city by a bullet from a rifle with which his thirteen-year-old brother Arnold was playing. The youth was attempting to eject the cartridges he had placed in the gun when his finger accidentally touched the trigger. The tragedy is a sad blow to the entire family and especially to Arnold, who is inconsolable.

The city council of the city of Cheboygan at its meeting last week voted to submit to the voters of that city at the April election a proposition to bond the city for $25,000 to take care of the indebtedness. Cheboygan city council has been forced to borrow money to pay ita running expenses and is unable to pay off its debts.

Victory postage stamps, a new 3-cent issue to commemorate the successful termination of the war, will be on sale soon throughout the country. In announcing the issue the postoffice department said the supply would not be sufficiently large to replace the regular 3-cent stamp and postmasters would sell Victory stamps only on request. The new stamp bears the figure of Liberty victorious, helmeted and with a sword in one hand and scales in the other. The whole design appears upon a shaded panel with American, British, French, Belgian and Italian flags draped for the background. In size it compares with other special stamps and is wider and shorter than the ordinary stamp. It probably will require several weeks to supply requisitions from all postoffices.

Deputy Game Warden Bryant of Pellston says that several people apparently do not understand that the period of time during which persons may catch fish with set lines is ended for this season and also that time during which fish may be speared through the ice on inland likes is ended. The former is during December, January and February, and the latter period is January and February. During March and April fish may be speared on inland streams if no artificial light is used. Mr. Bryant says he does not want to see anyone get into trouble through not understanding the fish laws.

The consolidation of the Cheboygan State bank and the Cheboygan County Savings bank was perfected Saturday, March 1, says the Cheboygon Tribune, when stockholders of the two banks met in their respective banking headquarters and approved the action. The consolidated business will be conducted in the artistic and up-to-date banking house of the State bank on the east side of Main street, under the name Cheboygan State Savings bank. Directors will be selected from the boards of directors now in charge of the business of the two banks and officers will be named some time soon. The interior of the bank building has been remodeled anticipating increased business, each department having been enlarged. Business of the combined banks will be conducted under the new organization commencing Monday morning, March 3. The consolidation of these two banks means much to the city and county, Cheboygan has not a large enough population to warrant three strong banks, but it too large to be limited to one banking house only. With the consolidation of these two banks Cheboygan is assured of two perfectly safe and reliable houses, the old First National bank and the newly organized Cheboygan State Savings bank.

Three American cities want to welcome home the fomous 32nd divlsion which is now occupying a front line sector in the third army's Coblenz bridgehead. The 32nd division is composed of Michigan and Wisconsin guardsmen among whem is company I of East Jordan, and was one of the first divisions to go overseas. All the original members now wear two service stripes. The division has been designated among the first divisions to leave Germany and although the definite date of its departure has not been decided upon, the war department has announced that it will leave in the middle of next month. The three cities which are urging their claims for the honor of welcoming the conquerors of Fismes, Juvigny and Cote-Dame-Marie are Waco, Texas, Milwaukee and Detroit. Milwaukee seeks to welcome the "Iron Jaws" because it is the metropolis of Wisconsin the state that furnished part of the original division, Detroit thinks she is entitled to the honor, as being the largest city in the state from which most of the men in the divisions hail. Waco wants to welcome home the men who wear the red arrow because the division trained there.

One Michigan man, Private Clifford Nelson of Detroit, now at Camp Custer after being returned from northern Russia with "trench feet" declares that he found shells fired against his command by the bolsheviki, had been made in the Detroit munitions factory where he was employed before going into the service. One of the shells failing to explode, struck near Nelson, who examined it. "Perhaps I worked on the very shell that failed to get me because it was a 'dud' said Nelson. It is believed these shells were part of those ordered in the United States by the Russians before the revolution.

Girls, don't be frightened by the propaganda about Yank soldiers marrying French girls. Here's the verdict in a letter to the Soldiers Friend: "Say, the girls in the States have these frog dolls beat ten ways from Sunday. We have a good chance to look them over. The good looking ones are all right until you glance at their feet; then, good night! They have feet like sand spreaders."

Cheboygan citizens believe they have some chance of securing a union passenger station, as the old Michigan Central station erected in 1881 was destroyed by fire Sunday, March 2. No one was at the station when the fire broke out and the flames had a big start when discovered. The building was of wood and was quickly burned. The books, etc., not in the safe were destroyed. For the present a railroad passenger coach is doing duty for a station in Cheboygan. The coach was brought up from Grayling. The old station was built when the Michigan Central road was built to Cheboygan and was never enlarged to keep pace with the growth of that city.

MORTGAGE SALE

Default has been made in the payment of the money secured by a certain mortgage bearing date the 12th day of May, in the year 1915, executed by Earl A. Young, singleman, as mortgagor, to Grand Lodge Knights of Pythias of Michigan, as mortgagee, which mortgage was duly recorded in the office of the Register of Deeds of the County of Charlevoix, Michigan, on the 12th day of May, 1915, in Liber 51 of Mortgages on page 27, and

The amount claimed to be due on said mortgage for principal and interest on the date of this notice is the sum of Two Thousand Seven Hundred Fifty-Seven and Seventy one-hundredths dollars ($2757.70) together with the further sum of Thirty-five dollars ($35) as an attorney fee provided for in said mortgage, and no suit at law or other proceedings have been instituted to recover the said debt or any part thereof, and the power of sale contained in said mortgage having become operative.

Notice is hereby given, that by virtue of the said power of sale and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction to the highest bidder, at the East front door of the Court House in the City of Charlevoix, Michigan, on Saturday the 26th day of April, 1919, at ten o'clock in the forenoon of said day.

The premises are described in said mortgage as follows:

The lands and premises situated in the City of Charlevoix, County of Charlevoix, State of Michigan, viz: commencing at the Southwest corner of Lot Seven (7) of Block Six (6) of said City of Charlevoix according to the original plat thereof of record in the office of the Register of Deeds of said County of Charlevoix; thence North Fifty-nine and one-half (59½) feet; thence East Ninety-nine (99) feet; thence South Fifty-nine and one-half (59½) feet; thence West Ninety-nine (99) feet to the place of beginning. Being a part of said Lot Seven of Block Six.

Dated, January 28th, 1919.

INTERESTING LETTERS FROM SOLDIER BOYS

From Forrest O. Weed

Oberbuber, Germany,
January 30, 1919.

"Dear Folks—One year ago today we were just preparing to come across, in fact we were on the boat on the 30th. Today we are in Germany and have won a great victory and in fact have accomplished what we set out to do or nearly so. Of course there are still some points for settlement, but all the fighting has stopped and a great many lives saved. What a change one year has brought about. Some great victories have been won by the Allies and here's hoping that it is soon finished by the signing of peace.

"We are now able to wear two gold service stripes, having put in one year's overseas service which really seems like a dozen instead of one. Our insignia, as you can see by the Stars and Stripes which I sent you, is a red flaming arrow passing through a bar—meaning that our division broke through all the lines of resistance the Boche put before them or us. Of course we did not go over the top as the infantry does, except on special occasions, but we do our share as we must see that the means of communication are open and that the artillery and supplies can get to the front.

"We built bridges, roads and in a pinch acted as infantry. We go ahead of the infantry and build the bridges for them to cross and later for the artillery to cross so you can see we do our bit as sometimes the whole thing depends on the engineers work. Once in particular we saved the day by getting the artillery up and then the ammunition and supplies. This was in the Argonne and a short ways from Montfaucon where our division did some wonderful work.

"Well I must quit now, so good night. Your loving son, Forrest.

Februsry 11, 1919.

"Dear Folks—Have not written for about a week or over as I have been out at the 126th Infantry painting wagons. They are having a big show today, so all the wagons had to be finished before today. We finished Saturday, but had to work pretty hard to do it.

"According to rumors we will soon be on our way home, as the latest is that we leave this week or the first of next. Sincerely hope it is so as we have seen enough of this country. Right now we are having artillery practice so as to be ready for action. The infantry has all kinds of drills, the same as when the war was on, but we are doing a little different work.

"I had a letter from you today, dated January 23, so you can see our mail is coming along pretty good even though we are way up here in this little burg.

"I got the Couriers of December 25 and January 8 last night and was certainly glad to get them. We are having some very good shows here now, some are coming from other divisions and some from our own, also from the Y. M. C. A. We are also getting lots of Y stuff, cookies, candy, gum, cigarettes, etc.

"Will close for this time, with lots of love. Pvt. Forrest O. Weed, Co. C, 107th U. S. Engineers, American P. O. 734, American E. F.

From Maurice Nowland

Hotel Mt. Blanc, Chamouix, France, February 7th, 1919.

"Dear Mother and all—Guess I told you in my last letter that I was intending to go on to Paris. Well I got up next morning at 3:30 and started out. There were 15 out of each company, 1200 out of the division that went. We rode all day in a truck and got to the rail head at night, a place called Beurecourt. We built fires in the fields and sat by them all night as it was cold. I curled up in the truck a couple of times, but froze out. As no train came in the next day we had to hang around, but that night we hiked to Noviant and rolled up in our blankets on the floor of the Y. M. C. A. building. The next morning we hiked back and waited all day for the train which arrived that night. We crowded into the little French coaches where we had barely room to sit down. We only made a few kilometers and stopped all the next day, which was Sunday, near Toul.

"At Toul some German engineers brought in some engines that had to be turned over to the French government. A few of the boys could talk to them so we learned something from them of the sentiment of the German people toward the Americans. They said that they were surprised at the way the Americans treated them. The boys cut the buttons off the German's coats for souvenirs. I got some while at the front so did not get any off of their coats. They liked the doughboys and were willing to do anything for them.

"A bunch of soldiers are about the most crazy bunch you ever saw when they get out. Well we pulled out of Toul Sunday night for Nancy. It is quite a large city. We got off the cars Monday morning and hiked up to the city where there is a health resort. They have baths there which they claim will cure rheumatism. It is sulphur water natural heated. It is a very large place and 500 can take a bath at a time. There are also several shower baths and a large swimming tank with a spring board. You can just imagine the sport I had.

"We got clean clothes here and any kind of clothing that we needed. I got new shoes, leggins and a clean uniform. They have a large laundry here where they launder the clothing and uniforms. You know we have to look sprucy when we get out anywhere.

"Well they put on some more coaches and I got into a German coach. There were eight of us to a compartment, just room enough for five to sleep on the floor and three on the benches. We stayed on the car all that night and the next morning we pulled out. That night we stopped at Djion, another large city where the largest base hospitals in France are located and where there are also 30,000 German prisoners. We saw several hundred at work along the railroad the next morning and threw them tobacco, cornwillie and salmon and they were certainly tickled to get it, saluting every time anyone threw anything. They said that they got only rice and bread to eat and that they would have to hide the things the Americans gave them or the guards would take it away from them and I know enough about conditions to believe it. Well I was going to tell you how we stopped. We stopped about 12:00 o'clock at night and so sudden that we thought we had run into something. It piled the fellows that were sleeping on the floor up in a bunch and jarred the fellows on the benches and the hat racks down on us.

"We found a stove at Nancy and set it up with the pipe running out the window. It smoked to beat all and there was quite an argument as to whether it was worse to freeze or be smoked out, so Big Boy rolled out of his blanket and pitched the stove out of the window thereby finishing the argument and the stove. There is no heat in the cars as you know anything is good enough for the soldiers—makes him tough.

"Well to make a long story short, we landed up here in the mountains last night, and are now 3,000 feet above the sea level and are in a valley with huge mountains towering high above on either side. We saw very little snow coming up here, but there is plenty here, and more ice and snow farther up. These are the Alps and people spend thousands of dollars to come up here. There are many fine baths here for the tourists. We are in a four story hotel and have every luxury. I stayed in bed this morning until after eight o'clock. Just think seven days to do as I wish. I am sort of resting up today, but am going to climb the mountains soon. There are avalanches, glaciers and frozen rivers to see up there. Am going to start on the most dangerous trip of all where you have to step in the guides tracks. They are waiting for a clear day so we can see over into Italy and Switzerland and look over the top of Mount Blanc, the highest mountain in Europe. There are also tobaggan slides and skating.

"It took eight days to get down here from the time we left the compsny, so you can see how things are over here and the whole of France is not as large as Texas. We came part of the wny on an electric car. Will write later. Maurice.

IT'S QUEER, ISN'T IT?

It seems queer that there should persist anywhere in the country the slightest particle of confidence in the good faith of a party leadership which declared in its national platform of 1912:

"We demand a return to that simplicity and economy which befits a democratic government and a reduction in the number of useless offices, the salaries of which drain the substance of the people."

And in its 1916 platform:

"We demand careful economy in all expenditures for the support of the government."

And then "look what they went and done."

One reason there is so much delay in ending the war by executing a treaty of peace, possibly is the certainty that a vast number of war powers and war jobs will expire when the war officially ends.

In view of the financial record of the past four years the emblem of the Democratic party should be changed to a drunken sailor, and its slogan to "He has expended yours and mine."

We trust that President and Mrs. Wilson have enjoyed their visit to the United States.

Clemenceau was wounded, but Gulf reigns and Colonel House of Texas still lives.

SCHOOL HOUSE BURNS AT BOYNE FALLS

Erected About Twelve Years Ago—Will be Rebuilt

Boyne Falls' four room public school building was completely destroyed by fire early Wednesday forenoon causing a loss estimated to be between $12,000 and $15,000. It is believed the loss was fully covered by insurance.

The building was erected between twelve and fifteen years ago and was two stories high and built of wood. It was heated by steam and the fire is believed to have originated in the furnace room.

The fire was discovered shortly before 8 o'clock and quickly spread through the building.

It is believed the board of education will at once make plans for a much more modern building which will be located nearer the center of the village. In the meantime the churches or some other building or buildings will probably be used for class rooms.

John Sprik at Custer

John Sprik of Norwood township, son of Mr. and Mrs. Joseph Sprick, has arrived from overseas, where he has faithfully served for the past seventeen months. He landed at New York, January 9, and was sent to Camp Merritt. At this camp he was under quarantine for two weeks on account of an attack of mumps, but notified his parents about ten days ago that he had fully recovered and expected to be transferred to Camp Custer for dischsrge within a few days. He is probably at Camp Custer now.

Annual Pot Luck Supper

The annual pot luck supper for members of the I. O. O. F. and their wives, children and Rebekahs, will be held at the hall on the evening of March 19. STOCK EXPERT AT THE LOEB FARM

M. A. C. Man to Hold Public Meeting on Saturday

Those interested in stock raising and their care will have an excellent opportunity to become more acquainted with the subject on Saturday of this week.

James A. Walrond of the Michigan Agricultural college, who is on a business trip through northern Michigan, will be at the Loeb Farm and in the afternoon will speak on the raising and care of live stock.

At one o'clock in the afternoon, a public meeting will be held at which time all interested in animal husbandry are invited to be present. Mr. Walrond is an expert in his line and without a doubt will explain many vexing problems in the line of stock raising and their care which have been a source of trouble and worry to those engaged in this line of work.

The meeting will be of great interest to you. Mr. Farmer, as well as to those engaged in dairying, and you will miss a splendid discussion if you fail to attend the meeting.

Leave your orders for the "Life and Work of Theodore Roosevelt," memorial edition, and "World's War for Humanity" with Mrs. G. Taylor. The Life and Work of Roosevelt comes in an extra fine cloth binding for $2.00 or buckram style with gold inlay for $2.75. This makes a beautiful memorial volume that will last a lifetime. The World's War for Humanity, a pictorial history of the world's war for liberty, comes in an extra fine cloth binding with patriotic inlay on cover for $2.00 or red buckram stamped in gold, durable as leather for $2.50. Both of these volumes are well worth you time and money. Come in and place your order. 11t1

STEERED LIKE SHIP WITHOUT A RUDDER

Ellsworth Young Ladies Shaken Up In Runaway

Two Ellsworth young ladies, the Misses Gladys Larson and Savilla Yettaw, had an experience on Saturday evening af lsst week which they no doubt will not care to repeat.

The young ladies, using a horse and buggy belonging to Henry Yettaw, had driven to East Jordsn for the evening and had just started for home when while crossing the bridge at South Arm one front wheel burst and the horse started to run, Miss Yettaw was thrown fram the buggy but her companion stuck to the rig, which with one side of the thills loose was steering like a ship without a rudder.

After about one hundred yards of rough going and just as Miss Larson was becoming seasick, the buggy collided with a tree where it stayed, the horse going on alone. Miss Larson came to a stop a few fect beyond the buggy, alighting over the fence in some one's front yard.

The young ladies walked back into town and stayed the balance of the night and returned to their homes Sunday morning and the horse was found some time Sunday afternoon none the worse for wear. Neither of the girls were seriously injured but were slightly bruised and badly shaken up.

OBITUARY

James Hugh Sinclair was born in Hastings county, Ontario, Canada, on June 29, 1862 and came to Michigan in October, 1872 with his parents, where he has lived ever since, until his demise on Fèbruary 16, 1919, at Summerville's camp, supposedly from heart failure as he made no complaint or disturbance and no answer when called in the morning. Investigation led ta the discovery he had passed away ns quietly as he had retired the previous evening.

He was kindness itself, honest in the extreme and industrious to the limit of physical strength. He was a loyal citizen, a true friend and a devoted brother and those who knew him best appreciated him most.

After an assembly of relatives and friends at the home of his sister, Mrs. John Crawford, had listened to a short sermon of comforting words by Mr. Rozell, the remains were laid to rest in the Boss cemetery beside his father and mother and other members of the family who had preceeded him to the great beyond.

WILDWOOD

Ice harvesting is just completed here.

Walter Wilson and family are moved and settled on the Mrs. Emery farm.

Several are planning to attend the Farmers Institute at Ellsworth on Friday next.

Friends here are indeed saddened to hear of the death of Mrs. Fred Mason near Phelps last week.

John McElroy with his daughters and a cousin, Miss Colman of near Kewadin, drove through here on Saturday enroute to the Reed Geneit home.

Mrs. Sarah Emrey moved her household gouds up to John Cawood's house, having rented her farm to Walter Wilson.

The Cornwell farm changed hands last week but will be under the management of Mr. Newberry, who purchased a part of the stock and John Cameron who purchased the remainder of the stock will leave it for Mr. Newberry's use while Mr. Cameron owns the farm.

With Charlevoix loyally supporting and appreciating a lady county commissioner of schools, Antrim has fallen in line, the first chance the women had to vote and elected Miss Kate Wilson to that office. With Miss Wilson's experience in handling school work we predict rapid strides forward in Antrim county schools and herewith extend congratulations to her.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin, a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looklag men, women and girls with pasty or muddy complexions; instead of the multitudes of "aerve wrecks," "ruadowa.", "brala fags" and pessimists we should see a virile, optimistic throag of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestane phosphate in it to wash from the stomach, liver, kidneys aad ten yards of bowels the previous day's indigestible waste, sour fermentatioas and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds and particulary those who have a pallid, sallow complexioa and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick aad remarkable change in both health and appearaace awaiting those who practice internal sanitatioa We must remember that inside cleanliness is more important than outside because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowel do.

CEMETERY ASSOCIATION FORMED

Officers Elected and Work Will Soon Be Begun

A small but enthusiastic crowd met at the M. E. church last Friday evening and formed a cemetery association, the first organization of this kind to be formed in this community.

Officers were elected for the ensuing year and a membership fee of one dollar was decided on. Finance and executive committees were appointed and it is haped that some financial aid may be secured from the township, that the cemetery may be cleared up and beautified.

The officers elected were: Mrs. Benj. Madill, president, Mrs. Gerritt Rubingh, viee president, Mrs. Wm. Patterson, secretary and Mrs. Benj. Boes, treasurer. It is hoped that everyone will join this organization and put their shoulder to the wheel to help a good cause.

ELLSWORTH LOCALS

Wm. Cole was a Petoskey visitor on Monday af this week.

The Ellsworth school basket ball team were at Central Lake last Friday evening and trimmed the boy scouts of that place. Charlevoix high school team defeated Central Lake high the same night.

At the primaries March 5th. Miss Kate Wilson was nominated by a vote of about 2 to 1 over C. W. Wing, the other candidats. The nomlnation makes election certain and naw all that remains to be done is for Miss Wilson to show by her work after July 1st, the day on whlch she takes office, that the confidence of the people was not misplacsd.

We understand that the deal has been closed whereby Frank Klooster becomes the owner of the store and other property at Phelps, formerly owned by Ralph Davis. Mr. Davis has wanted to sell for some time, intending to go south for the benefit of Mrs. Davis' health. Mr. Klooster, the new owner, comes from a family of successful business men and we hope and expect that ho will continue to keep the old customers and make many new ones.

SALTS IF BACKACHY AND KIDNEYS HURT

Drink lots of water and stop eating meat for a while if your Bladder troubles you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and logey. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive cannot injure and makes a delightful, effervescent lithia-water drink.

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally that Nobody can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphor Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

Women of Michigan This is Your Affair!

IS IT NOT PROVIDENTIAL that the first vital issue to come up since the women of this state have gained their franchise is that issue which most intimately and most seriously affects the life and happiness of woman—the booze question?

IF THERE WAS ONE QUESTION on which women have always wished they could register their convictions it was on this one of the saloon.

ON APRIL SEVENTH the enfranchised women of Michigan will enjoy that golden opportunity—and for that reason we are absolutely certain not only of success, but of a vote so overwhelmingly against this last forlorn effort of the "Wets" as to end the matter for all time.

FOR WE CONFIDENTLY expect that the most intelligent vote ever cast in this state will then be recorded—the intelligent, clear-seeing decision of the women added to that of the men who previously voted this same question down.

FOR—MAKE NO MISTAKE—while the so-called "Light Wines and Beer" amendment sounds almost harmless, it is the old question under a cloak of verbiage—it means in plain language the re-opening of the saloon.

AND YOU KNOW WHAT that means—women know only too well.

SO WE WILL NOT ATTEMPT to analyze that particular document here. Time enough for that before election day.

OUR PURPOSE NOW—our ardent desire—is to impress upon the women of the state, the necessity of registering at once.

TRUE, YOU HAVE until March 22nd—and in cities or townships of less than 10,000, until March 29th—to register.

BUT YOU KNOW how dangerous is delay. Something may come up—you may delay and then forget until it is too late—and then find yourself barred from exercising that precious privilege for which so many good women have fought so long.

DON'T DO IT—DON'T put off this matter from day to day. It is vital. You will want to vote on this amendment. We need not advise you how—there is no doubt as to what women will do on this subject.

ALL WE ARE ANXIOUS ABOUT is that you register—so you will be able to vote on this pernicious bit of attempted legislation on April seventh. And on every other issue that is to be voted on then.

IF YOU DON'T KNOW the conditions of registration, read below—we give a brief outline

YOU WILL OBSERVE among other things that you are not asked to tell your age—merely to state that you will be 21, or over on election day.

SO THAT IS EASY—isn't it? And the rest is just as simple.

ALL YOU NEED DO IS—do it! Don't delay. Don't put it off. Exercise your voting privilege now that you have it. Prove that you prize and that you deserve it.

REGISTER!—Today is the best day.

BUT IF YOU JUST CAN'T go now, set down on your calendar a certain day and make a solemn resolve that on that very day you will go and register

REMEMBER—MARCH 22nd is the last day, except in cities or townships of less than 10,000. Then you have till the 29th. But don't wait till the last day. Register now.

THEN YOU CAN VOTE—cast your first ballot against that dangerous bill, and as you may desire on any other—April 7th

Simple Rules For Registering

Any woman 21 or over, an American citizen by birth, marriage or naturalisation can vote—if her name is on the registrotion book.

You must appear in person.

Register with the city or township clerk any day except Sunday or holidays up to and including March 22nd.

In any city or township of less thon 10,000 up to March 29th.

Register in your own name not your husbands. "Mary Smith"—not "Mrs. John Smith."

You do not have to give your age—only to state that on election day you will be 21 or upwards.

You must have lived in Michigan six months or more; and been a resident of township, village or ward 20 days preceding election.

Because of the tremendous amount of work to fall upon the clerk this spring by reason of the extension of the voting privilege to women, it is important that you register at once.

It is simple. Requires only a few minutes—only that you do it—now.

IT PAYS TO READ ADVERTISEMENTS

You've often heard the saying, "It pays to advertise." That is true. And it also pays to read advertisements—pays **you**. If you read advertisements consistently for any length of time you will agree that this statement is also true.

IT PAYS YOU IN MONEY SAVED—There are many real bargains offered from time to time in the advertisements appearing in this paper. Watch for them.

IT PAYS YOU IN SATISFACTION—When a merchant asks you to come to his store he obligates himself to sell you quality goods "as advertised." You have a right to expect satisfaction from what you buy and you get it.

IT PAYS YOU IN TIME SAVED—When you know exactly what you want to buy and where to buy it, you don't have to "look around" and waste time finding it.

Don't YOU want to save money and time? Wouldn't you like to be sure of getting satisfactory service and quality goods every time you go to a store? Then read the advertisements and patronize the stores which can serve you best.

POMONA GRANGE MEETING MARCH 22

Grangers to Organize For Season of Active Work

The first meeting of the year of Charlevoix County Pomona Grange is scheduled to be held in the I. O. O. F. hall, Charlevoix, on Saturday, March 22, from 1:00 to 5:00 p. m.

On account of epidemics and the accompanying quarantine no meetings have been held since early in the fall of 1918. At the meeting to be held March 22, work will be outlined for the year, and it is hoped the interest in grange work will be resumed with increased vigor.

Delegates from all subordinate granges in the county are expected to be present, and every effort will be made to make this session one of interest. If possible, a complete program will be published in these columns in our next issue.

The ladies of the M. E. church will give a St. Patrick's supper, March 17, at six o'clock. Bill thirty-five cents. 11t1

SCHOOL COMMISSIONER'S NOTES

Schools with unusually good attendance records during past month are Easton School and Walloon, no absence or tardiness in last report, Gill school, no absence. In the Wildwood school there were only two half days' absence throughout February. Mrs. Housten of Gill school asked for four diplomas for pupils neither absent or tardy for four months. Her total enrollment is four. Miss Keller of Afton asked for thirty-one four month diplomas and her enrollment is but slightly more than that.

News comes that Boyne Valley and two school of Marion, the Johnson and Marion Center, have raised funds for the new school fair ground project. Surely a quick response to the call. Whole news later.

Word has been received from Lansing that the Eighth grade reading classies have been expressed to this office. Patience for just a little more waiting and we may receive same.

Boyne Falls school building was unfortunately burned to the ground on Wednesday last. The last word received was that they would hold school in the old Galster building or town hall soon as arrangements could be made. Boyne Falls had a good working library, fine pictures and sanitary equipment, besides a good physics laboratory all lost in the fire. The children lost their hooks and are laboring under unusual hardships at present time. As to just how they may rally from their misfortune is not yet decided.

Last week the commissioner sent out inquiries concerning the location of teachers for the coming year. Reports indicate that the school directors had in many cases already invited their teachers to return and contracts were awaiting them. Many teachers had already written to the office asking for good locations for the coming year, not knowing whether or not they would be invited to remain in their districts and feeling that it was time to act. Conditions are rather unsettled this year and the general impression among school officers is that it is best to act early.

Advance and McGeagh are ordering supplementary readers. Miss Thorsen writes that her pupils finished the second reader and she wants another second reader for them. She ordered the Story Hour to help give her boys and girls the reading habit.

Teachers—How do you like your chart? Best record sent in so far is 18 seconds per drill, second day of practice. What is your record.

Entertainments? Have your sixth, seventh or eighth grader send them in to this paper. Your neighboring districts want to know what you are doing and your boys and girls will take pride in their school in telling others.

Good work? Good equipment? Good attendance? Let the public know. You can do this through the columns of this paper.

Baptist Church

Sermon at 10:30. Subject: "The Rejected Testimony." Sunday school at 11:45. B. Y. P. U. at 6 p. m.

Preaching at 7. Subject: "Saint Patrick of Ireland." Who was he? What was he. What did he do? How many snakes and toads did he kill? Was he a Roman Catholic or Protestant, etc. On Wednesday, March 19, there will be an all day session for roll call and get together meeting. At 10:30 roll call. At twelve dinner in the church. At two roll call and business meeting. From five to six supper. At seven roll call, followed by an address by the pastor on the subject: "An Introduction to the study of the Bible, or Things We Ought to Know about the Bible." We extend a cordial invitation to the public to attend the meeting on Wednesday night. After the address we will spend some time in a social gathering, so all who wish us well we will be glad to see on that occasion, and any other time for the matter of that.

Congregational Church

"The Call to the Heights" will be the pastor's theme next Sunday morning. In the evening at 7 o'clock the subject of the Lenten meditation will be "The Second Word from the Cross." The Bible school meets at the noon hour. Supt. Craig is planning some new and interesting features for the school. Young People's meeting at six o'clock. On Thursday evening of next week the Women's Missionary society is preparing a specially interesting program for an "Open Session" to which the entire congregation is invited. Further announcement will be made next week.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed up and miserable. Relief is sure.

ALL DAY MEETING AT M. E. CHURCH

Ladies of Church Will Serve Six O'clock Supper

There will be all day meetings at the Methodist Episcopal church Thursday, March 13th, beginning at 10:30.

Dr. R. E. Meader, district superintendent, and Dr. John C. Willits, pastor of the First Methodist Episcopal church, Grand Rapids will be the speakers. Dr. Willits will speak in the evening on, "Sleeping Over a Volcano."

The ladies of the church will serve a picnic supper at 6:30, which will be free to all members of the church and congregation.

The following menu will be served: escalloped potatoes, baked beans, pickels, sandwiches. coffee, fruit salad and cake. The ladies are requested to send food early. Dr. Meader will preach at the Charlevoix church Sunday morning and evening and at Barnard in the afternoon.

Trustee Nordrum, seconded by Hiller moved the adoption of the following resolution:

RESOLVED, by the Board of Education, City of Charlevoix, that a vote of commendation be extended to Mr. Harry E. McHugh for his gallant and courageous conduct in risking his own life to save that of two pupils of these schools, who were struggling for life in the icy waters of Round lake, and but for the efforts of Mr. McHugh in leaping into the water, would undoubtedly have drowned.

RESOLVED FURTHER, that a copy of this resolution be presented to the Common Council of our city, with a request that that body take proper steps to see that a Carnegie medal for unselfish bravery be awarded to our townsman for his prompt action in this, the second instance wherein he has risked his life to save that of others.

Adopted at a regular meeting of the board this 4th day of March, 1919, by a unanimous vote.

These minutes were read and approved and on motion the board adjourned.

E. J. Hiller, Sec'y.

GET YOUR CAR READY FOR SPRING USE

Don't wait until the approaching beautiful spring weather is here, with the roads in fine shape for driving, and then find that "flivver" badly in need of overhauling and repairing. The first drive of the year is the most enjoyable—especially if the auto gives no trouble. If your car causes you trouble, the enjoyment of the day is lost.

AUTO REPAIRING IS OUR BUSINESS

That's exactly what we have spent hundreds of dollars in equipment for. That's why we have a crew of expert repairmen on our pay roll. Their work is to put your auto in running condition. After an auto passes through their hands the many vexatious delays and troubles cease. When you "step on her" the car responds, and you can start out on a hundred mile run without thought of trouble.

Bring that car to us for a thorough overhauling right now. If it needs painting, we can do that too. Do it now before spring arrives.

AMENDMENTS UP AT NEXT ELECTION

THREE ARE TO BE VOTED ON AT THAT TIME

Principal Ones Seam to Ba Good Roads and Saloon—Salaries Amandment Also Up

At the election to be held in this state on Mondoy, April 7, 1919, there will be submitted to the electors three proposed amendmonts to the constitution of the state as follows:

Good Roads Amandment

A proposed amendment to Section 10, Article 10 of the Constitution, authorizing the state to borrow money to be used for highway purposes and issue bonds therefor, and to read as follows:

"Section 10. The state may contract debts to meet deficits in revenue, but such debts shall not in the aggregate at any time, exceed two hundred fifty thousand dollars. The state may also contract debts to repel invasion, suppress insurrection, defend the state or aid the United States in time of war. The money so raised shall be applied to the purposes for which it is raised or to the payment of the debts contracted. The atate may borrow not to exceed fifty million dollars for the improvement of highwaya and pledge its credit and issue bonds therefor on such terms as shall be provided by law."

The effect of this proposed amendment, if adopted, will be to provide that the state may borrow money for highway purposes and issue bonds therefor.

Salaries Amendment

A proposed amendment to Section 3, Article 16, of the Constitution, to prohibit the increase or decrease of salaries of public officers, and to read as follows:

"Section 3. Neither the legislature nor any municipal authority shall grant or authorize extra compensation to any public officer, agent, employe or contractor after the service has been rendered, or the contract entered into. Salaries of public officers except supreme court judges, circuit court judges, probate judges and judges of courts of like jurisdiction, shall not be increased nor shall the salary of any public officer be decreased after election or appointment."

The effect of this proposed amendment, if adopted, will be to prohibit the change of salaries of public officers after appointment or election, except those of justices or judges of courts of record.

Saloon Amendment

A proposed amendment to Article 16 of the Constitution, by adding a section thereto to be known as Section 12, and to read as follows:

"Section 12. It shall be forever lawful in this state to import, transport, manufacture, use, buy, sell, keep for sale, give away, barter or furnish every kind of cider, wines, beer ale and porter, and to possess the same in a private residence. So much of Section 11, Article 16, of this Constitution as prohibits the manufacture, sale, keeping for sale, giving away, bartering or furnishing of vinous, malt, brewed or fermented liquors is hereby repealed. The legislature by general laws shall reasonably license the manufacture of, and reasonably license and regulate the sale and keeping for sale of vinous, malt, brewed or fermented liquors: Provided, however, that the electors of each city, village or township forever shall have the right to prohibit the manufacture, sale or keeping for sale of vinous, malt, brewed or fermented liquors within such city, village or township."

The effect of thia proposed amendment, if adopted, will be the return of the saloon and alcholic liquors to Michigan by providing for the manufacture, sale, keeping for sale, giviog away, hartering or furnishing of cider, wines, beer, ale and porter in this state.

Gave Birthday Dinner

A very nice dinner was given Tuesday of last week by Mrs. Elmer E. Smith of California, at the home of her mother, Mrs. J. J. Howe of Cozy Nook farm, in honor of her mother's 69th birthday. Covers were laid for twelve and an enjoyable time was had. Mrs. Howe was the recipient of many birthday gifts and the good wishes of all who were present.

You are invited to attend the spring millinery opening Thursday and Friday at Mrs. Fred G. Bellingers. 12t1

FIRST TEAM WINS FROM SECOND TEAM

C. H. S. Seconds Giva First Team Hard Fight

Friday night C. H. S. first team defeated the second team after a hard fought game. Although handicapped by not having any signals the second team came out ahead the first half 9-7.

When the second half started it looked as if the High school team would lose their trip to the state tournament. Jones, formerly of the first team, caged the first field basket for the second team. Miles also starred for the second team by dropping in six fouls out of eight tries.

Halverson saved the first team by dropping twn field baskets in the lost few minutes of play. Final score, First team 21, second team 16.

Referee, Craig of C. H. S.

The lineup was as follows:

First team		Second team
Hampton	R. F.	Smith
Halverson	L. F.	Miles
Wexstaff	C.	Bugbee
Hommott	R. G.	Jones
Beeman	L. G.	Hollct

NOW READY FOR SEASON'S RUSH

BENJ. BROWN MAKES ADDITION TO AUTO LINE

Will Handle Overland and Oakland Autos, and Rapublic and International Trucks

With the Overland Model 90 as a leader, the Oakland Senaible Six, the Republic and International truck, Benj. Brown, owner and operator of tha Overland Garage of this city, presents a line of motor driven vehicles for the season of 1919 that should go far to satisfy the peculiarities and whims of the most fastidious and particular customer.

The Overland line has been his leader for several seasons. This year, recognizing the growing demand for a six-cylinder car, Mr. Brown has taken the agency of the Oakland Sensible Six, acknowledged to be one of the best, if not the best, six-cylinder medium priced car on the market today.

In past years Mr. Brown has given little attention to the auto truck, but at the same time he has closely watched the trend of times, and has chosen two lines, the Republic and International ,botb trucks of national reputation, as his leaders.

With all the history of the Willys-Overland factories building of popular priced cars it never produced a model to compare with the famous Ninety in point of universal approval. It has made a hit with nll clnsses of owners and drivers. No better indication of the quality put in the baby of the Overland line can be had than the record it has mode in resisting the wear nnd tear of all kinds of roads under the guidance of all sorts of drivers. In all he will handle four models of the Willys-Overland make.

In the Oakland six he has a car that will meet the approval of all. Practically no chnges have been made in the models over lost season. It is a car that will give service and meet the approval of the buying public.

Both the Republic and International trucks are built for service, as has been demonstrated by those previously owned in the city. No better trucks for the price cnn be found than those included in Mr. Brown's line.

His atore and garage on Bridge strect presents at oll times a very neat nppearance, and the person who enters is at once impressed with the sights that meets their eyes. The stock is a varied one not being confined to automobiles and accessories alone. The display room is filled with cars, tires, accessories, robes, etc. One can obtain most anything needed in the operation of an auto. We predict a busy and prosperous season for this hustling dealer. On poge four Mr. Brown makes a speeial announcement of his models for the 1919 season.

Association Meating

Charlevoix Commercial Association will hold their first meeting of the year in the I. O. O. F. club rooms on Friday evening of this week. Several important subjects are to be discussed, one the possibility of obtaining a permanent dry dock for Charlevoix. Members are urged to be present.

INTERESTING LETTERS FROM OUR SOLDIER BOYS NOW IN THE SERVICE

Maurice Nowland Enjoying Winter Sports in Vacation at Chamouix, France—James Bleha, Now a Lieut., Over the Top 21 Times

From Maurice Nowland
Chamoulx, France,
February 9, 1919.

"Dear Mother and all—Just a few lines to let you know that I am fine and enjoying myself.

"Yesterdoy I made a trip to the glacier Dea Bossons. It was well worth seeing. It is a great field of ice that is moving down the valley and moves 500 feet a year. To get up we had to zigzog back and fortb as it was so steep. We came out at last to the edge of the canyon where we could see the large field of ice with buge crevices in it. We stopped at a little building where we bought some post eards and where a platform was built out to the edge of the precipice. We then went farther up and came out on top of the glacier which was covered with snow. We went into a large cave of solid ice and after coming out of there went down the other side of the mountain.

"Today I started on the biggest trip of all, which was to the top of a mountain called Le a Flagere. This trip is not undertaken very often, but we had a nice clear day and a French guide, a big strapping fellow that knows every foot of the mountains. He had to break a trail for us in the snow clear up to his waist, so you see we had rather slow going. Sometimes the trail ran close to a cliff and other times we went up places so steep that we had to use our alpine atricks, which had a sharp prong in the end. At 1:30 we arrived at a little house where we ate our lnnches which we took with us. The guide said that it was 400 meters up yet and that we would not make it before five or six o'clock, so we deeided to go back. If we could have gone up we could have looked over into Italy and Switzerland, but we would hava been ratber late in getting homc.

"We had great sport coming back, as we cut almost straight down the mountain. We could trail our sticks behind using them for a hrake and to balance ourselves then sit down on our heels and slide down, talk about going, there is where we get our thrills. Of course, if there had not been so much snow we would not have dared to do it, but after we went about twenty or thirty feet the snow would bank in front of us and stop us. The fellows in the rear got the fastest slides as the pnth waa clear and down they would come one on top of the other. We watched the guide go and would then follow after. We struck one place where there had been an avalathe and for a little ways it would be icy where the snow had come down over the top of the rest when it was soft and then when it froze it left a hollow which was icy, like places where logs go down, and that is the place where we sure did slide, aa you could not kcep your feet. I saw a little place like the chute the chutes where it went down and then curved up a little and then a drop, so decided that I would like a little extraordinary thrill and got on the ice which had a little covering of snow and the bunch that was on ahead watched me come. I started out alright on my feet, but aoon gathered so much speed that my feet alipped out and I made the rest of the descent in about seventeen different kinds of shapea and when I hit the chute I was going at the same speed of an express train, shot out into the air and landed in a snow bank, turning several sommersaults and hand springs, but the snow was so deep one couldn't get hurt. Needless to say I got my thrills nnd only one other took the trip. We got back to the Y about three o'clock. Tomorrow I think I will try the skis.

"Am not resting much, but am so used to hiking and other things that it does not seem to tire me much.

"I am in a fine hotel. Seems funny to come into such a luxurious place after living in dugouts and shell shot up towns. The meals are served in regular French style. Ever try it? Well, I will tell you about it and then you will stick to the American plan. They bring in a dish of soup or something, you eat that and then wait a bit, a bell rings and the waitress comes in, whisks away your plate, in comes a little dab of something else and then you wait a while longer and then the performance is repeated and you keep wondering when they are going to have the meal. Finally you decide that the meal le over and you get up and go down to a restaurant and order a good square of ham and eggs.

"A fellow juat said thot it wos thirty-two below yesterday morning, if tbat is the case it will be more tomorrow morning as it seems colder tonight. I did not realize that it was near that cold, but the air is so dry here and you don't feel the cold much. Your ears feel cold when you etart out in the morning, but when yon commence to climb you get warmed up. Have only been wearing on overcoat in the evening.

"Was told that it costs a tourist $2,000 to come up here and take in these sights.

"Well, goodbye for this time, will write later and teli you of my experiences over top with skis. Maurice Nowland.

February 14, 1919.

"Dear Brother and Sister—No doubt you think that I hove forgotten you, but auch is not the case. How are you getting along and how is the weather. Is there much anow. No one has mentioned anything about the weather so I am wondering if you are snowed in.

"Am in the Alps mountains on a vacation and am having a wonderful time. Juat came in from skiing so this letter is a little wobbly. When you get up on one of these hills with a pair of skis on you can have all the excitement you wish.

"There are quite a few soldiera here on a pass. I have been here eight days, expect to be sent back the first of next week. The government pays the bills so I wouldn't mind staying here until they send ma back to the states, which I hope will be aoon. I have climbed the mountains and have seen some fine sights, besides skating and coasting.

"Talk about coasting, you ought to see us come down these hills. They have regular places shoveled out with the snow banked on eaeh side. They used bobs for a while, but so many were hurt that now we use small sleds and steer with our toes in the regular kid fashion.

"I am staying at a big hotel which has all the modern conveniences. It seems funny to come into such luxury after living so long in dugouts and shell shot up towns.

"We have a fine Y. M. C. A. here in a big million dollar hotel which was built before the wnr and was never used. There are a number of Y girls here, and they give a dance, show or games every night, so you see we are entertained.

"This is where the tourists come every summer, that's why there are so many fine hotels. It would cost $2,000 to make this trip, which is costing me nothing except what I want to spend on my own accord and think that $60 will carry me through.

"Do not get up until after breakfast as there is no bugler to wake me up, then I go down town and get my breakfast. As you will see by the post cards we are in a valley between the mountains. Am sending a bunch of postcards that I wish you would keep for me as they are the places that I have seen. I aent enough so if you want any of them pick them out and help yourself. Am

FRANK D. SCOTT LANDS HOUSE POST

Gets a Place on Two of Most Important Committees

Representative Mape's achievements in getting Michigan members good committee places in the next house were supposed to have reached their maximum last week, but again he improved his record.

Representative Charles A. Nichols, Detroit, was assigned to the insular affairs committee, and put well up on its ranking list. This committee will consider a new code for Porto Rico and legislation for the Philippines.

Representative Frank D. Scott, Eleventh district, gets a place on the banking and currency committee, one of the choice positions. He was already on the merchant marine and fisheries committee.

The appointments were made without their personal pressure.

ABOLISH BOARD OF PUBLIC WORKS

PROPOSITION TO BE VOTED ON AT APRIL ELECTION

City Attorney A. L. Fitch Explains Present Situation—Requires Two-Thirds Vote

The proposition to abolish the Board of Public Works will be submitted to the voters on April 7 next, and it is thought desirable that some information be given the public concerning the matter. The proposition is submitted by the council on the petition of one hundred freeholders.

Most of us recall that the proposition to abolish the board has been submitted to the people twice before, but has failed to carry, although a large majority voted in favor of it. It requires a two-thirds majority to carry the proposition. The manner in which the proposition must be worded on the ballot is confusing, but the language is specified in the law and it must be followed. When you receive your ballot, you will see that the proposition is stated as follows:

For the Board of Public Works—Yes ( ).

For the Board of Public Works—No ( ).

Be sure to read the instructions at the head of the ballot. Those who wish to abolish the board will vote NO, that is, must place o cross in the brackets following the word NO. If you wish to retain the board you will vote Yes. Unless more than ordinary care is exercised, the average voter will very likely vote just the opposite to the way he intends.

As to the merits of the proposition. You will understand that the Board of Public Works is provided for by the general law, that is, the charter of cities of the fourth class. When tho city was incorporated the board became a part of the city government. The board has charge of many of the public utilities and its action is necessary before the council may move. The institution is undoubtedly a good thing in large cities, but in the cities of the size of ours, it seems to create too much of a division of authority and causes confusion and uncertainty.

You will understand that there is no criticism of the personnel of the board. It is believed that every member is in favor of abolishing it. In fact, the petition is headed by Olaf Nordrum, who is a member of the board. For the past four years or more the board has not been active and the council has gone ahead with the work with doubtful authority. It is now confronted with work which must be done for the good of the public and it is imperative, either that the board be abolished or that it be in active service.

I do not wish to intrude my views on the voters, but I am so firmly convinced, by a careful study of the situation, that the best interests of the city require that the Board of Public Works be dispensed with, that I feel justified in urging every voter to thoroughly acquaint herself and himself with the facts. Remember, that if occasion should ever arise wherein the board would be a desirable thing, it can be re-established just as easily as it was abolished. Respectfully yours, A. L. Fitch, City Attorney.

WOMEN URGED TO DO DUTY

FIGHT BEER AND WINE AMENDMENT TO BITTER END

If Amandment Carries It Will Repeal Every Liquor Law in State —Do Not Want Saloon

A message to the Women of Charlevoix County—We fear there are many who do not understand the significance of tbe Light Wine and Beer omendment which is to be voted on April 7tb, and that many are being deceived into thinking that the drinks referred to are innocent drinks.

The drunkenness that characterized Rome in her declining daye was wine drunkenness. The drunkenness against which Israel's prophets thundered was wine drunkenness. The drunkenness which called forth restrictive legislation in early Egypt was wine and beer drunkenness. The drunkenness which caused an emperor of China centuries ago to order all the grape vines uprooted, was wino drunkenness.

Wino and beer contain the same alcohol as spirits in a smaller proportion, but the consumption of a larger amount of wine and beer can easily make up for the difference. Science in recent years has dragged out into the open the mischief done by wine and beer quantities of alcohol. We shall never end our alcoholic evils by letting wine and beer continue. They waste foodstuffs, they despoil men they have ruined nations.

If tbe wine and beer amendment carries on April 7th, it will open the saloons all over the state, and give the liquor traffic a strong foothold in Michigan again. The saloon as of old will be the rendezvous of the element that defies law; the Bolsheviki and anarchist will find headquarters in which to mobilize their forces to fight war prohibition, the federal amendment, law and order.

If this amendment carries it will repeal every liquor law in tha state, and leave us at the mercy of an element that knows no mercy and respects no law.

If this amendment carries, the county local option law will be repealed and the legislature cannot pass a new one because the amendment makes the city, village or township the local option unit.

If this amendment carries, Michigan will have no law, no authority, behind its officials to enforce national prohibition.

If this amendment carries it will go into effect May 7th, 1919. The state legislature will be adjourned before that time. There will be no opportunity to pass laws regulating the traffic for nearly two years, unless a special session is called. During that time Michigan would be absolutely without any restriction or regulation on the sale and use of wine and beer. A reign of lawlessness would prevail worse than that with which the wets have tbe audacity to threaten us in case we do not permit the saloon to come back.

We urge the women to make this the all absorbing topic of conversation from now on until election time. Talk about it in your clubs and lodges, church societies and social functions. If you failed to register in time to vote at the primaries, you may do so before March 29th and vote at the April election. We must not let the amendment carry. Do your duty on April 7th and vote "no."

Signed: Women's Christian Temperance Union by Mrs. Jennie Alcox, County President.

TWICE-TOLD TESTIMONY

Charlevoix People are Doing All They Can for Fellow Sufferers.

Charlevoix testimony has been published to prove the merit of Doan's Kidney Pills to others in Charlevoix who suffer from bad backs and kidney ills. Lest any sufferer doubt this evidence of merit, we produce confirmed proof—statements from Charlevoix people who again endorse Doan's Kidney Pills—confirm their former testimony. Here's a Charlevoix case:

Mrs. M. Olney, 310 W. Hurlbut St., says: "I have used Doan's Kidney Pills on different occasions for kidney trouble. I suffered from severe backaches and Doan's Kidney Pills greatly benefited me. Others of my family have also used this medicine for lame back and pains in the kidneys with good results."

AGAIN PRAISES DOAN'S

Five years later Mrs. Olney said: "I have never found a kidney medicine that can equal Doan's Kidney Pills. The occasional use of this medicine keeps my kidneys in good condition. I will never go back on what I have said before in praise of Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Olney had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

Mrs. Haskins is expected home from South Bend, Indiana, this week, where she was called by the illness of her sister.

Mr. and Mrs. Joe Sprik expect their son, John, home. He is on his way from duty overseas and is now at Rapid City.

Mr. Swartout opened a pit of about thirty bushels of russet apples Monday, that have kept nicely, the apples being firm and solid as if just fresh from the trees.

Our new minister, Rev. Vane, spoke to a small congregation last Sunday. Few people knew of his coming and the roads were muddy. We hope to see a larger congregation next Sunday at 2:00 o'clock.

Mr. and Mrs. Merrill Richardson were very much surprised Monday evening by twenty of their friends and relatives coming in to assist Mr. Richardson in celebrating his birthday. The evening was enjoyably spent in playing pedro, a pot luck supper was served and all departed wishing them many more happy birthdays.

EVELINE ITEMS

March 17, St. Patrick's Day as well as Mrs. Kane's birthday, was celebrated for the fourth year at the home of Mrs. Kane. Dinner and supper was served by the hostess and the ladies. The birthday cake, made by Mrs. Rose Wightman presented a beautiful sight when the candles were lit, 60 in number. Many beautiful gifts were given the hostess as well as numerous birthday cards. The event was thoroughly enjoyed by all.

BARNARD

More of the beautiful snow.

John Smith served on the jury last week.

Mrs. Albert Beattie has been quite ill but is better at present.

We understand that Chas. Cork and family will move to their new home soon.

John Holliday of Harbor Springs was in the neighborhood on business the fore part of the week.

We hear that Isaac Mills has bought the Sims Baker place and will move there this spring.

The burial of Grant Alexander in the Barnard cemetery occurred on Monday. The sorrowing family have the sympathy of the community.

We understand that Mr. and Mrs. Peter Block have returned from their trip to Canada, Grand Rapids and other points, and will soon move onto their farm in South Barnard.

We are sorry that we made the mistake in last week's news in regard to Glenn Cummings trip to Detroit, about which we were misinformed. There are some people, who say you can't believe all you read in the paper. We want the Barnard news to be as nearly correct as possible, and will be glad to confess and rectify any mistakes we make.

Work on the number chart is progressing nicely.

The seventh and eighth grades have begun the study of "Columbus" by Joaquin Miller.

MAPLE GROVE SCHOOL NOTES

Sixth and seventh grades are drawing maps of South America.

Floris Minier is with us again after an absence of three weeks.

Willie Ferris is able to be with us again after two weeks illness with the flu.

Willis Gillette was a visitor at our school Thursday. Glad to have visitors at any time. All are welcome.

Lottie Webster attended the social given at the Undine school Friday evening and reports a fine time and a good program.

Roll of honor for week ending Friday, March 14: Willie Ferris, Custer, Cora and Mabel Howe, Ruby and Lottie Webster, Ruth and Ella Pant, Katherine and Elsie Sneathen, Ethel Monty, Hilda Wightman and Floris Minier.

Congregational Church

A Home Missionary Drama will be presented by the Women's Missionary Society at the Congregational church, Thursday evening, at 7:30 o'clock. The play is entitled "Two Thousand Miles for a Book." It is a homeland story, being an account of a significant and dramatic incident in the early history of our great Northwest. Mrs. R. W. Paddock is the leader. The Camp Fire girls will assist with songs and in other ways. The ladies of the society are expected to bring their husbands. The entire congregation is cordially invited.

Next Sunday morning a representative of the Michigan Anti-Saloon League will occupy the pupit. In the evening at 7 o'clock the third sermon of the series, Sunday evening in Lent will be given. The subject will be "The Third Word from the Cross." There will be special music. The meetings thus far have been well received. The public is invited. The Bible school meets at the noon hour and the Y. P. S. C. E. at six o'clock.

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

The senate has adopted a resolution introduced by Senetor Connolly, chairmen of the roads and bridges committee, pledging itself not to authorize more than $5,000,000 for the ensuing year for road construction shoold the $50,000,000 bond issue earry at the polls in April. The same resolution will be offered in tha house by Representative Deprato. It was introduced at the request of Highway Commissioner Rogers, who explained that some aesurance should bo given the voters that the bonds will not be issued all at one time. Senator Connolly pointed out that to meet tho federal aid offer of $7,000,000 during the next two years it will be necessary to bond at tha spring election. The entire $50,000,000 would not be issued inside of ten years ander present plans, it was said.

At the coming election which is to be held April 7 there will be tbrae amendment, one known as the "Beer and Wine amendment," one is to give the legislature power to issue a bond for $50,000,000 to build good roads in Michigan, the other is to raise the salaries of Supreme court justices. On the first vote NO, on the second YES, the last we are content to believe that the holders of that office are paid fairly well according to other lines.

After a breathing spell of several weeks the flu came back last week with 100 cases, states the Mancelona Herald. While most of these cases are mild, some are in a critical condition. A medical expert says that the flu epidemic is only a forerunner of a greater epidemic which will spread across the country in July and August. He states that the coming disease is worse than the flue and that people should be careful with their diet and get plenty of exercise and keep in condition to help throw off the disease when it comes.

There will be no city primary at East Jordan this year, as only two candidates are in the field for mayorality honors. Charles H. Whittington and Attorney Dwight L. Wilson have filed their petitiona and the contest between the two gentlemen will be settled by the voters at the April 7th eleetion.

There were 5,296 deaths reportad to the Department of State as having occurred in the State of Michigan during the month of Janaary, 1919. This number corresponds to an annual death rate of 19.3 per 1,000 estimated popalation. In addition to the above there were 311 stillbirths retarned as deaths. By ages there were 714 deaths of infants under one year of age; 371 deaths of children aged 1 to 4 years, both inclusive; 1,199 deaths of elderly persons aged 65 years and over. The number of deaths of infants under one year of age shows a decreese as compared with the month immediately preceeding. Important causee of death were as follows: Palmonary tuberculosis, 241; otber tuberculosis, 31; typhoid fever, 16; diptheria and croup, 86; scarlet fever, 10; measles, 8; whooping cough, 22; pneumonia, 745; diarrhoea, antartis under two years, 78; meningitis, 12; influanza, 1,337; caneer, 203; violence, 208. Among the deaths reported frem violence were 16 deaths from railway; 4 street car; and 15 auto accidents; 6 homicides; 27 suicides; 9 drownings and 14 deaths from conflagration. As compared with tha month immediately preceeding an increase is noted in the number of deaths returned from diptheria and croup; scarlet fever, measles, whooping cough and violence. A slight decrease is noted in the number of deaths returned from all forms of tuberculosis, typhoid fever, pneumonia, diarrhoea, meningitis, inflaenza and cancer. In addition to the important causes shown above there were two deaths from tetanus end three from poliomyelitis.

The war savings committee of Michigan, with headquarters in Detroit, is authority for the information that interest coupons on the Third Liberty bonds are cashable March 15, and that a new ruling of the postoffica department allows offices to accept these coupons as cash for the purchase of war savings stamps. This information came in the shape of a telegram to Postmaster T. G. Finucan.

The following comparisons of death rates during past wars with the present shows an astonishingly low percentage by disease among the Americans in the great world war. Records show that in our Civil war the disease death rate in the federal army was 65 per 1000. In the Spanish war it was 26 per 1000. In the present war it was reduced to 17 per 1000. Furthermore the large majority of disease fatalities have resulted from the influenza epidemic. Despite the extreme handieap caused by the elose living quarters of the men in the eamps, the influenze mortality seems not to have been much higher than among any similar number of eivilians in any smitten community, with all the comforts and eonveniences of home treatment The real surprise for most people, comes from a eomparison of battle death rate in the same three wars. For the nambers engaged, this war was far more deadly to Americans than either of the others. In the Spanish war only 5 men were killed out of every 1000. In the Civil war there were 33 deaths per 1000 in the present war, 57 per 1000.

FIFTH LIBERTY LOAN

American marines and soldiers held for three mortal days on the Marne at Chauteau Thierry against the picked troops of the German army. Did they quit the moment the Germans turned back and tried to find a place to dig in? No they did not. They went right on fighting the German rear guard. They drove them until the retreat turned into a desperate rout. And they kept right on chasing them, first at one point and then at another until they had cleaned them out of the valley of the Meuse and the forest of the Argonne, and the town of Sedan. Then came the German surrender—the most abject and rushing fall in all the annals of warfare.

In plain language, the American troops operated on the good American rules of the game: "Keep your eye on the ball. Follow through. Play the game right and play it to the finish." Of course, they won. They couldn't lose, playing the tragic game of war that way.

Now there is a parallel calling for the same method of play.

The American Expeditionary forces went abroad to fight, to be wounded, to be killed, if necessary—fully determined to carry out their pledge of victory.

What was the direct pledge of the American people to those men? The contract was not all on the shoulders of the troops. The nation had to take one side of the contract. The American people assumed the solemn obligation to back up the fighters' with money, arms, supplies, medical, moral and social maintenance.

The army in France took a contract to fight.

The army at home took a contract to pay the bills.

The fighting Americans have made good on their contract.

Now it is up to the people at home to pay the bills.

That is why the treasury is selling anticipation certificates covering next year's federal taxes and discounting the subscriptions to the coming Fifth Loan. All the money raised on the previous four Liberty Loans has been spent and the bills have not been paid.

Nearly all the American soldiers are overseas and it will cost many hundred millions to bring them back. Meantime, they must be fed and kept up to the scratch in appearance, health, morals, spirits and every other way.

There is only one way to do it. This paying business takes grit.

Every American must go right on saving as hard as before the armistice.

Save every nickle, every dime, quarter and dollar that can be spared from living expenses. Put savings into the banks, or buy Thrift and War Savings Stamps.

Then when the time comes to subscribe for the Liberty Loan everybody will be ready to carry out the contracts we have on hand.

The soldiers won the peace by fighting

We have the job of paving for the peace.

Save and prepare for the Fifth Loan.

WHAT THE SOLDIERS THINK ABOUT EUROPEAN ALLIANCES

Everybody reads George Pattulo's war articles. His following in the United States is perhaps larger than that of any of the correspondents that have been with the active armies in Europe. In addition to his tales being interesting they are so filled with good sense and simple, sound Americanism that they are always a delight. As few others he has given us an insight into the heart of a soldier, has shown us his frailties, his foibles, his high courage, his broad humanity, his sturdy patriotism and his love of home and friends.

Particularly enlightening then is his recent article just given publication, because it bears so aptly upon present conditions and especially upon what must be the soldier's idea of the Britain-Wilson plan for a league of nations. In it Mr. Pattulo says:

"Not a man in the third army but wants to go home. They are longing to get back. They feel that America has accomplished what it set out to do and that the sooner the army returns to the United States the better.

"The more thoughtful among them have reasons other than personal. They can forsee snares and pitfalls and tortuous ways ahead. Already the difficulties are piling up; already problems are arising which may easily place us in a false position. They fear that the United States may become mixed up in the wrangles and jealousies and hates that dominate all national affairs in Europe. The people are fed on it from the cradle. They learn to fear and distrust and prepare against neighboring nations. That is the direct result of propaganda from the top—endless propaganda—centuries of it.

"In Europe racial prejudices are a stone wall to progress. Every war leaves bitterness and wounds which lead finally to another. It is a vicious circle, without any end in sight. From a purely American standpoint George Washiagton was right about 'no entangling alliances.' The officers in our army are unanimous in declaring that the less we mix up in international affairs on this side of the water the better off we shall be. We haven't the same purposes, we haven't the same aspirations, we haven't even the same ideals. Though of the same blood as the older races we are yet a vastly different breed.

"And the quicker this army is jerked out and we get back to our knitting the better. We fought for one thing—our safety. It is idle talk of having entered the war to succor any nation. Germany drove us in. A boche triumph would have threatened our security and our institutions. So we went to war and we won. Now let's get back."

NEIGHBORS CUT THEIR WINTER'S WOOD

Mr. and Mrs. J. J. Howe Appreciate Kindness of Friends

A very plessant surprise, as well as a demonstration of the respect and esteem in which they are held in this community, took place Wednesday last when Ren Molet, Orton VanDusen, Dick Pascoe, Charles Heise, Alfred and Clifford Sutton and Elmer Smith and son, William, bore down on Cozy Nook, the home of Mr. and Mrs. J. J. Howe of Norwood township, armed with saws, axes and their teams for a "wood bee."

An hour at noon was reserved for dinner, and by the time the sun was ready to set and the boys gone, the happy couple retired to peaceful slumber with the pleasant knowledge that their next winter's wood was already up.

It goes without saying that such hospitality is not excelled in any community.

REMAINS BROUGHT HERE FOR BURIAL

Mother of William R. Coates Dies in Flint

Mrs. Rose Mary Coates, age 82 years, passed away March 16 at the home of her son, William Coates, in Flint.

Mrs. Contes was a resident of this city for s number of years, making her home with her son on Robinson Avenue until last fall, when she accompanied the family to Flint.

AN AUTO FOR EVERY BUSINESS

THE MODELS WE WILL HANDLE DURING 1919

The value of an automobile or truck is proven by its use. A car may look fine when it is new, but will it hold up in use and be sufficiently satisfactory to warrant the purchase of another of the same make? That is the real test and the reason we take real pleasure in announcing the different makes of autos and trucks we will handle during the year 1919. The Overland and Oakland have given satisfaction to their owners as have the Republic and International Truck. You are not making an experiment when you buy any of these makes.

OVERLAND, MODEL 90
THE THRIFT CAR

The Overland 90 is truly a Thrift Car. You cannot get complete satisfaction from less advantage than it gives—you cannot get as much value in any other car for the low price of a Model 90.

In appearance the Model 90 is thoroughly modern and pleasing. You will find this Overland equally pleasing in performance. It has abundant power, delivered by a motor that runs smoothly and quietly, day in and day out.

There is a greater degree of comfort, we believe, than in most cars of much higher price. You can best judge this for yourself by riding in the car.

Other models, the 5-passenger Sedan and 2-passenger Roadster. We will gladly explain their merits if you will call at our store.

OAKLAND
SENSIBLE SIX

Four years of test and proof have firmly established Oakland Sensible Six cars in the preferance of 100,000 owners.

So emphatic has been the approval of their basic principles of construction that these are continued this year without change in all models.

High power and light weight in Oakland Sensible Six Cars have laid the foundation of the extraordinary efficient and economical service they render to the home and the individual.

Because of the unusually high proportion of power to pounds in all models, they are quick, flexible and easy to handle, and for this same fundamental reason they afford maximum transportation at minimum cost. We have taken the agency for the Oakland Sensible Six for these reasons, and can recommend them to you without hesitation. Let us demonstrate them to you at any time.

INTERNATIONAL MOTOR TRUCKS
FOR ALL DELIVERY WORK

If horses interfere with your business advancement, get rid of them. Better results at less cost can be obtained with International Trucks.

International Trucks are built for the hardest service. A heavy duty, 4-cylinder motor combined with the internal gear drive, offers ample power for all ordinary road and weather conditions.

In all parts of the country—everywhere—firms and agriculturists are adopting International Motor Trucks to take the place of their horses. The many reasons that lead these hard-headed business men to change their system of hauling can be summed up in one word—SERVICE.

Three-quarter ton, one-ton, one and one-half ton, two ton—a size and style for every business. They are one of the trucks we handle. Are you interested?

REPUBLIC TRUCKS
FOR SERVICE

Republic Trucks are quality trucks. Regardless of price you can not buy better quality or more satisfactory truck service.

Republic quality has a special significance to the buyer of hauling power. It enables him to buy, at a fair price, motor trucks that will prove fully dependable for every hauling requirement.

Their specifications show in detail the many splendid quality features of the Republic Trucks. The Torbensen Gear Drive, used in all Republic Trucks, delivers 92 per cent of the motor power to the wheels. We know of no other type of shaft drive that delivers as much.

There are six models of Republic Trucks from 3-4 ton to 5 ton capacity, price $1,095 up. We want to talk trucks to prospective buyers and believe we have the best makes to show you.

If you are in the market for a second-hand car, we have them. If you want to dispose of your car, come in and we will deal with you. We carry Goodyear and Kokomo tires in all sizes. Why? Because they give the best of satisfaction.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, pain, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

ELLSWORTH WINS FROM CENTRAL LAKE

Games Well Played Considering Practice Had

Two basket ball games which although possibly a trifle short on science, were sure long on sport and excitement, were staged at the Boss hall on Friday evening of last week. The first was between the Ellsworth 2nd team and the boy scouts of Central Lake and Ellsworth were the victors by the score of 9-5. The seeong game was Ellsworth 1st team and Central Lake. Ellsworth winning by a 22-17 score. The Ellsworth boys did exceptionally well considering their lack of opportunity for coaching and practice and plan on winning next Friday evening by a more top-heavy score. They will on that evening meet the same teams on the same floor and the games will start promptly at 7:15. Turn out and boost.

"A SHINE IN EVERY DROP"

Black Silk Stove Polish is *different*. It does not dry out; can be used to the last drop; liquid and paste one quality; absolutely no waste; no dust or dirt. You get your money's worth.

Black Silk Stove Polish

Is not only most economical, but it gives a brilliant, silky lustre that cannot be obtained with any other polish. Black Silk Stove Polish does not rub off—it lasts four times as long as ordinary polish—so it saves you time, work and money.

Don't forget—when you want stove polish, be sure to ask for Black Silk. If it isn't the best stove polish you ever used—your dealer will refund your money.

Black Silk Stove Polish Works, Sterling, Illinois.

Use Black Silk Air Drying Iron Enamel on grates, registers, stovepipes, automobile tire rims. Prevents rusting. Try it.

Use Black Silk Metal Polish for silverware, nickel, tinware or brass. It works quickly, easily and leaves a brilliant surface. It has no equal for use on automobiles.

INTERESTING LETTERS FROM SOLDIER BOYS

(Continued from page one)

also sending a goat's horn that I bought up in the mountains from an old man with whiskers as long as Santa Claus. They use those horns to call the goats together when they are grazing in the summer. I would like to keep it as a souvenir of this place and trip. For your trouble I am sending you a souvenir handkerchief and pillow top.

"Suppose I will have quite a few letters when I get back to the company. I hate to go back there as the towns are all shot to pieces, country torn up and no one lives around there. It is only a little ways from Verdun and a little ways from the Belgian border.

"There are lots of German dugouts and barracks left there yet. A few of us went out in the hills one day inspecting dugouts, just looking over the material that the Germans had left behind. Each of us got a German rifle and a lot of ammunition, so we had lots of fun for a while picking the little white nobs off the old telephone poles. I would like to bring one back for a souvenir, but guess that cannot be done.

"I would like to go up into Germany and stay as long as I will have to stay here, as the Germans use the boys that are up there just fine. There are no hard feelings as you folks back there might imagine. Its all over now. I had a little experience myself so I know. When we were coming back from school there were three truck loads of us and our driver got lost, as our company had moved while we were at school and we did not know exactly where to go. We traveled around all day and brought up at night in a German town. They could not speak English, but we had two or three boys that could speak German. They took us into their homes and kept us all night, gave us our supper and breakfast. My pardner and I were in a home and the only way we could talk was with our hands, but we made them understand what we wanted. We had a dandy bed and in the morning the lady made some coffee, set out some rye bread and jam. We took out a handful of francs and told her to take what she wanted, but she just backed away. We had always paid well for everything in France, so we laid a handful of the money on the table and walked out, as it was worth it to us. Must close now, hoping to hear from you soon. Pvt. Maurice Nowland, Co. I, 34th Inf., 7th Division, A. E. F., American P. O. 793.

From James Bleha

Over the top 21 times in one battle is but a part of the experiences of Jim Bleha, son of Mrs. Anna Bleha, 209 Nettleton street. Jim has been in the service the past six years and according to the following letter to his mother is one of but a few of the original members of his outfit still alive today. He writes his mother as follows:

Meidahahn, Germany,
February 20, 1919.

"My dear Mother—I am dropping you a few lines to let you know how I am getting along in Germany. We are fixed up very nice and hope to remain so for some time. We do not know when we will sail for America, probably not for some time to come. Am hoping that some of the old men are left in the company. There are only a few left that came over with us as we have quite a few new men in with us now.

"Have taken some pictures of myself and two of my friends. They are the only ones left who came over to France with me. The rest of the boys are all dead, wounded or missing in action. My picture is not very good, but it is the best I could do over here."

The following article contains a condensed history of Lieut. Bleha's record:

"Over the top 21 times in as many days and cited for his daring almost every day, is the record of Jim Bleha of Charlevoix, Mich., in the epoch-making battle of Cantigny, when the famous First division locked arms with the crack Seventy-second division of Bavarians in one of the bitterest struggles of the whole war.

"Sergeant Clem R. Woodbury, Detroit, one of his fighting comrades, has received word from overseas that Bleha has been promoted to be a first lieutenant as a partial reward for his bravery.

"All through the First division," said Woodbury, "Bleha was noted for his abundant energy and ability to be everywhere all the time. After we reached France a special unit was formed of observers, snipers and scouts with Bleha in command.

"Every night a patrol of picked men under an officer and Blehn left our lines to gain information and keep the enemy from gaining the same. In 21 days that we held the line at Cantigny, Bleha was engaged in as many fights and he always was successful.

"One particular raid stands out in my memory. A patrol from my company, under Lieutenant James Palacke and Sergeant Bleha, left our lines to penetrate the German front as far as possible. Here is the story of this raid as the sergeant told it to me on his return:

"'After we left the trenches we sneaked between two German machine gun posts. Continuing we crossed the crest of the hill well behind the Boche line. All about us we could hear German voices plainly. Finally we decided we would get a German prisoner or die in the attempt. A column of German soldiers loomed up near us. The lieutenant and I decided to get the last man, so when he appeared opposite us I pushed my .45 into his midrib. He yelled, but it was the last time he ever made a noise, for I pulled the trigger twice.

"'Immediately we were surrounded by Germans and there was nothing for us to do but to fight our way out. The air was full of star shells and it was as bright as day. We had started to retreat the minute my victim fell and got some distance before the Boche discovered where we were heading. That was one of Sergeant Bleha's stories and I only can add he was cited for his share in that particular raid, only one of several encounters just as exciting."

The proposed Saloon or so-called "Beer and Wine" amendment to be voted on at the spring election, April 7, 1919. Article XVI: "Section 12. It shall be forever lawful in this State to import, transport, manufacture, use, buy, sell, keep for sale, give away, barter or furnish every kind of Cider, Wines, Beer, Ale and Porter, and to possess the same in a private residence. So much of Section 11, Article XVI of this Constitution as prohibits the manufacture, sale, keeping for sale, giving away, bartering or furnishing of vinous, malt, brewed or fermented liquors, is hereby repealed. The Legislature by general law shall reasonably license the manufacture of, and reasonably license and regulate the sale and keeping for sale of vinous, malt, brewed or fermented liquors:

"Provided, however, that the electors of each city, village or township forever shall have the right to prohibit the manufacture, sale or keeping for sale of vinous, malt, brewed or fermented liquors within such city, village or township."

Register and vote to defeat this amendment (x) NO.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

SENATOR BAKER FOR GOOD ROADS

URGES PEOPLE TO VOTE FOR AMENDMENT

Declares Amendment if Passed Will Give State Good Roads Without Paying Full Cost Now

State Senator and former speaker, Herbert F. Baker, long an influential figure in legislative circles and in State Grange activities, whose tireless fighting in the interests of the farmer inspired former State Senator James A. Murtha, of Detroit to christen him "The Untamed Bear Cat from Cheboygan," comes down out of the clouds of high finance and intricate tax data in discussing the proposed good roads amendment to be voted upon April 7 and draws a homely and striking parallel for his farmer friends to consider. Senator Baker likens the proposition to the purchase of a phonograph. He says:

"The proponents of the good roads amendment argue that our trunk line roads should be built now and built by the state and nation and paid for on the installment plan, thus placing the state, in the matter of the expenditure necessary to rapid highway development in the same position as the family, unable to buy a phonograph for cash. The installment plan relieves the situation, and in each case it is possible for those interested to enjoy the use of the desired object while raising the fund with which to pay for it."

"None of our friends should become unduly excited about the large number of round naughts in $50,000,000 figure of limitation put upon the proposed bond issue. No single round dollar of our dad's will be removed from its present moorings by this measure until a majority of the people of the state (women included) have given their approval at the polls, April 7. The vote April 7 is not on a bond issue, but to give the people themselves, through their representatives in the legislature, the authority to bond the state for good roads. After a ratification by the people at the spring election, the amount of bonds, when they shall be issued and how spent will be determined by the legislature and the legislature of Michigan alwaya has reflected the sentiment of the people back home on the big issues of state.

"Representative Aldrich, of Cheboygan, has introduced in the house a bill to work out the plan of state built highways. Get a copy of it and study it's provisions before indulging in adverse criticism."

SCHOOL NOTES

There will be a supper given by the high school students at the Congregational church this week Friday to help raise expenses for the team's trip to Lansing. Everybody who is interested in the athletic showing of the local school is urged to buy a ticket and come.

The principal's announcement of the tennis tournaments this spring was followed by a snow storm. Rather early.

The trophies in the high school room have been polished up by some of the girls and are much more pleasing to the eye than they have been heretofore.

Two large moths have been brought to school to make their acquaintance with the higher education. One was of the Polyphemus and one of the Prometheus species. One of them took his survey of the audience from the vantage point of Mr. Aseltine's forefinger where he sat all the time the roll was being taken. Both of them breathed their last in the chemical laboratory after a very brief span of existence, and were mounted by their respective owners, Billy McCarty and Vivian Webster, as a start to a collection.

"Hands Up" is being reproduced by the lower grades at the rink during their gymnasium hour. While rather impromptu, Mr. Loomis states that it is very interesting and melodramatic.

Please! Now that the snow is off, use the sidewalk, and do not make it impossible for grass to grow on the schoolhouse lawn.

The Pomona grange will meet at the I. O. O. F. hall Saturday afternoon at 1:00 p. m. Immediately after the close of the afternoon session a pot-luck supper will be served. 12t1

There will be a dance at Ironton grange hall, Friday evening, March 28. Everyone invited. 12t2

SCHOOL COMMISSIONER'S NOTES

The bulletins on the study of Columbus were received by the commissioner the 13th inst. They were mailed to all teachers having eighth grade pupils on Friday the 14th. If the class enrollment is changed since figures were sent to this office or if sixth, seventh and eighth grades are all studying the poem, each teacher may at request receive enough more to supply every pupil. They are furnished by the state and are free to the county.

The state director of Thrift work in the schools has written that he noticed in the Moderator Topics that the schools of Charlevoix county are organized by townships for school fairs, and final contests. He asks: "Can't you somehow work in a Thrift contest on a per capita basis?" Please let me know if you can do this?

Pupils should show their double interest in school and county fair now. All who are not absent or tardy for the last three months of school and who are reported by the teacher at close of school year will receive complimentary tickets to the county fair.

Busy work in the days of long ago meant anything to keep children busy. Paper chains, sewing cards, clay to play with, or a doll to dress and undress. School boards in those days thought it was useless to invest in any supplies and to a large extent they were right. Nearly all simple amusements could be found without expense to the district. However, since the days of normal training a new era has arrived. The child makes a few chains now merely to train his fingers; he makes a few odd mats, and perhaps occasionally has his toys at school; but most of all, he learns by means of his fingers. The skillful teacher designs the chain work to teach colors, plans the mat work to show designs and form, provides clay in order to test the understanding of the objects of the reading lesson. The wise school board stands back of her in buying for her toy money and helping her to obtain a toy grocery store in order to teach shopping while the child is still very young. The teacher will need scissors for paper cutting—not foolish play work—but wisely directed interests to test accuracy, to indicate form and assist imagination in its course. She will need carbon for tracing, paste for construction work, pegs and peg board for numbers, color and form. She will need letter cards for sound drills, family cards for groups of sounds to systematize the sound drills, word cards for composing sentences for seat work, sentence and question cards for puzzle work in teaching beginners and first and second graders how to study reading. Oh, the seat work is a big problem and the biggest lesson a child has to learn is how to study. The teachers biggest problem is to know what is in the child's mind, and she can know this only by assigning work which the child can do, and which will guide him in his work. If it is well done, she knows what he has thought. The wise school board buys what teacher needs.

BASKETBALL

There will be a game Wednesday night between the high school and the returned soldiers and sailors of the city. Friday night Bellaire plays the high school in the last home game of the season here. They are the only team who has beaten our boys except the Petoskey team, and we do not intend to let them get away with another victory.

The game Wednesday night is a very uncertain one as to outcome. Some of our old "Herculeans" are on the soldiers and sailors team, but they have had no practice, and the odds are favoring the students somewhat.

Your attendance is urged at both games. The high school team is going to Lansing, and it is the money from these two games that is going to send them there. Both games will be close and interesting, from all advance "dope." There will be a girl's preliminary at the Wednesday night game, at least.

Spent Delightful Afternoon

Mrs. George Swinton and Mrs. H. A. Craig entertained about twenty-two of their friends last Saturday at a thimble party. The several musical selections that were intermingled with the visiting and sewing helped to pass a delightful afternoon. A dainty two course luncheon was served after which the guests departed thanking the hostesses for their charming entertainment.

We have a quantity of good grass and clover seed at right prices, while they last. Charlevoix Elevator Co. 11t2

THINGS MOVE IN RESORT WAY

SEASON ON IN FULL SWING AT SOUTHERN PINES

Highland Pines Inn Filled to Capacity and Has Large Waiting List—Spring Arrives

Readers of the Courier will without doubt enjoy the following letter from the pen of Louis L. Ronan, who was on the Courier staff a greater part of last season and is now spending several weeks at Highland Pines Inn, the winter resort conducted by Mr. A. I. Creamer, manager of the Charlevoix Inn during the summer months. The letter follows:

Southern Pines, N. C.,
March 17, 1919.

Mr. A. J. Usher,
Charlevoix, Mich.

"My dear A. J.—I am down here where Charlevoix folks are making things move in resort way.

"It seems impossible to get into Highland Pines Inn without meeting the whole-hearted greeting of mine host, A. I. Creamer and five minutes later the stranger feels just like one of the family.

"Two hundred and fifty guests is the capacity of this hotel home. It must be taking care of that many now, as some of the guests are required to wait for seats in the dining room.

"Somebody else here that you know (Mac) Frank L. McDonald is at the desk and after six months of visiting the southern resorts, old Mac looked so good to me that, French fashion, I could almost kiss him on both checks. Mac you know, is the boy that the Mater and Misses tell their troubles, confidential too.

"Speaking Charlevoianly, I have visited the famous southern resorts north of Jacksonville this season and I find no soathern hotel that quite measures up in every respect with the one conducted by our summer citizen, Mr. Creamer.

"The violets are blooming their heads off. The crocus, narcissus, jonquils and tulips add to the gaiety of springtime. The early blossoming shrubs are showing their colors against the green. The peach orchards are a perfect riot of color—it it springtime at its very best down here and we live with the doors and windows open.

"Two golf tournaments are under way now, one here at Southern Pines that is being played out on the Country Club course a short distance from the Highland Pines Inn, and another in the suburbs of Southern Pines at Pinehurst. Pinehurst is a suburb of Southern Pines or Southern Pines is a suburb of Pinehurst, it all depends on where you are stopping.

"Very close to 500 entries were booked for the qualifying rounds. In this gathering of golf enthusiasts are included men from every section of America and a very fair contingent from the old world. Some of the men, in fact a great many of them are noted for achievement in some branch of human affairs. Many are men of great wealth, but it is a peculiarity of the true sportsmanlike attitude of these men, that nobody cares two whoops what you are or how much you are worth, but how far can you drive.

"It would be unwise to come here now without first making reservation of rooms, as the Inn is not only completely occupied, but it has been for two months and the waiting list is rather a large one.

"Manlike, it seems hard to just quite understand why the springtime season is not permitted to appear until after Milady has first decided what the springtime raiment will be. This season they are wearing them longer. I don't mean getting more wear out of the garments, but they are lengthier dresses, skirts, gowns or frocks, whatever seems to be the proper terms.

"Those of Junoesque type appear to a decided advantage in these new creations, however, from a purely non-expert viewpoint. I cannot say that our slim willowly type of girl or woman is as graceful appearing in these newer style garments.

"This is truly the land of outdoor sports, the cycle under way and completed comprise target and trap shooting, a tennis tournament, a gentlemen's steeple chase and handicap hurdling, a horse show which included sixteen classes of entries and attendance from practically every Eastern and middle-west state. In fact, there is something doing every day that keeps the winter visitors cheerfully and interestingly occupied. Sincerely—Louis L. Ronan.

OIED AT HOME OF DAUGHTER

REMAINS OF MRS. TYSVER BROUGHT FROM FRANKFORT

A Resident of Charlevoix Since 1887—Funeral Services Held From Kirby Home Saturday

One of Charlevoix's oldest residents, Mrs. Oliver Tysver, passed away last Monday evening at the home of her daughter in Frankfort, death being caused from paralysis.

Anna Polster was born at Milwaukee, Wisconsin, February 14, 1862. She was united in marriage to Oliver Tysver, May 9, 1880, and moved to Charlevoix in 1887, where she lived until about five years ago. Her husband died February 13, 1895 leaving to her care five children to whom she devoted her life. She was a beautiful christian character, ever patient, kind to all and leaves only sweetest memories of her loving helpfulness. She was a member of the Baptist church, taking a very active part in all church work. Her last words were a pleasant good night on Saturday.

She was stricken with paralysis about four o'clock Sunday morning gradually sinking and passed away without gaining consciousness Monday evening, March 17, at the home of her daughter in Frankfort, with whom she was making her home.

Remains were brought to this city Friday accompanied by her three sons Peter, Herman and Oliver of Gloucester, Mass., and daughter Mrs. Harker Kirby of Frankfort. One daughter, rMs. George B. Miller of San Jose, California, was unable to attend the funeral.

Funeral services were held from the home of J. W. Kirby Saturday at 2:00 o'clock, Rev. Rice officiating. Interment in Brookside cemetery.

DEATH TAKES WM. GENSHAW

Charlevoix County Pioneer Dies At Home in Petoskey

William Genshaw, pioneer farmer from Bay township, Charlevoix county, who has been making his home in Petoskey since he retired from his farming and stock raising operations a few years ago, died in that city Sunday, March 23.

Mr. Genshaw was widely known in Charlevoix county and in Resort township and Petoskey. For many years he was superintendent of the North Bay Evangelical Sundsy school and an active worker in that church. He was active in farmers' organizations and all movements for the good of his community.

STATE HIGHWAY COMMISSIONER TELLS OF ROAD PROPOSITION

Explains Many Puzzling Details of Proposed Bonding Issue Not Generally Known to Public—Individual Per Capita Tax 68 Cents Per $1,000

Many details of the proposed $50,000,000 Bond Issue, to be voted upon at the April 7 election, are explained by State Highway Commissioner Rogers in the following letter. The questions covered are those usually asked by those not conversant with the proposition and we publish his entire answer for the benefit of our readers:

"Dear Sir—In reply to your inquiry of recent date, I will state that by computation it is shown, according to the State's assessed valuation, that a $50,000,000 bond issue retiring at the end of 25 years will necessitate a tax of 68 cents per $1,000 per year. This is assumed that $5,000,000 of bonds will be issued yearly for a period of 10 years.

"In answer to your second question, we have every assurance that federal aid will be continued from year to year, and there is coming to the State of Michigan at the present time some $8,000,000 of federal aid money.

Third, the proposed road building program has been generally marked out or at least indicated in the Aldrich Bill, which has just passed the State Legislature, but the amount of gravel road or the amount of pavement which will be constructed has not been determined.

"Fourth, it is true that the richer counties of the state, especially those counties in the lower peninsula, will pay more toward the construction of a trunk line system under the Aldrich Act than the counties of the northern peninsula of lower valuation. In order to serve the state as a unit and insure the completion of these trunk lines across the counties of lower valuation, it is necessary to give them more help.

"As near as can be determined, it is the sense of the legislature to make available only such moneys as can be spent economically in the construction of roads covered by the bond issue.

"Enclosed you will find a letter, which is addressed to employees of this department, setting forth certain specific statements converning the Aldrich Bill and the proposed amendment.

"Trusting that this is the desired information, I am,

Very truly yours,
FRANK F. ROGERS,
State Highway Commissioner.

Letter Mr. Rogers Refers to in Last Part of His Article

From now on you will be asked many questions regarding the so-called fifty million dollar bond issue, hence it will be well for you to be informed as to what we may expect to accomplish with this money; how much money is likely to come from the counties under the terms of the so-called Aldrich Bill; how fast the bonds are likely to be issued and what roads will be built with the money.

It is proposed to amend Section 10, Article X, of the Constitution so that "the state may borrow not to exceed fifty million dollars for the improvement of highways and pledging its credit and issuing bonds therefor on such terms as shall be provided by law." You will note from the above that there is no intention of immediately issuing fifty million dollars worth of bonds but the amendment simply provides for the issuance of these bonds as they are needed and by proper legislation designate the manner and times of issuing said bonds for actual road construction.

House Bill No. 49, commonly known as the Aldrich Bill was unanimously passed by the house and is now before the senate. This bill provides that the state and counties shall jointly furnish the money for improving the trunk lines, the state paying from 50 to 90 per cent of the cost. The amount paid by the state will be greatest in the poorer counties and least in the richer counties. The plan provided in the State Federal Act of 1917 has been followed except that the state will aid the poorer counties to a greater extent than under this law. The amount to be paid by the several counties is in proportion to their valuation per trunk line mile and will be in accordance with the following schedule.

County valuation, below			$ 50,000,	10pct county, 90pct state
Co. valuation, between	50,000	and	75,000,	15pct county, 85pct state
Co. valuation, between	75,000	and	100,000,	20pct county, 80pct state
Co. valuation, between	100,000	and	150,000,	25pct county, 75pct state
Co. valuation, between	150,000	and	200,000,	30pct county, 70pct state
Co. valuation, between	200,000	and	300,000,	35pct county, 65pct state
Co. valuation, between	300,000	and	400,000,	40pct county, 60pct state
Co. valuation, between	400,000	and	500,000,	45pct county, 55pct state
Co. valuation, over	500,000			50pct county, 50pct state

We have gone over the State very carefully and find that approximately 2,000 of the 5,000 trunk line miles have been improved with road ranging from ordinary gravel roads to the best type of pavement. Of the 3,000 miles yet to be built it is estimated that to close the gaps with the best types of road approaching either end of the same, there will be required approximately 375 miles of pavement, 800 miles of macadam and 1800 miles of gravel surfaced roads at a total estimated cost of approximately $40,000,000.

By going over all of the counties and estimating the number of miles of each class of road required to close the gaps in the manner above provided, and taking into account the per cent of the cost that each county will be required to pay, it has been determined that the state and counties will share the cost of closing the gaps in the ratio of about two to one. In other words, of the $40,000,000 required to close the gaps, $27,000,000 would be paid by the state and $13,000,000 paid by the counties.

But when the gaps are closed the work of substantially improving Michigan's highways is only partly completed, for many miles of improved gravel and macadam roads now on the trunk lines and on other important roads in the state are stressed by present traffic conditions almost to the breaking point. In fact, they can not be economically maintained very much longer, hence these surfaces will soon have to give place to those of a more permanent type.

Again we have gone over the state and estimated the number of miles that will soon require resurfacing and taking in account the type of surface required and the percentage of cost that will probably be paid by the counties, it has been estimated that this reconstruction cost will be borne about 55 per cent by the state and about 45 per cent by the counties.

From the foregoing it has been noted that the state will probably expend $27,000,000 in closing the gaps and will therefore still have $23,000,000 to its credit left from the bond issue. If this $23,000,000 is expended in the ratio of 55 per cent from the state and 45 per cent from the counties, there will be available $42,000,000 for this reconstruction work, making a total of $82,000,000 all told for completing the building of the gaps and rebuilding that portion of the trunk line highways that are likely to need rebuilding during the next 10 years.

In addition to the above it is hoped that there will be considerable Federal Aid available to supplement the state and county money. In fact, a bill appropriating an additional $200,000,000 is now pending in the house of representatives, having already passed the senate. If this bill becomes a law it will bring to Michigan nearly five and one-half million dollars in addition to the $2,180,000 from the appropriation of 1916, the first four allotments of which have already been taken up. From the above it will be seen that there will be available from state, enunty and Federal funds approximately $90,000,000 instead of only $50,000,000, as provided in the bond issue, for the betterment of Michigan's trunk line highway system.

In addition to the above the Aldrich Bill provides for continuous patrol maintenance on the trunk lines of the state, which should soon make it possible to reach any part of the state at all seasons of the year, over well kept highways.

WILL LINK EAST ROAD WITH WEST

Move on Foot to Connect Lake Michigan With Huron

Few people are closely in touch with road movements in Michigan, especially in the northern part of the state. It is not generally known that the Mackinaw Trail can be connected, by building a trifle over a mile of road, with the trunk line road running west from Alpena to Gaylord.

The Courier is in receipt of a letter from Rep. J. E. Chew in which he states that he and Rep. Farrier of Presque Isle county were in conference with State Highway Commissioner Frank T. Rogers in regard to a trunk highway extending from Charlevoix county to Alpena. In other words, one that will tie Lake Michigan with Lake Huron.

Already the trunk line is laid from Alpena to Gaylord. Mr. Chew states that Mr. Rogers has promised that as soon as the roads were dried up so he could get up in that country, he would lay out the route from Gaylord to Elmira, connecting up to the Mackinac Trail. There is only a little over a mile to lay out. When this is completed it will make a trunk line from Boyne City, via Boyne Falls to Elmira, Gaylord, Johannesburg, Vienna, Hillman and Alpena. With the state award road from Boyne City to Charlevoix it will give us a route to Lake Huron, crossing two trunk lines. Some of the routes on the east and west route are already built at Gaylord and Alpena.

DISPOSES OF PHELPS PROPERTY

RALPH DAVIS WILL LOCATE AT GREENVILLE, N. C.

Ill Health of Wife Forces Him to Leave Northern Michigan—Transfer Made Wednesday

Ralph Davis of Phelps has sold his store, potato warehouse, bean elevator and 37 acres of farm land located at Phelps and with his wife and family will leave the last of the week for Greenville, N. C., where he expects to become engaged in the produce business.

Mr. Davis became the owner of the Phelps store in the spring of 1914, buying out G. B. Marsac, who at that time conducted the business. In a trifle less than four years he has more than doubled the capacity and stock of the store and erected a potato warehouse and bean elevator 30 x 100 feet. Strict attention to business was never more fully demonstrated than the rapid growth in the volume of business handled by Mr. Davis.

The sale of his Phelps holdings was caused by the ill health of Mrs. Davis, who could not stand the cold weather of the northern climate. Mr. Davis will leave the latter part of the week for his new home, where he expects to engage in the produce and brokerage business. During their residence in Phelps they have made many friends who will miss them both in a social and business way.

Frank Klooster, who has purchased Mr. Davis' holdings and took possession Wednesday, is not a stranger to this section, having lived here several years prior to going to Washington, where he was engaged in lumbering. He is a brother of George Klooster of Ellsworth and Henry Klooster of Atwood, both well known business men of Antrim county.

In taking over his new purchase, Mr. Klooster finds himself in possession of a well established business, which includes not only that transacted in the store and warehouse, but also are included the post office, express office and station agent of the P. M. railroad. He will be assisted in the produce end of the business by his nephew, Jake Klooster of near Atwood who will move to Phelps in the near future.

DOES CHARLEVOIX WANT BOAT LINE

MERCHANTS TRANSIT CO. MAKE PROPOSITION

Contemplate Increase in Capital and Purchase of Strs. Manitou and Missouri—Want Help

Geo. E. Johnson, general manager of the Merchants Transit Company, organized last year, has placed a proposition before the people of northern Michigan lake ports of more than usual interest.

Last season, when the prospects for a lake boat, passenger or freighter, were of a nature that for a while it looked as if Charlevoix would be out of the game entirely, Mr. Johnson took over the Str. Kansas, as he states in his letter, and gave northern Michigan ports excellent service throughout the entire season. Later the matter of passenger transportation was solved by another boat line.

Now Mr. Johnson wants the support of all business men in a new venture—that of increasing the capital stock of the Merchants Transit Company and taking over the Strs. Manitou and Missouri, thus giving northern Michigan lake transportation facilities enjoyed in former years.

What the outcome of the proposition will be is at present hard to determine, but we believe he is entitled to liberal support from not only the business men of Charlevoix, but every lake port on the northern Michigan route. If the company's holdings are increased as proposed, it means permanent lake transportation between Charlevoix and Chicago. Every person in Charlevoix knows what this means to the future welfare of our city. Would it not be to our own welfare that this matter be given our closest immediate attention?

Mr. Johnson's letter follows:

Editor, Courier,
Charlevoix, Michigan.

"Dear Sir:—As a matter of news, which I trust you will give the prominence which it deserves in your columns, I beg to call your attention to the fact that if I can get a reasonable amount of co-operation from the newspapers, banks and merchants in the cities on the west Michigan coast formerly served by the boats of the Northern Michigan Transportation Company line, I can save for Lake Michigan the steamships Manitou and Missouri and put them back in service. The Northern Michigan Transportation Company is going out of business and will sell its boats either to my company or to others who will have no interest in service between Chicago and west Michigan ports.

"Last year I organized the Merchants Transit Company and bought and operated the Kansas during the war period. I am pleased to say that she was operated at a handsome profit. I now propose to make a real steamship line out of this business by taking over the Missouri and Manitou and all of the docks of the Northern Michigan Transportation Company along the line from Chicago to Mackinac.

"This is a considerable undertaking and I need some help. I think that I can turn to the cities and towns served by this line for a reasonable amount of assistance. The Northern Michigan investment has been a most profitable one, as is shown by a statement of prospective profits compiled directly from an average of three seasons as shown by the books of the Northern Michigan Transportation Company. Here is an opportunity for the merchants in the cities served to help themselves in two ways.

FIRST, by assuring good steamship service; and SECOND, by making a reasonable investment in a steamship line, which always has brought handsome returns and with the favorable outlook will do even better in the future years.

"Can I call upon you to give this plan as much publicity as you consistently can through the columns of your valuable paper. I propose to keep before the people of your section the fact that this steamboat line will give service early and maintain it until late in the fall, as well as giving exceptional service during the summer months. I believe we are entitled to a preference over other lines which operate only in July and August." Sincerely yours, Geo. E. Johnson.

Papyrus Still Grows.

When Egypt was overrun with warlike races, there was little interest in literature, and the papyrus plant that grew beside the Nile died out for lack of cultivation. It is still found, however, in marshy ground bordering rivers in Syria, Sicily and other places.

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. *That's because P. A. has the quality!*

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Toppy red bags, tidy red tins, handsome pound and half pound tin humidors—and —that clever, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

DOGS OR SHEEP, WHICH?

By a Subscriber

Having read many articles in the Michigan Farmer and other papers, I would like to express my views on the dog question. There is no question in my mind that a dog will be a great help to a farmer if rightly handled. If he is not trained and handled rightly and taught to mind, he is a curse to his owner and the whole community. The dog owner should know where his dog is at all times. The writer has a good young dog and when there is none of the family with him he is on the end of a chain.

I have been the owner of a small farm since 1890 and have owned a flock of sheep for the past few years and there has been only a few years that we have not had some sheep killed by dogs. In 1914 they got after my flock, which was pasturing on 80 acres of cut over land, fenced with good woven wire fence. The dogs killed nine of the best ones and did more than $200 worth of damage. I was paid $60.00 by the township two years later. The flock never was worth the money after this chasing that they were before.

The dogs that do the most damage are those that are owned by people who do not feed them or know where they are half of the time. Many times dogs from the small towns go out in droves of from two to four, and as high as seven have been seen going to the sheep pastures. It is true that those who are not flock masters have no sympathy for those who are. It has been the case for hundreds of years for the cattleman or the chicken man to stand for the dog and the sportsman. I have heard the remark made that the hound won't chase sheep. There may be exceptions, but the hound does not know a sheep from a deer and will run among them and they are frightened and many times run themselves to death.

Get the worthless curs out of the country. If a dog is found without an owner, let him be taken to the pound and tax every dog not less than five dollars. If he is not worth that, he has no business on a farm or anywhere else. The farmer must pay the taxes and some of it might just as well be for dogs as any other stock. This method would hit some ladies who go around the streets leading a pup tied to a chain, who ought to be caring for a two year old boy or girl.

It looks as though the sheep man is not dealt with fairly. He has no protection whatever. If the price of wool for 1919 is less than fifty cents a pound it will mean the slaughter of many sheep. The wheat grower has a fixed price on his wheat. He is sure of a profit. The wool grower has no assurance whatever for his crop, and according to the press, the government has several millions of pounds to throw on the market. This will give the buyer a chance for graft and the sheep man must suffer or hold his wool until 1922 and possibly longer. This country should be an exporting country of wool and would be if the wool grower was assured a living profit.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head, soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid!

Baptist Church

Preaching at 10:30. Sunday school at 11:45. B. Y. P. U. at 6 p. m. Preaching at 7. Prayermeeting Thursday night at 7. The roll call and get together meeting was held the 19th. All present pronounced it a success. After a bountiful dinner, a business meeting of the church was held. As soon as possible all just claims against the church will be adjusted. It was decided in the future everything shall be done on a strictly business basis. In the evening after another bountiful repast, the Pastor gave an address on the subject "Introduction to the Study of the Bible." After this another hour was spent in a social time. Some visiting while the young people engaged in social games. We are pleased to learn that so many of the good people of Charlevoix are becoming interested in our church, and are sure others will when they begin to realize that we are here to assist in the uplift of town and community. Because of the hearty co-operation of the community thus far the church is greatly encouraged. All who do not go elsewhere are cordially invited to come and worship with us.

New Dyak Fashions.

Dyak is a word which conveys to most folk the idea of a people whose tribal pastime consists in cutting off the heads of their neighbors and preserving the dried skulls as ornaments for their homes. When the first missionaries went to Borneo, where the Dyaks live, they were fortunate if they kept their heads on their shoulders. Today the Dyaks have ceased head hunting, have given themselves to farming and have taken on clothes and other evidences of civilization. Instead of news coming once a month, as it did when missionaries first went to Borneo, it is now received by wireless.

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

Some time ago the United States government compiled the figures by counties and reported 2,000 persons in Grand Traverse county who had not completed their citizenship papers by taking out full naturalization papers. This means that eight of each one hundred persons in that county are aliens. The invitation is extended to all these aliens to join the American government. And it is suggested for those who wish information and advice that public meetings be called where some person may explain the principles of the goverament. This, it is stated, should be done on such days as election day, Decoration day, Flag day and the Fourth of July.

Both the republican and democratis platforms endorse prohibition in Michigan and denounce the "beer and wine" amendment.

The deliberations of the peace delegation in Paris remind one of the biblical account of the applications of Levi, who, when told by the Lord he could have anything he wanted, but only on condition that his adversary could have twice as much, cried: "Put out one of my eyes, Lord."

There is some opposition to the "Good Roads" amendment through the belief that it is voting a $50,000,000 bond issue on the state. It is nothing of the snrt. It simply authorizes the state authorities to issue, as they may be needed, from time to time, bonds not to exceed that amount in the aggregate. There is nothing mandatory about it. Remember that for every dollar the state puts in the federal government nnd the townships will esch puts in another dollar. The amendment is simply an empowering measure.

Three cases of sleeping sickness were discovered at Muskegon Heights last week in the family of Joseph A. Lacourae, the father, mother and son being the victims. The son is n crane operator in a foundry. He failed to appear at work and the welfare superintendent went to the house. The neighbors said there had been no stir about the place and the house was broken into. The mother and son were in their beds under the spell of the unnatural sleep and the father was sitting up in bed but under the same deathlike influence.

One marriage out of every nine terminates in divorce, and while marriage in proportion to the population is steadily increasing, divorce is increasing more rapidly, according to a report on marriage and divorce issued by the bureau of census. Nevada holds the highest place in the percentage colmun with a record of 607 divorces per 100,000 population. New York is the lowest. In approximately sixty-nine per cent of the cases divorces were granted to women. Marriage figures show Montana leading with 170 per ten thousand. Oregon is last with 65 nut of similar numbers.

General Leonard Wood, speaking in the Hotel LaSalle, Chicago, declared that prohibition measures in connection with the army were "God's own blessing," stating that eighty per cent of the vice was on the heels of rum. "If the war did nothing else than give use a dry country it was worth a dozen times what it cost," he said. He attributed the good condition of the returning men to prohibition, moral and physicel decency and military training.

Word has been expected almost daily that Charlevoix's county agent would arrive, says the Boyne Citizen. Negotiations have been interchanged between our County Farm Bureau and experienced men in farm organization and county agent work and it is anticipated that before very long a county agent will be on the job to outline a program of work for the coming year. It is essential that the work be commenced as early as possible because of the vast amount of organization work that is necessary to be done in our county to properly organize the farm bureau in the various townships.

Petitions have been circulated and freely signed in Petoskey protesting against the Watkins bill recently introduced in the senate by Senator Watkins, of Crand Rapids. This bill proposes to take the game, fish and forest fire department away from the public domain commission and put in control of a new inexperieneed commission to be appointed by the governor. Many persons interested in the welfare of the game snd fish of the state are making violent objections to the proposed act, believing that this department, under the supervision of the public domain commission, is well and effieiently managed, and further stating that the proposed new commission might undo the present satisfactory work of the department. The game, fish and forest fire department was plaeed under the public domain commission in 1915, and since that time has made notable progress in the propagation of game and fish, greatly to the pleasure and approval of interested sportsmen. It is the belief of several well-posted hunters and fishermen, that the bill is a move backed by parties whose intent, should the bill pass, is to close all hunting and fishing for a term of years. Charlevoix and Charlevoix county sportsmen appear to be of the opinion that proper supervision and further propagation is to be preferred to a tight closed season.

Engineer Meads of the G. R. & I. force at Elmira, fell off an engine there Tuesday of last week, while coaling at the yard and broken one of his legs. He was taken to Petoskey hospital.

PREPARING THE NEW VOTERS

The Brooklyn Eagle: Do you realize that the "new voters" the men who will swing the next election, were only 13 years of age when the Democrats took control of the government eight years ago? That is a rather drsmatic fact. What has occurred to attract their political allegiance to one party or another? To what extent has heredity, environment training, education, study, reflection, affected them? What will their alignment he? Which of the parties offers the most to the young man? Which has the best record of achievement? Which stimulates the imagination? Which has tried the hardest to insure a high place for this country among the nations of the earth? Which has produced the most unselfish men? Which best answers the longings of the hrain and satisfies the hunger of the heart? Which offers most to youth? What a study! What a responsibilty for those whose duty it is to teach—a responsibility that all forward looking men must anproach in a spirit of consecration.

IT'S A GREAT GAME

A newspaper publisher has to do a great many things in his calling that are personally disagreeable to him. To do his paper justice he at times sacrifices friendships that are priceless. He is forced to forget himself as an individual and recognize himself as a part of the machine. He goes after stuff that does not interest him personally a bit, but he does it as a duty. Sometimes he is met by a haughty grandee who wants to know what business of his it is if he does so and so, and the editor is given the insult direct. But he doesn't pay any attention to insults. If he did he wouldn't last a day. In a city these insults are borne as a business policy—but not forgotten.

THE NEAR-FLIVVER

We have many misgivings about this new car that Henry Ford says he is going to make and sell for $250. The present Ford car, many critics maintain, is not an automobile. The new car, according to Mr. Ford's description is not even going to he a flivver. Everybody is to have one. And how they will clutter up the roads!

And what sarcasm will be poured out on them hy the flivver aristocrats driving real Fords!

The organized workmen of Germany now waive their demand, so noisly made n little while ago, for the punishment of William Hohenzollern, Marshall Hindenburg and General Ludendorff, and are quite willing to have those arch-criminals go unhanged. Yes; and they would all yell "Hoch! der Kaiser" and welcome the Blond Beast back to his throne, if they were assured that he would he able to renew and to win the war.

President Wilson and his partisans keep repeating that if the United States does not go into the Cecil-Wilson league, Europe will collapse. This suggests a good advertisement for the combination: Take stock in the great world corporation. If you don't put your money in, it will bust tomorrow.

"For my thoughts are not your thoughts, neither are your ways my ways.* * * For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts higher than your thoughts." Sounds like an extract from the New York speech, but it isn't.

The delay is of course all due to the bad boys who didn't do all the master told them to on Friday afternoon and not on the teacher who refuses to ring the bell for school to begin again on Monday morning.

The Literary Digest, including its public school readings and its screen service, is rather indigestible for plain Americans who are not fond of hidden propaganda.

When the barons wrung the Magna Charter from King John at Runnymeade, the court party denounced them roundly for conducting a senatorial filibuster.

Secretary Baker is having a history of the war written. Bet it will be one of the best bits of fiction produced since Laura Jean Libby quit writing.

George Washington and his farewell address are of course out of date, but not near so much so as Moses and his Ten Commandments.

Henry Ford is so confident the millenium is at hand that he says he is getting ready to beat Eagle heats into flivvers.

Speaking of the Democratic party, if Thomas Jefferson and Grover Cleveland could only see it now!

President Wilson's one man filibuster against the convening of Congress still continues successfully.

Having put the "con" in economy, the administration is now trying to "con" the constitution.

THINGS WORTH KNOWING

There's going to be a lot of war talk and never-ending stores to tell when our fighting boys return. They will he chock-full of tales that will stir your blood and arouse your everlasting admiration. The most sensational war in the world's history has furnished material for stories that will startle the non-combatant universe. Seventy-mile cannon, fighting airplanes, poison gas and a hundred and one other hertofore unheard of methods of making war will be talked of for many years to come. And when you're sitting around listening to tales of great battles, and of military movements achieved by inconceiveable ingenuity and generalship, here are a few facts you'll find worth knowing—they'll help you understand what's being talked about.

An army corps is 60,000 men.
An infantry division is 19,000 men.
An infantry hrigade is 7,000 men.
A regiment of infantry is 3,000 men.
A battalion is 1,000 men.
A company is 250 men.
A platoon is 60 men.
A corporal's squad is 8 men.
A field battery has 195 men.
A firing squad is 20 men.
A supply train has 283 men.
A machine gun battalion has 296 men.
An engineer s regiment has 1,098 men.
An ambulance company has 66 men.
A field hospital has 55 men.
A medicine attachment has 13 men.
A major-general heads the field army and also each army corps.
A brigadier general heads each infantry brigade.
A colonel heads each regiment.
A lieutenant-colonel is next in rank below colonel.
A major heads a battalion.
A captain heads a company.
A lieutenant heads a platoon.
A sergeant is next below a lieutenant.
A corporal is a squad officer.

What an Exporter Must Know.

A needle factory had sent to Aleppo, Turkey, needles that were tied up with green twine. The Mahometan merchant who had ordered them returned the package, for the reason that the use of the green, the color consecrated to the prophet, for such a purpose was a derision of religion. Another consignment of the same factory to China wrapped up in white paper was returned because the Chinese recipient would not accept goods packed in "paper of mourning." White is the mourning color of the Chinese.

CLOSING GAME IN BASKET BALL

WON AT RINK FRIDAY BY SCORE 58-35

Team Left Thursday for Lansing—Boys Extend Thanks for Support Given

The basket ball season at home was wound up last Friday night when the home team defeated Bellaire, 58-35. The score was the biggest of any game we have played, and shows the effect of loose guarding and greater offensive on both sides.

The ball was fed to Cartier under the basket and he made 11 field goals, closely followed by "Fish" Halverson and Wexstaff, who made 8 field goals apiece. The rest of the score was made by Wexstaff's four free throws out of seven.

Wednesday night, the high school defested the Army and Navy by a decisive score, 29-12. The returned soldiers and sailors were not in form at all, and the school romped away with them the first half, shooting baskets at will. The second half was more even, the scores by halves being 17-2, and 12-10.

Except for the games played in Lansing the last of this week, the basketball season is ended. Our regular schedule is finished, and we are on the long end, 6-3, having won two thirds of our games. Following is a complete resume of the season:

Charlevoix	36	Petoskey	40
"	16	Harbor Springs	12
"	48	Central Lake	16
"	18	Petoskey	34
"	19	Bellaire	21
"	24	Harbor Springs	16
"	30	Central Lake	15
"	29	Army and Navy	12
"	58	Bellaire	35
"	278	Opponents	201

Thursday morning the team leaves for Lansing, where we play Greenville at 2:50 Friday afternoon. If we win from Greenville, we phy East Tawas at 7:30 the same afternoon, as East Tawas drew a bye in the first round. If we win both these games, we play the winner of these three, Petoskey, Clarksburg and Alpena, at 8:30 Saturday morning, as Petoskey and Clarksburg play in the first round, and the winner plays Alpena, which drew a hye in the first. On account of the number of entries, the rules have been changed so that a team has to win its first two games in order to play in the consolation. If we win in the first two rounds, no matter whether we lose the third or not, we can play the losers, in the other brackets.

The team wishes to thank the town people for the support they have given them. The Army and Navy game brought in $22.00. The supper was one of the biggest successes ever and brought in $90. The Bellaire game brought in $30. These amounts are approximate, as some of the tickets for the game were sold at the church and the money turned in with the supper money, but these estimates are nearly correct. Of this money, the expenses were almost nothing except for the Bellaire team, which was $20.51. It is estimated that the Lansing trip will cost $160, so the amount raised is still short, but it will not be raised until after the team comes back. To the spirit of the high school, the support of the faculty and the townspeople, and especially to Mrs. Shores and Mrs. Saunders, Mrs. Mason, Mrs. Weaver and Mrs. Auld. The list of people who gave their time and enthusiasm to this is so great that we cannot go on with the list for lack of space.

Mass of Materials in Nest.

Study a completely finished oriole's nest. What a mass of tangled filaments, strings, grasses, fibers! I have often wondered which was the first string that was put on, how was it put on, and what came next in the order of building, says Edward F. Bigelow, in Boys' Life.

SCHOOL NOTES

The opening gun of the campaign for good English was fired Friday afternoon when the play, "The Magic Voice" was presented to the High School, by a cast of players from the Junior High School and the High school proper. Earl Coulter, as Professur Good English and Richard Saltonstall, as Poor Speech, were the stars of a cast which was composed entirely of very good actors. The play presented the ideal of those advocating a pure language, an America educated, an America capable of making use of her many opportunities which are now neglected due to this lack. The play ends with Poor Speech being arrested by Uncle Sam and sent to Camp Ignorance, taking with him Webster's unabridged dictionary for companion.

* * * * *

Cartoons for the Good English campaign were made by the art class, and one now hangs in each class room. Some of them were remarkably good, notably those made by Vivian Ball and Beulah Schweitzer.

* * * * *

The feature this week in Art class will be features.

* * * * *

Under-wood is not as good as Through-the-window. Typewriters have changed. Ask Emma.

* * * * *

Geometry class is now calculating routes and distances for spiders. We hope they appreciate it.

* * * * *

The Latin class is still studying Latin.

For the benefit of those people who do not know why we are sending the basket ball team to Lansing, and why we sent them to Michigan two years ago, it should be explained that the basket ball part of it is the least important. The majority of high school students have no idea what a college is like. They think of it as some inaccessible place where only "highbrows" go, or they think of it as some little place of une building and a professor. Whichever extreme they go to, hardly one of them has any real idea of what it is like. That is why we send our representatives from our school to get the "college fever" in their blood and come back and work and influence others to work for a higher education that will mean in later years money in their pockets, and a fuller enjoyment of living. We who believe in education for all, believe in influencing everyone, in every way we can, to take advantage of their opportunities to go to any one of the colleges of this state, tuition free, and incidentally we have three of the best state colleges, to say nothing of denominational colleges, of any state in the Union. We refer to University of Michigan, Michigan Agricultural College and Michigan College of Mines.

* * * * *

It pays to be talked about the way Bellaire is talking about us. They appreciated our yell for their injured player, our attitude all through the game, our treatment of them before and after. And that is what counts, even more than the result of the game. We have a clean team, and a clean bunch of rooters, and we, no less than other teams, appreciate it.

Shrines to Foxes.

There are numberless shrines in Japan dedicated to foxes. The badger is another animal feared by the superstitious Japanese mind. It is believed to have power to annoy people, and to be able to turn into a priest at will. The crying of weasles and the baying of dogs are considered evil omens, and such insignificant happenings send a shudder through the believers.

WILL SPEAK ON LIQUOR QUESTION

Rally Meating at Burgess School House Sunday

Ex-Prosecuting Attorney Roille L. Lewis will speak at the Burgess school house, in Hayes township, Sunday afternoon at 2:30 standard time, on the liquor question, covering all points of the wet and dry amendment to be voted on at the election on April 7.

Beside the talk of Mr. Lewis, those in charge of the meeting have prepared a program to be given by students of the school, besides music. The object of the meeting is to bring the voters of Hayes township, both male and female, to a full understanding of the proposed liquor amendment. A good crowd is anticipated.

Election Day Dinner

The Ladies Auxiliary of Marion Center granga will serve a warm dinner at the grange hall on election day, April 7. Every lady in the townchip is earnestly invited to make the grange hall their headquarters during the day, whether they are members of the grange and eat their dinner at the hall. The object of the ladies is to make the grange hall a meeting place for the women of the township. Those who need instructions before voting will be looked after, the real object being to have a place where the women can congregate, visit and spend the day while the men folks are nt the town hall.

J. Leahy, the optometrist, will be here again Monday, April 7. 13t2

WON A HARD-FOUGHT GAME

ELLSWORTH SCHOOL BASKET BALL TEAM ARE FIGHTERS

Ten Minutes of Overplay Raquired to Decide Game—Scora 15 to 13

The Ellsworth school basket ball team were the winners over Central Lake at Boss hall last Friday night in the closest and hardest fought game either team has indulged in this year.

The visitors started with a rush in the first half, securing two field baskets in the first five minutes of play and appeared to have a walk-away due to superior team work and at the end of the half led with n count of 8-4.

The Ellsworth boys took a brace in the second half and by stubborn fighting and really elever work in spots came from hehind and tied the score at 13-13 in the last two minutes of play. Ten minutes of over-time were needed to decide the game, the home boys winning with a field basket thrown by Griffen which put them on the long end of a 15-13 score. The date of the next game has not been decided.

The Ellsworth team composed of Sinclair, center, Griffen and Elzinga, forwards and Beuker and Hillman, guards, have the endurance, nerve and natural ability of champions and only lack more practice and a little coaching to make them equal or superior to any team of their weight in this part of the country.

A girls game with the high school and independents opposing, was also staged on the same floor the same evening, the Independents winning 9-5 in regulation time. The girls are trying to secure a game with an outside team for the near future.

ATWOOD

Herman Pol sold two beeves to Albert Sneller a short time ago.

A. Bos & San butchered a beef last week and six hogs this week.

Frank Mason and Mr. McDonald have been cutting some block wood for Gerrit Essenberg.

Wm. Brown has nearly finished moving his belongings to the farm he has rented in Norwood.

Ada Cooper spent a few days visiting at the H. Klooster home, returning home this week.

Rev. Pickart will occupy the pulpit at a church in Montagne next Sunday. He left Thursday for that place.

John Petter had his buzz wood cut last week and they have also finished cutting their block wood. Nearly a hundred cords in all.

A party of young folks from here attended the entertainment given by the Kalamazoo College glee club at Central Lake last Saturday evening

Ben Sneller and family and Will Vollink left for southern Michigan Saturday. Mr. and Mrs. Sneller expect to remain a few weeks and will return to Atwood for the coming summer.

During his reeent visit with Calvin Supernaw at Ellsworth, Ed. Powers from Harbor Springs made a trip to Frank Supernaw's farm and purchased a Jersey heifer, which he shipped to Harbor Springs by express.

J. T. Odbert returned to Atwood last Thursday after an extended visit through Michigan and Illinois. He was sick about six week in Chicago and says it seems good to get back to northern Michigan again. Mrs Odbert will return here in about two weeks.

A number of the members of the Banks Marketing Association attended a meeting held last Friday in the Blue hall at Ellsworth. Next week another meeting will be held to decide on buying or building a new warehouse. Every member should make it a point to attend and take part in the movement.

Word has been received that Laverne Harwood has returned to the states and is recuperating in a New York hospital, having a fractured ankle. The last heard from Henry Petter he was at Bordeaux waiting to sail. Sam VanHouten wrote last week that he had been in Bordeaux a long time and had not worked since the first of December. Simos Bos is still at Conflaus, Frnnce. They all are anxiously awaiting the time they will be back in good old Michigan.

Considerable activity in real estate in this section of late. We list a few of the transactions that have taken place recently: Walter DeGoot purchased the farm known as the old Lewis Ray farm, one and one-half miles south of Atwood. John Berens and Paul DeVries purchased forty acres of Wm. Adema, part of the old Randall farm. James Heeres and Peter Visser are negotiating a trade, which if it goes through, will result in Mr. Heeres occupying the farm now owned by Mr. Visser. S. Bystra is trying to buy out Wm. Adema. The deal had not been made on Saturday of last week. Adrian Bos has also offered his place for sale, but has not made a deal as yet.

Get the Habit of Drinking Hot Water Before Breakfast

Saya we can't look or feel right with tha system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an laside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, billous attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

REV. C. W. HEWITT HOME FROM SOUTH

Undecided at Present at to Where Ha Will Locate

Rev. C. W. Hewitt, together with Mrs. Hewitt and daughter, Muriel, arrived on Thuraday of last week and are occupying their house here at present. Dr. Hewitt is somewhat disappointed at the turn affairs have taken as he supposed when he left St. Augustine, Fla., that he was ta continue his work, which owing to Mrs. Hewitt's health he was forced to abandon temporarily last fall. Just before they left for the north he was offered a charge at Hastings, Florida, which, owing to the plans made for his work here, be was obliged to reject.

He was not made aware of the change here until he received a letter at Detroit. Never-the-less, in spite of his own disappointment he hopes and trusts that the people here as well as at Atwood and Norwood will give his successor the same loyal support tendered to himself. Dr. Hewitt's plans for the future are somewhat hazy at present. He has an offer of $100 per week with expenses paid to travel in evangelistic and Chautauqua work and if he accepts will probably reside in Ellsworth summers with Tampa, Florida as a winter home.

The Hewitts brought back several curios from the southland, two baby alligators and a chameleon being among the lot, while a choice collection of sea shells from the floor of the Atlantic ocean make a very interesting exhibit.

CORN CULTIVATION.

Tilling the Land With Reference to Conserving Heat and Moisture.

[Prepared by United States department of agriculture.]

The cultivation of corn should be practiced only when certain objects will be accomplished and when the benefit of the total effects of cultivation will outweigh their injuriousness. Some beneficial effects are (1) preventing weeds from robbing the corn of soil moisture and fertility; (2) putting the surface in condition to take in rainfall, thus preventing run off and erosion—losses of water and soil fertility; (3) warming the soil by drying its surface quickly, and (4) saving moisture by checking its capillary rise to the soil surface.

Some injurious effects are (1) breaking corn roots, which otherwise would use some of the moisture of light showers before it evaporates, and (2) forming large clods and holes, thus permitting dry air to enter and dry the soil.

CULTIVATING CORN WITH A FOUR HORSE TEAM.

In droughty regions corn cultivation is more essential and requires more good judgment than in most other sections.

The primary object of cultivation is to prevent loss of moisture. Moisture losses are caused by run off, evaporation and, most of all, weed growth. The one most important object of corn cultivation is the keeping out of weeds. It takes but little stirring of the soil to kill weeds immediately after they germinate and before they have used much soil moisture, but to destroy weeds that are well rooted the soil must be worked deeply and thoroughly. This requires much labor and cannot be accomplished without breaking and destroying many corn roots. In many sections or in seasons when the seed germinates slowly it is advisable to harrow once or twice or to cultivate after planting before the corn comes up.

Aside from destroying weeds, timely cultivation is beneficial in preventing the loss of moisture by evaporation and also in hastening the warming of the soil. The loss of soil moisture by evaporation continues much longer from a compact, damp surface than from a loose, dry surface, and the evaporation tends to keep the soil cold.

In northern localities and at high altitudes the conservation of heat is frequently as important as the conservation of moisture. Luckily both heat and moisture may be conserved by good timely cultivation. Heat is wasted in evaporating or wasting soil moisture. Making the surface loose and dry saves both soil heat and soil moisture.

Cultivating after heavy rains is a good practice. To be most effective the cultivating should be done as soon as the surface is dry enough to work well. If the soil is allowed to dry until it breaks up cloddy much moisture will be lost, a good mulch cannot be obtained and harm is more likely to be done to the corn roots. As long as rapid evaporation is taking place the surface will remain cold and the growth of the corn will be slow.

The number of cultivations necessary and the best time for them depend upon weather and soil conditions. Weeds should not be allowed to grow; a mellow surface should be maintained. In some seasons this may be effectually accomplished with one or two cultivations; in other seasons four to six cultivations may be necessary.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Cedar Trees Rust Apples.

There are still apple people who refuse to believe that the apple rust is a disease caught by apple trees from red cedar trees, says a writer in the Farm and Fireside. There is no doubt about the matter, however. The source of the infection has been conclusively shown time and time again.

People planting orchards in regions where there are red cedars should study immune and resistant varieties. The Winesap, Stayman's Winesap, Arkansas Black, Grimes' Golden, Baldwin and Fameuse are among the excellent varieties which are either immune or resistant wherever the facts have been observed. Yellow Transparent is a good resistant summer apple. Wealthy is everywhere very susceptible.

Bull Associations.

Bull associations reduce the cost of the services of a pure bred bull for the dairy herd. The average annual cost of service in a large number of associations investigated by the United States department of agriculture was $3.48 for each member.

Feed For Chicks.

For the first three days chicks may be fed a mixture of equal parts hard boiled eggs and stale bread or stale bread soaked in milk. When bread and milk are used care should be exercised to squeeze all milk out of the bread. From the third or fourth day until the chicks can eat wheat and cracked corn commercial chick feed is a good ration.—Kansas Farmer.

Derivation of Word "Prophet."

The Hebrew word for prophet is derived from a verb signifying "to bubble forth" like a fountain.

SCHOOL COMMISSIONER'S NOTES

Word comes from the state committee that the normals have this year 1000 less graduates.

Of the 25 requests for teachers received from school directors of the county only three offer less than $60 per month. All have asked for experienced teachers. So far only three teachers have applied to the office for positions but the commissioner hopes inside of ten days to recommend someone at least for each school desiring a change. And yet the supply is not equal to the demand. What is the solution?

The Health Crusade has been started in the Robinson, Johnson, Bay Shore, and Phelps school.

With the schools: Rock Elm is feeling happy over the new sanitary provisions of building, fumigating, sweeping compound, and plans for standardization in May. Evangeline Township has no eighth grade, and the two schools have no classes in common. In order to still be in the game, they are planning an oratorical contest of the township to be held in May when Wildwood school is ready for Standard plate. The teachers will have educational hall social in April. The Johnson and Marion Center schools held joint educational hall social and turned money into the People's bank in East Jordan for county fund. Boyne Valley township have not as a whole raised any educational fund, but two schools, the Cramer and Boyne Falls have a joint fund, which will be deposited to their credit in county fund. Undine school, under Miss Kerry, raised $17.50 toward new drinking fountain. This is another school coming in the May standard school class, and will make a fine soldier memorial building.

Boyne Falls is surely busy. Two informal meetings of the district have been held and plans are well under way. On Tuesday, March 25, a special meeting of the district has been called by the board of education to vote on the question of bonding the district for new school building, to establish site for same, to elect a building committee, and to vote on consolidation with such outlying districts as may later wish to join with them. At a previous meeting the commissioner met with them to explain the difference between consolidation and township unit and to show legal proceedings in both cases.

Letters from High Island indicate that the school was closed for two months with almost all the Israelite House ill, and with the teacher unable to teach for even a third month. There are but few Indians on the Island this year but the influenza seems to have used all alike, and the history of the Magic isle does not seem to have protected them.

Must Have Regular Meals.

It is said that the native in India is extremely particular about regularity in his meals: once accustomed to eating at a certain hour he must stick to it at all costs. An English engineer had an awkward experience of this when erecting a 100-foot steel pole with the aid of about thirty natives and the minimum of tackle. The pole was halfway up when the "headman" intimated that it was dinner time. Only the most desperate entreaties, coupled with threats, prevented the men letting the pole come down with a run, though it had taken several hours to get it into this position.

Popular Japanese Flowers.

Ten of the most popular flowers in Japan are: Apricot, cherry, chrysanthemum, iris, lily, morning glory, peony, plum, quince and the ever-present wisteria.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the musky mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides gradually darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Let Them Call It What They May It's Right Name Is—Saloon

COUNTLESS ATTEMPTS have been made in this and in other states to fool the people into voting for acts and amendments that will bring back the saloon with all its attendant evils and dangers.

THE USUAL PROCEDURE is to give such legislation harmless sounding titles but, by a tricky use of words—a camouflage of language—slip a joker into the text that will give it, when enacted, the opposite power and effect to that which appears in the title.

A MORE VICIOUS use—or rather abuse—of the intentions of voters cannot be imagined—but what can you expect from a business founded as was the saloon on the weakness and cupidity of the weaker members of the race?

RIGHT NOW IN MICHIGAN a last desperate attempt is being made to do just that sort of thing.

UNDER A TITLE that sounds like one thing, an amendment that means just the opposite, is up for your decision.

IT IS CALLED the "Beer and Wine" amendment. When the "Wets" speak of it they use the term "Light wines, etc.," but as a matter of fact the word "light" does not appear in title or text—and a heavier weapon was never used by the advocates of a befuddled world!

FOR IF YOU WILL READ this latest attempt to nullify Michigan's best piece of legislation—the "Dry" act—you will find that it means just this—bringing back the Saloon in its worst form and with its most harmful accessories.

CALL IT WHAT THEY MAY—word it as they may, to conceal its true intent—this "Beer and Wine" amendment's right name is "The Saloon Amendment."

DON'T BE DECEIVED by the wheedling of those who have always advised only for their own profit—and your loss.

READ CAREFULLY, weigh every word; and make up your own mind what the saloon interests are trying to get you to do.

JUST AS AN EXAMPLE of the difference between what they say about it and what they say in it:—

THEY ARE SOLICITIOUS—Oh so feelingly solicitous!—lest the poor farmer be denied the privilege of making cider from his own apples. That would be a great hardship you will agree. They weep real tears over his predicament.

VERY WELL—Read that amendment and you will find cunningly concealed in verbiage, yet clearly stated, that if that "Beer and Wine" amendment were passed the farmer could neither make nor sell cider *without first taking out a license*—same as a saloon or a brewery.

CAN YOU BEAT THAT for double dealing? Yet they fondly hope that enough Michigan voters will be fooled by the title and by their propaganda to vote for this thing that would put the saloon back even stronger than it was.

"OH, WINES ARE HARMLESS" they say. Verily! Wine is the standby of the "Side Door" and the Cabaret. And the Cabaret and the "family entrance" are the most vicious phases of the Saloon—they ruin women as well as men and degrade both.

WHY, SOME FOREIGN WINES have almost as great an alcoholic content as the strongest whiskey—and create a worse form of intoxication.

"AND BEER" they used to tell us—"why in Germany even the children drink beer. Beer drinking is universal there."

WELL, WE HAVE SEEN what Beer will do when universally used! Was ever a people more degraded—more brutalized—more deadened to the difference between right and wrong?

MAKE THE BRAIN SODDEN—render it, by constant soaking in beer, only half active—and you have a being more akin to a brute than a man. Tractable? Yes—but never dependable.

NO—WE NO LONGER hold a beer soaked people up as examples of—anything.

AMERICAN GENERALS found that men who went over the top sober were better able to do their part and take care of themselves—especially if wounded—than were soldiers who had grog served to them to lend an artificial, momentary courage.

THEY EVEN TRY—the Saloon propagandists—to make you think our soldier boys resent the abolition of the saloon—

WHAT AN INSULT to those brave boys and to your intelligence.

AS IF EVERY AMERICAN SOLDIER were a toper so addicted to his booze that, like a dope fiend he would fight if deprived of it.

THAT'S THE VERIEST ROT of course. They know it is—else why do they not dare say just what this "Beer and Wine" Amendment really means?

WHY DO THEY TRY TO HIDE its real intent under an innocent sounding title and hide its meaning again by a tricky use of words. Why?

BECAUSE THEY KNOW that the people who voted Michigan dry still want it dry. And they know too that the votes of the men will now be supported and augmented by the votes of Michigan women—and they know what that vote will say.

THEIR ONLY CHANCE to get the saloon back is to make you think they want something else. For they know you want no more of the saloon.

IT IS THEIR LAST forlorn hope—their last dying kick. The saloon is gone never to return. **The longer we are without it the less we miss it—the less does anyone want it back.**

THEY'D LIKE TO DRIVE a wedge in the Federal act by getting this amendment through in Michigan. That is the big significance of this attempt—that is why so much outside money is being spent in propaganda here.

TRUTH TO TELL there isn't much Michigan money being spent—Michigan breweries and Saloonists look upon it as a dead issue. They are making other plans and are not sending more good money after bad.

BUT OUTSIDERS are still frantically trying to get Michigan back in the wet column so as to prevent nation-wide prohibition and the utter dismantling of every brewery and distillery in this country.

FOR THAT KIND OF PROHIBITION does prohibit—no more chance for disgraceful scenes like that recently between Toledo and Detroit.

THEY HAVE EVEN TRIED to make this appear a religious issue—their propaganda says some denominations are against a dry state.

IT'S NOTHING OF THE KIND—a few men of all denominations favor a Wet condition. But the vast majority of all religious denominations are for a dry state and a dry nation.

THIS ISN'T A MATTER of religion, of sect; of nationality. It is just a matter of decency and sanity and good citizenship as against cowardism.

WATCH THIS THING—it is counterfeit. It does not mean what it says. Its title is a misnomer. Its intent is vicious. It dresses in the guise of liberty—"personal liberty"—its effect would be to enslave again.

IT IS CALLED "THE Beer and Wine Amendment"—its real name, "The Saloon."

DO YOU WANT the saloon back?

IF NOT—vote NO April 7th to the so-called "Beer and Wine" Amendment.

IT PAYS TO READ ADVERTISEMENTS

You've often heard the saying, "It pays to advertise." That is true. And it also pays to read advertisements—pays **you**. If you read advertisements consistently for any length of time you will agree that this statement is also true.

IT PAYS YOU IN MONEY SAVED—There are many real bargains offered from time to time in the advertisements appearing in this paper. Watch for them.

IT PAYS YOU IN SATISFACTION—When a merchant asks you to come to his store he obligates himself to sell you quality goods "as advertised." You have a right to expect satisfaction from what you buy and you get it.

IT PAYS YOU IN TIME SAVED—When you know exactly what you want to buy and where to buy it, you don't have to "look around" and waste time finding it.

Don't YOU want to save money and time? Wouldn't you like to be sure of getting satisfactory service and quality goods every time you go to a store? Then read the advertisements and patronize the stores which can serve you best.

CHARLEVOIX COUNTY POMONA GRANGE

First Meeting of Year Held in I. O. O. F. Hall Saturday

The meeting of Charlevoix County Pomona grange was of more than usual interest, inasmuch as it was the first meeting of the present year, and plans were outlined for a busy season's work among the granges of the county.

Worthy Master E. E. Stroud presided at the meeting, which was opened in the third degree. Two new members were received, Mrs. Willis and Rolla Williams. The following granges were represented: Maple Grove, South Arm, Ironton, Marion and Charlevoix.

After the business session the meeting was turned over to Mrs. A. J. Usher, acting lecturer, and the following program followed:

Opening song, from Grange song book by the Grange.
Address of Welcome—E. B. Ward.
Discussion of good roads by E. E. Stroud, followed by several others.
Song—Bert Olney.
Paper—The Beer and Wine Amendment, What it Means and Why Every Woman Should Vote—Mrs. A. J. Usher.
Reading—Mrs. Bert Fuday.
Closing song by the Grange.

It was decided to hold the next Pomona meeting with Pine Lake Grange the last Thursday in May. A fine potluck supper completed a very pleasant and instructive meeting.

ADVANCE CLOCKS HOUR MARCH 30

DAYLIGHT SAVING PLAN GOES IN AGAIN

Several Towns Now Operating on Central Time—Others Will Catch Up

There are, perhaps, half a dozen towns in Michigan that will not change time when the clocks of the nation are advanced one hour the last Sunday in March. The reason is that while the other towns and cities of the state are now operating on central time the central zone having adopted eastern standard time when the clocks were moved back one hour all over the country last fall.

These Michigan towns to the workers of which the national change in time will mean little include Alpena, Port Huron and Detroit and a few others. Time in the rest of the state will merely "catch up" to time in these cities.

Apparently throughout Michigan the daylight saving plan of advancing the clocks one hour during the summer months is popular, for although objections to the idea have been made in many parts of the country, in only two or three points of this state has opposition developed. In the copper country some opposition to the plan developed, according to the papers, some time ago.

Turned Out a Surprise

The weekly agricultural meeting which is held every Wednesday night for the benefit of the Loeb farm people turned into a surprise for Mr. Otto, the occasion being his birthday. Those that attended the meeting had planned the surprise and all enjoyed a social time after which they served refreshments.

INTERESTING LETTERS FROM SOLOIER BOYS

From Forrest Wallace

Tours, France,
March 2, 1919.

"Dear Mother and all—Thought I would drop you a line to let you know that I am well and hope my letter finds you all the same. I also hope everyone is well and getting along good. We are having a little rain again today, but it is nice and warm, very similar to the weather we have in Charlevoix during the month of May.

"I received little Mildred's letter and picture. I answered her letter and hope you folks received it all right. She is sure a swell looking baby and I certainly would like to see her. I do not think it will be very long until I see her and the rest of you folks, as I will probably be in the states by May, if not before.

"General Pershing will be here tomorrow to look us over at this camp. I have seen him before in his auto, and he looks just like the pictures you have seen of him. I saw him once up at the front, saluted him, and he returned it all right. I have also seen Marshall Foch and many others. While we were up at the front I saw an American lady who had married a Frenchman. Her home was formerly in Boston and he is a French general. They are very wealthy and she has spent a fortnue in placing hospitals up near the front lines. She also owns several buildings located in a little town we were in at one time. While there she fixed up one of the houses she owned for a club room and on Sunday afternoon she quite frequently met us there and told us of the German invasion, how they mistreated the women and children and of the many escapes she had in evading them. At one time she and her husband were in Russia and very narrowly escaped being captured and made prisoners by the Germans.

"Well mother, will close for this time. Expect a letter from you every day, so do not fail to write as often as you can. With love to all, I remain, your loving son, Chauf. Forrest L. Wallace, 416 Tel. Bn., Co. D., S. C., A. E. F., A. P. O. 717.

From Sergeant Robert Jones

Horhausen, Germany,
February 12, 1919.

"Dear Folks at Home—How are you feeling these fine days. Am in the best of health and hope this finds you the same.

"Received you letter today with the picture, also the bundles of papers and was very glad as we have some time to read now and also to write. Have written to you every day since coming here and do not understand why you do not get my mail. When we were on our hike no mail went out for a month, so that is the reason you did not get my letters then.

"Am glad that Vern was not with me as we have gone through an awful lot. For twenty-one days we only had eight hours sleep and four or five meals. All we done was to work and dodge shells.

"I am trying to get a commission and I will get one if anyone ever did. Am going to take my examination the first of March and by that time I think we will be on our way home.

"You can never realize the horrors of a battlefield unless you have actually seen it. Pieces of men, men with arms or their legs off and some with their heads off and all shot to pieces. They were terrible sights, and am thankful that they are over with.

"We have a school every afternoon and enjoy it fine. We sergeants have a separate mess now and it sure seems good. Have dishes and all we have to do is to sit down and eat.

"Harry Beuker and I just returned from a motorcycle trip. We had a motorcycle with a side car and drove over seventy miles. Must close as taps are blowing and that means lights out. Robert.

"Dear Dad—Am sending you a present. It will make you a good watch fob. Took this off a Boche and got it at Argonne. It is a real iron cross. Am also sending a map of the drive our division made during the war. Please save it as I want to have it framed. We took the town of Fismes on the Chateau-Thierry drive, also crossed the river Vesle. Took one town seven times before we kept it. That was some battle and where we went in first. It is some job to keep up communications, but guess I will tell you about it when I get home. Love, Robert."

Congregational Church

Next Sunday morning the pastor will speak on the theme "Jesus Christ and Sin." In the evening at seven o'clock the fourth of the series on "The Seven Words from the Cross" will be given. There will be special music. The attendance and interest of the evening services have been very gratifying. The Bible school meets at the noon hour. The mid-week meeting is held at the church Thursday evening at 7:30. To any and all of these services the public is cordially invited. The Women's Missionary meeting, which was held at the church last Thursday evening, was a interesting variation from the customary missionary meeting. Mrs. Paddock read and interpreted in splendid fashion the dramatic story, "Two Thousand Miles for a Book." The two-thousand mile journey was undertaken by a little band of Indians from the far north-west across mountain and plain to St. Louis, seeking a copy of the white man's book, the Bible. The singing of a number of Indian songs by Mrs. Livingston and the presence of a band of Camp-Fire girls in full regalia, who also sang, added much to the interest of the occasion.

PROTECT Your TIRES

They cost money these days, more than in many years past, and from present indications there will be little change this season. The up-keep and expense of tires for an automobile is more than any other part of its operation. This fact alone should be taken into consideration at all times.

Let US Rebuild Your Tires

If they are bruised, tore, snagged or ripped from the effect of a bad blow-out, we can repair them and make them almost as good as new. At the least, after we have repaired them, you will be able to get several hundred miles mileage out of them that could not if they were not given proper care. A slight bruise or tear soon results into a serious defect. If repaired at the start, they will give continued service, but if neglected, the water and sand enters and within a short time double the amount of repair work is necessary.

DON'T THROW THEM AWAY

Bring them to us and we will tell you if they are worth repairing. A few dollars spent in repair work may save you many dollars in your tire expense. Don't forget we carry a full assortment of sizes in Goodyear and Kokomo tires. None better on the market and our guarantee stands back of them.

C. H. S. LOSES TO GREENVILLE

FINAL SCORE ENDED IN FAVOR OF OPPONENTS

Played Opposing Team Off Their Feet But Luck Breaks In the Wrong Direction

Charlevoix's crack basket ball team left for Lansing last Thursday to participate in the state meet in which both large and the smaller high schools of the state were entered by classes or divisions.

Our team drew Greenville for its first opponent. This game was one of the best of the meet in this class. The teams lined up as follows:

Charlevoix		Greenville
Halverson	L F	Arntz
Cartier	R F	Livingstone
Wexstaff	C	Slaweon
Hampton	L G	Fisher
Hammet	R. G.	Sherwood

Score at end of first half, Charlevoix 6; Greenville, 9.

Final ecore, Charlevoix 10; Greenville, 11. Baskets from court: Halverson 2, Cartler 1, Wexstaff 1, Hampton 1, Livingstone 3, Swanson, 1, Sherwood 1. Free throws: Arntz, 1 out of 3; Wexstaff 0 out of 2.

The boys report a fine time notwitbstanding the result of the game. Reports from those who witnessed the game are that the boys played their opponents off their feet hut for for some reaeon that no one can account for, the ball would repeatedly roll around the rim of the haske: and then obstinately drop outside. It is simply the break of the luck and the luck happened to be with the other fellow. The director complimented our team on its fine floor work That it was well deserved is shown by the results of the other games. Greenville playing Petoskey and East Tawas off their feet and loeing to Cadillac by a close score.

Now just a little observation of our own. Most games bave a aequel. The fact stands out that aur boys have been compelled to play all of their home games in a wholly inadequate place with no equipment—a beastly cold skating rink with two or three feet of lce and cold water underneath. No shower bathe to follow the workouts—NOTHING.

Had our boys a decent place in which to practice and an opportunity to practice long throws from the center of the floor without shooting over a labyrinth of beams, the result of the games above described would have been different. Charlevoix would be bragging over the championship of Michigan right now.

Let us bave a gymnasium and a good one. Our neighbors all around have good ones with considerable good equipment. Harbor Springs with less than half of the wealth of Charlevoix affords its boys and girls with a spleadid gymaasium. If the people would get behind the school board we have no doubt that it would go ahead at once. We want to emphasize that AT ONCE. Our boys and girls are all we have anyway, aren't they? Every one of them is worth a million dollars or more. It seems that it is only when we have time to get our eyes off a few paltry dollars that we realize this.

One of the good things which came out of this war, if any good can be said to ever come out of a war, was to bring home to us the value of the lives and health and happiness of our boys and girls. To be deprived of them caused more tears and heart aches than the world has ever known. Yet we will neglect the most essential matters for their good, namely the development of their bodies and health. Give them health and strong active bodies and the mind will take care of itself for all essential purposes.

The school district, as we are informed, has reduced its indebtedness for buildings to about $9000 with provision made to still further reduce thia amount soon. The board should take immediate steps to acquire the rest of the property next adjoining the high school grounds on the west and proceed to formulate plans for the erection of a suitable gymnasium.

All hands now, heigho-he.

W. S. STRIPP DIES IN CALIFORNIA

Was Pioneer of Charlevoix—In Lumber and Fruit Business

W. S. Stripp was born in Bowmanville, Ontario, Canada, June 5, 1840. He was married to Rosamond Van-Amberg, August 5, 1874. To this union five children were born, four of whom are still living, W. C. of Vancouver, B. C.; Dr. A. E. of Billings, Montane; F. S. of Spokane, Washington and Mrs. H. C. Kanagy of Long Beach, California.

Mr. Stripp moved with his family to Charlevoix county in January 1882 where he engaged in the lumber business and later in farming and fruit raising. His wife died in 1898, but he continued to make Charlevoix his home until the fall of 1908 when he joined his family in the west.

Last July he passed through two operations at the Portland Surgical hospital, but did not regain his health. He went to California November 1st in hopes that the climate would benefit him, but to no avail. He died March 20 at the home of his daughter. His two sons, Dr. A. E. and Fred were with him during his last days.

NORTHERN AUTO COMPANY GARAGE

WORK STARTED ON FINE 65 x 150 FOOT STRUCTURE

Building Contract Let to Clark & Rogers of East Jordan—Built of Brick and Tile

After a delay of about a year an account of war time conditions and inability to obtain building material, the Northern Auto Company started building operations on a 65 x 150 foot garage on the property purchased last year, just west of the Central Drug store on Clinton street.

The new structure will be one story high and built of tile and brick. Under the north end of the building, facing Clinton, a basement will be dug large enough for the heating plant and storage room for coal. The main entrance will be from Clinton street, with the exit at the rear on the alley.

An office, waiting room and sales room will be placed at the north end of the building on Clinton street, at each side of the driveway. A full line of automobile accessories, oils, tires, etc., will be kept in stock for the convenience of those who are in need of them.

This will be but one of the many up-to-date, modern garages owned by the company, similar structures being conducted at East Jordan, Petoskey, Boyne City, Cheboygan and Gaylord. It will be the home of the Ford automobile, Ford tractor, and any other Ford product that may in the future be placed on the market.

In connection with the garage a complete repair department is contemplated, where the autoist may have his "troubles" looked after.

The building when completed will be a handsome structure and a credit not only to its owners, but to Charlevoix as well.

It is hoped by the company to have the garage completed and ready for occupancy by the middle of May. Prior to occupying their new building, the interests of the company will be looked after in the building occupied during the season of 1918, which will be opened April 15.

SMALL BLAZE CAUSES SLIGHT DAMAGE

Scroggie Home on Dixon Avenue Suffers Small Loss

A considerable amount of damage was caused by fire Wednesday at the bome of William Scroggie Sr., on Petoskey avenue. While at breakfast members of the household smelled smoke and immediately began an investigation. Fire was discovered in the bathroom on the second floor, the origin of which is unknown.

The firemen worked faithfully and kept the fire confined to the one room and roof above. The amount of damage has not been estimated.

PLEASE BOOST FOR GOOD ROADS

TOURIST ANR RESORT ASSOCIATION BUSY

Urges Members to Get Busy and Back State Good Roads Amendment and Resort Business

The following letter is being sont to all members of the Michigan Tourlet and Resort association of Michigan, urging them to work for the good roads amendment.

Dear Sir—Of course you are all familiar with tho propoeition coming up at the April election to vote authority to the legislature to bond the state for $50,000,000, with which to build good roads; and all of you, being more or less directly intereeted in and dependent on the tourist business, must realize of what great importance it is to these interests to have good roads built and maintained..

There seems to be some opposition in outlying rural districts to this amendment and your officers consider it of vital importance that every effort which our membership can put forth to help carry this vote should be made, and this is to ask if you won't uee your best efforts and influence to change all the votes, especially those of farmers, in favor of the constitutional amendment. It is important to point aut when talking to farmers, that the citlee and villages pay sixty-five and eight-tenths percent of all the taxes of the state. We get $1.00 from the federal government for every dollar voted by the state and when the matter is figured out, it leaves the farmer only seventeen and one-tenth per cent of the tax to pay. When you can show the farmers that they stand to get $1.00 for .171 they usually are willing to vote "Yes" on this amendment.

It will be appreciated if you will advise this office of any argument you hear against this bond issue.

We have already commenced sending bulletins showing names and addresses of inquirers who want information regarding various localities in Michigan in connection with the tourist business and while this offiee will do everything in its power to influence these prospective tourists to come to Michigan, it is hoped that to make it doubly effective, members will make it their business to follow up these inquiries with their literature or individual letters.

Yours very truly,
Michigan Tourist & Resort Ass'n.,
By Hugh J. Gray,
Secretary and Manager.

March 27, 1919.

At its meeting on Friday evening of last week, the Charlevoix Commercial Association by resolution, endorsed the good roads amendment referred to in the above communication, thus pledging its members to support the movement in every detail.

Located as we are, Charlevoix will be on the main trunk highway leading north. As the main trunk lines are to be first aided, within a short time we will begin to learn more than ever what good roads mean to us and northern Michigan. By all means vote YES on this amendment.

SUNDAY SCHOOL CLASS ENTERTAINED

At Home of Mr. and Mrs. Chas. Arnold on Dixon Avenue

On Friday evening, March 28, about 45 members, husbands and friends of Mrs. Ada Dutcher's Sunday school class met at the home of Mr. and Mrs. Charles Arnold on Dixon Avenue for a social evening.

Supper was served at 7:30, not dainty refreshments as many remarked, but a genuine meal including a nice platter of meat from a former member of the class now living in Boston, Mass. The orchestra music by J. Durrance and daughter, Pearl, W. C. Bellinger and E. Shapton was very much enjoyed by all present.

Games of all kinds were introduced which mingled with jokes and laughter made the evening pass very pleasantly for all.

Much praise is due the committee, the Mrs. Bellinger, Miller and Metcalf for the splendid service given, also to Mr. and Mrs. Arnold for opening their splendid home.

A cordial invitation is extended to all married ladies eligible to Mrs. Dutcher's class, who are not attending Suoday school elsewhere, to come and join in this good cause.

TWO BOAT LINES FOR CHARLEVOIX

IS WHAT PRESENT OUTLOOK WOULD INDICATE

S. S. North American to Make Twice a Week Trips Between Mackinac Island and Chicago

Without a doubt Charlevoix will be in better condition in regards to lake transportation the coming season than in previous years. We have been assured that the S. S. South American, operated by the Chicago, Duluth & Georgian Bay Transit Co., will make twice-a-week trips between Chicago and Mackinac Island, arriving north bound at Charlevoix on Tuesdays and Saturdays, and leuving Charlevoix south bound on Sundays and Wedneedaye.

In connection with the South American, her sister ship, the North American will make weekly trips from Chicago, touching at Mackinac Island, from there through the Georgian Bay district to Parry Sound and Penetang and from there to Detroit, Cleveland and Buffalo. The North American may not stop at Charlevoix on either trip until during the height of the season, when if the passenger traffic requires it, she will make this port.

Charles J. Bour, president and general manager of the C. D. & G. B. Transit Co., was in the city Tuesday, interviewing Charlevoix's business men and arranging for the season's business. Mr. Bour states the service will be as good, if not better this season then last, and the boat line will co-operate in every detail with any necessity thut may arise during the season.

While the running and freight schedules are not as yet completed, it is hoped by the officials of the company to have them ready for publication and distribution within a short time. Such freight as perishable goods, meats, etc., will be given their closest attention, but the company will not make any great effort to carry the heavier and bulkier freight.

Both the North and South American are conceeded to be about the best passenger boats in service on the great lakes today. Every facility for the comfort and health of the traveling public has been looked after.

Charlevoix hus long known the necessity of a boat line from the east, and in past years has lost patronage by not having one. While the schedule of the North American is but one trip a week, Mr. Bour states that eastern passenger traffic will he given their closest attention.

REGULAR BOARD MEETING APRIL 3

Red Cross Members Urged to Continue Work of Relief

Remembering what Christ taught us about the little children and knowing that thousands of these little ones are suffering for want of clothing and food, surely each and every one of us would be glad to da our share to relieve this suffering.

Our chance has come, The layettes for the relief of the French and Belgium babies have arrived, and are, without a doubt, the most interesting and fascinating work we have had to do. Come and see for yourself.

Will the ladies who have taken aprons home to work on, please return them finished or unfinished, as they must be a part of our next shipment.

Will the members of the executive board please keep in mind that Thursday, April 3, will be the regular board meeting at the Red Cross rooms.

GAVE INTERESTING AND INSTRUCTIVE TALK

Jokers to Beers and Wine Amendment Made Plain to Voters

The temperanee lecture held at the Burgess school last Sunday was well attended and thoroughly enjoyed.

R. L. Lewis gave a very interesting and instructive talk. Dr. F. H. and Mrs. Wilkinson furnished several pleasing and appropriate musical selections. The school also furnished a very fine program including a number of class yells. Much credit is given Mrs. S. J. Alcox, president of the W. C. T. U., for her part in the work, as she was the one appointed to see that the program was a success.

MAY TAX BACHELORS AND PAY NEWLYWEDS

Representative Chew Has Bill Ready to Encourage Matrimony

Bachelors in Michigan will receive another call from the tax collector if the legislature passes a bill contemplated by Representative Jacob Chew of South Arm township. However, men under 38 have nothing to fear as the proposed tax will not hit them, says the Grand Rapids Press.

Men between the ages of 38 and 43 will have to pay a state tax of 50 cents if they have not acquired a wife. For men between the age of 43 and 48 the proposed tax will be but 20 cents each year. Widowers between the ages of 30 and 40 and men who have obtained divorcee will not be subject to the tax.

In order to stimulate interest in matrimony, Representative Chew provided in his bill that any person subject to the provisions of the bill who marries shall be paid a bonus of $2 by the county treasurer.

Supervisors would be required to list the unmarried men when they make up the assessment rolls and the bachelor tax would be collected by the various city and township treaeurers. Any unmarried person who refuses to pay the proposed tax would be subject to a fine of $25.

If thie bill ie introduced and ever gets out of committee, which is doubtful, it will furnish the members of the house a heap of fun as they are planning a number of amendments.

It looks like 30 cents to ue.

C. C. A. MEETING HELD FRIDAY

CHARLEVOIX COMM'L. ASS'N. HOLD BUSINESS SESSION

Proposition of Merchants Transit Co. to Restore Boat Service to City Discussed

The Charlevoix Commercial Association brought together last Friday evening a number of business men for the purpose of getting together on several important matters concerning the welfare of Charlevoix and vicinity.

After a banquet served in the dining room of the Odd Fellows' Hall and a variety of brands of cigars were produced, presumably to get the minds of those present in a fit condition to grasp the details of the business at hand, the session opened up with a discussion of a proposition presented by representatives of the Michigan Transit Company of Chicago, to restore service at Charlevoix by the steamers Manitou, Missouri and Kansas. Capt. George Johnson and J. C. Connolly explained the plans of the company which contemplate a co-operative system between the company and the various ports along the lake from Chicago. The company believes that the success of the route can be best assured by such co-operation and some excellent reasons were given for it. The company considers that the only, or best way the patrons on the route can show their appreciation of the service would be by taking a financial interest in the company.

To carry out the project a committee consisting of A. A. Swinton, Martin Block, Harry Nicholls, A. D. Crimmins and S. M. Rose was appointed to take charge of the campaign. Petoskey is actively at work, we are informed, to secure a subscription to stock of the company of $50,000. Charlevoix's apportionment is $25,000. That Charlevoix is interested there can be no doubt. The importance of boat service cannot well be over-estimated.

The committee assures the public that it stands ready at all times to give full information upon the proposition.

Surprised by Friends

Mr. and Mrs. P. R. Ross were pleasantly surprised Tuesday evening by eighteen of their friends who happened in to help them while away the evening hours. Hearts and cribbage, and other various games which were introduced by the guests, made a delightful evening for all. At the close of the evening a bountiful pot-luck supper was served.

HISTORICAL SOCIETY HOME

SAFE RETURN CELEBRATED AT SHORES HOME

Closing Year Much Enjoyed—Musical Program Enlivens the Evening

In honor of the safe return of the Charlevoix Historical steamer party, a delightful evening was enjoyed at the home of Mr. and Mrs. N. A. Shores, Friday, March 28th.

About eight o'clock, a trio consisting of Messrs. Bridge, Saunders and Mason were introduced and with violins and piano accompaniment epiritedly ushered in the evening of pleasure with the selection "Beautiful Isle." For the encore "jazz" pure and simple, which were both very much enjoyed.

A fine paper, "Reminiscences of our Homeward Trip," was given by our conductress, Mrs. C. E. Bailey.

As a tribute to Mt. Vernon where some hours were enjoyed, Dr. Frank Wilkinson sang most inspiringly "Mt. Vernon Bells," while a little later, Mrs. Livingston with Messrs. Poole and Hamlin, Miss Morrison as accompanist, sang charmingly "Ole Virginny" and "Swanee River," assuring us that we were once again in dear America.

"Home Again," recitation by Rev. Candler at the conclusion of Mrs. Bailey's paper was the finishing touch to our trip abroad and was greatly enjoyed.

Intense excitement now prevailed as Mrs. Paddock stepped forth and in a most oratorical fashion described in unexcelled rhyme the souvenirs brought back by the members:

Yes, the souvenirs brought back by the members,
Convulsed the whole house, not excepting the elders,
Ah, right nigh is the time
We'll wake up to find
That our friend Mrs. Paddock
Has a versatile miad.

From this startling reverie the secretary was rescued by a boquet of exquisite roses gracefully presented her by Mrs. W. H. Miller on behalf of the society in appreciation of her years of service. To her they meant as many years of happy memories. A mysterious quiet ensued, finally broken by two instrumental selections kindly contributed by Mr. Beers which were also appreciated.

As a happy surprise refreshments were served by the executive committee of ice cream and fancy wafers to which was added by our hostess, Mrs. Shores, an extra consisting of two beautiful cakes. Needless to say they were greatly enjoyed.

The closing year has been very much enjoyed as experiences from our members have averred.

For the work of the officers whose term has expired, we express our hearty appreciation, also to our host and hostesses and those who so delightfully contributed ta the plesaure of our programs.

Public Meeting Friday Evening

A public meeting for all the voters of Charlevoix will be held at the opera house next Friday evening at eight o'clock. Judge Lindsley Long of Dayton, Ohio, will be the speaker. Watch for further announcements.

CORRESPONDENCE

NORWOOD

Ed. Jones left for Canada last week.

William Gingrich is home from Detroit.

William Williams is in Detroit on business.

There are several new milch cows in this vicinity.

Joe Holecheck is the proud possessor of a new Dodge car.

Mr. and Mrs. Dick Kirby moved to Charlevoix last Saturday.

The L. A. S. will meet with Mrs. Joe Holecheck this week.

Thelma Gingrich has employment at the home of Dr. Lewis in Charlevoix.

We are sorry to report that Alden Stafford lost a valuable horse last Thursday.

John Sprik and bride are at the home of Mr. and Mrs. Joe Sprik. Congratulations.

Mr. Wederburn is buzzing wood for F. E. Richardson and F. A. Swartout this week.

Albert Parsons has purchased the restaurant in Ellsworth and expects to have a sale and move there soon.

The Ladies Aid Society will serve election dinner to the voters at the parsonage in Norwood, election day.

Rev. Hewitt has accepted a position in Florida and will return there soon. We wish him much deserved success in his chosen work.

There will be a lecture on the "Beer and Wine Amendment" at Norwood town hall on Thursday evening. Everybody come.

Rev. Vane preached as fine a sermon as one would wish to hear last Sunday, which was much enjoyed. Don't fail to come next Sunday.

AN ACT OF KINDNESS

A Charlevoix Resident Speaks Publicly for the Benefit of Charlevoix People

If you had suffered tortures from kidney trouble.

Had experimented with different remedies without relief;

If you were finally cured through a friend's suggestion

Wouldn't you be grateful?

The following statement has been given under just such circumstances:

Mr. Herington has used Doan's Kidney Pills.

He publicly tells of the benefit he has received.

His is a simple act of kindness to other Charlevoix sufferers.

No need to experiment with such convincing evidence at hand.

Mr. Herington speaks from experience. You can rely on what he tells you.

Barney Herington, cement contractor, 108 W. Garfield Ave., says: "About eight years ago my back gave out on me. It became so lame and sore I could hardly bend or stoop. When I did, sharp knife-like pains caught me in my back and I could hardly straighten. My kidneys were out of order, also. As I had often read about Doan's Kidney Pills I tried them. Three boxes cured me and fixed me up in good shape. Since then when I have had to use a kidney medicine, Doan's Kidney Pills have always done good work."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Herington had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

BARNARD

Remember, April 7th. Vote 'No."

Mike Welch and family are moving into the Edmund Shapton house.

Miss Theresa Flagg is spending her spring vacation with her mother in Barnard.

Isaac Mills has moved to his new home which he recently purchased of Sims Baker.

Mrs. Fitzgerald of Grand Rapids has been visiting her daughter, Mrs. Ed. Ager and family.

Born, to Mr. and Mrs. Edward Ager, a son, on Wednesday, March 26th. Name, Gerald Edward.

We are in doubt about the truth of that old adage of March coming in like a lion and going out like a lamb.

Mr. and Mrs. Clifford Mayhew and family visited Saturday and Sunday with relatives in East Jordan and vicinity.

The committee appointed by the Aid Society to consider plans about improving the church basement meets this week.

A few of Eleanor Matchett's little friends helped her to celebrate her 9th birthday on Saturday. All report a very good time.

W. N. Lewis returned on Ssturday from Iron Mountain where he has been employed during the winter. He will remain in Barnard until fall.

We are sorry to lose Edmund Shapton's family from our community. They left on Monday morning for their new home in Charlevoix.

Don't throw awny that tire. Save money by having it vulcanized and repaired. Benj. Brown. 13tf

Dee Sneathen and Mr. Ferris buzzed wood Monday and Tuesday.

Harry Howe started to work for Dee Sneathen Tuesday, for the summer.

We understand that Mrs. Florence Hinton starts for California this week.

Mr. Wightman took three hogs to Boyne City last week. They brought him over one hundred dollars.

A good attendance was had at Burgess last Sunday to hear the program and speaking which was enjoyed.

NORWOOD

Abe Jones is working in Atwood.

Joe Holecheck purchased a Dodge car last week.

Miss Duck Wederburn is spending a few days in Charlevoix.

Will Hull of Charlevoix is visiting at the home of Joe Holecheck.

Miss Mary Lucias and friend, Abe Jones, spent Sunday at the Harris Pierce home.

Miss Flossie Williams was surprised last Wednesday evening by thirty five of her friends coming in to spend the evening with her, the occasion being her 15th birthday. Various kinds of interesting games helped to pass a very pleasant evening at the close of which a two course supper was served. Miss May Lucia made a large primrose cake, decorated it with fifteen candles and presented it to the hostess while supper was being served. The young people returned to their homes at a late hour wishing Miss Flossie many more happy birthdays.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

We can add several miles to the life of that tire by properly repairing it. Bring it in and get our price on the work needed to fix it up. Benj. Brown. 13tf

MOUNTAIN DISTRICT

Charles Hosegood is now working in Boyne City.

F. Bearss was a Boyne City visitor on Monday.

Robert Wilson spent Saturday and Sunday at Boyne City.

Catherine LaLonde spent the week end with Miss Emily Meggison at the Wangeman home.

Ralph, Harold and Ruth Clark spent the week end visiting their grandmother, Mrs. E. A. Clark.

(Too late for last week)

A number in the vicinity are busy making maple syrup these fine spring days.

Mr. and Mrs. B. Reed of East Jordan were callers at the Seiler home on Sunday.

Robins, bluebirds, killdeers and meadow larks are the topics of conversation at school these days.

In the geography contest held at school the following pupils remained standing. Robert Wilson, Anne Jardine, Ralph Clark and Iola Gaunt.

Little Anne Jardine was pleasantly surprised by eleven of her little friends last Wednesday in the late afternoon, it being her eleventh birthday. The time was spent in playing games and then a dainty lunch was served of which the important feature was the birthday cake lit up with eleven candles. The little guests after presenting Anne with some beautiful gifts, took their way home, wishing her many more such birthdays.

We offer until sold out. Seed Spring Wheat—Marquis variety, 99 per cent pure, $3.50 per bushel. Argo Milling Co. 14t1.

SCHOOL COMMISSIONER'S NOTES

The correspondence for the past week has been so interesting that it may well serve as a round table for the rural teaching corps. The following are extracts typical of letters of last of week:

"We are having a contest between the boys and girls in our schools. We have sixteen in school of which six are boys and ten are girls, but so far the girls are ahead of the boys, and it has stopped tardiness entirely. (I have my fingers crossed, though.) It's like the illustration. Read from the bottom up. Each side gets a star when they have a week with no tardy or absent marks.

"Just a line to let you know the doings in the brick schoolhouse on the knoll. My beginners have gone through the primers twice and they are reading in the first reader. Also my second, third, fifth and sixth graders have completed their readers and are now reading in the next book. My fourth grade is no so progressive. The article which you inserted in the county papers last week concerning busy work was certainly good. I only wish that every school board could look at such things as mine does. I don't believe any country school has a larger supply of busy work than mine has. We are busy making posters, especially war and after-war posters. We enjoy our arithmetic chart so much. My best record is twenty-three seconds per page. My director said he would donate for the Art Building at the fair ground from the general fund. I am planning on going to Mount Pleasant this summer. Hope I may see you there. I go to Kalamazoo this summer. Couldn't you change just this one summer and come there too? Glad you asked about our summer plans. I am going to school this summer."

BARNARD SCHOOL NOTES

Sixth graders are reading "The King of the Golden River."

Those receiving four months certificates: Dorothy Lewis, Charlotte Lewis, Harley Welch.

Seventh and eighth grades are writing the life of Joaquin Miller and the life of Columbus.

Those neither absent nor tardy during year: Irene Walker, Margaret, Annie and Minnie Gornell.

Those neither absent nor tardy during March: Beatrice Walker, Jakie Klooster, Robert Flagg, Charlotte Lewis, Lottie Welch, Dorothy Lewis, Robert Bolhuis; Jennie Klooster, Harley Welch, Emerald Bolhuis, Margaret Potter, Jessie Cook, Dorothy Smith, Margaret, Annie and Minnie Gornell.

INWOOD

Mr. and Mrs. Elmer Smith and sons departure for their future home on March 22, was sorely regretted by their many friends and relatives.

The arrival of Mr. and Mrs. Chester Blanchard on March 22, is announced to their many friends. They have come once more to make Charlevoix the Beautiful their future home.

Indian Name Survived.

The survival of the original name of Cuba is a remarkable instance of persistence, as the island has been baptized and rebaptized many a time since its European discovery. Columbus first called it Juana, in honor of Prince John, the son of Ferdinand and Isabella. After Ferdinand's death it was called, in his memory, Ferdinanda. Subsequently this name was changed to Santiago, after St. James, the patron saint of Spain. Still later it was named Ave Maria, in honor of the Virgin Mary. But none of these names held and the Indian name is still preserved.

New Dyak Fashions.

Dyak is a word which conveys to most folk the idea of a people whose tribal pastime consists in cutting off the heads of their neighbors and preserving the dried skulls as ornaments for their homes. When the first missionaries went to Borneo, where the Dyaks live, they were fortunate if they kept their beads on their shoulders. Today the Dyaks have ceased head hunting, have given themselves to farming and have taken on clothes and other evidences of civilization. Instead of news coming once a month, as it did when missionaries first went to Borneo, it is now received by wireless.

What About Your Auction Bills?

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

The claim of the wet propogandists reminds us of the story of two darkies who were arguing about the power of President Wilson to draft a man and send him to fight Germany. "Huh!" said one, "President Wilson got all de powah der is. Didn't he take an hour of daylight from God Almighty and tack it on de daytime and den he took all de railroads from de people of the United States and give 'em to his son-in-law? He'll draft yer, niggah, and yer cain't help yerself."

In committee of the whole the house of representatives at Lansing agreed to Representative Fred Warner's two election bills and there is every indication that both measures will pass on third reading. One of the bills limits candidates for governor and United States senator to the expenditure of $10,000 for nomination and election, and provides that the campaign fund shall be deposited with the state treasurer and paid out only on warrants signed by the candidates. An effort was made by Representative Fitch, of Ludington, to have the limit reduced from $10,000 to $5,000 but the house declined to concur in this amendment. The bill makes the date of the fall primary the second Wednesday in September instead of the last Thursday in August.

"Help pull Michigan out of the mud," is the slogan of the good roads disciples. Will you help by voting for the amendment that will enable Michigan to borrow money from time to time, as it may be needed, but not to exceed $50,000,000 in the aggregate. The loan may not exceed a quarter of that amount. It is purely an empowering act.

It is reported that the Charlevoix county road commissioners have purchased five hundred cars of crushed rock from the Petoskey Portland Cement company to be used in building the road from Clarion to Boyne Falls, along the G. R. & I. Charlevoix county men, according to men here who have talked with them, are wondering why Emmet county does not complete the road from Clarion into Petoskey. This road has been under construction for three or four years and is still far from finished and in poor condition in places. Charlevoix county is going in for concrete roads beleiving that that is the only road that will stand up under the heavy automobile traffic—Petoskey Evening News.

A sad drowning accident occurred Saturday evening of last week in the narrows between Elk and Round Lakes, when John Miller of South Milton, thirty years old, lost his life, says the Elk Rapids Progress. As we learn the facts Miller had been cutting wood on the J. F. Eiszner place at Skegemog Point. He had taken his brother across the narrows in a canoe that he might do the chores on the farm, and was returning to Skegemog in the canoe. When about half way across the frail craft upset and he was drowned. The body was recovered from about ten feet of water at ten o'clock that night. Miller is spoken of as an industrious, hard working man and a good citizen. Some years ago he lost one leg and his crippled condition handicapped him in his efforts to save himself. About three weeks ago he was married to a Traverse City girl. His father died about two years ago. He leaves besides his wife, his mother and two brothers living on the farm and four sisters and a brother living elsewhere. The funeral was held Tuesday afternoon.

A communication send from Germany by a press correspondent gives the following honor citations mentioning the individual acts of heroism performed by two Cheboygan men with the 32nd division: Capt. Frank H. Barlow, Company H, 125th Infantry regiment. "Near Cierges, 31st July, 1918, although wounded by machine gun fire, he gave proof of the greatest courage by refusing to allow his wounds to be dressed and by continuing to command his company up to the time he received orders to withdraw. The spirit of self-sacrifice and absolute disregard of danger shown furnished a splendid example to his men." Sergeant Samuel Snowden, Company H, 125th Infantry regiment: "Exposed to intense machine gun and artillery fire, he crawled up to a wounded soldier and administered first aid to him. Seriously wounded himself he brought back under intense fire another wounded man to the dressing station."

After a lapse of two weeks during which Leelanau officials have been busy seeking new evidence and running down clews, the examination of Mrs. Stanislawa Lipchinski, charged with the murder of Sister Mary John of the Isadore Polish nunnery eleven years ago, was opened Saturday morning at 10 o'clock in Justice Burrough's court at Greillickville, just across the county line from here. The housekeeper of Father Andrew Bieniawski, of Manistee, who also was his housekeeper when he served at Isadore at the time the nun disappeared, has been out on bonds since her arrest early this month. The officials feel certain that they can prove to the satisfaction of a jury now that the bones found buried under the little Polish church at Isadore and later removed secretly at night to a nearby cemetery are those of the missing sister. The prosecution has promised a sensation at the hearing. —Traverse City Record-Herald.

Given by Progressive Charlevoix Merchants because it is the most popular discount token in existence to-day

In "S. & H." Green Stamps, many Charlevoix merchants are paying you a discount for cash that returns to you a generous saving, regularly and often.

After years of experience, it has been universally conceded that a nationally known and widely endorsed discount token will benefit every collector in a most substantial way.

If this were not true, thousands of merchants would not be giving millions of customers the valuable "S. & H." Green Stamps every day, year in and year out. They have been doing it for 22 years.
Housewives and merchants are quick to realize the increased advantages to be gained through "S. & H." Green Stamps. Experience has been a most reliable teacher for millions of folk with the result that, today more "S. & H." Green Stamps are issued and redeemed in a day than all similar tokens in a year.

The wise heed the experience of others—be wise and save "S. & H." Green Stamps.

TIMES DO CHANGE

This year Easter Sunday falls on April 20. The last time it fell on this date was in 1862. Women were wearing hoop-skirts, and stories of the Jane Austen type were favorites. Louisa Alcott and her sisters were living at Concord the sane and healthy life whose record is the foundation of "Little Women."

On this Easter women will bloom forth in gowns so narrow as to impede the freedom of their step. The slender silhouette will be the mark of fashion's child.

Problem plays are the favorites at movie and theatre, while the novel which does not deal at length with thrills, hair-breath escapes and questionable morals remains unwanted on the book shop shelves. Times change, indeed.

MISTAKES

When a plumber makes a mistake he charges twice for it.

When a lawyer makes a mistake, it is just what he wanted, because he has a chance to try the case all over again.

When an electrician makes a mistake, he blames it on induction; nobody knows what that means.

When a doctor makes a mistake he buries it.

When a judge makes a mistake, it becomes the law of the land.

When a preacher makes a mistake, nobody knows the difference.

But when an editor makes a mistake—Good night! ! !

QUIETLY MARRIED SATURDAY EVENING

Prominent Young People Spring Surprise on Friends

Two of Charlevoix's young people sprung a surprise on their friends and relatives Saturday night by slipping away and being quietly married by Rev. Henry Candler at the Methodist parsonage at 9:30, the contracting parties being Miss Hazel J. Allen and Forrest F. Fowler.

The bride and groom are prominent young people of the city. Miss Allen, daughter of Mr. and Mrs. H. K. Allen is a gradnate of the Charlevoix high school, class of 1918. Mr. Fowler after his third year in the high school here took a business course at the Ferris Institute. Early in the year of 1918 he enlisted in the balloon service and was sent to Texas remaining there until January 1919. He now has a position in the Erickson & Fowler garage.

The young couple will be at home to their friends at the home of Mr. and Mrs. H. R. Fowler on Antrim street.

We can add several miles to the life of that tire by properly repairing it. Bring it in and get our price on the work needed to fix it up. Benj. Brown. 1tf

WHY

Bread Is Often Defective and How to Make It

"KNOW the ingredients of your bread and you will know the causes of its defects." So says Miss Marion P. Broughton, specialist in home economics in the Kansas State Agricultural college.

"These defects are mostly physical, and the most frequent cause is poor flour. If the flour is poor the gluten is poor, and the color of bread depends upon the gluten. Gluten forms the framework of the bread, and if it is poorly developed in the flour it will make the bread coarse

"Bread should not be oiled when put in the pans. Fat when baked brings out the defects in the bread. A hard crust is caused by the unequal distribution of the fat when oiled.

"Souring of bread is caused by too much carbon dioxide and too little oxygen. This can be remedied by thorough kneading. Large holes that are often found can be worked out by kneading. When rolling the bread to put into the pans be sure to leave no creases underneath the loaf, for these will show when baked.

"Bread is scored in contests upon the flavor, color, form and thoroughness of baking. Flavor of perfect bread should be good and sweet. If an acid flavor is noticed, there has been too long a fermentation.

"The musty flavor often noticed in bread is caused by old flour, and if the flavor is the least bit off the lard is too strong or too much salt has been used

"A starter is commonly used among the farmers' wives. The jar in which it is kept should be washed frequently, and a cover should be over it all the time. There is nothing in the superstition that if the jar is washed the starter will be ruined."

Daily Thought.

Many men build as cathedrals were built, the part nearest the ground finished; but that part which soars toward heaven the turrets and the spires, forever incomplete. — Henry Ward Beecher.

The Easy Way.

Few that wander in the wrong way mistake it for the right; they only find it more smooth and flowery and indulge in their own home rather than approve it.- Samuel Johnson.

MICHIGAN GETS ROAD SUPPLIES

GOVERNMENT FURNISHES NECESSARY MACHINERY

Distributes Autos, Cement Mixers, Etc., From War Department to Various States

"When Michigan voters take Uncle Sam into partnership in the big enterprise to build a comprehensive system of main market highways throughout the Wolverine state, through the adoption of the good roads amendment at the election on April 7, they will get more than a mere 100 per cent dividend in federal aid," said State Highway Commissioner Frank F. Rogers. "The United States government not only stands ready to give Michigan better than $7,000,000, providing a like sum is provided by the state, but it has authorized the war department to turn over all the vast quantities of equipment, material and supplies not needed for the army in peace times to the various states who take advantage of the offer for federal aid for highway construction."

Michigan already has put in official claim for its full share of equipment because, as Commissioner Rogers says, the sentiment of the people is such that the highway amendment is certain of ratification and the legislature is going to have authority to issue bonds from time to time to meet the government's offers on a dollar-for-dollar basis and to build the roads on the deferred payment plan.

The order to turn over all surplus equipment and material which may be available for highway construction and maintenance is contained in section 7 of the postoffice appropriation bill already passed by congress and signed by the president. It includes motor trucks, automobiles, rock crushers, industrial railway systems, civil engineers' instruments, concrete mixers, tractors, mules, horses, harness, wagons, steam shovels and hundreds of other items necessary to road construction and hard to obtain under the existing conditions of production.

The bill provides that the distribution of the equipment and material will be in the same proportion as the distribution of the federal aid funds. This means that Michigan will be entitled to something less than 4 per cent of all the vast stores of machinery and supplies gotten together for war in Europe and for training in this country.

Highway Commissioner Rogers already has received notice of this distribution of equipment and directed to elect what he needs. He responded that Michigan would take its full quota. There came back a direction to specify his immediate needs and he wired the department the following list which he assured the department of agriculture could be put into action within thirty days:

Ten automobiles; twelve heavy duty motor trucks, six power road rollers; twelve transits and levels, three concrete mixers of one-half to one-yard batch capacity, six miles of railways, one locomotive, thirty cars, one steam shovel of one-half to one cubic yard capacity, three caterpillar tructors of thirty-five to seventy-five rated horsepower and six trailers.

This material represents a small fortune and means that the cost of road building will be reduced in just the amount of the cost of the machinery and speeded up by the application of machinery and modern methods.

FIND FORTY JOKERS IN WINE-BEER BILL

Wet Amendment a Masterpiece of Camouflage, Drys Declare

A wag among the many who are holding down seats in this season's state legislature, has pinned a name upon the proposed wine and beer amendment of the wets which promises to stick with it until after the election of April 7. Some time ago the Drys issued a pamphlet enumerating 40 flaws in the measure, and taking his cue from this, the capitol wit christened the amendment "The Forty Jokers." It is upon the presence of these "jokers" in the amendment, which make it something other than what it purports to be, that the drys are basing their hopes for the defeat of the measure by Michigan voters on election day.

Among the jokers enumerated is one, it is said, that would make it legal, if the amendment was adopted, to give wine, beer, ale or porter to boys and girls; another would restrict the legislature from making any laws that would limit the amount of alcohol these beverages could contain and a third feature of the amendment would repeal the right of counties to vote on local option, and would thereby make every county wet whether it so desired to be or not. If adopted the dry charge, the amendment would throw Michigan wide open in a way that the state has not seen in 50 years.

C. W. WING NEW COUNTY AGENT

Employed by Farm Bureau at Meeting Held Friday

At a meeting of the executive committee of the Farm Bureau held in this city last Friday, March 28th, C. W. Wing of Antrim county was employed as County Agricultural agent of Charlevoix county for the coming year.

Mr. Wing is at present commissioner of schools in Antrim county and has been a successful teacher in the Alba schools for the past four years. He comes to us with fine recommendations from his county. He will move to Boyne City and enter upon his duties in about fifteen days.

Would Not Tolerate Sedition.

By the act of the New York legislature of March 30, 1781, provision was made to punish more effectually adherents to the king. It enacted that any one who preached, taught, spoke, wrote, or printed that the king of Great Britain had dominion in New York or who seduced the allegiance of anyone in the state was guilty of a felony without benefit of clergy, though the court could commute the sentence from death to service for three years in the navy of the United States.

In Advance of His Age.

The name of Bacon has been surrounded in England by legendary tales of black magic and witchcraft. There are songs about him, and he has always been a figure of mystery, even to his modern interpreters. "Friar Wizard," as he was called, knew too much for his age. He wrote extensive studies on the construction of telescopes. The first mention of gunpowder is found in his books, and it was he who suggested its use for purposes of warfare.

Who Built First Auto?

Just who built the first automobile in the United States is a matter of dispute. Elwood Haynes of the Haynes Automobile company of Kokomo, is one of the claimants of the honor. A machine built by him in 1893-4, which made a successful trial trip at the speed of six or seven miles an hour July 4, 1894, is on exhibition at the Smithsonian institution at Washington.

Bee Hives Always in Demand.

In some parts of northern Arabia the hills are so well stocked with bees that no sooner are hives placed than they are occupied.

The Papyrus Plant.

In the story told by Mrs. Williams, mention is made of papyrus, which was called "papu" in the time when the mummy of her story lived. From that word came the Greek "papuros" and our English word "paper." The historian Herodotus called it "bublos" and from this the old Greeks got a word "biblion," meaning a book, which we have carried on into our word "Bible." Go to a good dictionary and you will find a long list of words beginning with "biblio" and they are all connected with books.

M. E. CHURCH TANGLE MAY BE SETTLED

Dr. Hewitt Tenders Resignation to District Superintendent—Mix-up Herd to Settle

The tangled threads in the affairs of the M. E. church are being rapidly unwound and present indications are that affairs are settled for this year at least.

Dist. Supt. R. E. Meader uf Traverse City was in Ellsworth Friday, Mareh 28, called to this place by the Methodist people to discuss the reinstating of Rev. C. W. Hewitt. Rev. Hewitt was here last fall, coming immediately following the annual conference and remnined until he was forced to go south for the benefit of Mrs. Hewitt's health, Dr. Armstrong of Charlevoix recommending this muve. It is the general opinion that Dr. Hewitt, a man who has traveled largely, is the ablest and most conscientious pastor who has ever held these charges and Mrs. Hewitt is equally as efficient as her husband. During his stay last fall he proved himself to be a preacher of the old school and his preaching of the straight Bible religion not only won the hearts of the members at Ellsworth. Atwood and Norwood, but awakened a religious spirit in those outside of the church, a great many of whom awaited anxiously his return this spring. So great wns his hold upon his listeners that at no time after his opening address would those who came to hear him could all be seated in the Methodist church

Dr. and Mrs. Hewitt had laid their plans to return to take up their work here about March 15, but a setback in the condition of Mrs. Hewitt's health eaused him to write the District Superintendent suggesting that another man be sent to fill his place. Not receiving any word regarding this, however, the Hewitt's left for home and on their arrival at Detroit received a letter informing them of the appointment of Rev. E. C. Vane to fill the vacant position.

Dr. Hewitt came on to Ellsworth where there was a general demand for him to again take up his work and the conference of March 28 was the result of this damand. At this meeting there were about forty men and women representing the three churches, who almost unanimously fought to retain Dr. Hewitt as their pastor. The conference lasted from 10:30 a. m. until 2:30 p. m. At just before noon Dr. Hewitt was called to the meeting and told the people that he would return this vear and next for the $1000 salary notwithstanding that the vouchers presented at the meeting showed that he had been paid over five thousand dollars for five months work last year just before coming to Ellsworth and now has an uffer of $100 and expenses per week, but stated that he was willing to make the necessary financial sacrifice for the privilege of working among the people of this vicinity.

Dr. Meader promised the return of Dr. Hewitt on condition that the churches of this charge would raisa $225 to be given to Mr. Vane, together with his salary due him, the $225 being in Dr. Meader's estimation needed to pay Rev. Vane's expenses coming here and moving to a new charge. This agreement wns entered into without Rev. Hewitt's knowledge. Rev. Hewitt and Rev. Vane got together and figured the expenses of Rev. Vane's moving here at about $60 leaving about $165 over and above all expenses which to Dr. Hewitt looked like an unjust amount for the people to pay at this time, and rather than ask this amount to be paid he, at Rev. Vane's request, agreed to withdraw from all church work and accordingly on Saturday, March 29, sent in his resignation to the District Superintendent to take immediate effect. Rev. Vane is now in charge here and Dr. Hewitt urgently requests the people to give the new pastor their whole-hearted support as he will himself do outside of taking part in active church work.

Rev. Vane filled all pulpits on the charge last Sunday and was greeted by well-filled houses, but made the announcements from the different churches that it might be his (Rev. Vane's) last sermon. This also came as a decided surprise to many who considered the matter entirely arranged.

Rev. and Mrs. Vane are nicely settled now and although a younger man thnn Rev. Hewitt and one who hns had less opportunity for study and travel is never-the-less head and shoulders above the nverage pastor in the rural districts, and it is hoped that he will, by remaining and preaching the trut gospel, earn and receive the support of the people of this vicinity.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is ta enjoy an inside bath each morning ta flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed inta the blood. Just as coal, when it buros, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which, if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin thin phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do

FOR DEVELOPMENT OF LIVE STOCK

All Day Session at Traverse City Wednesday, April 9

A meeting for the developing of the livestock of northern Michigan will be held at Traverse City on the 9th of April.

Three livestock men from Lansing will be there and the counties around Grand Traverse are co-operating to make this a section of Michigan which will be known for the shipment of good livestock. This will be an all day meeting and the Shorthorn cattle men will all be there. Breeders of other cattle will also take a part in this meeting.

In the evening there will be a meeting to develop a sorting yard program for sorting of carload lots of cattle at Traverse City.

This will be a great help in putting on the market of straight car loads of cattle which will help in getting the top prices for them.

POULTRY AND EGGS

GOOSE RAISING PAYS

Points on Breeding, Incubation and Feed and Care of Goslings.

[Prepared by United States department of agriculture.]

Geese can be raised in small numbers successfully and at a profit on farms where there is low, rough pasture land with a natural supply of water. Geese are generally quite free from disease and all insect pests, but occasionally are affected by the diseases common to poultry. Grass makes up the bulk of the feed for geese, and it is doubtful whether it pays to raise them unless

Six breeds of geese have been admitted to the American standard of perfection—namely, Toulouse, Embden, Chinese, African, Wild or Canadian and Egyptian. In addition to the standard breeds, there is the so called Mongrel goose, which is a hybrid made by crossing one of these varieties, or the common goose, with wild geese. The illustration shows an African gander.

good grass range is available. A body of water where they can swim is considered essential during the breeding season and is a good feature during the rest of the year. The market for geese is not so general as for chickens. This should be considered in undertaking the raising of geese. The demand and the price paid for geese are usually good in sections where goose fattening is conducted on a large scale. Many geese are kept in the south for the production of feathers rather than for their flesh, but the demand for their feathers is not so good as it has been, making the business less profitable. Wherever possible, the geese on a farm should have free range. Many farmers in the south keep them to kill the weeds in the cotton fields.

Houses.

Except in winter or during stormy weather, when some protection should be provided, mature geese do not usually need a house. Some kind of shelter, such as a shed open on the south side, a poultry house or a barn, is usually provided by breeders in the north and is used by many in the south. Coops, barrels or some other dry shelter should be provided for young goslings. The goose houses should be kept clean and plenty of clean straw provided for the floor.

Selecting and Mating.

Geese, like other kinds of poultry, should be selected for size, prolificacy and vitality. They should be mated several months prior to the breeding season to obtain the best results. Therefore breeding stock should be bought in the fall. Goose matings are not changed from year to year unless the results are unsatisfactory. A gander may be mated with from one to four geese, but pair or trio matings usually give the best results. The wild gander usually mates with only one goose. When mated, geese are allowed to run in flocks. From four to twenty-five geese may be kept on an acre of land, and under most conditions ten is a fair average.

Incubation.

Geese are fed a ration to produce eggs during the latter part of the winter or so that the goslings will be hatched by the time there is good grass pasture. They are allowed to make nests on the floor of the house, or large boxes, barrels or shelters are provided for that purpose. The eggs should be collected daily and kept in a cool place where the contents will not evaporate too freely. If kept for some time they may be stored in loose bran. The first eggs are usually set under hens, while the last ones which the goose lays may be hatched either under hens or under the goose if she is broody. If the eggs are not removed from the nest in which the goose is laying she will usually stop laying sooner than if they are taken away. Some breeders prefer to raise all the goslings under hens, as geese sometimes become difficult to manage when allowed to hatch and rear their young. Hens used for hatching goose eggs must be dusted with insect powder and have good situation, as in the case of geese the period of incubation is longer than in that of fowls. Goose eggs may be hatched in incubators and the goslings successfully raised in brooders, although this is not a common practice.

The period of incubation of goose

The Toulouse, the largest of the standard breeds of geese, is a good layer, producing from twenty to thirty-five eggs a year, is docile, grows rapidly and makes a good market bird. However, its dark pinfeathers make it a slightly less attractive market goose than the Embden. The flock shown are Toulouse geese.

eggs varies from twenty-eight to thirty days. Moisture should be added to the eggs after the first week if set under hens or in incubators; this is usually done by sprinkling the eggs or the nest with warm water. Four to six eggs are set under a hen and ten to thirteen under a goose. They may be tested about the tenth day, and those which are infertile or contain dead germs should be removed. They hatch slowly, especially under hens, and the goslings are usually removed as soon as hatched and kept in a warm place until the process is over, when they are put back under the hen or geese. Some breeders who hatch with both geese and hens give all the goslings to the geese. Hens with goslings may be confined to the coop and the goslings allowed to range. The latter, especially if the weather is cold are not usually allowed to go into water until they are several days old. In mild weather the hens are allowed to brood the goslings for from seven to ten days, when the latter are able to take care of themselves. Good sized growing coops, with board floors, should be provided for the goslings, and they must be protected from their enemies and given some attention when on range.

Feeding the Geese and Goslings.

Geese are generally raised where they have a good grass range or pasture, as they are good grazers, and except during the winter months usually pick up most of their living. The pasture may be supplemented with fresh feeds of the common or home grown grains or wet mash daily, the necessity and quantity of this feed depending on the pasture. Goslings do not need feed until they are twenty-four to thirty-six hours old, when they should be fed any of the foods recommended for chickens or chicks.

Preparation For Market.

Before marketing the young geese the average farmer can feed advantageously a fattening ration either while the geese are on grass range or confined to small yards, but it is doubtful whether it would pay him to confine them to individual or small pens and make a specialty of fattening unless he has a special market or retail trade for well fattened stock.

Geese are usually killed and picked in the same manner as other kinds of poultry. Some markets prefer dry picked geese, while in other markets no difference is made in the price of scalded or dry picked geese. When feathers are to be saved fowls should not be scalded, but should be picked dry before or after steaming. On most farms where geese are raised the feathers are plucked from the live fowls at some time prior to molting. About one and one-tenth pounds per goose is the average yield of feathers. Feathers are worth from 30 cents to $1 a pound, and the picking cost per goose is about 11 cents.

Breeds.

Crosses of the varieties of geese, especially of the Toulouse and Embden, are occasionally made, but without any apparent gain. The Toulouse, Embden, Chinese and African are easily the most popular breeds of geese in this country, the first two greatly leading the other breeds. All economic breeds of geese are kept primarily for the production of flesh and feathers, and although their eggs are occasionally used for culinary purposes on the farm there is no demand for them for food purposes in the markets.

The Egyptian goose is a small, brightly colored goose kept for ornamental purposes and rarely seen in this country. It resembles the wild goose in shape and weighs two pounds less in each class.

INCUBATOR HELPS.

Place the egg on its side—not on end.

Clean the incubator at the end of the hatch.

Fill the lamp and trim the wick regularly every morning.

Always run the thermometer at 102 degrees F. at the top of the eggs.

Turn the eggs twice a day from the fourth day to the eighteenth day.

Remove all "clear" and dead eggs after testing on the seventh day.

Run the incubator for twenty-four hours so as to be sure that it is properly regulated.

Disinfect the incubator at the end of each hatch. Never fill a machine without disinfecting.

FORESTRY LORE.

How to Measure the Diameter of the Trees on Your Place.

The owner of a wood lot who wishes to estimate the number of board feet in the timber he is to sell must know the diameter of the tree. This is most easily measured by means of tree calipers, but an ordinary carpenter's steel square can be used in the following manner:

The square is kept horizontal. Both arms are placed in contact with the tree, the shorter one pointing away from the operator. A narrow strip of wood can then be laid against the opposite side of the tree and parallel to the short arm. The diameter of the tree will then be indicated on the long arm.

It is customary to measure tree diameters at breast height or about four and one-half feet from the ground.—United States Department of Agriculture.

Lantern Fly a Brilliant Insect.

The lantern fly of South America is said to be by far the most brilliant of all luminous insects. It sometimes measures more than 2 inches in length. The shape of the head is very curious. It is furnished with a hollow transparent snout nearly the length of the body, whence comes the lamplike light.

Writer's Cramp.

Writer's cramp is a disease to which those who do much writing are liable toward middle age, and a person afflicted with it has no complete control over the muscles of the thumb, middle and forefinger. The typewriter has proved the best resource of those who suffer from the ailment.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three time during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

WAY TO GET GOOD ROADS

IS BY BUILDING PERMANENT ROADS AT START

Building Small Bits Here and There Will Never Get County Anywhere

To get immediate benefits at lowest possible cost in any plan of road improvement, it is necessary to follow a plan for permanently improving a system of roads at once.

Building a mile or two of permanent road scattered here and there over a county is poor economy.

It costs money to move road construction equipment from place to place, and road contractors will add that cost to the price they bid for building a short stretch. On a large contract, expense of putting and keeping equipment on the job is relatively small.

Further, the putting in of small bits of road here and there never gets the county anywhere and virtually does no good. They are worn out before other bits can be got into commission, and vehicles have to be geared up for the bad roads, anyway.

No, the only reasonable and businesslike and economical and profitable plan is that which applies in any business or improvement proposition—to work along telling, comprehensive lines—to do things in a big way, and thus get big results at the minimum percentage of cost.

But to build a comprehensive system of roads at one time takes more money than the road tax of the average community can meet. There are two ways to handle the situation—either the road tax can be increased, or bonds may be issued and sold to raise the necessary funds.

Some people are satisfied with the "pay as you go" plan. But farsighted taxpayers see the wisdom of issuing bonds secured by the community's credit and in this way getting enough money at one time to carry out a broad plan of road improvement.

Such a method reduces the cost per year of getting permanent roads and puts each taxpayer in possession of knowledge as to where the roads will be built and how much they will cost.

These ways and means have other advantages. They make it possible to plan a definite system of maintenance.

This results in an important saving to the county, at once increases the value of property and draws from aeventy-five to eighty per cent of all rural traffic, ao reducing wear and tear and cost of upkeep on all other roads.

There is no surer nor more profitable means for a community to pull itself out of the mud than under the plan above described.

Permanent concrete roads requiring but a trifling sum per year to maintain can be secured for but little more, if not really less, than impermanent roads, which are worn out, usually, before they are paid for.

The county cannot develop without good roads.

Good roads are a prime essential to "life, liberty and the pursuit of happiness."

And the plan that has been developed for presentation to the voters is the most intelligent, loyal and practical that has commended itself.

Therefore, duty points the way.

Vote for the good roads bond issue.

Good roads represent the highest form of present day evangelism.

CALENDAR CONCERT A BIG SUCCESS

Entertainment Consisted of Varied and Pleasing Program

The annual calendar concert given at the Methodist Episcopal church last Monday night was gratifyingly successful. Over six hundred persons enjoyed the splendid program and every number waa encored. The entertainment consisted of vocal solos by Frank Poole, Charles Hamlin, Mrs. A. Livingston and Ney Smith; ladies quartette by Mrs. Livingston, Misses Bement, Hooper and Allen; trio by sirs. Bridge, Saunders and Mason; a piano solo by Miss Ethelyn Morrison; male quartette by sirs. Hamlin, Poole, Smith and Beers; vocal duet by Mrs. Livingston and Frank Poole; reading by Miss Carrel, Mrs. P. Vandermade and Katherine Smith and a piano duet by Mrs. Edward Klooster and Mr. C. Beers.

The Methodist Sunday school orchestra rendered several selections which were greatly appreciated by the audience. During the intermission over four hundred bags of home made candy were sold.

At the close of the program Rev. Candler spoke a few words in which he expressed his great appreciation of the splendid manner in which the citizens of Charlevoix co-operated in supporting every worthy cause and thanked all who had contributed toward the success of the calendar concert.

We offer until sold out, Seed Spring Wheat—Marquis variety, 99 per cent pure, $3.50 per bushel. Argo Milling Co. 14t1.

DISCHARGED MEN MAY KEEP TOGS

ACCORDING TO FINAL ORDERS RECENTLY RECEIVED

Much Discussed Question Regarding Soldiers and Sailors Uniforms Finally Settled

The final word on the return of government clothing by men discharged from Uncle Sam's army has been received by the local postal authorities. It puts at rest the various conflicting rumors which have been afloat for the past several months. The order permits discharged men to retain all clothing which they were permitted to take with them from the various camps, and is as follows:

"Postmasters are hereby advised that a recent act of congress permits discharged soldiers to retain clothing and equipment which they take away with them, and that, therefore, postmasters should not accept parcels containing these articles for return to the department.

"Postmasters will please give this information publicity by posting notices in the lobbies, or otherwise, without expense to the department."

This means that the "Zone Officer" papers, attached to every man's certificate of discharge, are void and null, March 10, 1919, being the date on which the order became effective. These papers may now be either destroyed, or retained as "souvenirs," according to the desire of the ex-soldier.

The measure will prove a souree of gratification to discharged men, for with the provision formally made by the government, whereby such articles as socks, underwear and leggins are permitted to be retained, every man may now own a practically complete outfit. In most cases, however, the "slicker" or army raincoat, and the man's field equipment were required to be returned before leaving camp.

First M. E. Church

"The World's Hunger for Christ" will be the preacher's subject at the Methodist Episcopal church next Sunday morning. The speaker will try to show that in the present world crisis the world needs Jesus Christ as never before and that the world recognizes its need and is ready for the teachings of Jesus Christ. The orchestra will render several selections at the session of the Sunday school. The missionary program conducted by Mrs. J. A. Auld was enjoyed by the school. Superintendent Shapton announces that the Sunday school will serve a banquet in the near future to all its members. The special musical program provided by the Epworth League last Sunday was greatly enjoyed by an audience that filled the League rooms. Something special every Sunday night at 6:30 "A Serious Answer to an Idle Question" will be the sermon subject for the evening service at 7:30. Please note that Sunday evening services advance one half hour. In the absence of Rev. Candler at Ironton, where he goes to speak in behalf of the temperance cause, Mrs. Candler will have charge of the prayer meeting Thursday night at 7:30. Choir rehearsal for the Easter cantata Thursday after the prayer service which closes promptly at 8:30.

J. Leahy, the optometrist, will be here again Monday, April 7. 13t2

PROTECT Your TIRES

They cost money these days, more than in many years past, and from present indications there will be little change this season. The up-keep and expense of tires for an automobile is more than any other part of its operation. This fact alone should be taken into consideration at all times.

Let US Rebuild Your Tires

If they are bruised, tore, snagged or ripped from the effect of a bad blow-out, we can repair them and make them almost as good as new. At the least, after we have repaired them, you will be able to get several hundred miles mileage out of them that could not if they were not given proper care. A slight bruise or tear soon results into a serious defect. If repaired at the start, they will give continued service, but if neglected, the water and sand enters and within a short time double the amount of repair work is necessary.

DON'T THROW THEM AWAY

Bring them to us and we will tell you if they are worth repairing. A few dollars spent in repair work may save you many dollars in your tire expense. Don't forget we carry a full assortment of sizes in Goodyear and Kokomo tires. None better on the market and our guarantee stands back of them.

TO THE ELECTORS

Be sure that you understand just how to vote as you wish on the proposition to abolish the Board of Public Works next Monday. You cannot be too careful. It is believed that some are sure to make a mistake. If you want to abolish the Board you should vote NO. To vote yes means that the keep the board. It is a confusing proposition, but the law says how the ballot shall read and it cannot be avoided.

For the Board of Public Works, Yes ( ).

For the Board of Public Works, No (x).

A ballot marked like the above means that you wish to abolish the board. Understand also, that we are not actually voting to abolish the board because there really is no board. We are voting to abolish the system.

Respectfully yours,
A. L. Fitch, City Attorney

BASKETBALL

The Charlevoix basketball team, after an exciting cross country trip, via Fords, got to Boyne Falls last Thursday morning five minutes ahead of the train, part of the party being forced to use three cars before Luther McCann, who had taken the first bunch over, came back to the rescue.

The team was well received at M. A. C. and was quartered in Ward C, Wells hall. Everyone enjoyed themselves about the campus and in M. A. C.'s wonderful gymnasium, especially taking advantage of the excellent swimming pool, one of the best in the United States.

Charlevoix was beaten in her first game by Greenville, to the tune of eleven to ten. Our team played a fine game but could not get in the long shots, not being used to playing on a floor where long shots were practical.

The bitterness of defeat was alleviated by the fact that Greenville, after beating us by one point, defeated Alpena by a larger score, and Alpena had already defeated Petoskey. Then Greenville played in the finals with Cadillac, and was defeated. So according to relative scores, which, though unreliable, are always a comfort, our team was better than any other in our half of the drawing except Greenville. The others were Catholic Central of Grand Rapids, Alpena, Petoskey, Clarksville, Hemlock, East Tawas, Croswell, St. Mary's, Grand Haven, Lake Odessa, Hillsdale, Ypsi Normal high, Mt. Pleasant, East Lansing. These were in the bracket which Greenville won, and of whom we held her to her closest score.

Ship Built of Mahogany.

There is a vessel built of mahogany. Her name is Matchless and she is now used by the coast and geodetic survey. She was built by pirates near Key West in 1859, of mahogany stolen from a stranded merchant vessel. It is said she was the last vessel to bring slaves from the West Indies to the United States.

CHARLEVOIX COURIER

VOLUME 27. NUMBER 15. EIGHT PAGES COURIER, CHARLEVOIX, MICH., WEDNESDAY, APRIL 9, 1919. PRICE $2.00 PER YEAR

HAVE CHOICE OF SIX POLICIES

LIBERAL LIFE INSURANCE TERMS OFFERED

By Uncle Sam to tha Boys Who Fought for tha Freedom of tha World—Offer Remarkable

The government has issued notice that all soldiers and sailors holding insurance certificates issued by the war risk bureau during the war, have five years from the official declaration of peace in which to convert their ona year renewable term contracts into any one of the following six life insurance policy forms:

Ordinary life, twenty payment life, thirty payment life, twenty year endowment. thirty year endowment and endowment maturing at the age of 62. This conversion may be affected in whole or in part without medical examination.

The insurance under any of the above policy forms will be carried by the government at rates considerably lower than those of any of the regular life insurance companies granting similar benefits. Premium rates will be based upon the American experience table, used by all "old line" life insurance companies, with interest at 3 1-2 per cent, figured upon a monthly basis. As the expenses of administration are paid by the government and not charged against the insurance, the rates granted the insured are net rates.

All policies will contain a waiver of premium and total disability clause, making the proceeds payable at any time the insured becomes totally and permanently disabled, regardless of age, in monthly installments of $5.75 per $1,000 of insurance covering the entire period of total disability for the life of insured. No policy issued by any life insurance company contains a similar clause without regard to age.

The annual rate at the age of 25 for ordinary life, per $1,000 will be $15.24; for twenty payment life, $22.56; for twenty year endowment, $39.34, and for thirty year endowment, $24.69.

Dividends will be paid annually and may be taken in cash, deducted from the premium or left with the government to accumulate at compound interest. All paid up and extended insurance values are participating and such values are issued in exchange for the full reserve value without surrender charge.

If the premium is paid annually, semi-annually or quarterly and death occurs, the discontinued value of premiums except for the current month will be returned. All these privileges are granted not only to those holding term policies under the war risk act but to all enlisted soldies and sailors in the future within 120 days of their enlistment or commission.

In addition, the proceeds of all policies are nontaxable; all policies are incontestable from date of issue, non-assignable and free from claims creditors and free from restrictions as to naval service.

After the first year loans and cash values are provided for the full 3 1-2 per cent reserve values. Loans may be made up to 94 per cent of the cash values and participating paidup or extended insurance is guaranteed on all converted policies. In the event of death, policies are paid in 240 monthly installments, while paid up policies are payable at death in one lump sum and endowment policies are payable at maturity in the same manner. One month's grace is allowed in the payment of premiums while liberal reinstatement provisions are contained in the new policies.

Altogether Uncle Sam is making an insurance offer to his soldiers and sailors which would appeal to the most hardened "case" ever solicited by a life insurance agent.

PALM SUNDAY AT METHODIST CHURCH

Special Services and Music—Program of the Day

"Palm Sunday" will be appropriately observed next Sunday morning at the Methodist Episcopal church by special music and suitable sermon by the pastor. Sunday school and men's class extend a cordial invitation to all who attend the church service to remain for the session of the school. If you are not a member of our school, we invite you to spend the hour from 12 to 1 with use.

The Epworth League service at 6:30 is under the supervision of Allen Arnold and promises to be a service of unusual interest. This young people's society has increased in attendance over one hundred per cent during the past few weeks.

"Jesus' Challenge" is the pastor's subject for the 7:30 service. Prayer service Thursday evening at 7:30. All members having Tithing cards or pledge cards for the Fellowship of Intercession are requested to bring them signed to church next Sunday.

CATTLE MEN TO VISIT CHARLEVOIX

Will Inspect Loeb Farm and Holstein Herd

A livestock trip to the Loeb farms at Charlevoix is planned by the Emmet County Farm Bureau for business men and farmers for Friday afternoon of this week.

The Loeb farms have the finest Holsteins in Northern Michigan. "Whether or not you like Holstein cattle it will be an inspiration to see this stock," said one of the men planning this trip. "The new barn is a wonder and the equipment is the latest thing in dairy barn fixtures.

"R. V. Otto, superintendent of the farm, extends an invitation to everyone in Emmet county to inspect their buildings and cattle."

CONG. SCOTT TO VISIT FRANCE

WILL ACCOMPANY SECRETARY BAKER ON OVERSEAS TRIP

Scott to Aid Soldiers' Kin and Make Search for Michigan Men Lost or Not Heard From

A Washington dispatch under date of April 6 says: "Congressman Frank D. Scott left Washington this evening for New York, and will be a passenger on the Leviathan which is to sail Monday for Brest with Secretary Baker's party. He will be accompanied by Congressman E. C. Mitchener.

"The Michigan members will remain with the secretary only during the voysge and while they are at Brest and thereafter will travel independently. They will be together, however, for most of the time in Europe, this being estimated now at about six weeks.

"Mr. Scott had hoped to to return to his district between the sessions of congress and reached the decision to go abroad after much consideration.

"The main reason for his going is that he has had a large number of inquiries lately about soldiers from his district whose whereabouts have been unknown to their relatives and about whom great anxiety is felt. He is taking with him a list of 150 of these cases and feels it his most important duty to learn if possible where the men are.

"The war department here has no record of them subsequent to the last word received from them direct and could give no answers to questions about them.

"Some of the missing soldiers were in France and some in Germany when heard from while others were in convalescent hospitals abroad. The periods of silence about them run all the way from 30 days to six months.

Foundation About Complata

The work of grading and excavating for the new garage under construction on Clinton street by the Northern Auto Co., will be completed by the end of this week. The wall foundations are well under way and with the material already on the ground, it is expected to have the building ready on schedule time.

The Ladies of the Baptist church will serve an Easter dinner in the church parlors, Friday, April 18, beginning at 5:30. Tickets 35 cents. All are invited. 15t1

DRY LEADERS CLAIM STATE DRY MAJORITY MAY REACH 150,000 MARK

City of Charlevoix Gives Dry Majority of 440—Good Roads Amendment Given 372 Majority—Proposition to Abolish Board of Public Works Carried

Charlevoix voters, both city and county, registered their approval of a dry Michigan by defeating the light wine and beer proposed amendment by an overwhelming majority and also went nearly as strong for good roads. The three wards of the city gave a majority of 440 for a dry Michigan, which is most convincing that the county fully intends to remain permanently on the dry side.

The $50,000,000 road bonding proposition was heartily endorsed. The returns from the city's three wards gave the amendment a total of 504 for and 132 against it. With but few exceptions the attitude of the city voters, both in Charlevoix, Boyne City and East Jordan, seemed to be highly in favor of the amendment. In no preeinct where returns have been received has the measure lost out.

The amendment to the constitution providing for increases in salaries of the supreme court judges met with disfavor in the eyes of the people, and was overwhelmingly defeated, the voters being under the impression that the present salaries allowed was quite sufficient for the work accomplished.

The city ticket was elected without opposition, no contest being made as bad been hinted.

Board of Public Works

The proposition to abolish the board of public works carried by a safe majority, a two-thirds vote being required to abolish it. In all 542 votes were cast on the proposition, of which 179 voted to retain and 363 to abolish. From now on the council will be in a position to transact any and all of the city's business without being compelled to await a decision from the board thus abolished.

The Vote in the State

Complete returns from five counties and partial figures from 55 others Tuesday afternoon showed on the wine and beer amendment 170.136 for the measure and 227,636 against it, a majority for the dry element of 57,500.

Cities Desert Wets

The last hope of the wets dwindled when returns from Wayne and the upper peninsula began coming in. Wayne went wet nearly 2 to 1 but the upper peninsula forsook the wets and gave the dry fair sized majorities. The wets were disappointed with the showing made in Grand Rapids, Flint, Battle Creek, Kalamazoo, Pontiac and other large cities which were expected to go wet but returned dry majorities. The only county returning a wet majority so far as reports now received show is

WAR CROSSES

Dear Old Pal:
It sure surprised me when your letter came today.
I'd concluded you had gotten your pen-finger shot away.
'Most a year since you have written; not since you've been "over there,"
But 'tis "better late than never" as quite likely you're aware.

I discern, from your epistle, that you had some lively times,
—As with you I'm well acquainted I can read between the lines—
And I know so well how little you for danger ever care,
It's a cinch you "mixed it" fearful when you won the Croix de Guerre.

You remember when, as "Gangsters," in some depredation caught,
Some would shirk the consequences of not doing as they ought;
But I always knew one fellow who would bravely take his due,
Never lie or sneak or snivel—and that youngster would be you.

So, Old Pal, it hurts me sorely when some farther on you say
You were married to a rich and handsome French girl yesterday.
Is that honor which you boasted and which I admire so, dead?
What of her you left behind you when you promised you would wed?

Ever since you won her promise she'a be thoroughly true blue,
Spite of other fellows' pleadings, kept her loyalty to you;
And while in a distant country, you were breaking faith with her,
Did no sense of your dishonor ever once your conscience stir?

Friend, I sure am disappointed at the tarnished, sordid dross
That has put upon a fair one such an unexpected cross;
Though the Croix de Guerre so bravely you may flaunt upon your chest,
In the coming Final Judgment, that, she hugs within her breast.

Will be valued far above it. Yours, for bravery in fight,
Hers for faithful, loving duty; in the clear and searching Light,
Yours, I fear, with that to tarnish will but scant attention win;
Hers is purest, brightest silver; yours, compared, but sordid tin.

STATE STOCKS TROUT STREAMS

NORTHERN MICHIGAN BEING CARED FOR

Fish Car Making Frequant Trips to This Ragion Bringing in Brown and Brook Trout

Northern Michigan trout streams never received better attention during the trout planting season than appears to be the case this season. The state fish commission car Wolverine is making frequent trips north and on each trip is bringing from a hundred to two hundred thousand brook and brown trout fry for the feeding brooks of the trout streams of this part of the state. Charlevoix, Emmet and Cheboygan county streams are receiving most of these small trout.

Friday another load was brought to Charlevoix and local sportsmen planted nearly fifty thousand small trout in streams of this region.

Northern Michigan streams should rapidly improve, say local sportsmen under the carefully planned campaign of the state fish commission.

WAR TRAIN TO TOUR MICHIGAN

TO STIMULATE INTEREST IN FIFTH LIBERTY LOAN

Consists of Three Flat Cars, Baggage Car and Pullman—Arrives In Charlevoix, Friday, May 2

The chief featura of the first exhibition train to be sent out under the direction of the Liberty Loan committee of the Seventh Federal Reserve district in connection with the Victory loan, is a whippet tank. These whippet or "baby" tanks are the first small tanks that were made in the United States and thousands of them were in process of construction when the armistice was signed. They are modeled after the French Renault type of caterpillar "baby" tanks with added improvements. The weight of these tanks is six tons and each is equipped with a sixty-two horse-power motor. The protective covering consists of steel armorplate five-eighths of an inch thick.

In addition to the tank, the exhibition will include anti-aircraft guns, siege guns, the famous French 75's, as well as trench mortars, howitzers, grenades, torpedoes, helmets and breastplates which were taken in battle. The exhibits, which are free to the public, will be in charge of a guard of twenty returned soldiers and sailors. Well-known speakers will deliver addresses at every stop.

The train consisting of three flat cars, a baggage car, in place of the box car used in former exhibition trains, and a Pullman will leave Chicago Monday, April 7th. The tour of exhibits will extend for four and a half weeks ending May 6th. The Michigan itenarary is as follows:

Friday, May 2nd—

Ar. Central Lake, 2:50, leave 4:00 p. m.

Ar. Ellsworth, 4:15 p. m., leave 6:00 p. m.

SOCIETY IN FLOURISING CONDITION

Congragational Christian Endeavor Hold Monthly Meeting

The Christian Endeavor Society of the Congregational church held its monthly business meeting and friendship supper in the church dining room last Monday evening. It was decided to give the May breakfast this year as usual, also to purchase a stereopticon for the use of the church.

The reports of the officers and committees showed the society to be in a flourishing condition. The membership has doubled within the last six months and a spirit of service and friendliness prevails which promises much for the future.

THIS IS CERTAIN

The Proof That Charlevoix Readers Cannot Deny

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the mirt of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

Mrs. R. M. McKeel, 214 Mason St., Charlevoix, says: "I suffered for several months with kidney trouble. I was bloated quite badly and had a weak and lame back. Doan's Kidney Pills, procured from Metcalf's Drug Store, brought me relief."

FIVE YEARS LATER Mrs. McKeel said: "All I have said in praise of Doan's Kidney Pills holds good today. Doan's completely cured me of kidney trouble and the cure has lasted."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs McKeel had. Foster-Milburn Co., Mfgrs., Buffalo, N Y

Mrs. Bernie Adams is on the sick list and was removed to Boyne Falls for medical treatment last Saturday.

Wm. Pearson and wife arrived from Canada Saturday and will live on his farm here this summer.

Quite a thunder storm Saturday night, but Sunday dawned warm and clear. Seems good to see the grass looking green.

Several ladies of our neighborhood expect to cast their first vote April 7th, and will vote "no" on the beer and wine amendment.

EVELINE

Jos. Courier and family have moved to East Jordan.

Mr. and Mrs. Spidle are again with us.

Mr. Frank Greenman will move onto the John Nasson place on April first.

Do not forget to go to election on April 7 and voto "no" on the saloon amendment.

Mr. Allison, who was on the Harnden place last summer, has rented the Joseph Warden place for the season.

Farmers' Club Friday night was well attended and the house was packed. Mr. Otto of the Loeb farms gave a very interesting talk on livestock. Mr. Bisbee of East Jordan lead the singing and gave us a talk on the beer and wine amendment. We plan to have our new county agent with us at our next meeting.

MAPLE GROVE SCHOOL NOTES

Fifth grade did fine in mental arithmetic.

Third and fourth grades are giving stories from pictures for language.

Sixth grade have finished their classics and will read history rest of term.

All good drawings, essays and maps will be placed on wall with child's name written on them.

Some very good free hand drawings of car, eye and heart for test in physiology were handed in by fifth, sixth and seventh graders this week.

Mable Howe, Tommy Broncie and Lottie Webster had best physiology drawings and Ruby Webster and Ethel Monty best essays on "Evangeline."

Roll of honor for week ending, April 4th: Willie Ferris, Cora Howe, Lottie, Ruby and Nora Webster, Custer Howe, Hilda Wightman, Floris Minier, Ruth, Ella Pant, Ethel Monty.

BARNARD SCHOOL NOTES

A very happy surprise greeted us this Monday morning. We found our floor had been treated to a much needed surprise. Many thanks.

There was a mistake in the school report for Barnard last week. Following is a complete list of those neither absent nor tardy for the month ending March 28: Beatrice Walker, Jakie Klooster Robert Flagg, Charlotte Lewis, Robert Bolhuis, Jennie Klooster, Harley Welch, Emerald Bolhuis, Margaret Potter, Jessie Cork, Arthur Welsh, Dorothy Smith, Hazel Beattie.

MOUNTAIN DISTRICT

The Sunday school is preparing an interesting program for Easter.

Alice Hayden and brother Archie attended Sunday school on Sunday.

John Seiler received a lot of one hundred fine little chicks last week.

Charles Hosegood, who is working in Boyne City was home over Sunday.

Mrs. L. Wilson and daughter Annie spent the week end visiting friends in Boyne City.

There will be a social at the school on Friday, April 11, conducted by the Sunday school. Come and bring your friends.

Mr. and Mrs. Bearss enjoyed a lovely walk last Thursdny evening. They did not plan to do so but their horse thought thnt they were making too long a call at their neighbors and took upon himself to return home. What more could one expect when his master forgot to tie him. Wonder if Mr. Bearss voted dry Monday?

We can add several miles to the life of that tiro by properly repniring it. Bring it in and get our price on the work needed to fix it up. Benj. Brown. 13tf

CLARION

Leo Holmberg was in Boyne City and Charlevoix on Tuesday.

Mrs. E. R. Everts was a Petoskey visitor last week.

Mrs. Robert Steele of Walloon Lake was a Petoskey visitor last week.

Miss Ethel Kay of Petoskey visited friends in Walloon Lake on Monday.

Miss Lina Brown, who has been ill with scarlet fever, is reported as slightly improved.

A fine temperance program was given at the U. B. church at Walloon Lake on Sunday evening.

Mrs. E. J. Older, who has been for several weeks visiting relatives near Alma, returned home on Fridny.

A business meeting of the Red Cross was held Friday at the home of Mrs. Annn Hendley of Walloon Lake.

Miss Irma Tubbs was called to Petoskey last week by the illness nnd death of her sister, Miss Eugenia Tubbs.

Ensign J. E. Weaver of New York is visiting for a few days at the home of his mother, Mrs. W. G. Weaver.

We can add several miles to the life of thnt tire by properly repairing it. Bring it in and get our price on the work needed to fix it up. Benj. Brown. 13tf

BARNARD

Lawrence Boss and family spent Sunday with relatives in Atwood.

Orville Beattie of Ann Arbor is spending his spring vacation at home.

The ladies of Barnard presented Mrs. E. Shapton with a chair as a farewell gift.

A memorial to Leslie Shapton is to be placed in our school room in the near future.

Marion township voters, both masculino and feminine, turned out en masse on Monday.

Mrs. Wm. Shapton entertained her Sunday school class of boys, also Mrs. Flagg and her girls class, on Friday evening. Superfluous to say that everyone enjoyed the occasion.

We vulcanize and repair tires, and guarantee satisfactory work. Benj. Brown. 15tf

NORMAL NOTES

Miss Thorsen substituted in the third grade the first three days of last week during the absence of Mrs. Belding.

"We are seven," the eighth bird has taken flight to a more attractive forest region.

Mr. Kittenun, one of the state club leaders will present boys and girls' club work to the normal class, April 10th and 11th.

C. C. N. students are very much interested in their critic room practice teaching and show initiative ability in the development of the sand-table and calendar work.

Notice of Teachers' Examination

Regular examination for teachers of Charlevoix county will be held according to law April 24-25 at the county seat. Applicants will begin work at 8:30 unless officially excused by unanimous consent of board of examiners, in county normal room of Charlevoix central school. Paper furnished. Certificates of all grades issued. For special information write commissioner of schools. Respectfully submitted, May L. Stewart, Commissioner of schools. 15t2

SCHOOL COMMISSIONER'S NOTES

Although the week was filled by numerous other public duties, the commissioner made twelve short spring visits during the past week among the rural schools. The immediate purpose of the spring visits this year is assisting the teachers in their work for the township school days. The teachers are almost unanimous in their feeling that the contest is a great incentive for better work, and helps to remove one argument against the rural school—small classes and lack of competition.

Due to the irregular terms and the great amount of sickness in the county this yenr, the commissioner will not send out term examinations as final tests. Each teacher is urged to give her own finnl examinations and to plan that the shortage of this year may be finally completely made up in 1919-20.

Penine No. 1 school director reports that they will probably have ten months of school next year. This will help greatly in making up for time lost in sickness this year.

From twenty-five schools asking for teachers only four asked for teachers who would accept less than $60 per month.

April 21-25 is "Be Kind to Animals" week.

In another column of this paper will be found legal notice of teachers' examination April 24-25.

Boyne Valley teachers held second meeting last week.

Attendance was never better than at the present time. Again the Gill school reports no absence for two weeks. Scarcely any absence anywhere except for sickness and very little of that.

Watch the county normal notes next week for report on M. A. C. Extension work and formation of garden club. Also watch extension work in library helps for rural schools through state nssistance. We are having practical co-operation these days and using every bit of it.

Sixteen senators voted to kill Senator Baker's pet bill for the Oregon system of publication by the state of campaign documents and, inasmuch aa the eanator could muster but tbirteen votes, this bill le dead for the eession. The killing occurred while tbe bill wae under coneideration on third reading and there is no danger that it will be resurrected again this session. Several itmes before it haa been near death but Baker had used a political pulmotor and saved its life. Thia time it ls effectively buried and candidates for public office in the next primary and general election will again be permitted to advertise in the newspapers and on billboards, a practice which would have been prohibited had the Baker bill become a law.

The new wrecking tug Favorite, built during the past winter at Cleveland to replace the wrecker of the same name, which was taken over by the government and sent to France, is now in commission. She ie owned by the Great Lakes Towing Co. The new wrecker is claimed to be tbe best craft of the kind afloat, being equipped with all modern requirements and carries a crew of twenty-five men. For many years Cheboygan was the headquarters of the orig-inal wrecker of the eama name, and it le altogether likely that the new boat will be atatlonad here.—Cheboygan Tribune.

Laet Saturday night about nine-thirty o'clock, ahortly after Mrs. Jas. Tanlyn, 119 Eaet Main atreet had returned to her home from attending a picture ahow, eomeone fired a bullet through the front window and curtain which narrowly miseed the lady of the houso. Mra. Tanlyn wae visiting with frienda when the ehot was fired, evidently from a .22 rifla, and all were so etartled that by the time they reached a door and looked out no one wae in eight. The bullet made a clean hole through the large glaaa and window curtain and must have passed but a few inches from Mrs. Tanlyn's head while ehe waa sitting in a chair directly across the room. The lady has no known enemy and the supposition is that soma boy or man was careiessly handling the gun. The police department is slently inveetigating the myeterioue affair.—Boyne Citizen.

Four officers and 18 men of the Amarican force in northern Russia have been decorated by the British government for gallantry in action in the campaign about Shenkursk in January and in the fighting about Kadish. One of tha men to be decorated with a medal was Sergeant Edward J. Herrman, son of Mr. and Mrs. Frank T. Herrmann who reside at 430 Pearl street, Boyne City. Sergeant Herrmann left there for Camp Custer on September 19, 1917, and went overseas last June. He is with the 310th Engineers.

Edward P. Magee, for three years with the Canadian overseas forces and who since his discharge has been a chemist with the East Jordan Iron Co., married Miss Hazel L. Capelin, daughter of Mr. and Mrs. Wm. Capeline, in Petoskey, Thursday of last week. Both bride and groom are Boyne City people.

We wish to announce that we are again making deliveries and also that we will keep open evenings commencing Monday, April 7th. L. J. McCann. 15t1.

As a specimen of mindless thinking, what's the matter with the logic which argues for the league of nations scheme no matter whether it is amended or unamended? If you would put a cider label on a jug these folks with hand-me-down ideas would insist on drinking the contents even if it were carbolic acid.

POLITICAL OWNERSHIP MEANS HIGHER COST AND POORER SERVICE

Two things follow the political seizure and operation of industry as naturally as the night the day.

The first is deterioration in service, due to the paralyzing influence of bureaucracy.

The second is increase in cost to the people, owing to the inefficiency and waste which now accompanies public administration.

The announcement of a twenty per cent increase in telegraph tolls was, of course, inevitable from the hour the telegraph companies were politicalized.

Of course no one claims the telegraph services has been improved. Everbody knows it has deterioriated. Promptness of telegraph delivery is no longer to be depended upon, as it used to be. Night letters are committed, in the morning, to the mails. Telegrams are in many instanees not personally delivered, but read to the addressees over the telephone. Dispatches are not receipted for, as formerly, the department thus avoiding definite responsibility for delay or non-delivery of messages.

It is the old story over again; the story of the railroads, the express companies, the telephone lines. The people pay more and get less. Railroad fares and freight rates have been increased from twenty-five to as high as five hundred per cent. Nevertheless, the railroads are operated at a loss. We were told by the politicians now in power for many years that the transportation kings were getting rich at rates averaging not much more than two-thirds now necessary under government operation; yet the people are now called upon to meet operation deficits through direct taxation as well as to pay the higher rates for the poorer service.

Express rates have been raised, while the service has greatly deteriorated. Telephone tolls have on the whole, been increased. Now telegraph rates go up.

The politicians in power have performed one useful service to the American people. They have demonstrated the sophistry of the claim that the politician can run a business better than the business man can; that he can give better service or lower rates to the people. Political operation of industry means "soaking" the people in order to build up a great bureaucratic political machine, continually demanding more of the people and giving less to them for their money.

There is no parallel in all the history of governments for the wild extravagance and wicked waste which has characterized the present national administration. Possibly government ownership and operation has not had a fair show. But the people are not asleep to the fact that another such administration, entirely without thought as to the economy and efficiency with which the public business ought to be administered, and entirely willing to use the whole fabric of industry as a means of self perpetuation, may come into power at any time through such ear-catching phrases as "he kept us out of war."

After the horrible example in the evils and oppressions of public ownership the people want no more of it. They demand the relief that manifestly can come to them only through unloading from their backs the horde of functionaries who have been busily engaged in breaking down the great industrial structure which has been reared in this country with such vast expenditure of genius and labor. They expect nothing from public utilities as politically administered but higher rates and poorer service. They are reconciled to this as inevitable. But they are anxious to go to the polls and register their command for a return of the industries of this country to the hands of men who will operate them on higher standards of service and at lower standards of cost to the people, under intelligent public regulation.

THE BIG BANK ON THE CORNER

THE VICTORY LOAN

The citizens of Charlevoix county are much in the position of the athlete who having made a record in the past is called upon by an admiring audience to repeat the performance on every occasion.

We have oversubscribed every Liberty loan so far offered, and we are now called upon to maintain our record with the last and greatest of these loans.

While the country is not in the throes of war and the urgency of the occasion is not apparent, as in the past, the necessity of floating the Victory loan is of vital importanee and must be taken care of.

A year ago few imagined that America would have won the war and have been ready to wind up the fiscal arrangements at this date. Peace brings its obligations no less than war and the bonds that we are now asked to take up are to pay for the enormous equipment that won the war for the Allies in 1918.

While the war was in progress there were many fathers and mothers in this country who would have paid almost any price to have brought the war to a close even one day sooner. The death toll was the real debt and the real sacrifice that our people have paid and made.

The war is over and our boys are no longer subject to the hazards of battle. But the expense entailed by demobilization and the army of occupation in Germany must still be met. Vast sums due for munitions, ships and aeroplnes must be paid in order to assist promptly in the readjustment proeess.

Beside all this we should remember that investment in these bonds constitute a first class investment. High rates of interest and short time notes make the Victory bond a most attractive proposition.

Chairman Peek of the Department of Commerce Industrial Board predicts cheaper food in the near future. What a peek into the future, with spring garden truck and sass coming on! Predicter Peek gives a new version to Milton's line—

"Till old experience do attain
To something like prophetie strain."

If you do not believe President Wilson and the other southern Democratic leaders want to save the world for democracy, just look at Virginia and other states under their control where they have fixed it so that five-sixths of the men who fought to save Europe and Asia for democracy are not entitled to a vote in their own communities.

Even talk comes high under a Democrntic national administration. After boosting rates the administration has created an operating deficit of a million dollars a month in running the telephone business.

Eugene Debs denunciation of the courts seems to strike horror to the hearts of a lot of administration claquers who led the chorus of applause for Mr. Gompers when he did the same thing.

When you ask a Democratic politician to explain the waste of a few billion dollars in the U. S. A. he comes right back with some able arguments on the Schleswig-Holstein question.

There is much truth in the statement that Germany fought the war largely on wealth stolen from invaded territory. Her war burden has been slight.

Yes, we live in a new world, as we are often told with sueh originality but the seventeen year locusts will be back on schedule time just the same.

One of the most terrible consequences of the war will be the gas attaek that will follow in its wake on the chautauqua circuit.

President Wilson "threatens" to expose the secrets" of the peaee conference. "Open eovenants openly arrived at."

How some people do enjoy being kept out of war by President Wilson just before every national election.

Let American trade and the flag go together—on American ships.

Lantern Fly a Brilliant Insect.

The lantern fly of South America is said to be by far the most brilliant of all luminous insects. It sometimes measures more than 2 inches in length. The shape of the head is very curious. It is furnished with a hollow transparent snout nearly the length of the body, whence comes the lamplike light.

The sermon theme next Sunday morning will be "The Cross." In the light of recent history the cross has gained a new significanee in many minds. The evening meditation will be upon "The Sixth Word from the Cross." Bible school at 12 o'clock. Y. P. S. C. E., at seven p. m.

The hour of the services at the Ironton church has been changed. The Sunday school meets at 2 p. m. and the church service is at 3:00 o'clock. The interest and attendanee at the Sunday school are very gratifying. Brother Robert Sherman is always on hand to meet his Bible class. He is n good teacher and all the men and women of Ironton and vicinity will find a friendly welcome in his class. The Young People's class seems to be the most flourishing and enthusiastic class in the school. Its members are always on hand. The financial condition of the school was never better. There are classes for all, old and young, and all the people uf Ironton are cordially invited.

CONVERT GARAGE INTO DANCE HALL

Charlevoix Residents Will Furnish Fine Place for Amusement

G. E. Beard and I. L. Diec have purchased the Erickson garage property at the foot of Clinton street, and will remodel the building into an up-to-date dance hall. The outside of the building will be repaired and painted and the inside ceiled and decorated. A fine floor will also be laid, giving a space of 60 x 40 feet, with music stand located in center.

Everything will be done to make the place attractive and a clean place for amusement. The owners expect to open about the first of May.

We wish to announee that we are again making deliverics and also that we will keep open evenings commencing Monday, April 7th. L. J. McCann. 15t1.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns" "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons. Thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds, and particulary those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

REMODEL BUILDING

H. S. Harsha Improving Bridge Street Property

H. S. Harsha has a number of carpenters at work on his buildings on Bridge street. The restaurant run by Mrs. Viola Schmidt will soon have a new concrete foundation and also a plate glass front, which will add greatly to the appearance of the building. They are also laying a foundation under the cobbler shop, just north of the restaurant.

Just Before You Roam

When you're roaming o'er the country looking for grass where it's green,

Following up the golden vision, fortunes that you haven't seen,

Look about your city careful when you're starting to depart,

See the beauty all about you and you'll have a change of heart.

"Charlevoix the Beautiful" truly spoken by the many who have roamed,

That nowhere for nature's beauty, no, not even ancient Rome,

Can they beat our little city with it's sunsets in the west,

Travelers from from afar have said, "What beauty, our haven, we'll rest."

Let us assist your rest by supplying you with the best service, good goods from the largest and most complete stock in Northern Michigan.

The policy of this store is to make good; to have you satisfied.

Put On The Left Shoe First

They all said it—Doughboy, Pollu, and Tommy—and clinging to that bit of trench superstition, they believed it brought good luck for the day—and longer life in the shelled racked stretch about them.

But in these fairer, happier days, when peace whirls the wheels of motordom again, we say,

"Put on the *right* shoe first."

And, of course, the right shoe, is the Goodrich Shoe, because it means good luck day and night, and longer life in your tires.

But there's no superstition about it; only the big, husky body, and the wide, thick BLACK SAFETY TREAD, Goodrich builds into tires that—

Round out the dependability and durability of Goodrich Service Value.

Arthur Williams of Detroit was home Sunday visiting his father and mother, Mr. and Mrs. Jas. Williams.

At the Holland church there will be an afternoon service preached in English on the first Sunday of each month, beginning May 4th. These services are open to all and it is hoped they will be well attended.

Storks are as numerous in this vicinity as robins. One passed over last week leaving a fine baby girl at the home of George Telgenhoff and another at Jake Kloster's. Both mothers and babies are doing very well but the hilariousness of the fathers indicate a very irrational condition.

MILES DISTRICT

Frank Boyd reeently purchased a horse near Charlevoix.

Ira Olney was in our midst Sunday from Ranney Distriet.

Mrs. Milo Whitley spent the week end at Charlevoix, where her husband has employment.

Mrs. A. Miles visited at the home of Mr. and Mrs. Ben Madill at Ellsworth last Thursday.

Miss Bess LaLonde spent the week end at the home of Mr. and Mrs. Weldy, east of East Jordan.

Mrs. A. Miles and daughter Manila spent one day last week at the home of Mrs. Art Farmer at East Jordan.

Walter Fowler returned to the home of his parents, Mr. and Mrs. Roy Fowler after being overseas in the service of Uncle Sam.

Mrs. Fred Bancroft and father, Det Evans, went to Charlevoix Saturday to consult with Dr. Armstrong.

ROCK ELM

Mr. Tate had an auction sale on Tuesday.

No school Monday forenoon on account of election.

There was a dance at the Grange hall last Friday night.

In spite of the rain the majority of the Rock Elm ladies voted.

Mrs. Grace Stephenson is visiting her parents and other relatives at Jackson.

Miss Ora McBride, Miss Stewart and the Misses Greta and Agnes LaCroix were among the visitors at our school last week. Miss Stewart came on the invitation of the director to see what further equipment was necessary to standardize.

BUSINESS SHOWS RAPID INCREASE

ELLSWORTH GARAGE LOOKS FORWARD TO BANNER YEAR

New Cars Now on Floor for Inspection of Prospective Buyers—May Enlarge Garage

With the arrival and unloading of a carload of Chevrolet automobiles the first of last week, the Ellsworth garage, owned by J. H. Elzinga, began its third year of business with the prospects the best of any yenr since its organizntion.

Mr. Elzinga started selling autos when he secured the Antrim county ageney for the Chevrolet Motor Car Co. in 1916, working the first year on a small scale and using a barn on the Hubbard property to house his cars. He liked the business and realizing the need for an up-to-date garage in Ellsworth, purchased ground and erected the cement block building he now occupies.

Mr. Elzinga introduced the first Chevrolet cars into this section and they have given such universal satisfaction that he now has trouble in getting the cars to supply the demand. The 1919 model Chevrolet shows several improvements over the cars of the previous years, one decided improvement being the added height from the ground, a feature which will commend itself favorably to Chevrolet enthusiasts.

Mr. Elzinga also has the agency for the Oldsmobile, the lack of floor space alone preventing these cars from being carried in stock. The business is expanding so rapidly however, that the near future will no doubt see an addition built, either to be used for stock or for a workshop, thereby giving much added space to be used as a showroom.

The Ellsworth garage is well equipped for rapid, up-to-date repair work. James Ruis, the head repair man, has been with Mr. Elzinga the past three years and has by careful practice and study so far perfected his trade that he is considered by many to be equal, if not superior, to any in this section of the country, especially along electrical lines.

"The motto at the Ellsworth garage is "prompt service at moderate prices," and Mr. Elzinga will be glad to receive your patronage along the line of repairs and if you are thinking of buying a new car, he will be glad to show you his wares and assure you courteous treatment, no matter whether you buy or not.

FEW THRILLS ON ELECTION DAY

ENTIRE TICKET NAMED AS ON PRINTED BALLOT

Funds for Highway Improvements Decided Upon—Opposed to Free Fair

A good sized crowd turned out for the annual spring election held here on Monday of this week, several women votera braving the bad weather and poor roads to cast their vote at the first general election.

The annual business meeting was held at two o'clock and several recommendations were made by highway commissioner Geo. Bradford, all of which were approved. It was voted to raise one-half of one per cent for the improvement fund and one-quarter of ono per cent for repair funds to be used the coming year. The proposition of a free fair was also voted on, about ninety-nine per cent of those present going on record as opposed to this manner of running the county fair.

The entire township ticket was elected, there being no opposition. On the state tieket the republieans had a walk-away with 203 straights to 29 Demoerat, five Prohibition and four Socialist votes. There were 38 blanks.

Kate Wilson for school commissioner received two hundred and seventeen votes out of the total. The liquor amendment was benten by more than four to one, there being two hundred and nineteen against this mensure with fifty-one voting yes.

One hundred fifty-one voters were opposed to the salary amendment with seventy-three in favor of it, while the good roads bonding proposition won by a vote of two hnndred and eight to fifty-six.

Tho date has not yet been set for the new officers to qualify, but when this is done things will be in shape for the township politieal machinory to start running smoothly again.

Wayne. Incomplete returns from more than half the total voting precints in the state gave on the liquor amendment: Yes, 160,242; no, 205,655.

Good Roads Issue Wins

The $50,000,000 good roads program carried and the latest returns show increasing majorities for the entire Republican state ticket. Mrs. Dora H. Stockman of Lansing, for member of the board of agriculture and Thomas E. Johnson, Coldwater, whose name was pasted on the ballot following the death of Fred L. Keeler, Republican candidate for superintendent of public instruction, were elected.

Avsilable figures from upper Michigan on the wine and beer amendment show:

Houghton, yes, 969, no. 1,402; Chippewa, yes, 698, no . 2,157; Iron, yes 381, no , 454; Schoolcraft, yes, 290, no , 530; Luce, yes, 165; no, 588; Keweenaw, yes 234, no, 808.

Stata Rafusas Judges Raise

Incomplete reports on a third constitutional amendment to permit increasing the salaries of justices of courts of record during their term of office indicate it was defeated. Little interest apparently was taken in this amendment, however.

The proposed purchase by the city of Detroit of the local lines of the Detroit United Railways at a cost of $31,500,000 was decisively rejected according to virtually complete unofficial returns. With but 16 precincts missing and 60 per cent of the total vote required to carry the figures stood: 56,601 in favor of the plan and 64,174 against it.

In 287 out of 364 precincts in Wayne county including Detroit the vote was liquor amendment yes 76,224; no, 42,252; road bonds, yes, 78,477; no, 25,092; judges salaries, yes 58,563; no, 40,940. Out of 319 precincts in Detroit 297 give on street railway purchase, yes, 55,041; no, 62,284. Neccssary to carry, 60 per cent.

Predicts 150,000 Majority

The dry majority will reach at least 150,000 said Grant M. Hudson atate superintendent of the. Anti-Saloon league this afternoon. "The lower peninsula counties are doubling and tripling their dry majorities of 1916 and the upper peninsula counties are adding substantial majorities to the dry column.

Six of the twenty precincts in Emmet county give the good roads proposition yes, 1,733 and no 458; judges salaries yes 617, no 866; wets 822, drys 2,340.

With the largest vote ever polled in Mancelona, the good roads amendment carried with a big majority as did the G. O. P. state ticket. The odds against the saloon amendment was 10 to 1 in Mancelona. Antrim county voted **dry by a big** majority.

Manistee complete city returns are as follows: Good roads, yes, 1,536; no, 1,001; salaries, yes, 906; no, 1,242; wine and heer, yes, 1,188; no, 1,597.

Grand Rapids, April 8.—Kent county voters Monday endorsed the good roads amendment by returning a majority in excess of 15,000 in favor of it and by the same number of votes turned down the proposed light wines and beer amendment.

With five townships and four city precincts the grand total of votes cast in Kent county for the good roads amendment was 29,880 and the number against it 14,706. The light wines and beer amendment received the support of 13,042 Kent county voters and was turned down by 28,252.

The greatest surprise of the election in west Michigan was the support which the farmers of Kent county swung to the good roads amendment. Only three townships returned a majority against it. The township vote alone, not counting the five from which returns were not available Tuesday night, was 7,362 in favor of the amendment and 3,931 against it.

The farmers stood solidly against the light wines and beer proposition. Just 8,992 voters voted against it in 24 rural precincts and 3,161 voted for it.

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is isexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

AROUND THE FARM.

Let'a be careful how we fertilize the rivera by spreading good manure on the side hill in winter, says the Farm Journal.

Keep your eye on the spot where the frost first goes out and get something in that will grow.

It is easy to get too economical in splitting post timber and try to make too many out of a cut. They will not last so long as they would if larger around.

Early sowing for oats is half the battle for a good crop. You are less likely to see early sowed oats that rust. The grain is apt to be heavier and the crop finer in every way.

How are the timothy and clover coming through the winter? If you can scatter a bit of manure over the new seeding where it is a little thin and where the snow does not lie it will bring excellent results.

DAIRY COW RATIONS.

Important That Roughage Be Used to Lower Cost of Feed.

Since roughage is usually grown on the farm the skillful feeder will have the cow eat as much of it as possible, for by so doing the expense of concentrated feeds is reduced. F. S. Putney of the dairy husbandry department at the Pennsylvania State college gives the following general rules for feeding roughage:

Feed two and one-half to three and one-half pounds of silage for each 100 pounds of live weight of cow. Most cows seem to prefer about three pounds.

Feed five-tenths to eight-tenths of a pound of hay or its equivalent, in addition to silage, for each 100 pounds live weight of cow. Most cows seem to prefer about six-tenths of a pound when fed a grain mixture of one pound grain for each three pounds of milk produced. The quality of the roughage will have much to do with the amount consumed; hence some cows may eat one pound of hay for each 100 pounds live weight, in addition to the silage.

Where silage or other succulent feed is lacking cows will eat, from one and six-teaths to two pounds of roughage for each 100 pounds live weight.

In selecting concentrated feeds palatability, bulk, variety and effect on health should be considered. The greatest consideration, however, for profitable feeding is cost.

ATTEND SCHOOL OF INSTRUCTION

Local Masons Visit Brothers in Petoskey Last Week

A number of members of the local Masonic lodge went to Petoskey on Thursday night of last week to meet Frank O. Gilbert, grand lecturer, who conducted a school of instruction in that city on the evening above mentioned.

A large delegation from Harbor Springs, Pellston and other points were present at the meeting.

A delicious banquet was served at 6:30 o'clock following which Mr. Gilbert gave an instructive and interesting address.

There will be a dance at Ironton Grange hall on Friday evening of this week. Come and have a good time. 15t1

SIX O'CLOCK SUPPER FRIDAY EVENING

Followed by Regular Meeting of Commercial Association

The second six o'clock supper and smoker scheduled for the Charlevoix Commercial Association will be held in the I. O. O. F. hall on Friday evening of this week.

The regular business session of the association will take place after the banquet. President Allen states he has a number of important questions to bring up and asks that every member be present, not only at the feed, but at the business meeting also.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time: by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure

HOLD ANNUAL SUPPER AND SMOKER MONDAY EVENING

Needs of Department in Fire Fighting Equipment Carefully Discussad—Have Fine Record

If plans talked over Monday evening at the fire hall ever mature, and it is quite likely they will, Charlevoix will have one of the best equipped fire departments, backed up by the huskiest hunch of volunteer fire fighters, of any city in northern Michigan.

The fire laddies pulled of their yearly stunt of entertaining the new and old members of the council and a few friends Monday night after the regular session of the council was over, and the feed that followed showed that the boys could hurry together a rattling good supper with the same dexterity as they have been in the habit of answering fire alarms and extinguishing the fires.

The matter of equipment was discussed from all angles, and it took but a short time to learn the needs of the department. It was found they had plenty of hese, nozzles, several ladders, coats and boots, but no method of carrying them to the scene of the fire. The hose cart carried the necessary hose and nozzles, the chemical wagon was in itself found as practicable as any of its size, the fire fighters themselves carried their boots and coats, but if proper handling of the fire required a ladder, none was at hand.

But even with the department working under these conditions, Charlevoix's per centage of fire loss is less than any city in the county, and also less than the majority of cities in the entire state. The work of Charlevoix's volunteer fire fighters cannot be over-estimated. They have worked faithfully and willingly with the equipment at their disposal and have accomplished more than any equal number of men with an up-to-date equipment in any city in Michigan.

Now they ask for added equipment, and their request should be willingly granted. The most urgent need is a fire truck, equipped with hose, ladders, chemical, axes, nozzles, smoke masks, etc., and thus equipped will be able to cope with any fire that may occur.

Without a doubt their request will be granted and before the present season is over, Charlevoix's fire department will be one of the best fire fighting units in the country.

WILL GIVE SPRING AND FALL SERVICE

Michigan Transit Company An All Saason Proposition

The Michigan Transit Company, the new boat line, proposes to give Charlevoix steamboat service, not only through the summer season, but also in the spring and fall. It plans to begin operations with the Kansas, leaving Chicago on the first trip, April 26th, arriving in Charlevoix the 28th.

To lend every encouragement to the new line, the merchants of this city are being urged to route their freight by this line. Heretofore Charlevoix has been accustomed to have the boat service to Chicago cut off any time early in the fall. The new line promises to operate clear up to the end of November. This is the kind of service Charlevoix wants and can get, if we lend the necessary financial assistance. It certainly looks worth while.

HENRY L. WINTERS IS NOW A MAJOR

Commandar of Headquartars Co. Receivas Maritad Promotion

According to the East Jordan Herald, Capt. H. L. Winters, of Headquarters Co., formerly Co. I of East Jordan, has received a merited promotion to major. The article is of interest to Charlevoix people as well as residents of East Jordan, and we publish it in its entirety:

"Letters received here by friends from our old Company I soldiers indicate that at last our army machinery had decreed that Henry L. Winters, former Captain of Headquarters Company, 125th Inf., and recently Captain of Company F, same regiment, should be decorated with the gold leaf and endowed with the office and title of major.

"'Better late than never' is an old axiom, but why this promotion was not made long ago is beyond the ken of us stay-at-homes. If ever a man was boiled, stewed, frizzled and fried in all things pertaining to army life its our self-same Henry.

"Uncle Sam you've been a long time getting there, but we thank you just the same.

"Gentlemen—Major Winters."

WILL AOO NEW LINES OF BUSINESS

TWO DEPARTMENTS UNDER SEPARATE MANAGEMENT

Charlevoix Abstract & Engineering Co. to Enter New Business Field With Added Territory

The Charlevoix Abstract & Engineering Company have within the present week added two distinctly new departments to their rapidly increasing business, that of bonding and mortgage loans and of building construction.

They will represent responsible bonding companies to the extent that will enable them to furnish bonds to city or county officials or individuals where bonds are required. Those seeking mortgage loans will be taken care of, under a fixed commission, without bonuses, nor any strings tied to the deal whatever. Special attention will also be given to the buying and selling of real estate, a commission being based only on the amount involved.

This department of the company's business, which will include insurance, abstracts, real estate, bonding and mortgage loans, will be under the management of P. E. Vandermade, who at the time the company expands its business, enters into their employ. Mr. Vandermade needs no introduction to the people of Charlevoix, and it goes without saying that he will serve not only his employers, but the general public, in a most faithful and painstaking manner.

The other new department will be that of building construction. At present the company are not in a position to announce the name of the man who will be placed in charge. This branch of the business will include that of all matters pertaining to the construction of a house or business block, the company, under its manager, to assume all responsibility and see that the person who builds or repairs is given proper attention and a square deal.

The operations of the Charlevoix Abstract & Engineering Company will not be confined only to Charlevoix city or county, but additional territory will be covered to extent that under present plans, at least five counties adjacent to Charlevoix will receive their attention.

ASSN. MEMBERS ENJOY SUPPER

Commercial Club Meeting Friday Night Well Attanded

Some 40 members of the Charlevoix Commercial Association attended the six o'clock supper and business meeting of the association held in the I. O. O. F. hall on Friday evening of last week.

The business session held after the supper was one of interest and many questions pertaining to the welfare of the city were discussed. In the future, the six o'clock suppers are to be held but once a month instead of every two weeks.

Members should keep in mind the date of the next regular meeting and lend their aid toward putting across the many projects the association are working upon.

SELL HIGHWAY BONOS TO PUBLIC

STATE TO USE THIS PLAN IN ROAD WORK

Legislature to Pass Necessary Measures to Start Plan in Operation —Draw 4½ or 5 Per Cent

Michigan's bond issue for road purposes probably will pay between 4½ and 5 per cent interest, according to John Daprato, chairman of the house roads and bridges committee, the body from which will come the legislation made necessary by popular adoption of the $50,000,000 bond issue.

The first duty of the legislature will be to pass an enabling act providing for the issuance of the bonds, fixing the amount of the interest they will draw and other details.

It will be necessary to pass other acts which will control the spending of the money voted by people of the state. Many of the questions are still undetermined in the minds of the legislators.

One expectation of Mr. Daprato is that the bonds will be marketed in such denominations that the general public can buy them. This is, however, only one of the numerous details which remain to be threshed out by legislators, Gov. Sleeper, State Highway Commissioner Rogers, Attorney General Groesbeck and other state officials.

"The legislature will appropriate no more money," said Mr. Daprato, "than the highway department can properly supervise the expenditure of. If it can continue to supervise expenditures at the same rate shown during the last six months it will mean $4,000,000 or $5,000,000 during the first biennium.

"It means that we must make a change from the present schedule. For instance, in counties which are paying 50 per cent and the state an equal amount, the percentage to be paid by the state will be larger. One of the things to be determined is what the federal aid money may be spent for. The government pays 50 per cent on construction and building. The state and county will split the remaining 50 per cent, making the state's portion 25 per cent and that of the county 25 per cent.

"The amount to be paid by the state to the counties will be based on the cost of construction. We believe that is fairer than the other system of state reward on cost per mile. Some counties for constructing the same class of roads must pay more. One factor in this is the distance from the supply of road material. Another thing is that we cannot say what the federal conditions will be. Road bonds ought to be issued to draw somewhere between 4½ and 5 per cent. That is a point to be decided by the two committees of the house and senate and the attorney general.

"There will be of course a 'guarantee clause' to protect the state against a county which possibly might want to build a more costly system of roads, to make the state's portion heavier."

WOOD BROS. PURCHASE FAGAN PROPERTY

Located at Cornar of Bridge Street and Antrim Extension

Wood Brothers closed a deal last week whereby they become the owners of the vacant lot, corner of Bridge street and Antrim street east, for a number of years owned by John Fagan.

While for the present no improvements will be made by the new owners, ultimately they may erect a fine business block for their rapidly growing electrical business. The location is an ideal one, giving them unobstructed light from the west, south and east, with access to the lake, thus enabling them to take care of launches, etc., on Round Lake.

LIQUOR IN MICH. NOW A FELONY

NEW LAW MOST DRASTIC EVER PASSED

Man's Homa Inviolate and May Not Be Searched Without a Warrant

Mere possession of liquor in Michignn now is a felony under the latest prohibition low, which state authorities charncterize as the most drnstic ever enacted by any state.

The statute, intended to remedy defects in former prohibition laws, prohibits sale, shipment, delivery, or possession of any intoxicating liquor and fixes the penalty at six months to two year's imprisonment with a maximum fine of $1,000. The law does not apply to druggists and others specifically exempted.

The law supercedes measures passed after Michigan went into the "dry" column in 1917, and goes on the statute books 11 months after prohibition bocamo effective. In a contest resulting from confiscation by state authorities of a quantity of liquor the Michigan supreme court declared invalid the search and seizure section of the Damon law. Then followed a near flood of liquor into Michigan from adjoining "wet" territory.

State authorities were powerless to stop the wholesale importations unless the liquor was in plain view as it crossed the border. Finally, by invoking federal aid under the Webb-Kenyon law, forbidding importation of liquor into "dry" territory, and using the injunction to prevent railroads transporting liquor into the state, the flood was checked.

Under the new law all property rights in liquor or in containers used in its connection and vehicles used to handle it are abolished. Search of person, containers, vehicles or buildings except private residences may be made on suspicion and without warrant. A man's home, however, is inviolate and may not be searched without warrant, which must be supported by sworn evidence. Vehicles and containers used in transporting liquor may be confiscated.

The law defines as intoxicating liquor any liquid which the dealer must pay a federal liquor dealer's tax to sell. Under this head toilet, medicinal and antiseptic preparations, flavoring extracts and patent and proprietory medicines may not be manufactured, sold or possessed within the state, if coming under the head of articles requiring such tax.

Physicians may, under strict regulation of the new law, prescribe liquor not to exceed eight ounces and clergymen may secure it for sacramental purposes through application to the food and drug department for permits.

LOCAL I .O. O. F.'S VISIT HORTON BAY

Spring Surprise on Members and Have Pot Luck Suppar

Members of the local I. O. O. F. lodge to the number of sixteen surprised the members of the Horton Bay I. O. O. F. lodge on Saturday evening last and the result was one of the best meetings held for some time.

The Horton Bay boys had scarcely gotten over the surprise sprung on them by the Charlevoix bunch, when several cars filled with members of the same order arrived on the scene from Boyne City. To state that the Horton Bay members were almost speechless is but mildly expressing the situation they found themselves in.

But the members of this hustling order soon had themselves well in hand and gave the visitors a royal welcome. The meeting was full of pep and the real meaning of the order was more than once expressed.

The pot luck supper that followed was a very enjoyable affair and the visitors left for their homes with a ringing invitation extended them to come again.

Charlevoix members of the Encampment will visit Boyne City on Saturday evening of this week. Several members will be given the third degree and a well attended meeting and enjoyable time is anticipated.

ACCIDENT RESULTS IN BROKEN LEG

Alfred Pontius Runs Into Rear End of Standing Auto

One of those unforseen accidents that seem to somehow happen occurred last Friday about one o'clock, when Alfred Pontius, eleven-year-old son of Rev. and Mrs. A. C. Pontius, ran into the rear end of an auto and broke his right leg just above the knee.

The young lad was riding down Antrim street, at what we have been informed was a rapid rate, and when about to turn the corner onto Bridge street, met two men about the center of the street. In trying to avoid them, he turned too sharp, with the result that he ran head-on into an auto standing near the curb on the opposite side of the street.

He was taken to the office of Dr. R. B. Armstrong, where upon examination it was found he had broken his right leg just above the knee. No blame can be attached to anyone, as his injuries were purely accidental. He is reported as getting along nicely, but it will be some time before he will be able to enjoy riding his wheel.

W. C. T. U. WILL CONTINUE WORK

REGARDLESS OF FACT THAT NATION IS DRY

Assist in Work of Americanization, Child's Welfare and Protection of Women Workers

Charlevoix union held its regular monthly meeting last Friday afternoon at the home of Mrs. Emmet Coulter with twenty members and several visitors present.

The topic for discussion was "Our Jubilee Plans." Great plans have been made by the national society for celebrating the fiftieth anniversary of its organization in 1924. These plans include a drive for one million new members and one million dollars to extend the work, and the local union voted to fall in line and do its share.

Some wonder why the W. C. T. U. should maintain its organization any longer, much less enlarge its work, now that the national prohibition amendment has been ratified. One reason is that the brewers have pledged one million dollars to prove the amendment unconstitutional and the temperance forces cannot meet them empty handed. Another is that the liquor interests will do all in their power to create dissatisfaction with the new order of things and this must be counteracted. And still another, the W. C. T. U. maintains an organization in thousands of cities and towns and can readily adapt itself to the various needs of women through its various departments.

With its jubilee fund it will help in the work of Americanization, in Child Welfare work and in the protection of Women Industrial workers.

At the conclusion of the regular program, Mrs. P. D. Campbell gave an interesting talk on her recent visit to Washington, D. C., and a picnic supper was served.

FARMERS SHOULD TAKE CONTRACTS

Hinted That Pickling Station May be Removed from Charlevoix

If the farmers of this section want a pickling station maintained at Charlevoix, sufficient acreage must be taken to make the proposition a paying one.

General conditions of all things for the past two years have resulted in fewer acres and less cucumbers being raised than in former years. The station has lost money each year, and it is quite certain that unless more interest is shown and a larger acreage of cucumbers contracted, the present season will be the last the station is maintained here.

Mr. Johnson, the manager and owner of the station, has no desire to leave Charlevoix, but cannot be expected to operate at a loss.

The salting station means a great deal to Charlevoix and many farmers have been greatly benefited by it. Others can do the same if they will only get into the game of raising "cukes." Think this over, Mr. Farmer, and make an effort to keep the station here.

IN SERVICE SEVEN YEARS

DEATH TAKES WELL KNOWN CIVIL WAR VETERAN

Henry Newman Took Part In Greatest Battles of Civil War—Funeral Saturday

Henry Newman was born in Whitehall, Washington county, N. Y., May 7, 1835. He was one of five brothers, four of whom were in the United States service during the civil war.

On July 9, 1860 he enlisted in Company A, 10th regiment, United States infantry. He was discharged during the campaign before Petersburg, Virgina, July 9, 1864. He immediately re-enlisted for three years.

At the close of the civil war he was sent, with his regiment, to Minnesota to keep watch over Chief Sitting Bull and his band of Sioux Indians. He received his second and final discharge from the service at Ft. Ripley, Minnesota, July 19, 1867, having worn the uniform for seven years and 10 days.

Mr. Newman took part in some of the greatest battle of the war. Notations on the back of his discharge, made by the Captain of his company, state this he was in the battles of the Wilderness, Spottsylvania Court House, Coldwater and many other engagements during the campaign in the summer of 1864, when General Grant and General Lee matched their skill and strength in the mighty effort, the one to gain and the other to retain possession of Virginia and Richmond, the capital of the Confederacy.

Mr. Newman's two discharges, which were on parchment, he highly prized as souvenirs of the days he followed the flag.

After his second discharge he returned to the east and was married to Elizabeth Hawkins of Buffalo, N. Y., August 13, 1867.

A few days after the marriage, Mr. and Mrs. Newman started for the wilds of northern Michigan, whither his two brothers, John and Charles had preceded him. They landed from the little steamer Sunnyside at the village of Charlevoix, or Pine River at it was then called, the latter part of August, 1867, and here Mr. Newman lived the remainder of his life.

Mr. and Mrs. Newman had five children, four of whom are living, Ralph at home with his mother; Mrs. Bert Crandell of this city; a son in Long Beach, California and a daughter in southern Michigan.

Mr. Newman's health failed last year and he was taken to Traverse City, where he died April 10, 1919 at the age of 83 years, 11 months and 3 days.

Funeral services were held Saturday, April 12th, from the residence. Rev. Taggart officiating. Interment in Brookside cemetery.

WILKINS SOLD TO DETROIT PARTIES

Shipped to Owner Monday—Known at Northern Michigan Fairs

Wilkins, the rangy gray trotting stallion owned for many years by Jay Adams, has been sold to Detroit parties and was shipped to his new owner Monday.

Few trotting horses in northern Michigan are known better than Wilkins, who with his owner as driver, has appeared on race tracks during fair time so long a period that a fair without its accompanying horse races and Wilkins and his driver will seem lacking in detail.

The days of racing for Wilkins, however, are not over, for it is expected he will be placed in training for the state fair races and other track events in the metropolis.

Many Charlevoix People Have a Weak Part and Too Often It's the Back

Many people have a weak spot.
Too often it's a bad back.
Twinges follow every sudden twist.
Dull aching keeps up, day and night
Backache is often from weak kidneys.
In such cases a kidney medicine is needed.
Doan's Kidney Pills are for weak kidneys.
For backache and urinary ills.
Charlevoix people recommend the remedy.

Mrs. R. S. Hammond, 207 Belvedere Ave., Charlevoix, says. "Several years ago my kidneys were weak and acted irregularly. At times my hands and feet were swollen and my face was bloated also. I felt miserable all over. When I heard of Doan's Kidney Pills I began their use and three boxes removed all the trouble, making me feel like a different person."

SCHOOL COMMISSIONER'S NOTES

Although all districts have not yet arranged for next year, the following teachers expect to retain their schools for the coming year: Julia Jacobs, Melissa Mayhew, Ethel Brotherton, Mrs. Susie Flagg, Thelma Spees, Mona Bardwell, Golda Jenson, Clare Thorsen, Edith Cary and Vivia Keller. Other contracts have been arranged as follows: Eva Lathan at Pleasant Valley, Olive Underhill at Deer Lake. A summary shows that there are at present fifty-five vacancies and forty-applications. This makes a present shortage of fifteen in the rural schools at the present time. If there is delay in hiring so that we lose present available teachers to other counties, the shortage may become much greater. The state normals are graduating this year just one thousand less graduates than in former years and the supply of beginners is therefore very limited. Since other occupations have been paying more, in many cases only the undesirable will care to teach, and we find that only the paying propositions are accepted by the teacher who knows she can make good. Under the present circumstances the only thing we can do is to pay the price and to make that dicision as quickly as possible. If we would save our schools and care wisely for the children of our land, we must economize in other things but we must maintain the standard of our schools.

Seventaen teachers visited during the past week. Work progressing nicely in all schools but one. In a few cases some very superior teaching was observed and splendid work is being prepared for the coming contests. The best number records were in Marion and Wilson, 18 seconds and 12 seconds per drill respectively.

Burgess, Chaddock, Miles, Walloon and others formerly noted report that the primary grades have read through their readers and have read several supplementary readers of the same grade during the year. So much better than the old plan of one book per year, or advancing the child too rapidly and keeping him in difficult reading.

A second teachers' meeting was held in each of the following townships during the past week: Melrose at Walloon on Friday, Wilson at Afton on Monday, Hudson at Woodard school on Thursday. Details for the contests are being nicely worked out by the teachers in charge. So far as the commissioner is able to learn there is only one teacher in the county who is not working might and main for her school and for her township in the school contests of May and June.

Miss Metcalf is greatly pleased with the Story Hour readers and the Free and Treadwell, which she has been provided with for supplementary reading. She also has a nice supply of reading equipment in the base cards, letter cards, word and sentence cards, and you should hear those children read. It is delightful to catch the glint of pleasure in both workman and workers.

Ironton high had a true election day in the school room with polling station, election board, true ballots, and all the regular arrangements. They had the state go dry of course and elected regular state officers. It will be nicely written up for the civics class exhibit.

Garden club formed Friday with children of Loeb estate. Organization formed also demonstration for county normal class.

James Shearer of Hayes township does not believe in women voting; in fact he told Mrs. Shearer that if she voted she need not return home. The lady of the house cast her ballot and Mr. Shearer executed his threat with the result that Prosecuting Attorney Ruegsegger was called to Charlevoix. Mr. Shearer was surprised when he learned he had committed a states prison offense and hastened to promise good home conduct in the future. He was let off with the costs of the case.—Boyne Citizen.

The sheep industry in Cloverland received another splendid impetus when W. G. Davis of Burley, Idaho, arrived at Delta Junction, April 9, with 3,000 head of sheep with which he is making his initial entry in the business in that section. Mr. Davis has purchased 9,000 acres of land in Schoolcraft county, north of Manistique and has brought with him a complete ranch outfit, herders, dogs, horses and all other equipment. If the experiment proves all that Mr. Davis believes it will and all that Cloverland people know it will, Mr. Davis will add to his land holdings in this section and bring in 10,000 sheep next season. The value of the stock which arrived last Friday is estimated at about $50,000 and it is estimated that the spring wool clip will be worth between $10,000 and $15,000. Mr. Davis is a successful sheepman on a large scale in Idaho and comes to Cloverland with the very highest recommendations. He is one of the substantial, successful type of men who are being brought into Cloverland to prove by actual experiences that the claims for this territory are not exaggerated and that Cloverland is the paradise which sheep and cattle men of the west and southwest have been seeking.

More towns die for want of confidence on the part of business men and lack of public spirit than any other cause. When a man in search of a home or business location goes into a town and finds everything brim full of hope and enthusiasm of the prospects of the place, and all earnestly at work to build it up, he soon becomes imbued with the same spirit, and as a result he drives down stakes and goes to work with the same interest. When, however, he goes to a town where every one expresses doubt and apprehension for the future prosperity of the place, moping about and indulging in mournful complaints, he actually feels that it is no place for him, and he at once shakes the dust off his feet while he pulls out with all possible speed for some other place. Consequently, try and make a live, enterprising town out of the one in which you live. When you are working for or saying good things for your town you are accomplishing all the more for yourself.—Elk Rapids Progress.

Cheboygan people are happy over the prospect of having a new stone and brick depot to replace the old, out of date and outgrown station which was destroyed by fire in the late winter. Railroad officials who visited Cheboygan Monday announced that the new building will be about 97 x 30 feet in size and will be located between the M. C. and D. & M. tracks. It will be a union station.

In the third vote on the proposition to bond the city of Petoskey for $25,000 needed to pay off outstanding bills in the various departments, the proposition was carried at the spring election, April 7, by a majority of 111 votes. The total vote on the question was 1,403 yes and 536 no. The Frist ward gave the proposition the best support, the vote there being yes 440, no 87. The Second ward took second honors with a vote of yes 371, no 138. In the Fourth ward the vote was 341 for the proposition and 137 against it. As in the other two elections the Third ward fell far in the rear. The vote in the Third ward was yes 251, no 174. The city council will at once pass the necessary resolutions fixing the term of the bonds, interest, etc., and offer them for sale. It is believed likely that these bonds will be all purchased by Petoskey people and that they will be quickly sold. The money will be used to pay off outstanding obligations and for the operating expenses of the city during the remainder of the city's fiscal year.

The heavy rain weakened the ice at the Soo which had gathered last week owing to floating ice being jammed in Hay lake and frozen by the zero weather. The lightship Clover started out to place light buoys a few days ago but was forced to discontinue on account of the ice. With the help of the great lakes tug it was then detailed to break the ice in the canal entrances and this is now clear. Considerable activity is apparent along the water front in the anticipation of boats arriving during the week.

The body of David Corrin, drowned last winter while skating near Bois Blanc island, was discovered last week on the shores of the island near Sand Bay settlement. Although he was skating when last seen alive he had no skates when the body was discovered. It is believed that he took off the skates while struggling in the water.

An example of thoughtlessness or heathenism is shown in the experience of a worthy minister of this village. During the past six months he has attended three dozen funerals, and in only three cases has he been thanked and not once has he been paid for his services. A minister is expected to preach the funeral sermons for the members if his church, but when he performs this service for outside parties he should be paid for his work.—Manceiona Herald.

WHAT THE OVERSEAS SOLDIERS ARE SAYING AND THINKING

Secretary of War Baker, in a statement in support of the Cecil-Wilson plan for a league uf nations, quotes from the Stars and Stripes, the soldiers' newspaper published in Paris, to prove that the American soldiers in Europe favor just what President Wilson proposes.

It is true that the Stars and Stripes is and has been a propagandist for anything the administration wants. That is natural enouga; the publication exists by sufferance and favor of the military authorities, and President Wilson and Secretary Baker are in command of these authorities. It is very natural that an official organ uf the war department should favor whatever the administration wants; for instance, that it should defend conditions at the Brest camp at a time when the soldiers there were wading knee deep in that military hog wallow.

But the statements of soldiers who have returned to the United States from the European battlefields do not bear out the claim of the war department's official organ that the A. E. F. waged the war for President Wilson's fourteen points, the Cecil-Wilson covennnt, or for any other purpose whatever but to whip the foe that was striking at their country. The truth is that these returning soldiers have been fed on so much of this "bunk" in the camps that they are thoroughly sick of it, and if the job of saving the United States for the Democratic party is put up to the soldiers, it simply isn't going to be done.

The fact is that if the Stars and Stripes were to tell what is in the minds of the soldiers now in Europe it would say that about the only thing ninety-five per cent of them are thinking about is the desire to come home and disentangle themselves from the affairs of Europe. That's the real truth, and everybody who has taken the trouble to talk to the home-coming soldiers knows it. It is all very well for oratorical gentlemen like Mr. Baker to give off interviews, telling what the soldiers are thinking and wanting, but the real truth is thnt these soldiers are anxious to forget Mr. Baker and his kind of wnr management just as soon as they can. It makes the average "Yank" sore as a boil to read these highfalutin speeches of the politicians who think they won the war with their fountain pens, and that the men who followed Foch to victory had little or nothing to do with it, except to furnish a background upon which the glory of the swivel chair warriors glistens brightly.

The soldiers of the A. E. F. have seen entirely too much of Europe and of European war to want their country to become party to any contract which requires this country to jump into every trans-Atlantic dog-fight with an expeditionary force. They are not yearning for the job of policing the Balkans, serving as gendarmes for the bolsheviki or patrolling the icy steppes of northern Russia. The soldiers still in the service have to keep still while their nlleged thoughts, many of which are not fit for publication, are translated for them by Secretary Baker and his official organs, but those outside have no padlock on their lips and the people of the country generally are becoming fairly familiar with their ideas about what Baker did and didn't do in the war, and to what extent he represents the thoughts and aspirations of the boys who fought the cooties and the boches, while Mr. Baker's conscientious political objectors were consigned to places of safety pending the later receipt of pay in full and an honorable discharge.

If Secretary Baker nad spent a little more of his time getting the soldiers' pay and mail to them, getting aeroplanes and big guns to them, and a little less time giving off political rhapsodies he would have more standing as a spokesman for the fighting men today. As it is, his outgivings have about the snme effect on a fighting man as a bolshevik flag has on an able-bodied bull.

A VITAL QUESTION

Were we really worth tigating for?

It will be well for each of us to ponder that question before the opening of the Victory Liberty Loan on April 21st.

The answer will be the size of our subscription to that lonn not in dollars but in proportion to our financial ability.

Over and over the story comes to us from those who are now coming back of how in the mud and suffering of the trenches; in the long shell shattered silence of the night watches; in the short, sharp struggles; in the endless monotony of training and waiting and working; in the shell holes and on the huspital cots, the one cheerful, sustaining thought was of the folks at home.

Service of country and for nn ideal meant to the average only protection and service for the "home folks." Gallant performances were easy because they would please the dear ones across the Atlantic. Over and abuve and through all the heroism ran the thought of doing credit to those whom they were fighting for and were willing to die for.

With childish eagerness, strong men waited for and devoured news from home. With high strung nerves they listened to reports of the progress of former Liberty Loan drives and when they heard how the "home folks" went "over the top" those boys went bnck to their grim business of war with renewed courage and with the smiles that the enemy could never fathom or stand against.

It all meant to the "Sammies" that they were backed by the folks at home. The fathers and mothers and brothers and sisters for whom they were fighting, understood. They were with them in spirit. They were doing their share, were backing them to win. As a result those fighting "Yanks" went back to their job of winning with renewed courage.

Now our soldiers have done their part. They have finished their job Some of them will never come back to us. The others are returning to those they fought for.

But OUR job isn't finished until the United States has honorably met every commitinent made in order to win the war." We will not be honurably discharged until we have loaned our government the money it must have to end this war and secure for us and the whole world a lasting peace.

Are we guing to refuse to answer this call of duty?

Are we going to refuse to make permanent the benefits our boys fought and died to win for us?

Are we going to quit under fire? If we do, can we face those boys grown into men on the battlefields of Europe?

Can we welcome them home and call them comrades?

They fought for us. Were we worth fighting for?

The history of the Victory Liberty Loan will record the answer.

Close to one million dollnrs in Liberty bonds of the four issues have been lost or stolen nnd are no longer in the possession of their rightful owners, necording to figures furnished by the United States Treasury.

That figure should make some people do some real serious thinking. It should make every man and woman ask themselves: Where nre my Liberty bonds? Are they safe?

It should be pointed uut now that a majority of the hanks are rendy and willing to provide safe keeping, without charge, for the bonds buught by their customers, and that there is no reason why anyone should be exposing Liberty Bonds to the constnnt dangers of loss or theft.

If, as is claimed, Colunel Luke Lea nnd other American army officers formed a plot to kidnap the Kaiser in Holland bring him out as "a Christmas present to Wilson," they were engaged in an exceedingly foolish and ill-considered adventure. The United States and the allies enn go get the Kaiser whenever they want him. The troublesome problem is not how to entch the Kaiser, but what to do with him after we catch him.

Nearly every war has been conducted in the name of peace. Nearly every tyranny has been raised in the name of Liberty. Nearly every fraud pretends to have superhuman mutives. Make your own application.

Democratic members of the Missouri legislature have issued a statement declaring: "The world knows where the Democrats of Missouri stand." Yes, everybody has known that since November 5, 1918.

The official, public announcement of President Wilson during his first visit to Paris that he did not approve the plans for a leagne of nations endorsed by ex-President Taft is now recalled with some amusement.

They are now white-washing the White House. After the Republican Congress gets into action the white-wash brush will have to be laid aside.

In an effort to keep the league of nations question out of politics the Missouri Democrats are preparing to hold a state convention ahout it.

CARE OF COMPLEXION.

Why Our Skins Are Made Brown by the Sun.

That freckles are caused by the heat from the sun seems to be an exploded theory now. The light is given ns the cause, and in order to protect the skin from the too strong rays the coloring matter, or brown palat, as it were, absorbs the sun's rays tu protect the thin walled blood vessels so close to the surface.

While sunlight is very necessary, only a certain degree of it is good for us. Beyond that it does us harm. Some people can stand so much more of the sun's rays than others without browning, such as those who live in the tropics. Their brown pigment protects their bodies. Many would rather endure our northern winters than to be brown as berries

Chiffun veils and other close filmy materials should be worn during prolonged exposure to the sun's rays and wind to preserve the cumplexion and also save the trouble of trying to get rid of the freckles or tan.

VETERAN OF MEXICAN WAR

JOHN BEATTIE DIES AT AGE OF NINETY-THREE YEARS

A Resident of Charlevoix for Twenty-Six Years—One of Oldest Masons in the Country

Capt. John Beattie was born ninety-three years ago on a small island uff the cuast of Scotland. When five years of age he moved, with his parents to the mainland, remaining there until the age of thirteen when he left home to come to this country.

Arriving at Cleveland, Ohio, he immedintely started to work on a boat, following this line of work until he had worked himself up to captain.

Mr. Beattie was known tu Charlevoix residents first as a summer visitor, coming here for several years from New Orleans. About twenty-six years ngo he moved his family to this city where he spent the remainder o fhis days.

About three yenrs ago he suffered a struke of paralysis and has been steadily failing since that time, death claiming him Saturday, April 12. He is survived by a wife and daughter, Elizabeth.

Capt. Beattie was one of the oldest veterans of the Mexican war. He was also one of the oldest members of the Masonic order, having been a member of the New Orleans lodge for about sixty-five years.

Funernl services were held Monday at 10:00 o'clock from the residence and remnins taken to Chicago to be laid to rest in Rosehill cemetery by the side of his mother.

WILL DO FULL SHARE TOWARDS ITS SUCCESS

Local M. E. Church Well Organized for Centenary Movement

The local Methodist church is well organized for the Centenary movement and expects to do its full share in making the great enterprise a great success. The city has been divided into four divisions and groups have been formed within each division in which there are about thirty members. One leader and four assistants have been appointed over each group whose duty it will be to represent the various departments of the Centenary plan to the members of the group.

So far quite a number have signed cards pledging to give one-tenth of their income to the support of God's kingdom, and many have become members of the Fellowship of Intercession promising to pray each day for the success of the Kingdom of God on earth with a special intercession for the Centenary movement.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the ayatem each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood, and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a prominent crank on the subject of internal sanitation.

GRAY HAIR BECOMES DARK AND BEAUTIFUL

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

URGED TO HELP IN VICTORY DRIVE

"NATION'S NEXT GREAT DUTY," SAYS CHAIRMAN HAYS

All Partisanship Should be Put Aside and Every Effort Made to Make Drive a Success

Chairman Will H. Hayes, of the republican national committee has issued a call to all republicans urging their united and effective support of the Victory Loan. While the call is publicly issued to all republicans, it was also sent directly and personally to all republican national committeemen, state chairman, all state organization workers, all county chairmen and all precinct committeemen and to all republican newspapers, asking them to suspend all political activities until the success of the loan has been assured.

The text of the appeal reads:

To the Republicans of the Nation:

Again the call for the charge has sounded.

This is not for the fighting men at the fighting front. For them the war is over. Their part is accomplished to their own everlasting honor and the glory of the nation, and no additional burden should be theirs.

But to the rest the real test has come.

To those whose privilege it has been to form the second line, and to whose credit it is recorded that they, too, attained every objective; to those from every class, creed and political faith, who acted in that unselfish cooperation which brought to the fighting men the support that made so much for the complete vindication of our institutions; to the men and women of America, who do not fail, has this call come.

Let us show to these fighting men who have returned how commands have been obeyed here. Let us send to the fighting men still abroad the message of no weakening. Let us show to the world that our patriotism is not that born only of extremeties and stirred only by martial music, but the devotion which meets a duty in the firm determination of consecrated service, and performs it. And let us demonstrate to ourselves that we are worthy of the name American and the privilges of our citizenship.

Our first duty as republicans today is that duty which we have never failed and never will fail to anticipate and discharge—our duty as Americans. Just as during the recent war we determined our every act by how we could do most for effective uction, so now we will measuse our every step by how we can contribute most to the nation's welfare.

To that end we will abandon all other activities to aid in the Victory Loan until its success has been accomplished.

For this purpose let the republican press and every member of the republican organization enlist in the Victory Loan drive. The national, state, county, city and precinct organization of loyal working republicans will enroll to a man in this service.

This is the nation's next great duty. It is our privilege to exhaust the possibilities in our same splendid support, with the knowledge that those who may oppose us in political strife are joining fully with us in this effort.

Will H. Hays, Chairman,
Republican National Committee.

SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to flush Kidneys and neutralize irritating acids—Splendid for system.

Kidney and Bladder weakness result from uric acid, says a noted authority. The Kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

HOTEL MICHIGAN SOLD UNDER DECREE OF COURT

William P. Porter of East Jordan, Purchaser of Property

George W. Weaver, acting as special commissioner in chancery, has sold the Hotel Michigan, corner Antrim and Bridge streets, to William P. Porter of East Jordan, the sale being made in compliance with the terms of an order and decree issued by the circuit court of this county.

The property in question is one of the most valuable hotel sites in the city and for many years enjoyed a prosperous business. After several fires, financial difficulties, and lack of funds to properly conduct the business, the hotel was never rebuilt after the last fire, and for two years the property has stood vacant and unrepaired.

The legal steps taken places the title of the property in Mr. Porter, unless redeemed as provided by statute. In case of no redemption he will become the legal owner and will without doubt at once rebuild and refurnish the building and it will be then re-opened under new management.

Save money on your tires by having them repaired the minute a break appears. Let us do your work. Benj. Brown. 13tf

FIRST TRIP OF NORTH AMERICAN JULY 7TH

Will Make Semi-weekly Trip Between Charlevoix and Chicago

The Chicago, Duluth and Georgian Bay Transit company will operate the steamer North American on the Chicago and Mackinac Island route the coming summer. Semi-weekly schedule will be maintained and stops made at Ludington, Frankfort, Charlevoix and Harbor Springs. The first trip is scheduled to be made from Chicago on Monday July 7, at 6:30 p. m. and will arrive at Charlevoix, Tuesday at 6:15 p. m., leaving southbound Wednesday at 2:45 p. m.

This line was well patronized last season, although the operators were obliged to make changes in their schedules. Reservations for the first trips north are now being made.

GLEN TOWNSEND HOME FROM SERVICE

Receives Honorable Discharge at Norfolk, Va., on March 26

Glen Townsend was discharged from the marine corps at Norfolk, Va., March 26, 1919 and is now home occupying his old position at the Citizens Bank.

Mr. Townsend enlisted at Detroit late in May, 1918 and reached Paris Island, North Carolina on June 16th. After four weeks training at Paris Island he was sent to Santo Domingo City, Dominican Republic, where he was assigned to the regimental headquarters detachment of the 3rd Prov. regiment, U. S. M. C. and spent seven months there, his time being divided between training, sweating, swimming and fighting sand fleas and natives.

Glen is looking fine despite the fact that he recently recovered from an attack of the "flu" and says he is glad to be in Ellsworth again, and will welcome the opportunity to meet his old friends and form new friendships.

R. nnd got into active service in January, 1918. Army life was not a new thing to him, however, as he served in the field artillery from 1911 to 1914. He expects to return to Chicago, his former home, when he leaves here.

HOME SADDENED BY DEATH OF DAUGHTER

Little Annie Brat Dies After Illness of Two Weeks

The home of Mr. and Mrs. S. H. Brat, three and one-half miles west of Atwood, was saddened last week by the death of their four months old daughter, Anna, which occurred early on Wednesday.

The little girl had been sick for about two weeks but was so much improved that the parents supposed she was out of danger. On Monday afternoon however, she was taken with convulsions and gave up her little life after a thirty-six hour struggle.

The funeral was held at the home on Saturday at one o'clock and the burial was at the Holland cemetery. The saddened family is tendered the deepest sympathy of the entire community.

PLAN TO ERECT LARGE WAREHOUSE

Banks Marketing Association Purchase Building Site

The Banks Marketing Association have purchased the two lots opposite the depot and expect to erect a large warehouse this summer.

Definite plans for the building have not yet been made but it is suggested that the building will be of tile or cement and will be about 50 x 120 feet, parallel to the P. M. tracks and facing Center street opposite Kloosters store. A building of this description would be a valuable addition to the business section of the town and it is to be hoped that the present plans will be carried out.

INTERESTING LETTERS FROM SOLDIER BOYS

From Leonard O. Herrington

Gullisheim, Germany,
March 22, 1919.

M. F. A. Wribht,

"Dear Friend—Will drop you a few lines to let you know that I am with the old reliable 32nd in Germany. Am living with a small family in a Germnn house. It is much better than living out doors on the front line exposed to the weather and machine gun and artillery fire, but still it lacks a lot of being like the comfort and contentment of home sweet home.

"If everything goes well we will be on our way home, and I hope that time won't be adjourned until the annual school meeting. If our schedule does not change we will sail for home by the last of April or first of May, and that will bring us home by the last of May or the first of June.

"I do not expect to get home in time to get the spring crops in, but I figure on doing a lot of clearing and get my place in good shape for the fall grain. I figure on running quite heavy to spring wheat, oats, potatoes and beans next year, but a very little corn.

"Have not seen a hill of corn since I have been in Europe. An ordinary sized lonf of bread weighs about ten pounds and is nearly as black as a collies heel. They do not know they are living, they just merely exist. They work all the time, and practically all their work is done by hand with tools that an American would have considered out of date one hundred years ago. They have no modern farm machinery. Even their plows are no better than an old hemlock top with a couple of limbs for handles and a knot to turn the soil.

"Their land consists of small clearing and large patches of scrub timber, mostly jackpine, with a few scattering black oak and brush which they value very highly. They use every little twig and branch for fuel. They have no fenced fields like we do in America. The houses and barns are combined under one roof and use their front yards for barn yards.

"The woman of this house works about eighteen hours a day and sleeps six.

"There are many noticeable things here along the line of morals, sanitation and conveniences that are way below the American standard, but I do not care to go into details on this subject, especially by mail. I will say that if the Germans had exercised the same energy in improving and building up their country that they used in preparing for war, tearing down Belgium and France and running their own finance and food supply low, they would have been in fine condition today. But is they have done, they have paved a road of hardships and misery for the next two generations to come.

"Will close and wish you good luck and prosperity in the good old U. S. A. which is best of all."

Pvt. Leonard O. Herrington.

MILES DISTRICT

Mrs. Ed. Moore is reported as being very ill.

Mr. and Mrs. A. W. Carr moved on the Wilber King farm last week.

John Sherman and family were visitors at the Boyde home in Rock Elm Sunday.

Robert Evans and family of Ranney District were Sunday callers at the Miles home.

Walter Fowler left Monday morning for Lansing where he expects to work this summer.

Mr. and Mrs. Chas. Withers of Charlevoix were Sunday visitors at the farm home of Mrs. F. LaLonde.

Mr. and Mrs. Walter Fowler were pleasantly surprised Saturday evening at the home of Walter's parents, Mr. and Mrs. Roy Fowler.

Lawrence Cincush and sisters, Mary and Minnie, attended a birthday party at East Jordan Saturday evening at the home of Joseph Courier.

Mrs F. LaLonde and daughter, Bess, drove to the home of Mrs LaLonde's daughter, Mrs. Chas. Withers near Charlevoix last Wednesday, Miss Bess staying the rest of the week.

EASTER SERVICES AT M. E. CHURCH

WILL RENDER BEAUTIFUL CANTATA "THE RESURRECTION"

Days Services to Begin With Sunrise Meeting Under the Auspices of the Epworth League

The very beautiful cantata "The Resurrection" by E. S. Porter will be rendered at the First Methodist Episcopal church Easter Sunday evening at 7:30. The choir of the Methodist church with several special singers have been working on this cantata for a number of weeks and a treat is promised the music lovers of Charlevoix. Miss Helena Bates is the director.

Easter Day Services will begin with a sunrise meeting under the auspices of the Epworth League at 6 o'clock. These early Enster services have been popular in Charlevoix and all over the country during the past few years and a large company is expected at this meeting.

The doors of the church will be open for the reception of new members at the morning service at 10:30. The Sacrament of Holy Baptism will be administered to any who will notify the pastor before Sunday.

An appropriate sermon will he delivered by the pastor and special Easter music will be given by the choir.

All members are urged to bring their Fellowship of Intercession cards and Tithers cards to church signed as a special sacrificial offering unto the Lord this Easter day.

Sunday school and men's class from 12 o'clock to 1. There will be no Epworth League service at night on account of the Cantata.

Prayer service Thursday night at 7:30 under the direction of members of the Fellowship of Intercession League.

S. S. S. Club Met Friday

The members of the S. S. S. club met at their club room Friday, April 10 to initiate a new member. She was sworn in, after which the girls enjoyed the dainty refreshments served by the hostess, Miss Thelma Crandell. As it was yet quite early the girls trooped off to the movies.

HOSPITAL TO BE READY BY JULY 1

Work of Remodeling Building Will Start Within the Week

Work on Charlevoix's hospital and grounds will be started at once with the view of having the building ready for occupancy at the earliest date possible, probably not later than July 1. This action was decided upon at a meeting of the hospital association trustees held last week.

On account of a shortage of funds, work on the building has been delayed for some time, but this obstacle having been overcome, it is hoped the work will progress without further delay and the building will be completed and equipment installed by July first.

The undertaking will require a vast amount of work and when completed will mean a great deal to Charlevoix. As this is a community project, every citizen should lend a hand and assist in every way possible.

The members of the committee in charge are as follows: Harry Nicholls chairman, H. L. Oldham, A. F. Bridge, A. D. Crimmins, I. A. Adams, J. L. Crane, Lisle Shanahan and William Finucan. With them an associate committee are R. F. Sloan, F. M. Glassford, L. S. Sec, A. A. Swinton and R. C. Hammett.

SHINING UP TACKLE FOR THE FIRST TROUT

Local Nimrods Looking Forward Towards Opening Day

Although the brook trout season does not open for two weeks, Charlevoix fishermen are starting to brighten up their fishing tackle and getting ready for another season.

The season comes in on Thursday, May 1, in the lower peninsula, and according to the law recently changed by the state legislature, uppen peninsula sportsmen will be allowed to take a crack at the speckled beauties 15 days earlier than usual, the former opening date being on May 15.

Charlevoix county has several good fishing streams and without doubt the knowing ones will be right on the job at daybreak Thursday, May 1.

IS SURVIVED BY WIFE AND CHILDREN

Death Takes Well Known Charlevoix Resident in Jos. E. King

Joseph E. King was born, March 22, 1845 in Hancock County, Illinois and passed away at his home on Antrim street Wednesday, April 16, a complication of diseases, causing his death.

In the fall of 1864 Mr. King moved to Charlevoix county. On June 18, 1877 he was united in marriage to Alice Jane Burns of Charlevoix. To this union six children were born, three sons who are now living in Chicago, one son at home, a daughter, Pearl, of Milwaukee and Ida of Detroit.

Mr. King with his family moved to this city in 1889, where he found employment as a mill hand, remaining with the Charlevoix Lumber Co. for several years.

Deceased was a member of the Methodist church for several years, lived a christian life, was a kind father and good neighbor.

The time for funeral services have not been completed as they are awaiting the arrival of the children from out of town

Cucumbers

Does it pay to grow them? We are often asked this question and we answer yes. If the crop is properly handled, with right fertilization and proper cultivation it surely pays. For proof we cite you to C. R. Munyon of Charlevoix, who in 1918 harvested $63 worth from one-half acre. Others done equally as well. For contracts see C. B. Sheldon. 16t2 Pd

WHEAT CROP LARGEST EVER

FORECAST IS MADE BY UNITED STATES EXPERTS

837,000,000 Bushels Valued at $1,891,620,000 Estimated for This Year

The largest crop of winter wheat ever grown was forecast for this year by the department of agriculture basing its estimate on conditions existing April 1. The enormous yield of 837,000,000 bushels was announced, which at the government's guaranteed price of $2.26 a bushel, places the crop's value at $1,891,620,000.

This year's winter wheat crop, if no unfavorable conditions develop between now and the time of harvest will be 152,000,000 bushels larger than the previous record crop produced in 1914 and 248,000,000 bushels more than was grown last year.

Production of winter wheat last year was 558,449,000 bushels and in 1917 is was 412,901,000 bushels, while the record crop of 684,990,000 bushels was produced in 1914.

The condition of the crop on April 1 last year was 78.6 per cent of a normal, while in 1917 is was 63.4 and the average of the last ten years was 82.3.

There was an increase in condition from December 1 last year to April 1, this year, of 1.2 points, compared with an average decline in the last ten years of 5.9 points between those dates.

The average condition of rye on April 1 was 90.6 per cent of a normal against 85.8 on April 1 last year, 86.0 in 1917 and 88.6 the average condition for the last ten years on April 1.

Comparisons for winter wheat follow, condition figures representing per cent normal.

FRIENDS SURPRISE CHARLES LOPER

Reminded One Should Always Observe Day of Birth

About twenty-five friends of Chas. Loper gathered at his home on May street, last Saturday evening, giving him a birthday surprise.

The evening hours were delightfully spent in music, games and fortune telling, after which Mrs. Loper served the bounteous luncheon provided by the guests. The guests departed at a late hour reporting a fine time and wishing Mr. Loper many more birthdays.

STR. KANSAS LEAVES CHICAGO MAY 26

On Her First Trip to Northern Michigan Points

J. C. Conely, now general manager of the Michigan Transit Company was in the city Monday and Tuesday, in connection with business pertaining to their boat line.

Mr. Conely states that his company will be ready for business within a few weeks, and that the Str. Kansas will leave Chicago on her first trip of the season north on April 26, arriving in Charlevoix on the 28th. As soon as business warrants, probably about the last of May, the Str. Missouri will be placed on the run to be followed the latter part of June by the Manitou on her tri-weekly trips from Chicago to Mackinac Island.

He emphatically states that northern Michigan towns on the route, especially Charlevoix, will be given better service than during any previous year, and that indicntions for a splendid season's business are of a nature that there is no doubt that every hotel and boarding house will be filled to capacity. At present, inquiries are double those of previous years at this early date.

BUICK AUTO HITS FUNERAL PROCESSION

Horse Kicks Car Fender to Smithereens and Then Runs Away

Considerable excitement was caused on Sunday last when a big six-cylinder Buick car tried to pass an Indian funeral procession on the Boyne City road, near the Smith farm.

The car managed to pass several rigs, but at a place where the road was quite narrow, ran into one of the buggies with the result that it was overturned, the occupants thrown out, and the buggy badly damaged.

The horse also became unmanageable and smashed up one of the fenders of the car, and as we have been told, put the climax on the fracas by running away.

The owner of the car settled for the damage done to the buggy and after considerable talk, and discussion, departed with their minds made up that passing a funeral procession was an experience somewhat in the line of extravagance.

FRIENDS TAKE POSSESSION OF HOME

Mr. and Mrs. Harry Gebeau Delightfully Surprised Friday Evening

Mr. and Mrs. Harry Gebeau were delightfully surprised last Friday when upon returning to their home at six o'clock they found that twenty-seven of their relatives had entered the house, prepared supper and were ready to partake of the good eats immediately upon their arrival.

After supper the floors were cleared for dancing, this pleasure being indulged in until a late hour, when the guests departed declaring their family party a real success.

CAMPBELL-SHAPTON

Newlyweds to Soon Leave on Extended Wedding Tour

GROWING ALFALFA IN NORTH MICH.

MANY INQUIRIES BEING MADE REGARDING IT

Soil Needs Careful Attention if Good Seeding Is to be Expected—Old Timer Tells How

Many inquiries are being made regarding successful culture of alfalfa. The following article was written by L. F. Graber, of the Wisconsin Alfalfa Order, and published with minor changes in a recent issue of Hoard's Dairyman. The Courier publishes it for the benefit of those interested in growing this crop.

1. Lime—Don't take any chances on that soil of yours. Find out if it needs lime. Have it tested and save money. Get your county agent to do it or send a five-ounce sample to the Experiment Station, East Lansing. They will let you know, without cost, how much lime, if any, you should use for success with alfalfa. On very sour soil don't try to grow alfalfa until you are in a position to get lime. Lack of lime has been the cause of thousands of failures in the way of sickly, yellow, starving alfalfa fields. Why take a chance? Have your soil tested and play sure. Every ton of alfalfa contains 100 pounds of lime which it has taken out of the soil. If it doesn't get all the lime it needs you will have a miserable crop.

2. Inoculate—Sometimes it's not needed, but why take the risk? You can get through the Charlevoix County Farm Bureau, inoculation cultures for treating the seed at cost of only 25 cents an acre. Inoculate and play sure. Where alfalfa has not been previously grown either the seed or soil should certainly be inoculated. Beginners in alfalfa growing—inoculate.

3. Manure—It's just a waste of time and money to attempt growing alfalfa on a worn-out piece of ground. If your land is not rich and fertile, put on a good dressing of manure.

Lime, inoculation and manure,
Make alfalfa doubly sure.

4. Roll ! Roll ! Roll !—The corrugated roller is one of the best implements on the farm. You ought to have one. It pays big. It means better stands of clover and alfalfa and better yields of grain. Loose, sandy soils especially should be rolled. Fall plowing gives the ground time to settle and become firm but you cannot fall plow sandy land without loss. Spring plowed soil, either heavy or light, ought to be rolled. Alfalfa wants a firm seed bed with the lumps on the surface well broken up. The corrugated roller will do this. Get one. You will never regret it.

5. Seed Per Acre—If your land has lots of lime and a good, open gravelly subsoil and grows alfalfa easily, 10 to 15 pounds of seed an acre is plenty, otherwise use 20. If you are sowing alfalfa for the first time better use about 20 ponnds.

6. Clean Ground—If you want to avoid weed trouble have your alfalfa follow some well cultivated crop like corn or potatoes and fall plow. If weeds get bad the first season clip them high prior to August 15. Use a grain binder. It works fine. Haul the cut weeds off the field if there is a heavy growth.

7. Flat Land—If you have a heavy flat soil with a hardpan or blue clay sub-soil that does not permit good under drainage, leave alfalfa alone. Stick to timothy and clover. Alfalfa must have good surface and under drainage.

8. Drought and Grasshoppers—Many a good stand of alfalfa and of clover, too, was ruined by last summer's drought. Grasshoppers were fierce in some sections. Here's a way to play safe on this. Sow your alfalfa with one bushels of barley or oats an acre. Cut this grain for hay just after it has headed out. This gives the alfalfa a good growing start to stand later drought as well as grasshopper injury. This plan gives results and is absolutely necessary when grain lodges. I would especially advise this method when high priced Grimm or Baltic alfalfa seed is used. You take little chance at failure if your soil conditions are right. Other methods can be used but never sow alfalfa after Aug. 1.

9. Hardy Varieties—If you want a lasting stand use seed of the hardiest known varieties such as the genuine Grimm and Baltic. If you are troubled with winter-killing it will pay you to try them. There is nothing about these varieties that makes them better than common except their unusual hardiness. They are not absolutely winter proof but will live through winters where common, ordinary Montana or Dakota or Kansas alfalfa kills out. It is just as hard to get a stand with Grimm or Baltic as it is with common but is generally possible to keep a stand of Grimm or Baltic where common may "kill" after the first or second winter. You are not as apt to have blue grass troubles with these varieties as you are with common.

10. Winter Protection—Don't cut or pasture your alfalfa after the first week in September. For alfalfa's sake, don't do this. Resist that temptation. Don't kill the goose that lays the golden eggs by trying to get an extra crop late in the fall. Alfalfa needs a growth of from 6 to 8 inches for protection against winter killing. Grimm and Baltic alfalfa will stand later fall cutting than common, but even these hardy varieties suffer from this injurious practice. Play safe. Don't cut or pasture any alfalfo after the first week in September.

Conclusion—Remember, if you don't believe in lime for sour soils, in inoculation for safety, in the use of hardy seed where winter killing is serious and in the other facts mentioned in this article, better leave alfalfa alone. You may have better luck with timothy and clover.

32ND DIVISION IS COMING HOME

Expects to Leave Brest on or About the First of May

According to letters received from overseas and information given out by the war department, the Thirty-second division (which includes Hdq. Co., formerly Co. 1 of East Jordan) expects to start from Germany on their homeward bound trip the last week of April and sail from Brest on or about the first of May. Just when the East Jordan contingent of which several Charlevoix boys are members will finally reach home is problematic, but it will undoubtedly be some time in June.

If they should return in June, then the East Jordan contingent will have seen exactly three years' service. The order for Company I, 33rd M. N. G. to mobilize was received at the armory there on Monday, June 19th, 1916. This was for Mexican border work, and the 33rd was among the few regiments still held in the service when war was declared on Germany—April 6th, 1917.

On Saturday, July 1st, 1916, East Jordan gave these soldiers a farewell demonstration. On that morning thousands of people from our city and surrounding country were at the depot to see them start for Camp Ferris—the first lap of what was destined to be a long, long trail.

Plans should be started at once to give them an even better public reception on their return home.

We can add several miles to the life of that tire by properly repairing it. Bring it in and get our price on the work needed to fix it up. Benj. Brown. 13tf

There being no further business the council adjourned.

Charles H. Emrey,
City Clerk.

Returned Soldiers

Are gradually being absorbed again into business circles.

To those who are entering upon new endeavors and even to those who will continue in old fields this makes another beginning—a fresh start. This is an opportune time to identify yourself with this bank—it is a most effective means of building up credit and position in the community. Our officers invite consultation.

THE BIG BANK ON THE CORNER

An organization of lunatic-fringe radicals prints an advertisement declaring that "the honor of America is pledged in favor of the fourteen points,"—several of which were abandoned by their inventor long ago. Just when and where did America hand over her honor to the keeping of any individual in order that he might pawn it?

Nikolai Lenine is said to have declared that he cared nothing for his country, as such,—that "the" sole consideration is internationalism." Great minds run in the same channel.

Save money on your tires by having them repaired the minute a break appears. Let us do your work. Benj. Brown. 13tf

Teachers' Fund

Pay Roll No. Fonrteen (14) $1026.37

Moved and supported that the bills as read be allowed and the secretary be instructed to draw orders on the various funds for the amount of each respective bill. Motion carried.

These minutes were read and approved and on motion the board adjourned.

E. J. HILLER, Secretary.

The more we read abont conditions in Russia, the more we are inclined to insist that President Wilson' eulogist, Prof. Herron, should be compelled to make that visit to the bolsheviki comrades.

Our tire repairing department is now running ten hours a day. It means a great saving to you if you have your tires repaired as soon as a break occurs. Benj. Brown. 13tf

CHARLEVOIX COURIER

VOLUME 27. NUMBER 17. TEN PAGES COURIER, CHARLEVOIX, MICH., WEDNESDAY, APRIL 23, 1919. PRICE $2.00 PER YEAR

LOAD POCKETS UP WITH PENNIES

EVERYTHING NICE TO BE TAXED MAY FIRST

Congress Has Put a Levy on Luxuries to Help Pay for the War

Carry a few extra pennies in your pockets after Msy 1.

Uncle Sam is going to take them away from you to help pay for the war.

Every time time you spend a dime at a soda fountain or ice cream parlor on and after May 1, you'll have to throw an extra penny on the counter to pay the wor tax.

Many soda fountains which charged 15 cents for sodas and sundaes during the war have reduced the price back to 10 cents, but you're likely soon to see signs over the fountains reading:

"Sodas and sundaes now 11 cents."

The tax on ice cream and soft drinks is only one of the many which go into effect under the revenue act on May 1. The most important of these are the so-called "luxury taxes" which were written into revenue bill before it became apparent to our congressman that they were unnecessary.

An attempt was made to pass a bill repealing them before congress adjourned but it was one of the bills talked to death in the filibuster, it is likely that the "luxury taxes" will be repealed during the coming special session, but until then we'll have to pay 'em.

They call these "luxury" taxes, but the commodities taxed are by no means all luxuries. Congress intended the taxes to fall on the rich and the well to do people of the country, but some of them will fall just as heavily on the great 90 per cent of the population represented by the middle classes and the poor.

Take, for instance, the tax on medicines. After May 1 you'll have to pay a tax of 1 per cent for each 25 cents worth of proprietary medicines you buy, whether they are pills, tablets, powders, syrups, tonics, plasters, salves or ointments. If you pay $1 for a bottle of medicine, you'll pay 4 cents tax.

The same tax will apply to tooth powders, hair dyes, hair restoratives, toilet water, perfumes and other toilet articles.

The tax on other "luxuries" is not so heavy as that on medicines, toilet articles and beverages. The reason for this is that, while the tax is 10 per cent, it is imposed not on the entire price of the article taxed, but on that part of it in excess of a specified amount.

For instance, carpets and rugs are taxed 10 per cent on the amount you pay over $5 a square yard. That is, if you buy ten yards of carpet at $5 a square yard, or $50 you will pay no tax. But if you pay $6 a square yard for ten yards, or $60 you will be taxed on that extra dollar a yard. Thus you will pay $6.10 a yd. or $64 for the ten yards.

Another "luxury" tax that will hit the poor after May 1 is that on moving pictures, which requires every person leasing moving picture films for exhibition to pay a monthly tax of 1 per cent of the amount his films produce in rentals. This tax, of course, will be added to that already being paid by the public on admissions to moving picture theatres. In many cases it will double the price of movie tickets.

These new taxes are in addition to many others which went into effect on April 1. Prominent among these is the tax of 5 per cent of the total price paid on all articles of jewelry.

Still another "luxury" tax, which affect wealthy people principally, but here and there dig into the pocket of the poor, have been paid ever since the revenue act was approved by the president in March. These include the following percentages of the total prices:

Automobiles, 5 per cent.
Automobile accessories, 5 per cent.
Musical instruments and records, 5 per cent.
Sporting goods, 10 per cent.
Chewing gum, 3 per cent.
Candy, 5 per cent.
Cameras, 10 per cent.
Photographic films and plates, 5 per cent.
Firearms and L. ammunition, 1 per cent.
Portable electric fans, 5 per cent.
Thermos bottles, 5 per cent.
Cigar and cigarette holders, humidors, smoking stands, 10 per cent.
Slot machines, 5 per cent.

FRAZIER STORE CHANGES HANDS

STOCK AND EQUIPMENT IS BOUGHT BY DON CAMPBELL

New Owner Took Possession Saturday—Will Put in Additional Lines and Remodel Store

The Frazier Shoe Store changed ownership on Saturday of last week, Don Campbell purchasing the stock and fixtures and taking immediate possession.

In taking over the store, Mr. Campbell assumes a business established over nineteen years ago, when Mr. Frazier opened the store. During the intervening years, the former owner has enjoyed a liberal patronage and gradually increased the stock up to its present proportions.

Under Mr. Campbell's management, additional lines of standard shoes, for both men, women and children will be added to the present stock, and material changes are contemplated to the interior of the store.

Mr. Frazier will remain in the employ of the new owner, taking charge of the repair department and assisting with the sales.

Mr. Campbell is one of Charlevoix's substantial young men and will receive a cordial welcome by his business associates. His formal announcement appears on another page and contains information of interest to citizens of Charlevoix.

NAVY DEPARTMENT RETURNS GLASSES

Loaned to Them by John Ackert at Beginning of War

On Saturday last John Ackert received a package containing valuable marine glasses loaned by him to the U. S. government at the beginning of the war.

At the beginning of the war the government found itself short of marine glasses and asked patriotic American citizens to loan them their privately owned glasses. Mr. Ackert was among the first to respond and received a letter commending him for the action he had taken.

From that date until Saturday, Mr. Ackert had heard no word from his glasses, nor did he know that they would be returned. The package contained a letter informing him that at a later date he would receive a record of the loaned glasses, the naval officer who had used them, the routes they had traveled.

Possibly this record may contain some interesting news, as the glasses may have been used by an officer who had came into contact with a German sub or in some exciting event.

GERMAN WAR DEATHS TOTAL 2,183,903

A recent dispatch from Berlin says the first official report on Cermany's human losses in the war shows 2,183,903 dead.

The figures compiled by Dr. Rubner, Prussian privy councillor, follow:

Soldiers killed outright or wounds—1,486,952.

Soldiers who died of sickness—134,082.

Civilians who died from sickness due to malnutrition—562,769.

Battlefield casualities during the first year of the war—481,506.

Battlefield casualties during the second year—330,332.

Battlefield casualties for the third year—294,743.

Fourth year battlefield casualties—317,954.

Sickness, which Dr. Rubner blames on the allies' blockade, caused deaths as follows: First year, 868,236; second year, 121,174; third year, 259,627; fourth year, 293,700.

HIGHEST FRENCH HONOR FOR 32ND

GENERAL MANGIN PRESENTS CROSSES AND STREAMERS

Division Receives Highest Honor Yet Paid to Any American Division by Entente

The Croix de Guerre with palm has been pinned to the colors of the four infantry regiments and three machine gun battalions of the 32nd division, by Ceneral Mangin. This is the highest honor yet paid to any American division by the entente.

On the breasts of scores of officers and enlisted men the Ceneral also pinned the cross of war, which they had by individual acts of bravery won. In all, 500 Michigan and Wisconsin soldiers, former national guardsmen, were awarded this honor, but only 220 were present to accept them when the review was held near Dierdorf.

Twenty-four distinguished service crossea were bestowed by Maj. Cen. Joseph T. Dickman.

The major general tied the "flammes de guerre" or battle streamers to the colors of each regiment or machine gun battalion. These streamers bore the names of the division's big engagements, Alsace, Aisne-Marne, Ooise-Ainc and the Meuse-Argonne, which name appears twice.

The 32nd division is grouped as two infantry brigades and the division machine gun battalions in General Mangin's citation, which reads:

"The 64th infantry brigade—a magnificient brigade to which the French soldiers, fighting at its side, rendered the most beautiful homage by calling it 'Brigade des Terribles.'

"It is composed of the 127th and the 128th regiments and the 121st machine gun battalion.

"It took in a brilliant and irresistible attack the village of Juvigny, August 30, 1918, and pursued its advance August 31 and September 1, dominating the enemy constantly, in spite of heavy losses, and sustaining without faltering the most violent enemy counter-attacks, and fighting for three days without stopping without rest, and almost without food.

"The 63rd infantry brigade is composed of the 125th and the 126th infantry regiments and the 120th machine gun battalion. It has acquired the most splendid title to glory in the battles of August 28 in the vicinity of Juvigny.

"Scarcely having entered the lines it dashed forward to assault. The enemy was surprised and became demoralized by the rapidity and vigor of the attack.

"The brigade proved its superiority in the fierce hand to hand struggle, where the 125th and 126th regiments and the 120th machine gun battalion emerged the victors. The brigade drove back the beaten enemy as far as the approach to Etny-Sorny while efficaciously supporting the neighboring French troops during the attack from August 31 to September 1.

"The 119th machine gun battalion for four days fought with energy, skill and endurance. Although tried by the enemy fire, it moved continually forward, sending its fire directly and remorselessly upon the adversary, shattering his counter attacks, and inflicting upon the enemy deadly damage. It contributed mightily in taking Juvigny and holding the conquered ground."

The records show that the 32nd served under the Tenth army on the Oise-Aisne front last August, and that service was referred to directly by General Mangin in his speech of presentation.

COUNTY TREASURER RECEIVES AUTO TAX

First Installment Amounting to $3,672.20 Received Last Week

County Treasurer Charles H. Emrey reports having received a check from the state treasurer for $3,672.20 which represents the first quarterly installment of the automobile tax fund for Charlevoix county.

This tax is paid over to the county treasurers four times a year and is credited to the good roads fund of each county. This is usually used for road repair work.

WHO WILL HELP CLUB IN WORK

CO-OPERATION OF SPORTSMEN AND CITIZENS NEEDED

Will Undertake Campaign for the Cultura of Ringneck Pheasants in This Vicinity

The Charlevoix Rod & Gun Club is undertaking a campaign for the culture of Ringneck pheasants in this vicinity. The work is being done through the State Game, Fish and Forestry commission and is under the direct supervision of deputy Joseph Stephenson of Boyne Falls. A number of settings of eggs will be placed with responsible persons who have agreed to assist in the campaign. The eggs will arrive about May 15th and will be hatched under hens. The work involves considerable care and attention and those receiving eggs will be provided with a carefully prepared pamphlet of instruction and general information.

The Gun Club will receive a pen of live birds and arrangements will be made to release them in the best cover obtainable. Last fall a crate of the birds were released on the Loeb farms and they are being carefully watched. Some of these birds are now nesting and good results are expected. This work cannot be made a success unless the birds are protected. The law provides severe penaltiea for killing or molesting them and the Gun Club will apare no one found guilty of killing or molesting any bird no matter who he may be. This is a public enterprise and every good citizen should take an interest in promoting it. The club wants information. Those engaged in hatching birds will make reports direct to the game commission or to Mr. Stephenson and will also be in touch with the local club. If anyone sees any of the birds, it will be helpful if he will either write or telephone the Courier, or better atill, come in and report personally. There will be published later a list of the officers and members of the Gun club so that reports may be made to any of these.

As we have said, this is a public undertaking and everyone should be interested. It is not a selfish enterprise on the part of sportsmen or others who like to kill game, because no good sportsman would kill or molest one of these birds under any circumstances. A real sportsman would make complaint against anyone he saw doing so. These birds add to the wild life of our country and their presence affords satisfaction and pleasure to all who love and enjoy nature. There is nothing in nature more disappointing than a wood barren of wild life or a stream destitute of fish. There are few wilful violators but there are numerous thoughtless destroyers of game and fish and birds. It is largely a matter of education. Many who see the violations will not take the trouble to report it and thereby become equally guilty with the offender.

The Rod & Gun Club wishes to inform the public generally that anyone seeing a violation of the game, fish or bird laws may report confidentially to the club and his name will not be divulged or used. The club will do the rest.

The State Game, Fish and Forestry department is attempting to interest the public in a campaign to destroy noxious animals and birds of prey. Weasels particularly are on the increase and something must be done to exterminate them. A skunk, though protected a part of the year, is destructive. Hawks and owls are also on the increase and doubtless are a greater menace to other birds than any other single enemy. The department recommends a jump trap placed on a pole about ten feet high along the edge of a swamp on a rise of ground likely to be an attractive place for such birds to perch upon. The trap is fastened a sufficient distance down from the top of the pole so as to prevent the bird from getting back to the top and releasing itself. Farmers can do effective work in protecting their domestic fowls as well as other birds by trying out this plan.

MADE GOOD IN CHOSEN PROFESSION

Lt. LeFevre a Member of the Famous "Rainbow Division"

Mrs. F. W. LeFevre, of Portland, Oregon, was in the city Sunday, driving over from Walloon Lake, where she is visiting her sister, Mrs. Chas. Smith. Mrs. LeFevre will come to Charlevoix this week, for a visit with Mrs. W. E. Hampton and other old friends who will be pleased to see her again.

Charlevoix people who knew Dr. and Mrs. LeFevre and their son, Sam. In the old days will be pleased to known that Sam is another Charlevoix boy who has "made good." He was practicing medicine in Oregon when war wos declared, and enlisted in the medicsl corps. He went to France last summer, and was assigned to the famous "Rainbow Division" as a field surgeon, and was with them through all of the fierce fighting in the Argonne, coming through unscathed, though narrowly escaping several times, once being the only man unhurt of a group of thirty when a high explosive shell burst over them.

Lt. LeFevre is now on tha ocean, enroute home with his division, and it is hoped may be able to visit Charlevoix before going back home with his mother.

VICTORY LOAN IS THE LAST

CHARLEVOIX COUNTY'S QUOTA IN DRIVE IS $255,450

Charlevoix District Will Raise $76,950 as Her Share of the Four and One-Half Billion

The Fifth or Victory Liberty Loan details have been made public. The total amount of the Victory Loan issue will be four billion five hundred million dollars, over-subscriptions to be rejected.

The interest on the gold notes for the Victory Loan are better than had been expected in most quarters, this having been put at four and three-quarters per cent.

The notes on the loan will mature in four years with the treasury reserving the privilege of redeeming the notes in three years.

The notes will be partially tax exempt and will be convertible into three and three-quarters per cent notes wholly tax exempt. The four and three-quarters per cent notes will be exempt from state and inheritance taxes and from normal rates of federal income taxes. The three and three-quarters per cent notes will be exempt from all federal state and local taxes except estate and inheritance taxes.

Charlevoix county's quota in the four billion and a half drive is $255,450.00, or practically seventy-five per cent of the fourth Liberty Loan drive.

Figures have been set for the quota of the Charlevoix district as $76,950.00. The district is made up from the following townships, the amount named after each as being their proportion of the total amount for the district:

Charlevoix, city	$67,500.00
Charlevoix, township	1,800.00
Marion township	3,375.00
Norwood township	2,250.00
Peaine township	975.00
St. James township	1,050.00
Total	$76,950.00

The week of April 21 to 26 has been designated as volunteer days both locally and in the county. Many have so far availed themselves of the opportunity of buying bonds without solicitation. If the quota is taken up during volunteer week nothing further will be done and the drive will close. If not taken up, special committees will be appointed and an effort made to meet the amount necessary. Buy your bond early—during the volunteer days.

Congregational Church

Next Sunday morning the pastor will speak on the theme, "The Secret of Christian Character." In the evening at 7:30, the subject will be "The Christian Attitude Toward Bolshevism." The topic for the Y. P. S. C. E. meeting at 6:30 is "Christianity and the Toilers of Americn." The Bible school meets at noon. Mid-week meeting every Thursday evening at 7:30 o'clock. The public is heartily welcome at any and all of these services.

EASTER SUNDAY A GREAT DAY

METHODIST CHURCH FILLED TO CAPACITY

Morning Hour Spent in Song, Testimony and Prayers—Music Greatly Enjoyed

Easter Sunday proved to be a great day for the Methodist Episcopal church of Charlevoix. The program for the day began at 6 o'clock when a goodly number of Methodist folk met to praise God and the Resurrection of Jesus Christ. The hour was spent in song, testimony and prayers.

A congregation which filled the auditorium attended the morning service. The chancel of the church was very prettily decorated with many beautiful plants and flowers. The special Easter anthem by the choir was greatly appreciated by the congregation. The minister received several persons into the church, and several children received the Sacrament of Baptism.

That the people of Charlevoix appreciate good music was evident when they crowded every foot of available space to listen to the rendition of the sacred cantata "The Resurrection," text and music composed by H. W. Porter. Many people had to be turned away, even the standing room being taken.

Miss Helena Bates, so favorably known to the people of Charlevoix as a soloist and musical director, as well as the popular teacher of our normal school, merits great commendation for the excellent rendition of this fine choral composition.

Careful preparation was evident in every part of the cantata. The work of the soloists was of a high order and the choruses, quartets, recitatives were presented in such a manner that many were heard to say that seldom if ever have the people of this city listened to such high grade music.

Special mantion should be made of the perfect work of Mrs. R. V. Otto, who presided at the piano. The skillful manner in which she performed her difficult task contributed in a large measure to the success of the cantata.

At the close of the musical program Rev. Candler congratulated Charlevoix on its ability to produce from home talent such a first class musical production.

Don't let the question of lack of money bother you if you have a good real estate proposition. Let us handle the loan for you. Charlevoix State Savings Bank. 16t2

FORGET THE MARKET PRICE

Some people say that they will not buy Victory bonds because the Liberty bonds they bought are quoted in the market at less than they paid for them.

We don't believe they mean what they say.

The country has kept its pledge to them and it will continue to keep it. The interest will be paid regularly, and the bonds will be redeemed in cash when they are due. The market is another thing and nobody who is keeping his bonds—as all should—need worry about it. It is down, but it will be up; and the only reason why anybody should think about the present low price of bonds is because it offers an extraordinary inducement to buy more of them for investment.

What can the man who whines about the market price of bonds think of himself, anyway?

There are thousands of mothers whose sons are dead in this war but who are not whining at all! Why, then, should the bond-buyer whine when he has lost nothing, but gained much?

Buy Victory bonds to the limit, as your share of the cost of victory.

And don't call it a favor, either. The opportunity to buy such absolutely safe securities, paying good interest and forming a bulwark against vicissitude, is a favor to you!

SCHOOL COMMISSIONER'S NOTES

Miss Mamie Scrnggie returns to Horton Bay next year with a ten dollar a month raise. Miss Eileen Gunsolus has a similar raise in the Star school. Miss Georgie Redfield will go to Phelps next year. Miss Eva Latham has accepted the Pleasant Valley school for the coming year. Miss Effie Cook will return to the Knop school with a substantial raise in salnry. Miss Olive Underhill has accepted the offer of the Deer Lake school board. Miss Sylvia Jensen plans on teaching the Walloon Lake school next yenr.

Bay school exhibits will be held afternoon of the 28th of April. All three schools of the township will be represented. The commencement exercises will be combined later with those of Hayes township.

The vacancy in the Gill school caused by the resignation of Mrs. Huston, has been filled by Mrs. Gladys Evarts.

The Tainter school had been continuing during the winter the good work which had been begun in the fnll. Desks were rearranged with backs to the door, two outside doors closed and one cut in center of front of building. Miss Latham says the building is much more easily heated. Work was begun on model cleak rooms. The reader will remember that during the fall vacation the woodshed was moved and built on the rear of school building. A new fountain may be seen in front of room.

Miss Edith Cary has many good things to tell. Her boys and girls of the lunch club will write the story for the reader to more thoroughly enjoy. They are completing the fund for a water fountain.

Schools visited during the past week number eighteen. Pleasant surprises were the school swing in the yard at Chandler No. 1, the joy in the work in East Chandler and Springvale, the splendid co-operation nf school board and teacher in Horton Bay, the numbers of good exhibits in the making in the line of daily work everywhere, the splendid courtesy and willingness to help so manifest in Advance school, the plans for tree planting nnd a clean yard in '23, and so many little things that are felt but not expressed, but which will tell their story in the future.

The teachers of Chandler township decided to go the rest of the county one better, and to get one mark above the plan submitted by the commissioner. They wrote to Gov. Ferris asking him to be their speaker for school day. In case they do not get him they hope to procure Supt. Pearson of Ohio, but they tell us that in all events they will have no second rate speaker, and they expect to raise the money and more than they need. Have also big plans under way to help finance the Educational Hall addition. Everything so far looks fine and we surely must say three cheers for the initiative of the teachers of Chandler.

TO AILING WOMEN

A Little Sound Advice Will Help Many a Sufferer in Charlevoix

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pas off in the secretions when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, backache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that has proven effective in thousands of such cases. Let a Charlevoix woman tell of her experience.

Mrs. Wesley Staley, 211 Mason St., says: "I can conscientiously recommend Doan's Kidney Pills as a fine kidney medicine. My back was lame and I felt tired and languid. My kidneys troubled me. Doan's Kidney Pills, procured from Hayes & Co.'s Drug Store, completely removed the trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Staley had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

NOW THE TRUE TEST OF PATRIOTISM

Under the stress and terror of war it didn't take a great deal of patriotism to buy bonds.

But your bonds helped crush German militarism, brought Victory and again we are at peace.

Now, when the enemy no longer threatens, you are put to the true test of patriotism.

Be the first to subscribe—show the peoples of the world that America can finish the job in the glorious manner in which her army and navy overcame every obstacle before them.

INTERESTING BITS OF INFORMATION CLIPPED FROM OUR EXCHANGES

John G. Greiner, for many years a resident of Pellston, died there Monday of last week of heart failure. He was 76 years, 4 months and 5 days old and had resided in America for twenty-four years. He was born in Germany. He was the father of Mrs. Jease Bechtel of Brutus, Mrs. Wheeler and George Greiner, of Pellston. Mr. Greiner had apparently been in good health and when he left the home of his daughter in Pellston to go to his own home he was feeling very well. He did not return at the hour expected and when the daughter went in search of him he was found dead.

Auto owners who carry passengers for hire should not lose sight of the fact this year they must pay a federal tax in addition to the regular chauffer's license. The federal tax is $10 a year on a car having a seating capacity up to seven. Five dollars of this amount is now due and payable to the collector of internal revenue. This pays until June 30 when another $5 is payable.

An echo of the defalcation and flight of Charles Mahan, county treasurer of Kalkaska county, is heard in a decision of Judge Fred Lamb, handed down Monday. The bondsmen for Mahan, who absconded with $3,900 of Kalkaska county's funds three years ago while treasurer, will have to pay his shortage, Judge Lamb rules. Those affected are William H. Bockes, M. N. Lehner and Sol Loeser. Mrs. Zora Cole, who was one of the original bondsmen, already has paid her $1,300, turning over her share immediately upon announcement of the shortage. None of the other bondsmen as yet has offered to pay. Nothing has ever been heard of Mahan, and it looks very much as if little effort has been put forth to find him. In these days of modern utilities this world is hardly large enough for one to hide himself in—not if he be diligently sought for.

Yes, they got me twice, replied Alfred Neuenschwander, former Petoskey boy, now residing at Pellston, when asked about his two gold wound stripes he wears on the right sleeve of his uniform. You see they fixed up a dose of their gas for me on January 27, 1918, and then on September 27 they sent a bullet through my left leg while I was sniping from the top of a sixty-foot tree in the Argonne forest. Major Wilson says I dropped out of that tree like a shot red squirrel—falling from limb to limb most of the way down. I guess the fall shook me up some for I did not know what had happened to me for some time. The major says he picked me up and carried me to the first aid station. I tried to get even for this kindness after the major had had one leg shot off some time later. We came home on the same ship. Private Neuenschwander was in the American army nearly five years and wears a gold star for being one of the first fifty thousand Americans overseas. He fought in the fighting in Alsace, on the St. Mihiel front, in the second battle of the Marne, at Soissons and Argonne forest. He says falling trees killed thousands of Americans in the Argonne and cost nearly as many lives as did German bullets. Besides his wound and service stripes he has a wound medal for his Verdun fighting and citation card for going over the top three times in one day, overseas service bar, second battle of the Marne bar and a bar for general service in addition to his expert rifleman medal. He served with the third regiment, first division until gassed and when sent back to the front was sent to the 126th infantry of the 32nd division and later to the 128th regiment, same division. Neuenschwander says he got his first German one night while out on a raiding party. The Hun was just coming out of a dugout when the American's bayonet got in its work. Neuenschwander says there was a lot of bayonet work in the villages the Americans had to clean out.—Petoskey Evening News.

Antrim county gave about 450 majority the first time for local option and 600 the second vote; it gave 700 majority for state prohibition and now with the women voting it went dry by 1,800.

East Jordan welcomes another of her wounded soldier heroes this week in the person of Sergeant John Ellis of Hdq. Co., 125th Inf. Sergeant Ellis enlisted with our Co. I boys while they were stationed at Fort Wayne and was with them in camp at Waco, Texas, prior to their going overseas. On August 4th he was wounded by a shrapnel in the left leg while in charge of a third platoon trench mortar on the Chateau-Thierry sector. He was removed to a hospital where the leg was amputated above the knee. He landed in New York in December and was later transforred to Fort Snellen, Minn., where he was fitted with an artificial limb and attended a soldiers school. He has received his final discharge and returned home to East Jordan Sunday, and will make his home with his brother, Lewis Ellis. He expects to attend a business college this fall.—East Jordan Herald.

The Klein department store at Alanson was hit by a fire early Tuesday evening of last week suffering considerable loss to the contents and basement. Starting near the furnace and spreading to the walls the flames spread over the basement in short order. The Alanson fire company filled the room with chemicals, and closed it air tight, which greatly checked the spread. The Petoskey fire truck responded to a call, and made a record run to Alanson, and assisted as needed.

It is estimated that the majority for the "good roads" amendment will reach a quarter of a million in the state. Every Michigan county voted favorably.

Ground has been broken and work is well under way for a large addition to the Petoskey Steam Laundry on East Mitchell street, by W. L. McManus, Jr., owner of the plant. The new improvement will be 36 x 60 feet in size and will house the offices and finishing department. The entire working arrangement will be changed so as to provide the greatest amount of room. Additional washers and flat work machines will be installed to take care of the heavy increase in flat work and family washings. The machinery will all be electrically driven when the improvement is completed and will be the last word in labor saving and efficiency. The plant will furnish employment for about forty-five persons when completed and will be the finest place of its kind in the north. Mr. McManus, Jr., reports that business is fully a hundred per cent ahead of a year ago.—Petoskey Evening News.

Several summer residents are making plans for the erection of handsome summer homes at Oden this spring, says the Petoskey Evening News. Walloon Lake will also see some new summer places. These with improvements being made about Petoskey, the new buildings, including the large boarding house at the plant of the Petoskey Portland Cement company, will provide employment for many carpenters and other tradesmen.

WHY NOT

Why shouldn't the Victory Liberty loan, the Loan of Thanksgiving, be subscribed and over-subscribed, just like its predecessors?

HAVE WE LESS PATRIOTISM THAN WE HAD IN 1917? The response to the Fifth will answer.

HAVE WE LESS MONEY? Our bank resources and our savings bank statements show that we have millions more.

HAVE WE LESS INCENTIVE? Government's request was the only spur we needed then. It is as urgent now. We loaned for war then. Now we are asked to loan to pay for lives saved, danger averted, for peace and prosperity.

HAVE WE LESS PROSPEROUS PROSPECTS? Then we faced a protracted war and many loans. Now we have only the Victorious Fifth—the last.

Surely, there are knockers and honest pessimists and disloyal propagandists and "I've done my share" egoists and a lot of other tough customers. There are some of them even in this community.

If there weren't any, it would be too easy and all you boosting, building optimists wouldn't be on the job. There wouldn't be any fun in it if it were easy. It's up to us to apply the acid test of peace-time patriotism. Those who don't stand it should be branded and remembered.

Never mind the grouches, the fault-finders, the slackers. You haven't time to worry about them. Just "sell" the good fellows in the community. Get them going strong. Start them radiating optimism and patriotism. Most everyone will become enthused and the job will be done with joy and credit to all.

And to those who should but won't just send around one of the lads who risked his life for us "over there" to ask the hesitating one: "Why not?" Maybe one of the mothers who gave her son to her country might ask—"Why not?"

Let our answer to all the indifferent and to the antagonists of government of the people, for the people and by the people be a splendid oversubscription to the Loan of Thankfulness on April 21st.

MEN ARE WANTED BY NAVY DEPARTMENT

Will Receive Three Months Course of Instruction and Good Pay

The Navy Department has issued instructions to the navy recruiting station, Detroit, Mich., to enlist as many men as possible who are qualified for the ratings of Fireman 3rd class for machinst mate and hospital apprentice.

Men who are between the ages of 18 and 35 and have one or two years experience working in machine shops are eligible for enlistment as firemen 3rd class for machinst mate. Upon enlistment they are transferred to the machinist school at Charleston, S. C., for a course of instruction upon the completion of which they are given the rating of machinist's mate 2c., with pay at the rate of $49.50 per month. While under instruction at the school the pay is $36.20 per month. This is an excellent opportunity for young men who have machine shop experience to complete learning their trade in the navy and receive good pay and board and lodging while learning. This is the first opportunity that has ever been given to recruits to go to a trade school nnd commence a trade immediately upon enlistment.

Men who are between the ages of 18 and 35 and have a grammar school education or have experience in drug store work are desired for enlistment in the rating of hospital apprentice for duty in the hospital corps of the navy. Men who enlist in this rating are sent to a school at the naval hospital, Great Lakes, Ill., and receive a three months course of instruction.

Enlistments are also open in all other ratings in the navy.

Applicants can obtain application blanks by writing to the officer in charge, Navy Recruiting Station, 161 Griswold St., Detroit, Mich. Substations are also located in the following cities: Grand Rapids, Kalamazoo, Saginaw, Flint and Jackson, and applicants may apply at those stations in person if they reside within a short distance from them.

Free government transportation will be furnished to applicants from their homes to Detroit, Mich., and if they fail to pass the physical examination free transportation will be furnished them from Detroit to their homes.

ROAD CONTRACT STILL IN THE AIR

Lowest Bid Received by State is $26,409.53 Per Mile

The contract for building the five and seven-tenths miles of concrete road extending north from Greensky Hill to the county line at Bay Shore on the Charlevoix-Petoskey highway has not so far been awarded as has been reported in neighboring newspapers.

Bids were received at Lansing from three construction companies, Bates & Rogers of Chicago being the lowest bidder, their price being $26,409.53 per mile.

The matter is still under advisement, the bids made being considered too high by the state highway department. The work was supposed to begin at once, leading to the completion of the job prior to October 1.

First M. E. Church

The Independent Order of Oddfellows and the order of Rebeccas will worship at the Methodist Episcopal church next Sundny morning at which time Rev. Henry Candler will deliver the annual memorial sermon. The above named orders will march to the church in a body where reserved seats will be set aside for their use. The public is cordially invited to this service. Sunday school and men's bible class will meet at 12 o'clock. A special effort is being made to increase the attendance upon all classes. The young men of the city not affiliated elsewhere are earnestly requested to become members of the young men's class. This class is taking up work of a practical nature which has a strong appeal to the young men of today. At 7:30 a stereopticon lecture will be given, admission free and all invited. The slides for this lecture have been specially prepared by the church and will be of great interest to all.

Entertains at Easter Dinner

Mr. and Mrs. L. J. McCann entertained eighteen of their friends last Friday at a six o'clock Easter dinner. Appropriate decorations were used. The evening hours were spent playing five hundred. Mrs. L. E. Smith and R. O. Cram were the best players of the evening and carried away the first prize. Mrs. Amos Webster and O. D. Hammond consoled themselves with the booby prize.

STR. MISSOURI SOON TO GO IN SERVICE

Will be Placed on Northern Run Last of May

In the early spring, beginning the middle of April each year, the new Michigan Transit Company plans to start navigation with the Kansas. As soon as business warrants, probably about the last week in May, the Missouri will be put on the run. Charlevoix will be on schedule from the start to finish and during the summer months will have three boats a week to and from Chicago. This will seem like old time for Charlevoix.

It certainly is worth considerable effort on the part of our citizens and business men to get this service restored to us. We did not know what we had until we lost such service entirely last year.

With a promise of better service than ever, we certainly are FOR IT.

OUTLOOK GOOD FOR BUSY SUMMER SEASON

Secretary Michigan Tourist and Resort Assn. Visits City

H. J. Gray, secretary of the Michigan Tourist and Resort Association, with offices at Grand Rapids, was in the city Thursday and Friday renewing acquaintances and lining up the city along publicity lines for the coming season.

Mr. Gray reports the outlook for a busy season for northern Michigan towns, especially Charlevoix, was never better and that the association was receiving a large number of inquiries from people who plan to come north during the season. He also outlined new plans of work and asked for suggestions from resort and business men regarding the work of the association.

Delightfully Surprised

Mr. and Mrs. Roy Ripley were delightfully surprised last Thursday when thirty-one of their relatives arrived in time to help them partake of the evening meal. The guests had prepared a potluck supper which was served at seven o'clock after which cards, music and a social time was enjoyed.

Cucumbers

Does it pay to grow them? We are often asked this question and we answer yes. If the crop is properly handled, with right fertilization and proper cultivation it surely pays. For proof we cite you to C. R. Munyon of Charlevoix, who in 1918 harvested $63 worth from one-half acre. Others done equally as well. For contracts see C. B. Sheldon. 16t2 Pd

GLORIOUS WORK SALVATION ARMY

ASK YOUR BOY WHAT HE THINKS OF THEM

Returning Heroes of All Battle Fronts Loud in Praises for the Brave Lassies

Ask your boy what he thinks of the Salvation Army?

He will tell you it is the "ace" of war relief organizations.

Ask him, too, where the Salvation Army lassies were when the fighting was thickest.

He will tell you they were in the front line trenches.

Each returning transport brings home thousands of cheery, boosting believers in the Salvation Army, who are being rapidly scattered among the homes of this country, and who in relating their experiences overseas enthusiastically declare:

"The Salvation Army is the best ever."

Boys who fought at Chateau-Thierry, boys who broke the Hindenburg line and crumbled the backbone of the German nation, boys who charged nt Ypres nnd Sommes tell how the Salvation Army stood by, and how Salvation Army lassies clad in trousers to prevent being turned back, charged with the men, saying:

"We will stay by you. If you must die, we will die with you."

Sergeunt Mujor Charles Walker of tbe Prineess Pat regiment, tenth infantry, Canadian forces, who spent three years and six months in German prison camps at Hanover and other places, declares the Salvation Army did the best work of any of the organizatlona overseas. The tale he tells is an interesting one.

"The Salvation Army lassies went 'over the top' with us during the second battle of Ypres," he said.

"When the Germans began attacking at 8 o'clock on the morning of April 22, 1915 the lassies who were with us kept on the job. And the men workers of the organization pitched in und served as stretcher bearers, when the casualties were so heavy that it was impossible for the army stretcher bearers to do the work.

"The second dny nf the battle, in the midst of terrifie machine gun fire several of the 'sisters' went over the top with us. We tried to keep them back, but they said:

"If you have to die, we will die with you."

"Again and again we tried to reason with them, but they said that they did not think it right to stand by us when things were calm and easy and then desert in our greatest trial.

"And so they stuck by, comforting and inspiring us to greater effort. For four hours when we came out of the trenches after thnt battle, two of the lassies at the Plug street canteen nt Ypres remained on duty feeding 1006 troops. My, but the coffee, doughnuts and pies they handed us were good."

How the Salvation Army lassies, clad in bloomers snd armed with revolvers for self preservation went over the top at Soissons with the men in the face of heavy machine gun fire, is u favorite story of Sergeant J. W. O'Brien of San Francisco.

"It was on July 29th, last," he said, "that the Salvation Army saved the lives of all the men in our company. The Germans were sending poisoned gas over without ceasing, and the food we had with us was spoiled the instant the gas struck it, so that we could not eat.

"We were very hungry, when, like a breath from Heaven, came the Salvation Army girls with coffee and doughnuts done up together in huge rubber bags, into which the gas could not penetrate. You bet we dug into that chow and found courage to keep on and drive the Boches back."

Everyone knows what the marines did at Chateau-Thierry.

Few people know whnt the Salvation Army did there.

One of the marines who fought at Chateau-Thierry when the tide of the war was turned tells what the Salvation Army did.

"I think the Salvation Army saved the lives of nt least a fifth of the A. E. F." he said. "At Chateau-Thierry they went 'over the top' with us. Inspired by their bravery and devotion we could not fail. The Salvntion Army never fails, neither could we."

The Snlvation Army will go before the people of the United States with an appeal for $13,000,000 Muy 19 to 26th.

USE GOOD SEED AND DISINFECTANT

Farmers Urged to Take Necessary Precaution Regarding Seed

As the time approaches for potato planting the grower should take the necessary steps to provide himself with good seed stock and to prepare for its disinfection before planting. High grade seed potatoes are those which are true to name, free from varietal mixture, of good type, and grown from healthy and productive plants. In the absence of such seed stock select medium large-sized tubers of good shape and as free from scab and black scurf as possible.

In disinfecting seed potatoes one has the choice of two disinfectants—formalin and corrosive sublimate, either of which are about equally effective against potato scab but are not on a par when black scurf (Rhizoctonia) is present on the surface of the tubers. For this disease the corrosive sublimate solution is much more effective.

The directions for the use of either disinfectant are as follows:

1. Formalin solution: Dilute one pint formalin with 30 gallons water.

2. Corrosive sublimate solution: Dissolve 4 ounces corrosive sublimate in two gallons hotewater; dilute to 30 gallons.

Soak uncut tubers in either solution for one and one-half hours; remove and spread out to dry.

In cutting the seed a further selection should be made by rejecting all tubers which, on the removal of a thin slice of flesh from the stem end show a brownish discoloration. If this examination is carefully made it will eliminate practically all blackleg, fusrium wilt and rhizoctonia infected tubers from the seed stock.

The use of well selected and properly treated seed should insure a much larger yield than that secured from onselected and untreated seed

FARMER'S SALARY $1210 ANNUALLY

Bumper War Crops Have Increasad Farmars' Annual Income

"The aversge American farmer" has jumped into the $1,210 a year salary elass.

Before he began coaxing up bumper war erops he could pay himself only $53.33 per month. Thus in 1913 he earned exactly $640.40, acoording to a study made by experts at the department of agriculture.

Four years of war have put into the pay envelope of the "uverage American farmer" nearly $5,000 in eash, in addition to this he has earned additional mnney at a rate sufficient to:

Slip into the savings bank each year a neat five per eent on his investment.

Put aside to maintain machinery, 20 per cent and five per eent building repairs.

Pay the highest wages and highest prices known.

Feed nnd clothe his family.

Meet his taxes; and

Probably pay off tbe mortgage, or at least cut a big hole in it.

As a result of all this the value of his property has climbed out of sight.

The average American farmer is n wholly imaginary figure who eame into existence in 1913 when the agriculture department experts made their study of his "paid in" and "paid out" items which told them he was earning only $640.40 a year instead of the $1,210 he now receives. Not every farmer in the United States, of course, did so well. Some of them have fewer than the average 138.1 aeres in their fnrms. Others, with thousands of acres cleared far more. The calculations showing the average farmer's prosperity are based on comparison of his income and expenditures of other years given by the agricultural department and the census bureau.

STEAMER MABLE ON EAST JORDAN RUN

To Resume Service This Season Between Charlevoix and East Jordan

William E. Knight and son, Ray, of East Jordan are now busily engaged in putting the steumer Mable in condition for the season's run between this city and East Jordan.

Ray Knight, master of the boat, states that the steamer Mable will make odd runs between now and the first of May. Commencing on that date two round trips will be made between East Jordan and Charlevoix, as in past years, the boat leaving Enst Jordan at 7:00 a. m. nnd 1:30 p. m. The only difference in the schedule being the afternoon leaving time which is one-half hour later than heretofore.

Paint is a necessity —not a luxury

After your house needs painting, every year you wait it will require more paint and more labor to put it in good condition. And every year you wait your house is worth less. Good-paint money is good paint insurance. And it's pretty good insurance on the value of your property, too.

DEVOE *The Guaranteed Lead and Zinc Paint*
Fewer Gallons—Wears Longer

If your house needs painting, come in and let us tell you what it will cost you to use Devoe.

We say "Devoe" because it's absolutely pure.

That's why Devoe takes fewer gallons, wears longer—and costs less by the job or by the year. And that's why we guarantee Devoe without reserve.

What About Your Auction Bills?

BIG SESSION OF LEGISLATURE

IMPORTANT MEASURES ARE TO BE PASSED

Good Roads, Budgat Systam, Dry Law, Stala Polica Forca, Compansation and Many Others

The house and senate have started on the last lap of the legislative grind and when the lawmakers depart from Lansing April 25, it cannot be truthfully charged that tbey will leave "unwept, unhonored and unsung."

While there has been a lot of petty quibbling and while at times some of the legislators have acted more like small boys than statesmen, the program of constructive legislation stands out more prominently this year than in any previous session since 1907.

Budget System an Achievement

Take the adoption of the budget program for instance. For years both political parties have declared in favor of the budget. Candidates for every political office from governor to coroner have made this a plank in their platform.

Coupled with the budget bill in importance is the measure providing a uniform system of accounting for state and county officers. For years this reform has been demanded and for years it has been denied the people. There was practically no opposition to this important bill in either branch of the legislature this year.

Compensation Law Amended

Important amendments have been made in the workingmen's compensation law. The maximum award has been increased from $10 to $14 per week and the minimum has been raised from $5 to $7 per week. Other important changes in the bill which will result in material benefit to the injured workmen are included. Without a dissenting vote in either house this bill was passed. It has been signed by the governor and will become effective ninety days from the close of the present session.

Through the passage of the Lewis bill which was signed by Gov. Sleeper and is now in force many of the defects in the prohibition laws have been cured. The Lewis bill is ultra-radical and is far reaching in its provisions. If properly enforced it is a powerful weapon in the hands of the state food and drug commissioner to drive the rum runner and professional bootlegger from the state.

State Constabulary

By an overwhelming majority in both houses the legislature placed the state constabulary on a permanent basis and rechristened the organization the Michigan state police. There was some opposition to this bill by radical labor leaders who entertain the mistaken idea that the state police force is a strike-breaking organization. The opposition to the state police generally speaking, came from practically the same sources as formerly opposed the Michigan National Guard. The status of the national guard is uncertain and with the enthusiasm of many home guard companies waning, the industrial centers will not be left entirely without protection in case of trouble from bolshevik sources. The liquor interests bitterly opposed the state police bill as the troopers have been of considerable assistance in the enforcement of the prohibition laws.

Road Bill Big Issue

The submission of Senator William M. Connelly's amendment to the constitution authorizing a state bond issue of $50,000,000 for the construction of good roads was one of the outstanding features of the present session. The tremendous majority in favor of the bond issue shows that the legislature struck a popular chord in this regard. The machinery for expending the money authorized by the amendment will be put in motion at a special session of the legislature to be called the latter part of May.

Another feature of the present session was the investigation of the Industrial Home for Girls at Adrian. While there was more or less noise accompanying this investigation something tangible came out of it. For the first time in its history the institution will have enough money to put into operation some modern ideas. Many of the old ideas of punishment which were cruel and heartless will be abandoned under the new management and the place will hereafter be more of a home for wayward girls and less of a penal institution.

Probes Prove Beneficial

The legislature also dangled before the eyes of the people the political skeletons in the closet at Jackson prison. There was a general suspicion that the place had been badly managed in recent years, but no one apparently knew things were in such a deplorable condition until the legislative committee lifted the lid. Out of this investigation much good should come, as the legislative committee pointed out many defects which the new warden and a competent board of control will remedy.

The central purchasing board bill which, it is claimed, will save the state several hundred thousand dollars each year in the purchase of supplies, has passed the house by unanimous vote and will encounter no opposition in the senate. This is a long step in the application of private business methods to the affairs of the state.

Health Campaign O. K.'d

Without a dissenting vote the house appropriated $300,000 to enable the state board of health to continue its campaign of education and its crusade against venereal diseases during the next two years. It is believed that this bill will encounter no opposition in the upper house.

The house gave heed to Gov. Sleeper's message urging an appropriation for the purchase of land along the great lakes and some of the inland waterways to be used as state parks and put through a bill calling for the appointment of a special commission to administer the expenditure of $200,000 in the next two years. The senate has already agreed to the passage of this bill and it will be put through the upper house this week.

ONCE MORE, AMERICA !

Once more, once more, America !
This is our glory duy !
And if from now the price is gold,
We'll smile, and pay and pay !
There's not a bargain on the books
We'll stop to question when
Our homes can pay for Victory
With coin instead of men.

Great plants that never turned a shaft,
Great wings that never flew,
Are better deals to settle now
That France and England knew..
The guns we never fired we'll charge
To profit, not to loss,
And count them all less dearly bought
Than one small wooden cross.

Thank God for this America !
For ship und shell and truck;
Thank God, you million mothers, for
The blow we never struck '
Weep for our little mounds in France
But laugh with the Spring again—
We'd rather pay for victory
With money than with men

Increased Tax for Launches

Information sent out by the internal revenue service states that the federal tax on small launches has been increased to ten dollars effective April 1st. This means that those who paid their five dollars license last year will be required to remit $1.25, which sum will pay up to July 1st, when the tax for the year 1919-20 will become due.

WILL BE TRUE TO ITS SPLENDID PAST RECORD

Local M. E. Church to Meet Every Requirement Asked of It

A meeting of ministers and laymen was held at the Central Methodist Episcopal church, Traverse City last Wednesday afternoon, April 16, Oluf Nordrum represented the local Charlevoix church. The purpose of the meeting was to discuss the "centenary" movement and particularly the leadership in connection with the same. The various speakers emphasized the need of America taking the lead in the war re-construction program, the world is looking to America to undertake this great task.

The nations of Europe are in no condition to undertake this work being destitute after the long devastating war.

The Centenary is intended to meet the unparalleled opportunity confronting the Christian forces of America. One of its purposes is to Americanize the foreigner within our own borders. To this end schools and churches are to be erected in the foreign quarters of our large cities to help those who have come to us from across the sea to become Christian Americans.

Mr. Nordrum reports great enthusiasm and optimism among the leaders of the church regarding the outcome of this the greatest program ever attempted by the Christian forces of the world. Bishop Henderson is confident that the Methodist church in Charlevoix will be true to its splendid past record and will meet every requirement asked by the church.

Just Before You Roam

When you're roaming o'er the country looking for grass where it's green,

Following up the golden vision, fortunes that you haven't seen,

Look about your city careful when you're starting to depart,

See the beauty all about you and you'll have a change of heart.

"Charlevoix the Beautiful" truly spoken, by the many who have roamed,

That nowhere for nature's beauty, no, not even ancient Rome,

Can they beat our little city with it's sunsets in the west,

Travelers from from afar have said, "What beauty, our haven, we'll rest."

Let us assist your rest by supplying you with the best service, good goods from the largest and most complete stock in Northern Michigan.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're aot here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. what a glorious condition to attala, and yet, how very easy it is if one will only adopt the morning laside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a eold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the shlees of the system each morning and flushing out the whole of the interaal poisonous stagnaut matter.

Everyune, whether ailing, sick or well, should, each morulng, beforn breakfast, drink a glass of real hot water with a teaspoonful of limestnne phosphate in it to wash frou the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus eleansiag, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate ou an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you aru enjoylag your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and gettlug ready for a thorough flushing of all the inside organs.

The millions of people whn are bothered with constipation, billoun spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestnne phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside bathing before breakfast.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally that Nobody can tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

NOTHING TO SAY AFTER SIGNING UP

Walter Mitchell Says Army Life is Different Than First Thought

Toul, France,
March 25, 1919.

"Dear Sister—Just received your letter dated March 3rd, and was glad to hear frum you again, as it was the first letter I have had from you in over two months.

"Have no idea when we will be home for we may be transferred out of the signal corps entirely and if we do it will be several months before we see the states.

"It is all very nice for anyone to tell what work a soldier has to do in the different branches of the service before you join the army, but after you sign up you have nothing to say at all. They transfer you around wherever they want to regardless of the kind of work you enlisted to do.

"In my last letter I told you that I had been up to Verdun and Dead Man's Hill. Since then I have been up to Metz and on a week's pass to Paris.

"Paris is a wonderful city and very pretty. While there I saw the walls of a building that was built in the year 292. Was in Notre Dame cathedral. They have the crown of thurns there that was placed upon Christ when he was nailed to the cross. Saw the church where 200 people were killed from a shell fired by the German long range gun. The hole, which is eight feet square, is still in the wall where the shell went through. Will have to wait until I get home to tell all the interesting things I saw while there.

"I have asked for a furlough to Scotland and expect to go the latter part of April, and will look up some of the folks while there. Guess I have told you all the news for this time." Pvt. Walter Mitchell, Co. B., 115th Field Signal Bn., A. E. F. France.

GOVERNOR ISSUES ARBOR PROCLAMATION

Urges Cities, Villages and Townships to Plant Victory Elm

The observance of Arbor Day dates back more than half a century, und from the beginning it has had a civic motive and a patriotic association. This year, more than ever before, we huve reason to give the day a patriotic setting. The great world war is over. Our soldiers and sailors and marines most nobly bore their part in the struggle. Many of them made the supreme sacrifice. Costly monuments will arise to commemorate their deeds, but meanwhile we can perpetuate their memories in familiar places. It has been happily suggested that we should adorn our yards, our waysides and our parks with young trees, each named for some one of Michigan's fallen sons.

It has been further suggested that in every city and village and township a Victory Elm should be planted to commemorate the great triumph of Freedom and Democracy.

It is fitting thut I should at this time call attention to the fact that Act number Fifty-nine of the Public Acts of 1919 makes it unlawful for any one to keep upon his premises mahonia bushes, or any other variety of barberry bush which harbors and spreads the black rust of wheat and other grains. I, therefore, recommend that these noxious shrubs be dug up and destroyed and their places given to harmless ornamental shrubs.

Therefore, I, Albert E. Sleeper, Governor of the State of Michigan, do herchy designate and set aside, Friday, Mny Second, 1919, as Arbor Day, and I request that trees be planted, as indicated nbove, in memory of our heroic dead.

I particularly request too that in all Michigan schools appropriate Arbor Day exercises be held, fnllowing, so far as may be practicable, the community program outlined by Mrs. Dorn H. Stockmsn in Moderator-Topics nf April 10, 1919.

Given under my hand and the great seal of the State this seventeenth day of April, in the year of our Lord one thousand nine hundred and nineteen, and of the commonwealth the eighty-third.

ALBERT E. SLEEPER,
Governor.

WRIGHT DISTRICT

Beautiful spring weather since our snowstorm of Wednesday afternoon and night.

Mrs. Joseph McElroy and her two sons spent Easter at the Eugene Best home.

Curtis Feltenbarger is doing some plowing on the Leonard Herington farm at present.

Perhaps you will think your reporter has been sleeping but she hasn't, except nights.

Mrs. Henry Potter called at the Cooper home Friday evening. She took supper at the Herington home Sunday also.

Mrs. H. H. Herington has so far recovered from her attack of rheumatism that she is able to walk about the house with the aid of crutches, hut is still unable to go out of doors.

The arrival of Mrs. B. F. Wrisley, and old resident of this neighborhood and the mother of Archie Wrisley, was quite a surprise. Her granddaughter, Eva, and Mrs. Curtis Feltenbarger called on her Saturday.

The death of Joseph McElroy was a shock to all. The widow and children have full sympathy of the entire community. Nearly all in this neighborhood were present at the funeral which took place Saturday afternoon at Ellsworth.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat less meat if you feel Backachy or have bladder trouble—Take glass of Salts

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

COMMUNITY LOSE RESPECTED CITIZEN

Joseph S. McElroy Will be Missed by Host of Friends

With the death last week of Joseph S. McElroy, Banks township lost one of its best known and most highly respected eitizens, one who by his ideals of good citizenship, his upright business denlings and his kindly intereats in those oppressed or in trouble showed himself as one we could be proud to call neighbor and friend.

He was born in Port Huron, Michigan on July 5, 1857, and died nt his home, one and three-quarters miles north of Ellsworth, April 17, 1919. He came to Banks township in 1871 and has lived here ever since. When a young man he sailed the great lakes several years and has always been a hard working man, in fact, one of Antrim county's pioneers, insofar as clearing and making habitable the country could be done.

"Joe" was a familiar figure at all township, political or business gatherings and for the last twenty-five years has been chairman of the township committee.

He was married in 1902 to Miss Grace Harroun and she and his two sons, Walter, aged 15, and Bruce, aged 13 years, are left to mourn the loss of a husband and father. There are no other near relatives except one brother, also n resident of this township.

The funernl services were held Saturdny, April 19, from the M. E. church at Ellsworth. Rev. E. C. Vane officiating and the remains now rest in Boss cemetery.

EDITOR FLAYED FOR UTTERANCES

JUDGE HARRIS TAKES EXCEPTION TO ARTICLE IN TORCH

Condemns Bolsheviki Methods Used by "Reoter" in Regards to County Fair

If the editor of the Central Lake Torch wished, when he printed the artlcle in his paper a few weeks ago in regard to the Antrim county fair, to get a ralse from someonc, he evidentally succeeded, to judge from the following letter written by Judge of Probate, E. R. Harris, who is also president of the Antrim county agricultural society. This letter we underatand has the approval of the other county fair officers and of the board of supervisors:

A Protest

I have been asked by several of the officials of the Antrim County Agricultural Society to publicly protest and resent the attitude and utterances of the present publisher of the good old time Central Lake Torch. Our county fair is an old and well established institution, and standing at this time way up near the front linc in the work of building up our entire county along agricultural and horticultural lines. It would give me much pleasure to name in detail all the pioneer workers in the good and great cause of developing our home county, but space will not permit.

However, let me say that the people of Central Lake and its township have always been loyal workers for our county fair. None moreso than the present supervisor just re-elected from Central Lake township, Grant Mudge and wife, the Sage's, the Bower's, the Williams' and a host of others are and always have been in the front rank in this work. For the past ten years I have been the "figure head," in other words the president of this society, but I have been in close enough touch with the actual work of this society to say it is a good work, a valuable means in the development work of our county, which is always first alphabetically, horticulturally and will be first patriotically regardless of the vicious, malicious attacks of the little, small publisher of the good old Torch.

We rend with growing disgust his weekly attacks of everything outside Central Lake village. In our humble view of this person he has but one idea and that a mighty poor and small one. And this is it. In order to build up Central Lake he has to pull completely down every other good town in the county. His one idea is: that in order to show up Central Lake's good citizens he must denounce and falsify nll the rest of the citizenship of the county. Again, his one idea in order to have a street fair nt Central Lake this fall is by not having a county fnir this year.

It was very disgusting to say the lenst to read in the Torch the pnst week or so the deliberate lies as to the matter that was to be brought before the voters at the noon hour on election day. The publisher of the Torch said the matter was to determine whether a "Bellaire street fair" was to be held this fall or not. Or as to whether a fair was to be held nt Bellaire this fall.

The matter of holding a county fair this full was fully settled at the annunl meeting of the society last January, and also by the board of supervisors at their January session, when the board cared for the necessary means of putting this fair on. The mntter to be acted on at the noon hour meeting on election day was simply to get an expression as to whether an admission fee should be charged at the gates, or whether this expense should be raised by a tax on all the property of our county.

Permit me to say the present officers of the fair have worked for yenrs to get away from the mistaken idea that this is a "Bellaire fair." If our old friend, editor and owner of the Torch, George Thurston, could know the depths the editorial chair has fallen nt the present time in the Torch office in permitting just a "renter," not even a taxpayer of our county, to defame and try to tear down the good institutions of our county, George would come back to this war-torn earth and denounce in appropriate terms this present "renter" of the Torch in words that would make this article of mine look like thirty cents.

Let me say, in closing: The work of bulding up a new county like ours is hard work—much labor without pay. Many who will read these lines were the pioneers in this work, clearing the land where the present good buildings are located on our fair grounds, even furnishing the money and lumber for some of the buildings free of cost, working in season and out for this great advertising medium of our county, and they will, I feel sure, join in proper protest against tearing down this county institution that is on a par with any in this part of the state. Let me further say for generni information, that our county owns the entire fair grounds, buildings nnd all. I have for yenrs favored, and have been before the board of supervisors several times trying to get them to take over the entire management and control of the fair, hiring a secretary or manager just as they now do with the county farm. The lands of both adjoin and they could both be worked together and serve our county in a good, safe, businesslike way. I feel that this desired change will soon take place, I anticipate the biggest and best county fair this fall that we have ever had.

Yours for the RIGHT in the right way.

E. R. HARRIS,
President Antrim Co. Agricultural Society.

GOOD BOAT SERVICE FOR BOYNE CITY

Michigan Transit Company Maka Proposition to Citizens

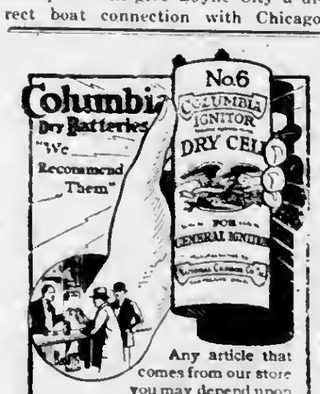
From the article printed below, taken from the Boyne Citizen, it looks as if that city would spring into the limelight by having direct boat service from Chicago via the Michigan Transit Co. We take from the article that it is "up to the people" of that town to come across with their cash for stock, and then they will have the service they have long been after. The article referred to is as follows:

"Following the action of the members council which was held last Friday night, the board of directors of the C. of C. together with a representation of business men, met with Mr. Carter, a director of the Michigan Transit Company last night.

"Mr. Carter carefully explained the proposition his company is submitting to this city and after due consideration it was decided to indorse it and give Mr. Carter all the assistance in their power to place on sale his stock with the people of the community.

"The successful launching of this enterprise will give Boyne City a direct boat connection with Chicago and all western Michigan ports. It will also thoroughly advertise our resort advantages.

"The steamers Kansas and Missouri of the old Northern Michigan Transportation Company, will make regular weekly or semi-weekly visits to our city during the senson of navigation. Arrangements are under way for the use of the Shaw docks and warehouse. It is expected the Kansas will pay us a first visit some time next week.



Any article that comes from our store you may depend upon absolutely This is "The Store of the Unwritten Guarantee"—*the fact* that you buy an article here *is* in itself *a guarantee* that that article is everything we represent it to be

BENEFIT DANCE AT D'OOGE BARN

Proceeds to ba Donated Towards New Educational Hall

There will be a benefit dance at the D'Ooge barn, on the Boyne City road in Hayes township, the evening of Wednesday, May 14, the proceeds of which are to be given towards helping in the expense of erecting a new educational building on the county fair grounds.

It will be recalled by many that during the fair last season the educational building was too small to allow all schools to exhibit their work, many not taking part at all on account of the lack of room.

There is a movement now to erect a new building, of suitable size, and a part of the expense thus incurred will have to be raised through the medium of socials, school entertainments, dances, etc. The dance on the above date will be the first of many events of this kind, and Mr. Bird, manager of the farm, has donated the use of the barn for this purpose.

Everyone has always had a good time at the dances held there, and the coming one should be well patronized.

NORMAL NOTES

Miss Allen, state traveling librarian will talk to the normal class about rural school libraries Wednesday, Thursday and Friday of this week.

WINDOW DISPLAY CAUSES COMMENT

Blanchard Hardware Co. to be Commended on Enterprise

One of the best displays we have ever seen is in the show window of the Blanchard Hardware Co. and we desire to admit right now if it wns the intent of the originators of the stunt to create a desire to "go fishin'" they have accomplished their object.

The display represents a brook (trout stream as we see it) running through a valley. The stream starts from the hills and continues its course until it reaches a pond or pool. From there are represented as near to nature as possible, the falls or rapids, until it runs into another smaller pool. From there it disappears as if lost in a cedar swamp, as near like many of the beautiful spring water streams that abound our city.

The background, which represents the hills, ravines, etc., on a minature plan, is composed of small cedar trees, real moss and running vines, trailing arbutus and plants of wintergreen. At one end, on the hill, is the little log cabin and leading from it a gravel road to the opposite end of the scene represented.

It's a work of art and as close to nature as the human hand could make it. It simply creates a desire to grab the old fishing pole and hike for the trout stream. The originator of the stunt, Mr. Frank Novotney, deserves great credit for the enterprise he has shown in producing the display, as also do the Hardware Co. for their interest in the matter.

FIRST BASEBALL GAME NEXT FRIDAY

H. S. Team to Meet Central Lake on Home Grounds

The first baseball game will be staged Friday afternoon on our home grounds, with Central Lake as our opponents. Neither team has had any previous games, so there is no "dope" to work on, but coach Loomis' boys are sure to show us something worth watching. Baseball games are rather rare in this section of the state, but seems to be growing in popularity now and it is expected that this year we will lay the foundation for a future team of state, high school champions. The personnel of the team is undecided as yet.

The tennis court is marked out and ready for use. The high school tournament will start next week, including men's single and doubles, ladies' singles and doubles and mixed doubles. It is expected that a faculty team will challenge the winners. We also expect to have some tournaments with other schools, especially Petoskey and Traverse City.

There may be a revival of the Northern Michigan Track Meet at Petoskey this year, but with tennis and baseball it hardly seems practicable, or even possible, for us to partake, although later events may cause a change in plans. The treasury finds it almost impossible to stand the drain already necessary, without including a third.

Our tennis court is now decorated with the names of the winners of the two complete tournaments previously held, Ed. Krulik in '15 and Joe Sanford in '16. Will Bellinger did the engraving for the Athletic association and has our appreciation.

ATHLETIC EXHIBIT FRIDAY EVENING

High School Boys Will Entertain People of City

On Friday night next there will be an athletic exhibit in the roller rink on Belvedere Avenue.

Coach Loomis who has been putting the boys through some strenuous work for the past few months, will have the young men on exhibition.

The exhibition will consist of drills, calisthenics, basket ball and other games. It will be an excellent opportunity for the people and the students to see the work that has been accomplished.

There will be no charge. It is expected that you will have to come early if you secure a good seat.

ANTRIM CITY

Mr. Clazier spent the week end with his daughter, Mrs. F. Mason.

Some of the men of our neighborhood attended the auctions the last week.

Mrs. and Miss Knight and Mr. Evans called at the J. J. Smith home Sunday.

Mr. and Mrs. M. McGuire and family visited with her sister, Mrs. L. McDowell Sunday.

Can you beat it! J. J. Smith said his incubator "freshened" with one hundred little chicks Saturday.

C. Robertson and family ate Easter dinner at the A. Brant home. Mr. and Mrs Stoel and Mr. and Mrs. McDowell called in the afternoon.
